Swing Sisters

Back in 1909, not far from Jackson, Mississippi, Dr. Laurence Clifton Jones opened a special place for orphans named Piney Woods Country Life School. Dr. Jones loved music and wanted the children to love it too. In 1939 he started a school band that was just for girls, and he called it the Sweethearts. The music the girls played was called swing. It had rhythms and melodies that got people up on their feet to dance. And like all good music, it told stories about how it feels to be alive. After the girls left Piney Woods, the band stayed together and performed around the world. With their enormous talent and joyful music, the Sweethearts chipped away at racist and sexist barriers wherever they went.

American R & B

A singer calls out to the crowd. An electric bass thumps out a beat. Horns blare and strings swirl. These are the sounds of R & B. Rhythm and blues music evolved from all sorts of sounds: swinging jazz, gritty blues, and African American spiritual songs. The music's smooth mix of styles made it unique, and its passionate performers made it a sensation. Ever since Ray Charles hit the charts in the 1950s, R & B fans have held it down on dance floors. And R & B singers have belted out messages of love and calls for social change.

Suffrage Sisters

Elizabeth Cady Stanton spoke before an eager crowd in 1948. Her demand was equal rights for women--including suffrage, the right to vote. It took more than 70 years from that moment before all American women could vote.

Hey, Charleston!

What happened when a former slave took beat-up old instruments and gave them to a bunch of orphans? Thousands of futures got a little brighter and a great American art form was born. In 1891, Reverend Daniel Joseph Jenkins opened his orphanage in Charleston, South Carolina. He soon had hundreds of children and needed a way to support them. Jenkins asked townspeople to donate old band instruments—some of which had last played in the hands of Confederate soldiers in the Civil War. He found teachers to show the kids how to play. Soon the orphanage had a band. And what a band it was. The Jenkins Orphanage Band caused a sensation on the streets of Charleston. People called the band's style of music "rag"—a rhythm inspired by the African American people who lived on the South Carolina and Georgia coast. The children performed as far away as Paris and London, and they earned enough money to support the orphanage that still exists today. They also helped launch the music we now know as jazz. Hey, Charleston! is the story of the kind man who gave America "some rag" and so much more.

Playing to Win

A new and updated edition of the picture book about the woman called "The Jackie Robinson of tennis." Although stars like Serena Williams cite Althea Gibson as an inspiration, Gibson's story is not well-known to many young people today. Growing up tough and rebellious in Harlem, Althea took that fighting attitude and used it to go after her goals of being a tennis champion, and a time when tennis was a game played mostly by wealthy white people in country clubs that excluded African Americans. In 1956, she became the first Black American to win a major championship when she won at The French Open. When she won the celebrated Wimbledon tournament the following year, Gibson shook hands with the Queen of England. Not bad for a kid from the streets of Harlem. With determination and undeniable skill, Althea Gibson became a barrier-breaking, record-setting, and world-famous sportswoman. This new and updated edition of this inspirational biography contains recent information on the impact of Gibson's legacy.

Soundies and the Changing Image of Black Americans on Screen

In the 1940s, folks at bars and restaurants would gather around a Panoram movie machine to watch three-minute films called Soundies, precursors to today's music videos. This history was all but forgotten until the digital era brought Soundies to phones and computer screens—including a YouTube clip starring a 102-year-old Harlem dancer watching her younger self perform in Soundies. In *Soundies and the Changing Image of Black Americans on Screen: One Dime at a Time*, Susan Delson takes a deeper look at these fascinating films by focusing on the role of Black performers in this little-known genre. She highlights the women performers, like Dorothy Dandridge, who helped shape Soundies, while offering an intimate look at icons of the age, such as Duke Ellington and Nat King Cole. Using previously unknown archival materials—including letters, corporate memos, and courtroom testimony—to trace the precarious path of Soundies, Delson presents an incisive pop-culture snapshot of race relations during and just after World War II. Perfect for readers interested in film, American history, the World War II era, and Black entertainment history, *Soundies and the Changing Image of Black Americans on Screen* and its companion video website (susandelson.com) bring the important contributions of these Black artists into the spotlight once again.

Sweethearts of Rhythm

A collection of poems and paintings paying tribute to the 1940's all-female jazz band. The International Sweethearts of Rhythm originated in a boarding school in Mississippi and eventually found their way to the most famous ballrooms in the country, offering solace during the hard years of the war. Includes chronology of the band's history.

