

Green Gospel The New World Religion

[#green gospel](#) [#eco spirituality](#) [#new world religion](#) [#sustainable faith](#) [#environmental ethics](#)

Explore the 'Green Gospel,' an emerging new world religion rooted in eco-spirituality and sustainable faith. This movement champions environmental ethics, guiding humanity toward a harmonious relationship with nature and fostering a profound sense of global responsibility for our planet.

Our thesis collection features original academic works submitted by graduates from around the world.

Thank you for stopping by our website.

We are glad to provide the document Green Gospel New Religion you are looking for. Free access is available to make it convenient for you.

Each document we share is authentic and reliable.

You can use it without hesitation as we verify all content.

Transparency is one of our main commitments.

Make our website your go-to source for references.

We will continue to bring you more valuable materials.

Thank you for placing your trust in us.

Many users on the internet are looking for this very document.

Your visit has brought you to the right source.

We provide the full version of this document Green Gospel New Religion absolutely free.

Green Gospel

This book chronicles the history of the environmental movement, its creators, and their goals. The author takes us back decades to the origins of environmentalism, providing facts about its development over the years. It describes the emerging new world religion in the environmental movement, a religion based on the principles of early paganistic religions.

Sustainable Faith: A green gospel for the age of climate change

Bible-based, this book demonstrates that an important element of 21st-century Christian faith is about engaging with the big challenges of climate change and sustainable living.

Sustainable Faith: A Green Gospel for the Age of Climate Change

A duty of loving care towards the planet and all its inhabitants needs to become a central feature of the Christian message in today's church, accompanied by scriptural backing and practical guidance that encourages God's people to be at the forefront of change. Christians need to be adequately equipped to bring a message of creation care and faith-based environmentalism to their communities. We know that it is not only what we say but what we do that has the potential to 'speak' to people about the love of God in Christ. Hospitality, love for our neighbours and care for the poor are central themes in the gospel message and the 'green' gospel for today must also demonstrate our love and care for all creation - humanity is part of a delicate web of life, all of which is loved by our Creator God.

The Gospel According to the Earth

"Matthew Sleeth is a significant convert in the growing company of Christians who bring intelligence, passion, a biblically trained imagination, and mature Christian witness to the care of creation." — Eugene Peterson, Author of *Living the Message* "Matthew Sleeth is a breath of fresh air. In *The Gospel According to the Earth*, he retells the Bible's most familiar stories in ways that will stimulate your imagination, soften your heart, and challenge you to think more deeply about caring for creation." Jonathan Merritt, author of *Green Like God* From Dr. Matthew Sleeth, the leading Christian voice for

the green movement, comes a dynamic and surprising primer on all the Bible teaches on caring for the earth— and an ideal companion volume to *The Green Bible*.

Green Gospel

An evocative investigation of ecotheology's first principles, *Green Gospel* will serve as antidote to the spiritual devastations of the climate crisis. As climate change continues to ravage our planetary home, deepening the divide between Earth and her stewards, church and unchurched seekers alike are casting about for a spirituality that focuses on the natural world. Just in time, *Green Gospel* opens a window into the developing realm of ecotheology, defining foundational principles and outlining how these tenets can be lived out through worship and individual practice. To help readers connect with otherwise challenging concepts, Gatta's *Green Gospel* draws on illustrative examples from literary works and liturgical texts to transport readers through these artistic portals to a world lit up by God's grace. Perfect for parish reading groups or individual study, this encompassing yet compact introductory text unites the theological framework of the green movement with spiritual practice, setting forth a comprehensive vision that moves all the way from first principles of Christian doctrine to the practical consequences of today's pressing environmental issues.

