What Predicts Profits

The Number One Predictor of Profits in an Organization

Customer Loyalty Is Affected by Satisfaction

And the Number One Thing Employees Took Aim at Was Their Performance Appraisal System Said Once a Year It Doesn't Necessarily Work It Turns into Just People Lobbying To Get the Right Rating the Feedbacks Not All That Perfective and so They Did Away with It and Replaced It with a System They Took All the Hours That Manages the Senior Leaders Were Spending Doing this Paperwork and They Taught Them How To Coach They Replaced It with a System They Called Check-Ins Checking Is Really Simple What I Love about Check-Ins Is Even if You Can't Change Whatever Performance Appraisal System You'Re Using You Can Layer It on Top of that System and Make the Performance Appraisal More Effective As Well

And So They Did Away with It and Replaced It with a System They Took All the Hours That Manages the Senior Leaders Were Spending Doing this Paperwork and They Taught Them How To Coach They Replaced It with a System They Called Check-Ins Checking Is Really Simple What I Love about Check-Ins Is Even if You Can't Change Whatever Performance Appraisal System You'Re Using You Can Layer It on Top of that System and Make the Performance Appraisal More Effective As Well so a Check-In Works like this It's any Informal

It's Free As Long as You're Having this Conversation about Expectations Feedback and Growth and Development You're Providing People a Hugely Motivating Process while Also Providing Them the Feedback They Need To Improve Performance and So When Adobe Implemented this System They Saw Dramatic Increases in Morale They Saw Decreases Employee Quitting but I Love this One Increases and Involuntary Departures in Other Words Whole Foods Voting People off the Island Right in Voluntary Departures Means Inviting Someone To Be Successful Somewhere Else on an Annual System You Could Slack Off for like 11 Months and We Wouldn't Catch It

Right When We Talk about an Annual Review We're Talking about Giving Someone Feedback on How They're Doing from 12 Months Ago or 11 Months Ago or What Happens Far More Often from the Last Three Months but Pretending It's from a Year Ago It's Not a Close Enough Perspective To Really Give People the Feedback They Need To Improve Their Performance It's Kind Of like Imagine Playing like the First Half of a Football Game and Then Reading the the Not Knowing the Score at the End of the Half till like Next Week How Do You Make Changes Mid-Flight How Do You You Know Come Back from 21 Points into the Greatest Comeback in Super Bowl History Really no One's a Pats Fan

Now We Use a Learning Management System That Keeps a Real-Time Updated Grade on How You're Doing that You Could Just Keep Checking In and You Take that this Generation That's Grown Up Getting Constant Feedback and You Plug Them into a System That Gives It to Them once a Year How's that Working for You It's Not GonNa Work Very Well and So whether You Can whether You Abandon and Pull an Adobe and Abandon the System or whether You Take Responsibility for Sort of Your Team and Go Look I Can't Change the System but What I Can Do Is Commit to Starting To Have these Check-Ins Expectations Feedback Growth and Development Conversations with All My People Then at the End of a Year When You Have To Do that Annual Review Nothing Is a Surprise If You Find Someone Who Would Be a Good Fit for Accenture Will Still Pay You a Couple Grand if We End Up Hiring Them Which Makes Perfect Sense because You Know Exactly What a Good Fit at Accenture Looks like and Now You're Swimming in a Sea of People Who Don't Work for Us so You're GonNa Have More People Who Might Be Prospective Employees It's a Brilliant Idea There's Real Value in Celebrating Departures and Making Sure that Farewells Don't Become a Mirror See You Later You Might Not Be Able To Create an Entire Alumni Network

This Point We've Covered a Lot of Different Information We've Covered a Lot of Different Trends and I Believe some of Them Represent the Future of Work the Future Is Already Here It's Just Not Evenly Dispersed if There's an Industry and a Sector That Knows this Right the Future Is Not Already Here It's Just Not Evenly Dispersed It's Us Right and When I Think about this One of the Dominant Questions We Get Often Is Why Do I Have To Do this Why Do I Have To Close Open Offices Abandon Performance Appraisals Why Do I Have To Hire as a Team What We're Doing Now Is Working I Hear this a Lot and I Respond the Same Way every Time My Mind Goes to the Internal Combustion Engine Six Pixels of Separation #505 - Under New Management With David Burkus - Six Pixels of Separation #505 - Under New Management With David Burkus by Six Pixels of Separation 11 views 7 years ago 52 minutes - Welcome to episode #505 of Six Pixels Of Separation - The Mirum Podcast.