Ed Sheeran

Ed Sheeran is an unlikely music superstar. With his bright red hair and casual fashion sense, he doesn't look like many other popular musicians who top the charts today. He also doesn't sound like everybody else. Ed's unique form of rap music played on his acoustic guitar is just one of the things that set this British musician apart from the rest of the crowd. By embracing all the things that make him different, Ed has learned that quirks can make a talented performer stand out in the competitive world of pop music.

The Saxophone

In the first fully comprehensive study of one of the world's most iconic musical instruments, Stephen Cottrell examines the saxophone's various social, historical, and cultural trajectories, and illustrates how and why this instrument, with its idiosyncratic shape and sound, became important for so many different music-makers around the world. After considering what led inventor Adolphe Sax to develop this new musical wind instrument, Cottrell explores changes in saxophone design since the 1840s before examining the instrument's role in a variety of contexts: in the military bands that contributed so much to the saxophone's global dissemination during the nineteenth century; as part of the rapid

expansion of American popular music around the turn of the twentieth century; in classical and contemporary art music; in world and popular music; and, of course, in jazz, a musical style with which the saxophone has become closely identified.

Hidden in History: The Untold Story of Female Artists, Musicians, and Writers

Of the few historical shortlists women make as influencers in the arts; the same few names are recognized; making the catalogue of powerful and gifted females feel like an small and exclusive club. The truth is; however; that far more women than we know can be credited with contributions to the industries in which they honed their crafts. In 1940; when the world was at war and the Civil Rights Movement had yet to turn the page of history; Hattie McDaniel became the first black woman to win an Academy Award. She and Anna May Wong fought hard to pave the way for actresses of color and fight against racial stereotypes. Maria Tallchief was the first; and one of the only; Native American prima ballerinas to push past the stage wings toward the limelight. More than just performers; these women were people as well. In *Hidden in History: The Untold Stories of Female Artists; Musicians; and Writers*; the lives of many of these artists are explored; from Edmonia Lewis' wrongful expulsion from higher learning to the boundary-breaking talents of the International Sweethearts of Rhythm and their untraditional start as a school band. This book is an open door to the lives of 10 female artists; wordsmiths and performers whose work has often been overlooked in the dusty pages of an often male-dictated narration.

Introduction

L'Hôtel de l'Éternel

Comment l'homme peut-il rencontrer Dieu ?

Le lieu que Dieu a choisi était des plus convenables

Il n'y a rien en aucun lieu qui justifie que Dieu rencontre les hommes

Il s'agissait certainement d'un lieu très simple sans ornement non ecclésiastique

Tout comme il l'avait déjà choisi de se révéler à Moïse dans un buisson, sa présence avait été glorieuse

La joie de toute la terre appartient d'abord à l'une des semences maudites de Canaan

Il y a une chose qui les bon de mentionner à propos de l'aire d'Ornon

Je pense d'abord que son extrême simplicité fait partie de l'essence même du modèle

Celui qui a senti les gouttes brûlantes du désespoir lui brûler la gorge la dégager pour l'énonciation de la doctrine de la grâce gratuite

C'est là qui s'incline et c'est là que le Dieu de grâce rencontre

C'est moi qui ai péché et qui est fait le mal

Cette confession comportait également une admission de la justice du châtement

Viens avec pénitence et soumission et le Dieu juste sera pour toi un sauveur

Le Seigneur a accepté le grand sacrifice pour le péché

L'air d'Ornan est plus glorieux que jamais

L'air d'Ornan est un lieu de manifestation divine

Lorsque vous venez à Dieu, veuillez toujours à vous approcher du sacrifice

Ne vous reposez pas avant d'avoir obtenu une solidation de votre paix avec Dieu

Si vous vous en rendez compte, partez et commencez à construire un temple

Psaumes 22:3

You Ain't Seen Nothin' Yet

Examines the natures of God and love and provides guidance on how to live a spiritual life and achieve happiness

Just Around the Corner

Limits and Renewals, Kipling's last collection of short stories, was written shortly after the death of his only son. Dark and penetrating in tone, these are brilliant portraits of a soul in torment with some welcome relief coming in the tales of 'Aunt Ellen' and 'The Miracle of Saint Jubanus'.

The British Library General Catalogue of Printed Books, 1986 to 1987

Discourses of a Hindu religious leader of the Navnath sampradaya.