Mysteries of the Scriptures Revealed - Shattering the Deceptions Within Mainstream Christianity Deciphering and Revealing End Times Prophecies Making a Straight Path for the End Times Saints

Scripture as it has never been presented before! The greatest Scripture study guide compilation and deception-defeating, truth-revealing book of all time ever written! Bringing the whole Christian denominational church system under question and shaking the foundational teachings of the popular mainstream, but misled Christian mindset! 2,000 YEARS OF MAINSTREAM CHRISTIAN DOCTRINES, PRACTICES, AND TRADITIONS DISMANTLED IN ONE BOOK! CENTURIES OF DENOMINATIONAL CHRISTIAN LIES EXPOSED! RABBINICAL JUDAISM'S ERRORS EXAMINED AND CORRECTED! GRACE ONLY - EASY BELIEVISM, NO NEED TO REPENT, REALLY? HAVE YOU ACTUALLY BEEN BORN AGAIN AND ARE YOU ONCE SAVED, ALWAYS SAVED? IS YESHUA (JESUS) GOD? DID HE FULFILL (ABOLISH) THE LAW? ARE THE DIETARY LAWS OF CLEAN AND UNCLEAN CREATURES CEREMONIAL OR PERPETUAL? DO THEY APPLY TODAY? SCIENCE CONFIRMED BY SCRIPTURE, THE AGE OF THE EARTH, THE EXTINCTION OF THE DINOSAURS EXPLAINED, AND EVOLUTION THEORY DEBUNKED!

Majority World Theology

More Christians now live in the Majority World than in Europe and North America. Yet most theological literature does not reflect the rising tide of Christian reflection coming from these regions. If we take seriously the Spirit's movement around the world, we must consider how the rich textures of Christianity in the Majority World can enliven, inform, and challenge all who are invested in the ongoing work of theology. *Majority World Theology* offers an unprecedented opportunity to enter conversations on the core Christian doctrines with leading scholars from around the globe. Seeking to bring together the strongest theological resources from past and present, East and West, the volume editors have assembled a diverse team of contributors to develop insights informed by questions from particular geographic and cultural contexts. This book features a comprehensive overview of systematic theology, with sections on the Trinity, Christology, pneumatology, soteriology, ecclesiology, and eschatology contributors including Amos Yong, Ruth Padilla DeBorst, Victor I. Ezigbo, Wonsuk Ma, Áida Besançon Spencer, Randy S. Woodley, Munther Isaac, and Veli-Matti Kärkkäinen explorations of how Scripture, tradition, and culture fit together to guide the church's theological reflection scholars demonstrating how to read the Bible and think theologically in light of contextual resources and concerns inside views on what doing theology looks like in contributors' contexts and what developments they hope for in the future When we learn what it means for Jesus to be Lord in diverse places and cultures, we grasp the gospel more fully and are more able to see the blind spots of our own local versions of Christianity. *Majority World Theology* provides an essential resource for students, theologians, and pastors who want to expand their theological horizons.

All Things New

The Christian faith presents a distinctive vision of last things: that God in Christ aims to reconcile the world to himself, and through his Spirit and a new people, to set all things to right. This good news is for all nations and peoples, but for too long the Christian doctrine of eschatology has focused on debates

and arguments rooted solely in the Western church. In *All Things New*, leading theologians and biblical scholars from Africa, Asia, Latin America, and North America offer readers a glimpse of how Christians around the globe are perceiving and describing the Christian hope. The result is a remarkably refreshing and distinctive vision of eschatology guaranteed to raise new questions and add new insights to the global church's vision of the eschaton.

Thirty Years That Changed the World

The first Christians turned the world upside down in the space of a generation. How can we learn from them today? In this book Michael Green opens up the gripping story of Acts, highlighting the volcanic eruption of faith described there and contrasting it with the often halfhearted Christianity of the modern Western world. Green explores the life and faith of the Christians of Acts, answering such questions as, What kind of people were they? How did they live? And how did they organize and practice as members of the new church? Besides describing life in the early church, Green discusses how we today can apply the first Christians' dynamic efforts at church planting, pastoral care, social concern, gospel proclamation, and prayer. Combining trusted scholarship with a popular, enjoyable writing style, *Thirty Years That Changed the World* is an ideal book for church, group, or personal study.

Green Christianity

The central message of this book is that religion has a special role to play in saving the planet. Religion has the unique power to fire the imagination and empower the will to break the cycle of addiction to nonrenewable energy. The environmental crisis is a crisis not of the head but of the heart. The problem is not that we do not know how to stop climate change but rather that we lack the inner strength to redirect our culture and economy toward a sustainable future. Only a bold and courageous faith can undergird a long-term commitment to change. This book is a call to hope, not despair--a survey of promising directions and a call for readers to discover meaning and purpose in their lives through a spiritually charged commitment to saving the Earth.