American Book Publishing Record

Spanning 25 years of serious writing on hip-hop by noted scholars and mainstream journalists, this comprehensive anthology includes observations and critiques on groundbreaking hip-hop recordings.

Zur Erleuchtung unterwegs

"Throughout his various stages, Dylan's work reveals an affinity with the Zen worldview, where enlightenment can be attained through self-contemplation and intuition rather than through faith and

devotion. Much has been made of Dylan's Christian periods, but never before has a book engaged Dylan's deep and rich oeuvre through a Buddhist lens."--Back cover.

Won't You Join the Dance?

The feeling that it is five minutes to midnight is known to many by now, and is often referred to as the "Doomsday Clock." As the many crises faced by humanity and planet Earth gather and tumble toward an emergency, some have even reduced the time left to two and a half minutes. It is no wonder that we feel increasingly helpless and at a loss what to do. Osho calls Zen not a teaching but an alarm to wake us up, because as individuals we are all deeply asleep, and this sleep has to be shattered. "For centuries, you have been asleep. Sleep has become your nature. You have forgotten what awareness is, what to be awake means." He wants us to wake up...before it is too late. Zen, more than any other religious or spiritual tradition, is relevant to such times as these, when none of our old approaches to solving problems will do. Immediate, urgent, and direct, Zen is not interested in answers or in questions, not interested in teaching at all, because it is not a philosophy. As Osho begins here, by quoting the great Zen master, Dharma: "All the teachings of the sages, of the saints, of the masters, have expounded no more than this: they are commentaries on your sudden cry, 'Ah, This!'" In this series of talks, Osho unfolds a selection of classic Zen stories and responds to questions. Along the way, we learn how the tools of Zen can be used to embrace uncertainty, to be at ease with not-knowing, to act decisively and with clarity and awareness. To "get woke," in other words, so that we can use each moment between now and midnight for transformation.

The Shadow of the Bamboo

Hui-neng (638–713) is perhaps the most beloved and respected figure in Zen Buddhism. An illiterate woodcutter who attained enlightenment in a flash, he became the Sixth Patriarch of Chinese Zen, and is regarded as the founder of the "Sudden Enlightenment" school. He is the supreme exemplar of the fact that neither education nor social background has any bearing on the attainment of enlightenment. This collection of his talks, also known as the Platform or Altar Sutra, is the only Zen record of its kind to be generally honored with the appellation sutra, or scripture. The Sutra of Hui-neng is here accompanied by Hui-neng's verse-by-verse commentary on the Diamond Sutra—in its very first published English translation ever.

The Sacred Yes

"Ocean of Sound" begins in 1889 at the Paris Exposition when Debussy first heard Javanese music performed. A culture absorbed in perfume, light and ambient sound developed in response to the intangibility of 20th century communications. David Toop traces the evolution of this culture, through Erik Satie to the Velvet Underground; Miles Davis to Jimi Hendrix. David Toop, who lives in London, is a writer, musician and recording artist. His other books are "Rap Attack 3" and "Exotica,"

Mules and Men

"The Judgment House" authored by Gilbert Parker is a captivating novel that explores themes of love, ambition, and moral dilemmas. Set against a backdrop of historical events, Parker's narrative combines gripping storytelling with nuanced character development, providing readers with an absorbing and enlightening reading experience.

Limits and Renewals

A step-by-step guide for women to transforming your love life practically overnight.

I Am that

This collection of articles by Srila Prabhupada from Back to Godhead magazine covers knowledge of the soul and the practice of bhakti-yoga. These interviews, lectures, and essays cover topics such as the goal of human life, seeking a true spiritual teacher, reincarnation, super-consciousness, Krishna and Christ, and spiritual solutions to today's social and economic problems.

That's the Joint!

"You are both and neither, and that is transcendence." The ultimate destination on a spiritual journey is enlightenment. But there's a reason why countless people embark on this journey yet only a handful reach the destination. Enlightenment is as much about the journey as it is about achieving the goal at the end. It is understanding and accepting different truths—some easy and some nearly impossible to handle. It is about singular focus and accepting the bigger picture at the same time. In other words, it is anything but straightforward. However, if there's anyone who can explain a difficult concept in the most straightforward manner, it is Osho and in *What is Enlightenment?*, he does exactly that. Read on.

Bargainin' for Salvation

A Spiritual Journey - A Love Story - A Search for Truth An extraordinary spiritual encounter has left psychotherapist Tessa Lynne in a quandary. Her intuition tells her to believe--her logical mind wants proof. A series of surreal events unfolds, forcing her to question her judgment and to examine her beliefs. Each time she thinks she knows the truth of her experience, she is tested again. Tessa is told of our life purpose, about life after death, and of a long-lost destiny, named Michael. Then she learns that he is dying. She reaches out to him spiritually and he sees her in a dream. They have visions of past lives, are surrounded by The Light. Is it possible that Michael might survive? Could their destinies be restored? Who holds that power? Events predicted to Tessa in 1995 have since come to pass. What she was told then resonates more strongly now, more than twenty years later. Discover why she was approached, learn more about the Invisible Choir, and use her story to reflect on the course of your own life journey.

Ah This!

A sharp and funny addition to Daniel Woodrell's collection of "country noir" novels, featuring anti-hero Sammy Barlach and Jamalee Merridew, her hair tomato red with rage and ambition. In the Ozarks, what you are is where you are born. If you're born in Venus Holler, you're not much. For Jamalee Merridew, Venus Holler just won't cut it. Jamalee sees her brother Jason, blessed with drop-dead gorgeous looks and the local object of female obsession, as her ticket out of town. But Jason may just be gay, and in the hills and hollows of the Ozarks that is the most dangerous and courageous thing a man could be. Enter Sammy Barlach, a loser ex-con passing through a tired nowhere on the way to a fresher nowhere. Jamalee thinks Sammy is just the kind of muscle she and Jason need.

The Sutra of Hui-neng, Grand Master of Zen

This book focuses on the rise of sharing and collaboration practices among peers in Spanish digital cultures and social movements in the wake of Spain's financial meltdown of 2008.

The Last Testament

This early work by Henry James was originally published in 1909 and we are now republishing it with a brand new introductory biography. Henry James was born in New York City in 1843. One of thirteen children, James had an unorthodox early education, switching between schools, private tutors and private reading.. James published his first story, 'A Tragedy of Error', in the *Continental Monthly* in 1864, when he was twenty years old. In 1876, he emigrated to London, where he remained for the vast majority of the rest of his life, becoming a British citizen in 1915. From this point on, he was a hugely prolific author, eventually producing twenty novels and more than a hundred short stories and novellas, as well as literary criticism, plays and travelogues. Amongst James's most famous works are *The Europeans* (1878), *Daisy Miller* (1878), *Washington Square* (1880), *The Bostonians* (1886), and one of the most famous ghost stories of all time, *The Turn of the Screw* (1898). We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Ocean of Sound

This cherished classic of rural American life was a popular success when it first appeared in the last quarter of the nineteenth century. By the early twentieth century, it was nationally acclaimed by critics for its realistic portrayal of a vanishing phase of American life. Today it is considered a milestone in American literature, a monument to regional writing. Edward Eggleston's account of the adventures of a young schoolmaster in a nineteenth-century school system presents a vivid and readable chapter in the history of America and American education. First and foremost, however, *The Hoosier school-master* is a charming yet realistic novel in the manner of *Tom Sawyer*. Set in Flat Creek, Indiana, in the 1850s, the

story relates the encounters of the new schoolteacher, Ralph Hartsook, with such lovable characters as Bud, Hannah, and Shocky. This marvelous tale contains all the elements of a good, old-fashioned melodrama -- the bully, star-crossed lovers, the poorhouse, and the one-room schoolhouse. Written with Hoosier humor and candor, Eggleston's delightful portraits of heroes and villains are a bit sentimental, but they are also perceptive -- full of life and truth.

The Judgment House

The first modern, comprehensive resource on spiritual awakenings, this pragmatic, clear guide covers everything from the first step on a spiritual journey to enlightenment, and the different types of spiritual awakenings, from mild to dramatic, we may go through. Using the concept of the twelve layers that cover an awakened state Mary Mueller Shutan addresses every step of the spiritual journey, starting with the Self and showing how family, ancestral, past lives, karmic, archetypal, and other larger layers such as societal, cultural, global, and cosmic energies condition us to sleep and obscure our realization of an awakened state. Instructions for how to navigate through each of these layers and how to recognize where we are in our spiritual journey are included each step of the way along with common physical, emotional, and spiritual symptoms that may be experienced. By addressing post-awakening states, oneness, dark nights of the soul, ego death, near-death and severe illness, psychic abilities, addictions, dietary changes, the God self, personal and collective shadow, and psychosis vs. awakening we understand the experiences we may go through while struggling with spiritual awakenings. This practical book opens new understandings of how to live in the world while going through an awakening process, and offers the revolutionary idea that we are meant to be humans, to have a physical body with physical, sensate experiences and emotions. We are meant to live in the world and be a part of it even as fully awakened individuals. This guide proposes a look at the possibility of leading a grounded, earth-bound life of work, family, friends, and other experiences in an awakened state.