Conversion in Luke-Acts

Repentance and conversion are key topics in New Testament interpretation and in Christian life. However, the study of conversion in early Christianity has been plagued by psychological assumptions alien to the world of the New Testament. Leading New Testament scholar Joel Green believes that careful attention to the narrative of Luke-Acts calls for significant rethinking about the nature of Christian conversion. Drawing on the cognitive sciences and examining key evidence in Luke-Acts, this book emphasizes the embodied nature of human life as it explores the life transformation signaled by the message of conversion, offering a new reading of a key aspect of New Testament theology.

The New World

Includes section "Book reviews."

When God Breaks In

Despite the growth of religion in general and Christianity in particular around the world, Western Europe and the UK remain overwhelmingly secular, with the church increasingly seen as backwards and irrelevant. In this provocative book well-known speaker and author Michael Green gives a snapshot of various different revivals from the UK's history, as well as describing how the early church started and focusing on various revivals around the world. Be bold, writes Michael - revival can happen again!

The Gospel Truth

How can a Christian live authentically in a world that values appearances? What does Jesus say about living a life characterized by honesty and hope? Mitch Finley sheds light on the spiritual values of the New Testament and shows how they help us become what we really are: free. Here is a path to freedom and assurance for every Christian.

Living with Other Creatures: Green Exegesis and Theology

Richard Bauckham offers a fresh approach to the relationship between humanity and creation and our responsibility before God to steward wisely. The Bible offers fresh and often innovative approaches

to a wide range of the issues that arise in relating the Bible and Christian theology to the ecological concerns of our contemporary world. Clear, biblical teaching on ecology Encourages readers to a more responsible relationship to the planet Those interested in ecology and Christianity in tandem Anyone concerned with a greener world. It aims to show that the subject than is commonly supposed. While focusing especially on biblical material, it also engages Francis of Assisi, modern nature poetry, Matthew Fox and the history of interpretation.

Green Like God

In *Green Like God*, Jonathan Merritt gently and insightfully observes that the bible has a lot to say about environmental problems like unclean water, material waste, over consumption, air pollution, and global warming. In fact, Jonathan writes that "in the book of Genesis, God went green and never looked back." Relying heavily on scripture, Jonathan gives the case for green living, but not because it's trendy and hip. Rather, it's part of living rightly as a believer. It's an act of obedience to our Creator-God. *Green Like God* is at once practical, prescriptive, and conversational in tone. The author looks at a number of trends with tips to help the reader wade into the world of creation care living. An appendix includes suggestions of things we can do. In addition, the book includes interviews with everyday Christians to tell the story of the journey to environmental stewardship among people of faith. This is the book that Christians are longing for and need today. Written for a new generation of Christians who are struggling with how to deal with the important issue of creation-care and green living, *Green Like God* is both highly relevant and theologically sound. It will have a profound impact on how Christians live and interact with the world today.

Visions of a New Earth

Brings together world religion scholars and creative international economists to address the current eco-crisis.

The Trinity among the Nations

The second volume of an exciting new series exploring global theology. Though the global center of Christianity has been shifting south and east over the past few decades, very few theological resources have dealt with the seismic changes afoot. The *Majority World Theology* series seeks to remedy that lack by gathering well-regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts. *The Trinity among the Nations* focuses on Christian understandings of the character and work of God in various contexts. The contributors highlight global trends in trinitarian theology in relation to historic Christian confessions, especially the Nicene Creed, and draw out the rich implications of the doctrine of God for the church and Christian living today.

Deep Ecology and World Religions

Parallels and contrasts values from world religions and those proposed by the environmental perspective of deep ecology.