Have the Relationship You Want

When Mr. Tryan arrives in Milby, with his disturbingly evangelical and puritan tendencies, the small town is deeply divided in a bitter fight over the suitability of his evening lectures. The proud but desolate Janet Dempster, alcoholic wife of one of Mr. Tryan's most vociferous opponents, delights in the clergyman's persecution—until she unexpectedly finds her own redemption. Written when she was on the brink of her career as a novelist, Janet's Repentance foreshadows the themes of Eliot's later work.

The Science of Self-Realization

Lao-tzu, the legendary sage of ancient China, is traditionally considered to be the author of the Tao Te Ching, one of the most popular classics of world literature. Now Lao-tzu's further teachings on the Tao, or Way, are presented here in the first English translation of the Chinese text known as the Wen-tzu. Although previously ignored by Western scholars, the Wen-tzu has long been revered by the Chinese as one of the great classics of ancient Taoism. In it, Lao-tzu shows that the cultivation of simplicity and spontaneity is essential to both the enlightened individual and the wise leader. This timeless work will appeal to a broad audience of contemporary readers who have come to consider Lao-tzu's Tao Te Ching a classic on the art of living.

What is Enlightenment?

But, my dear madam, it is so very large a majority of your fellow-countrymen that are of this insignificant stamp. At least eighty out of a hundred of your adult male fellow-Britons returned in the last census are neither extraordinarily silly, nor extraordinarily wicked, nor extraordinarily wise; their eyes are neither deep and liquid with sentiment, nor sparkling with suppressed witticisms; they have probably had no hairbreadth escapes or thrilling adventures; their brains are certainly not pregnant with genius, and their passions have not manifested themselves at all after the fashion of a volcano.

Finding Grace in the Concert Hall

What does it mean to be a man? Moreover, how do you as a father instill that reality in your son? By Raising a Modern-Day Knight. The medieval custom of knighthood offers a unique approach to shaping a boy into a strong, godly man. Centuries ago, select boys went through a rigorous, years-long process of clearly defined objectives, goals, and ceremonies—with the hope of achieving knighthood. Along the way, they acquired a boldly masculine vision, an uncompromising code of conduct, and a

noble cause in which to invest their lives. They were the heroes of their age. In much the same way, Raising a Modern-Day Knight will show how you, too, can confidently guide your son to the kind of authentic, biblical manhood that can change our world. Complete with ceremony ideas to celebrate accomplishments and ingrain them in the mind of a knight-in-training, this resource is as insightful as it is practical in raising a boy to be a chivalrous, godly man.

The Invisible Choir

Arrowsmith has been inspirational for several generations of med students. Martin Arrowsmith agonizes over his career and life decisions never sure if he's making the correct decisions. While the book details Arrowsmith's pursuit of the noble ideals of medical research for the benefit of mankind and of selfless devotion to the care of patients, Lewis throws many less noble temptations and self deceptions in Arrowsmith's path. The attractions of financial security, recognition, even wealth and power distract Arrowsmith from his original plan to follow in the footsteps of his first mentor, Max Gottlieb, a brilliant but abrasive bacteriologist. A powerful novel that asks more questions than it answers. Winner of the Pulitzer Prize.

Tomato Red

Julian the Apostate was the nephew of Emperor Constantine the Great. Julian ascended to the throne in A.D. 361, at the age of twenty-nine, and was murdered four years later after an unsuccessful attempt to rebuke Christianity and restore the worship of the old gods. Now this historical tapestry is brought to vibrant life by the dazzling talent of Gore Vidal.

The Convoluted Universe

THE BEGINNING What do you do when you discover information that is before its time? What do you do when your curiosity takes you on an adventure that is so bizarre that there is nothing "normal" to relate to? This is what happened to Dolores Cannon in 1968, long before she began her career as a past-life hypnotherapist and regressionist. Travel back with us to that time when the words "reincarnation, past-lives, regression, walk-ins, New Age" were unknown to the general population. This is the story of two normal people, who accidentally stumbled across past-lives while working with a doctor to help

a patient relax. It began so innocently, yet it crossed the boundaries of the imagination to open up an entirely new way of thinking at a time when such a thing was unheard of. It went totally against the belief systems of the time. It was so startling that they should have stopped, but their curiosity demanded that they continue to explore the unorthodox. The experiment changed the participants and everyone involved, and their beliefs would never be the same. Dolores Cannon is now a world-renowned hypnotherapist who has explored thousands of cases in the forty years since 1968, and has written fifteen books about her discoveries. Her books are translated into more than 20 languages. She is teaching her unique form of hypnosis all over the world. When she lectures people ask, "How did you get started on all of this?" This is the story of her beginnings. The book was written in 1980, her very first book. It has laid dormant, gathering dust, until now, waiting. Now is the time for it to come forth. Enjoy the adventure!

Five Lives Remembered

Through regressive hypnosis a lost legend of the history of mankind has been retrieved from the recesses of time. Did the American Indians descend from the inhabitants of an alien spacecraft that crashed in the Alaska-Canada region thousands of years ago? Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Does their blood still flow in the veins of certain American Indian tribes?

The Legend of Starcrash

Dolores has accumulated information about the Death experience and what lies beyond through 16 years of hypnotic research and past-life therapy. While retrieving past-life experiences, hundreds of subjects reported the same memories when experiencing their death, the spirit realm, and their rebirth. This book also explores: * Guides and guardian angels* Ghosts and poltergeists* Planning your present lifetime and karmic relationships before your birth* The significance of bad lifetimes* Perceptions of God and the Devil* And much more

Between Death and Life

In 1945 when the atomic bombs were dropped in WWII, our "protectors" and "watchers" in outer space saw that Earth was on a collision course with disaster. The prime directive of non-interference prevented them from taking any action, but then they came up with a brilliant plan to save Earth and assist her in her ascension. They couldn't interfere from the "outside"

The Three Waves of Volunteers & the New Earth

We are children of the stars. This is our legacy and our heritage. In the history of the cosmos, Earth is a young planet. Our souls, on the other hand, have been around forever and will continue to be around forever. Thus Earth is not our only home. We have lived many lives in unusual environments before deciding to journey here and learn the lessons of Earth. After our schooling is completed on this planet, we will journey onward to discover new worlds to explore. The memories of these soul journeys are recorded in our subconscious, and in Legacy from the Stars hypnotherapist Dolores Cannon shows that they can be retrieved through regressive hypnosis. She reports dramatic cases where the subjects relived other lifetimes in strange environments -- inhabitants of other planets. After reading her latest book, you may agree that "we are all extraterrestrials," and Earth is merely a stop-over in our long adventure.

Legacy from the Stars

Dolores Cannon uses information obtained from regressive hypnosis to formulate a provocative viewpoint on the ancient astronaut theory of human origins. Her findings indicate that the earth was seeded eons ago by travellers from outer space. These visits by ancient extraterrestrials did not end with their intervention in human evolution. They have continued up to the present day resulting in a whole class of contemporary humans who have been subject to alien abduction.

Keepers of the Garden

Soul Speak – The Language of Your Body

In "Buddhism is Not What You Think" Steve Hagen, bestselling author of "Buddhism Plain and Simple" and a Zen priest, cuts through the many misconceptions surrounding Buddhism, and shows us its true purpose. Drawing on down to earth examples from everyday life, this practical and straightforward guide penetrates the most essential and enduring questions at the heart of the Buddha's teachings: How can we see the world in each moment, rather than merely as what we think, hope, or fear it is? How can we base our actions on reality? How can we live lives that are wise, compassionate, open and honest? What can it bring to our lives.

Jesus and the Essenes

Sequel to Jesus and the Essenes. The past-life memories of two women capture a true and compelling portrait of Jesus the man, from the healing miracles he performed to the gentle philosophy he preached. This is an INSIDER view, direct from Jesus' time, deep in feeling tones and profound in implications, giving a sense of how things truly were. This book includes drawings of the Temple and Old Jerusalem, and includes scenes at the Temple in Jerusalem, visits to homes and leper colonies, political intrigues leading to the crucifixion, and also the personal feelings of those who met him. The realism of this information is astounding.