False Dawn

The interfaith movement, which began with the 1893 World's Parliament of Religions in Chicago, has grown worldwide. Although this movement has been largely unknown to the public, it now provides a spiritual face for globalization, the economic and political forces leading us all from nationalism to 'One World'. The most ambitious organization in today's interfaith movement is the United Religions Initiative (URI), founded by William Swing, the Episcopal Bishop of California. Investigative reporter Lee Penn, a Catholic ex-Marxist, exhaustively documents the history and beliefs of the URI and its New Age and globalist allies, the vested interests that support these movements, and the direction they appear to be taking. The interfaith movement is no longer merely the province of a coterie of little-heeded religious idealists with grandiose visions. The URI's proponents have ranged from billionaire George Soros to President George W. Bush, from the far-right Rev. Sun Myung Moon to the liberal Catholic theologian Hans Küng, and from the Dalai Lama to the leaders of government-approved Protestant churches in the People's Republic of China. The interfaith movement, including the URI, is being promoted by globalist and New Age reformers who favor erosion of national sovereignty, marginalization of traditional religions, establishment of 'global governance', and creation of a new, Earth-based 'global spirituality'—in effect, a one-world religion. Therefore, the URI and the interfaith

movement are poised to become the spiritual foundation of the New World Order: the ¿new civilization¿ now proposed by Mikhail Gorbachev, the last leader of the Soviet Union. In *The Reign of Quantity and the Signs of the Times*, French metaphysician René Guénon spoke of the ¿anti-tradition¿ (the forces of materialism and secular humanism) finally giving way to the ¿counter-tradition¿ (the satanic inversion of true spirituality), leading to the regime of Antichrist. The ¿anti-tradition¿ weakens and dissolves traditional spiritualities, after which the ¿counter-tradition¿ sets up a counterfeit in their place. Since Guénon¿s time, as is well known, anti-traditional forces have greatly advanced worldwide. It is less well-known that counter-traditional movements have also made great strides, and now stand closer to the centers of global political and religious power than ever before. The ¿counter-tradition¿ is making inroads on the political and cultural Right, as much as it is doing on the Left. *False Dawn* painstakingly documents these trends, and speculates on their future development. In so doing, the author takes investigative reporting to the threshold of prophecy, and gives us a stunningly plausible picture of the global religious landscape of the 21st century. This extraordinary project is the literary equivalent of turning over a flat rock. There is much to be seen and learned here¿all of it unsettling, disquieting, occasionally downright scary. ¿William Murchison, Radford Distinguished Professor, Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods, something has gone horribly wrong. In *False Dawn*, Lee Penn has produced a comprehensive and critical history of the United Religions Initiative. This book sounds a clear warning: Anyone who makes theological truth subservient to utopianism denigrates all religions. ¿Douglas LeBlanc, Editor, GetReligion.org

The New World-religion

This final book in the series focuses on the atheistic or humanistic type of religions. It would be one of the most valuable for the church in the Western World where anti-god and pro-evolution religions are beginning to explode, for it was written to refute those religions and show how they fail. Unlike most books on world religions, this title dives into the secular humanistic religions. The book starts with God's Word as the absolute authority. In doing so, God becomes our guide to refute false religions. Humanistic religions are all around us and we need to be able to spot their tenets and oppose them instead of allowing them to subtly infiltrate our Christianity and undermine us from within. We need to know how to refute these humanistic religions. We need to know how to effectively present the gospel to people who have been deceived by humanistic religions.

World Religions and Cults Volume 3

How does the idealistic young man from a wealthy Italian family find himself a missionary in the rough, lawless West of Early America? How does he persevere in his charity work and bringing the Gospel to men, while still maintaining his civility, dignity and composure? Samuel Mazzuchelli was something of an unknown Renaissance man, being a theologian, missionary, linguist, writer, social organizer and architect. But he was also a man of tremendous faith and conviction, whose audacious courage led him to many unique and exciting encounters. The priest discusses what we today would call a "culture clash\

The Missionary

Though the makeup of the church worldwide has undeniably shifted south and east over the past few decades, very few theological resources have taken account of these changes. *Jesus without Borders* — the first volume in the emerging Majority World Theology series — begins to remedy that lack, bringing together select theologians and biblical scholars from various parts of the world to discuss the significance of Jesus in their respective contexts. Offering an excellent glimpse of contemporary global, evangelical dialogue on the person and work of Jesus, this volume epitomizes the best Christian thinking from the Majority World in relation to Western Christian tradition and Scripture. The contributors engage throughout with historic Christian confessions — especially the Creed of Chalcedon — and unpack their continuing relevance for Christian teaching about Jesus today.

The New World Religion

A simple yet superb explanation of why Christians should be environmentalists, *God Is Green* shows, through the Bible and other ancient writings, how at the heart of Christian belief is a sense of a sacred world. By rebutting the charges against Christianity--its alleged arrogance toward nature and its glorification of man at nature's expense--Bradley has crafted a book that both appeals and challenges.

Jesus without Borders

"A love of green may be a human universal. Deepening the palette of green scholarship, Bron Taylor proves remarkably to be both an encyclopedist and a visionary."--Jonathan Benthall, author of *Returning to Religion: Why a Secular Age is Haunted by Faith* "This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion. In this sense, *Dark Green Religion* offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now."--Stephen Kellert, Yale University School of Forestry and Environmental Studies "In this thought-provoking volume, Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe. Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship, Taylor contributes to the further development of thought in this critically important area, where our depth of understanding will play a critical role in our survival."--Peter H. Raven, President, Missouri Botanical Garden "Carefully researched, strongly argued, originally conceived, and very well executed, this book is a vital contribution on a subject of immense religious, political, and environmental importance. It's also a great read."--Roger S. Gottlieb, author of *A Greener Faith: Religious Environmentalism and our Planet's Future* "A fascinating analysis of our emotional and spiritual relationship to nature. Whether you call it dark green religion or something else, Bron Taylor takes us through our spiritual relationship with our planet, its ecosystems and evolution, in an enlightened and completely undogmatic manner."--Dr. Claude Martin, Former Director General, World Wildlife Fund "An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions, spirituality, animism, pantheism, deep ecology, Gaia, and land ethics--and for the environmentalist seeking to make the world a better place through green religion as a social force."--Fikret Berkes, author of *Sacred Ecology: Traditional Ecological Knowledge and Resource Management* "Dark Green Religion shows conclusively how nature has inspired a growing religious movement on the planet, contesting the long reign of many older faiths. Taylor expertly guides us through an astonishing array of thinkers, past and present, who have embraced, in part or whole, the new religion. I was thoroughly convinced that this movement has indeed become a major force on Earth, with great potential consequences for our environmental ethics."--Donald Worster, University of Kansas "In this exceptionally interesting and informative book, Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies: the study of how religious/spiritual themes show up in the work of people concerned about nature in many diverse ways. Taylor persuasively argues that appreciation of nature's sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers, to eco-tourism leaders and museum curators. I highly recommend this book for everyone interested learning more about the surprising extent to which religious/spiritual influences many of those who work to protect, to exhibit, or to represent the natural world."--Michael E. Zimmerman, Director, Center for Humanities and the Arts, University of Colorado at Boulder

God Is Green

The imagination is where the Creator chooses to meet his creatures, says renowned theologian Garrett Green. The Word of God and the work of the Holy Spirit set the imagination free for genuine and creative knowledge of God, the world, others, and the self. Green explains that theology is best understood as human imagination faithfully conformed to the Bible as the paradigmatic key to the Christian gospel. He unpacks the implications of the imagination for a variety of theological issues, such as interpretation, aesthetics, eschatology, and the relationship between church and culture.

Dark Green Religion

Why are white evangelicals the most skeptical major religious group in America regarding climate change? Previous scholarship has pointed to cognitive factors such as conservative politics, anti-sci-

ence attitudes, aversion to big government, and theology. Drawing on qualitative fieldwork, *The Gospel of Climate Skepticism* reveals the extent to which climate skepticism and anti-environmentalism have in fact become embedded in the social world of many conservative evangelicals. Rejecting the common assumption that evangelicals' skepticism is simply a side effect of political or theological conservatism, the book further shows that between 2006 and 2015, leaders and pundits associated with the Christian Right widely promoted skepticism as the biblical position on climate change. *The Gospel of Climate Skepticism* offers a compelling portrait of how during a critical period of recent history, political and religious interests intersected to prevent evangelicals from offering a unified voice in support of legislative action to address climate change.