They Walked with Jesus

Please note: This is a companion version & not the original book. Sample Book Insights: #1 I have traveled through time and space to explore the history of the past, and the possibilities of the future. I have visited unknown planets and dimensions, and spoken with many so-called alien species. I have discovered that everything is hidden in the recesses of the subconscious mind, and that it can be discovered and applied in our time. #2 I first became involved with reincarnation and past-life regression in 1968. My husband, Johnny, was career U. S. Navy for over twenty years, and had just returned from duty in Viet Nam. We were stationed in Texas and trying to return our lives to normal after a four year separation caused by the war. #3 1968 was a significant year in my life because it changed everything forever. My husband, Johnny, was almost killed in a horrendous automobile accident on his way to the Naval Base one night. He was hit head-on by a drunken driver, and mangled into the wreckage of our Volkswagen bus. The doctors said it was a miracle he lived, because his injuries were so extensive that he should have died. #4 I was glad to have the sanctuary of the hills as my retreat, as I was completely focused on my husband and the children. I had no idea where I would find clients in the hills of Arkansas, but I knew I wanted to do something with my life.

Conversations with Nostradamus: Volume 2

This book tells the story of the authors personal encounters with blue-skinned beings from the Pleiades as well as other amazing encounters with strange people, places and Beings. It also tells of the ancient extraterrestrial War between the Pleiades and the subterranean serpent race, the destruction of a

civilization on Mars and a Planet called Phaeton and how our Secret History is taught in ancient Mythology around the globe. You will learn how to discern between astral entities, extraterrestrials and angelic Beings. Lessons are given on how to travel and explore the Universe with consciousness alone so that you can verify things for yourself. Finally you learn why our History and Destiny are hidden from mainstream culture. For thousands of years Planet Earth has been surrounded by a fog of ignorance, but the veils of reality are set to be lifted as we ourselves ascend in levels of consciousness rather than waiting for some outside force to fix things for us. While the authors previous books provided exercises in raising your level of consciousness, this book allows you to enter the perspective of a higher level of consciousness.

The Pleiades and Our Secret Destiny

"I am Ra. We came to your peoples to enunciate the Law of One. We wished to impress upon those who wished to learn of unity that in unity all paradoxes are resolved; all that is broken is healed; all that is forgotten is brought to light." For thousands of years those of Ra have sought to teach the Law of One to seekers of truth on Earth who wished to learn of the unity or oneness of all things. This basic law of all creation is buried deep within each of our hearts because we really are one in love and in light, the building blocks of the universe. We are all manifestations of the One Infinite Creator. We are the Creator. We are not learning this law for the first time but are remembering it yet again as all mystics have taught throughout Earth's history. Our journey of self-realization is the discovery or remembrance of this essential truth, our essential identity. A waking up, as some have called it, within an illusion of separation. Don Elkins and Carla L. Rueckert worked together for 12 years to perfect the channeling process and receive philosophical inspiration and guidance from extraterrestrial sources. When Jim McCarty joined them in 1980 they began to receive a new and unique type of channeling contact from those of Ra. Through this contact, Ra shared information to help seekers of truth deepen their awareness and acceptance of self and other, and to help Earth move into the emerging fourth density of love and understanding. This book is the transcript from the recording of that conversation between the Questioner and Ra. Through questions & answers, the metaphysical blueprint of spiritual evolution is explored, from the microcosm to the macrocosm, from the particulars of life on this planet to the life of the cosmos, to the possibilities of healing, transformation, and self-realization for spiritual seekers and wanderers. ***** The Ra Contact: Teaching the Law of One Volume 1 contains Ra contact sessions 1-56. As with all L/L Research material, this book can be read for free in PDF form on L/L's archive website.

The Ra Contact: Teaching the Law of One:

A firsthand account through the use of hypnosis and past life regression of life in Lemuria. The lives we have forgotten as Lemurians. We co-created through instant manifestation with our minds. We are back now to bring these energies through to help our Mother Earth.