Imagining Theology

Though the global center of Christianity has been shifting south and east over the past few decades, very few theological resources have dealt with the seismic changes afoot. The *Majority World Theology* series seeks to remedy that lack by gathering well-regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts. The contributors to this volume reflect deeply on the role of the Holy Spirit in both the church and the world in dialogue with their respective contexts and cultures. Taking African, Asian, and Latin American cultural contexts into account gives rise to fresh questions and insights regarding the Spirit's work as witnessed in the world and demonstrates how the theological heritage of the West is not adequate alone to address the theological necessities of communities worldwide.

The Gospel of Climate Skepticism

John Wesley boasted that he was a “man of one book,” but he was also a thoughtful student throughout his life and an author of many books. As breath gives life, John Wesley inhaled and exhaled the words of Scripture, shaping his thoughts, beliefs, feelings, and behavior. And like our eighteenth-century ancestor, the Bible is central to us for continued faith formation. In this invitation to Scripture, the general editor of the Wesley Study Bible and biblical scholar, Dr. Joel Green, summarizes Wesley's understanding of key themes and topics of key books of the New Testament. Using brief excerpts from Wesley's writings (in updated language), Dr. Green explains the importance of Wesley's thinking as it directly applies to everyday life and faithful practice. Each chapter ends with questions suitable for private devotion or group settings, to help you apply your study to daily living. This book will be your trusted companion to the Wesley Study Bible as you love God with a warmed heart and serve God with active hands.

The Spirit over the Earth

Now a modern classic, Michael Green's *Evangelism in the Early Church* shows how the first Christians worked to spread the good news to the rest of the world. Studying the New Testament and church fathers, Green explores the earliest methods, motives, and strategies of spreading the good news. He also considers the obstacles to evangelism, using outreach to Gentiles and to Jews as examples of differing contexts for proclamation. Thoroughly informed by primary sources, this book will help contemporary readers learn from the past and renew their own evangelistic vision.

Reading Scripture as Wesleyans

Will you be baptized? Or swept away? Today, many Christians are disillusioned by the empty promises of dry religion. They long for an authentic, biblical transformation in their lives, but have yet to encounter a faith that works. Jessi Green has witnessed the Holy Spirit transform the lives of thousands of hungry souls who were willing to abandon dead faith and seek out true revival. In *Saturate*, revivalist and evangelist, Jessi Green offers a prophetic forecast of the coming flood of the Holy Spirit, helping you break free of dry religion and immerse yourself in the saturating presence of God. *Saturate* was birthed by a prophetic vision where Jessi saw seven waves of judgment, deliverance, and power crash over the nation. How you respond to this tsunami will determine your eternal destiny! The coming waves include... Separation of the Wheat and Tares where God's revival remnant will rise up. A Prophetic Showdown between witchcraft and God. Resurrection of the Unborn as God raises up a "Life Movement" that will sweep the nation. National Repentance revealing hidden sins in the church and nation. False prophets exposed as the Lord cleanses His house. ...and more. Don't settle for lifeless, status quo religion. Will you be baptized in this prophetic outpouring, or be swept away by the Holy flood?

Evangelism in the Early Church

We have been shockingly bad at using our Bibles and our brains when it comes to conservation and the environment. Unhinged environmentalism is not the answer, but neither are ignorance and apathy. It's time for something different. ÿChristian responsibility for the natural world goes back to the very beginning, when God commanded us to "fill the earth and subdue it." This Dominion Mandate is an authoritative alternative to both environmental activists and to those who think "conservation" is a word progressives made up. So what does "dominion" mean for us, living in a world of constant reports about impending global meltdown; of oils spills, pollution, and strip-mining; of extinction threats both real and imagined? *A Different Shade of Green* contains a compelling Christian approach to biodiversity, life cycles, and the environment, offering solutions and correcting errors while teaching us how to give thanks for and rule over all of creation.

Saturate

Though the global center of Christianity has been shifting south and east for decades, very few biblical and theological resources have dealt with the seismic changes afoot. The Majority World Theology series seeks to remedy that lack by gathering well-regarded Christian thinkers from around the world to discuss the significance of Christian teaching in their respective contexts. This textbook series introduces students and scholars to these enlightening developments from the Majority World. In *So Great a Salvation* nine scholars from the global church reflect deeply on soteriology in the Majority World. For many Christians outside Europe and North America, the doctrine of salvation is not a mere theological construct but, rather, a matter of life and death. Taking African, Asian, Latin American, and First Nations cultural contexts into account, this book allows readers to see God's creative deliverance in a fresh light. CONTRIBUTORS: Milton Acosta (Colombian) Ray Aldred (Cree) Sung Wook Chung (Korean American) Rosinah Mmannana Gabaitse (Botswanan) Elaine W. F. Goh (Malaysian Chinese) Emily J. Choge Kerama (Kenyan) Jules A. Mart nez-Olivieri (Puerto Rican) Daniel J. Treier (American) K. K. Yeo (Chinese American)

A Different Shade of Green: A Biblical Approach to Environmentalism and the Dominion Mandate

"God Crucified" and Other Essays on the New Testament's Christology of Divine Identity The basic thesis of this important book on New Testament Christology, sketched in the first essay 'God Crucified', is that the worship of Jesus as God was seen by the early Christians as compatible with their Jewish monotheism. Jesus was thought to participate in the divine identity of the one God of Israel. The other chapters provide more detailed support for, and an expansion of, this basic thesis. Readers will find not only the full text of Bauckham's classic book *God Crucified*, but also groundbreaking essays, some of which have never been published previously

So Great a Salvation

Includes section "Book reviews."

Jesus and the God of Israel

Old Creation, New Creation Do all religions say the same thing? With contemporary thought as the forerunner, William Green engages the question. Title digs deep into the cultural, spiritual, and theological phenomena of this current age. New Age spiritualism, Eastern religious influence, and counter-cultural practices work to define the contemporary age. Green incorporates these budding ideas and delves into the timeless debates surrounding Christianity's role in a rainbow of religion. Separated into two creations, the Old and the New, Green philosophically and practically proves Christianity to be in a world of its own. Culturally respectful and intelligently wrought, title sheds new light on the Christian faith. William J. Green writes from the perspective and understanding of one who knows the mindset, the goal and the achievement of the non-Christian spiritual quest. In the wake of the great counter-culture era of his generation Green spent years in this personal journey before embracing Jesus Christ as Lord and Savior. After more years seeking the Holy presence that quickens the lives of the Lord's own, and not without a series of humbling and comical experiences, Green was blessed by the Holy Spirit in a manner that clarified the difference between the religions of man and the revelation of God. Green's work, Old Creation, New Creation, is the result of that infilling and his reflections on the New Age mindset which he formerly embraced.

The New World

We've all heard the rationale: "It doesn't matter what you believe as long as you're sincere." Or "All religions are pretty much the same." But are they the same? Does it matter which one you follow? In this insightful and compelling book, Michael Green invites readers into a relationship with Jesus Christ, the divine revelation and only pathway to the one true God. In a conversational style geared toward nonbelievers, Green compares Christianity, Buddhism, Islam, and other religions to help spiritual seekers navigate the multi-faith maze. "But Don't All Religions Lead to God?" is an ideal reference and evangelism tool for churches and individual Christians as well. It offers scriptural references, looks at how divergent religious traditions view salvation and eternity, and answers difficult questions such as "What about people who have never heard of Jesus?" and "How should Christians regard other religions?" In the midst of our pluralistic and tolerant culture, here is an important and convincing argument for faith in Jesus-the only great teacher whose death and resurrection provided grace, forgiveness, and an eternity in the presence of God.

New Age Or New Creation

"The cross is too important a matter to be left to the theologians. If it is true that God almighty was in Christ redeeming the world on Calvary, then we need to understand what that cross can mean for ordinary individuals and communities." With this conviction, Green reexamines the question of atonement. Why did Jesus have to die? How could a loving God allow his son to suffer? And what role does the resurrection play in this divine drama? Rooting his discussion in Scripture, Green opens up the meaning of Easter in an easy, nontechnical style. The empty cross of Jesus liberates the theologian, inspires the preacher, comforts the counselor, and fortifies every disciple for a life of self-sacrifice.

But Don't All Religions Lead to God?

The Empty Cross of Jesus