Coming Home to Lemuria

Have you been seeking answers but not really finding them? Have your dreams started to feel like just that-dreams? Has the fear of what other people will think stopped you from being who you want to be and doing what you want to do? Does a fulfilled life feel like something meant for others, not for you? Erin Werley used to feel that way, too. Then, one day, she started to receive "deposits" from her inner voice, which calls itself "I Am." And everything in her life began to change. Most people would call One Truth, One Law: I Am, I Create a "channeled" book, but I Am is adamant that it isn't. As I Am puts it, "Every human is me. Every human can access me. When somebody says they're 'channeling' something outside of themselves, it's because they don't understand that they are God and that we are all one." Written as a series of conversations between I Am and Werley's husband, Phil, the message of One Truth, One Law is simple: Every single one of us is God. We just have a confused filter that thinks we're not God. I Am's intention with this book is not to offer you information that can only come through Werley. It's to teach you how to access your own inner voice so that you'll finally get answers to your questions. So that you'll be able to make your dreams a reality. So that you'll tap into your own God wisdom that no longer worries about what others think. So that you'll know a fulfilled life is something for you and not just other people. Once you really let it soak in that you are God, and you're here to further expand the universe through this physical experience, the limits on your dreams start to fall away.

Compiled from more than four hundred hours of channeling by Barbara Marciniak, Bringers of the Dawn imparts to us the wisdom of the Pleiadians, a group of enlightened beings who have come to Earth to help us discover how to reach a new stage of evolution. Master storytellers and humorists, they advise us to become media free, to work in teams, and to eliminate the words "should" and "try" from our vocabularies. We learn how to go beyond fear, how the original human was a magnificent being with twelve strands of DNA and twelve chakra centers, and who our "gods" are. Startling, intense, intelligent, and controversial, these teachings offer essential reading for anyone questioning their existence on this

planet and the direction of our collective conscious--and unconscious. By remembering that we are Family of Light, that we share an ancient ancestry with the universe around us, we become "bringers of the dawn," consciously creating a new reality, a new Earth.

Tools and teachings to guide you in the transition from the polarized mindset of the 3rd dimension to the joy and love of 5th dimensional vibrations • Explains how to recognize the 5D experiences you've already had, identify the differences between 3D linear thinking and 5D multidimensional thinking, and turn 3D viewpoints around to expand your perception of what is possible • Includes exercises to protect your energies, especially while sleeping, and Sacred Geometry meditations to open yourself to higher frequencies • Reveals how to develop a Higher Self connection, increase your sensitivity to dimensional signatures, and consciously choose 5D, where love is the governing force We are all transitioning from the narrowly-focused and polarized awareness of the Third Dimension and waking up to the higher vibrations and abilities of the Fifth Dimension. Each of us has already experienced 5D: Think about your most memorable and uplifting experiences of the recent past--where everything went well, interactions were harmonious and loving, and all felt blissful and happy--that's 5D. For some, the shift is sudden and permanent, but for many of us, the change is gradual, coming in fleeting moments and waves. In this ascension manual, spiritual teacher Maureen J. St. Germain explains how to shift your energetic patterns and choose to permanently anchor yourself in the joy, love, and kindness of 5D. Guiding you through the opportunities the Fifth Dimension has to offer, the author reveals how to develop a Higher Self connection, increase your sensitivity to dimensional signatures, and consciously choose 5D, where love is the governing force. She shows how 5D relates to 3D as well as to 4D, the transitional dimension between the two, and explains how to read the energy patterns that distinguish one dimension from the next as well as how to experience multiple dimensions simultaneously. She explores how to identify the differences between "good vs. evil" polarized 3D linear thinking and dynamic 5D multidimensional thinking and how to turn 3D viewpoints around to expand your perception of what is possible. Offering eye-opening stories of 5D experiences from students and inspiring information from her spirit guides, the author also details exercises to protect your energies, especially while sleeping, and provides Sacred Geometry meditations to activate your 8th chakra and open yourself to higher frequencies. She also explores how awakening to 5D allows you to form a strong bond to global consciousness, so your personal transformations will have a more profound impact on the people in your circle, and beyond.

Waking Up in 5D

Written with the intent of creating an entry-level, simple to read report concerning the core principles of the Law of One and Confederation philosophy in general, this book takes the reader through a discussion of Law of One principles such as unity, free will, love, light and polarity. It then works with the Confederation version of the concept that each person has an energy body with seven chakras. It discusses this concept and its implications for the seeker, chakra by chakra. It turns the player into a Player! This is a light-hearted book about the Game of Life. It is an easy read, and yet the principles of the Law of One are not simplified. Rather, they are offered in an order which makes coherent sense. Principle builds upon principle to offer an overall view of Confederation philosophy which is a bit easier to grasp as a whole than the original Law of One books, where the question-and-answer format offers the same information in a somewhat fragmented form, although with endless interest. If you would like to play the Game of Life with Carla, please give this book a try!
