Nobody Cares and What I Did about It! the Red Wemette Story of the Chicago Outfit

If you have ever wanted to see what it is like to live on the wild side-all from the safety and security of your own armchair-then Nobody Cares and What I Did About It! The Red Wemette Story of The Chicago Outfit is for you. It is a veritable proof that truth is sometimes stranger than fiction! A fascinating, firsthand account of events in the life and times of William "Red" Wemette-the longest Organized Crime undercover informant [other than for espionage] for the FBI in U.S. History who spent eighteen years as an FBI mole. This book details how he did what he did, and why. It also settles, once and for all, the question of whether he is an actual person rather than a contrived governmental construct, as some federal agents believed. Take a look through the eyes of a man who has lived the life that most people can hardly imagine. He details his firsthand interactions with hitmen, murderers, thieves, and extortionists [from both sides of the law] in a never-before revealed series of stories that share insights and historical perspectives on the colorful excursions of the Chicago Mafia-more accurately known as "The Outfit." Intriguing details of his role in the Family Secret's Trial, the take down of one of the Outfit's most feared, nationwide hitmen, Frank Schweihs, and the forty-year-old triple homicide that sparked Cold Case files in Cook County and throughout the U.S. This book is a must-have for law enforcement officers, lawyers, politicians, historians, or anyone who wants the truth behind the Hollywood hype found in the many movies or books that cover "The Chicago Way" of doing business across the country."

Nobody Cares and What I Did about It

Recounts the life and criminal career of Frank Cullotta who became an FBI informant and entered the Witness Protection Program.

Cullotta

Provides readers with an understanding of organized crime, including its definition and causes, how it is categorized under the law, models to explain its persistence, and the criminal justice response to organized crime, including investigation, prosecution, defense, and sentencing.

Organized Crime in Our Times

The true story of an untrained undercover agent and America's biggest corruption bust.

The Dedham Historical Register

Catherine Slaney grew into womanhood unaware of her celebrated Black ancestors. An unanticipated meeting was to change her life. Her great-grandfather was Dr. Anderson Abbott, the first Canadian-born Black to graduate from medical school in Toronto in 1861. In Family Secrets Catherine Slaney narrates her journey along the trail of her family tree, back through the era of slavery and the plight of fugitive slaves, the Civil War, the Elgin settlement near Chatham, Ontario, and the Chicago years. Why did some of her family identify with the Black Community while others did not? What role did "passing" play?

Personal anecdotes and excerpts from archival Abbott family papers enliven the historical context of this compelling account of a family dealing with an unknown past. A welcome addition to African-Canadian history, this moving and uplifting story demonstrates that understanding one's identity requires first the embracing of the past. "When Catherine Slaney first consulted me, her intention was to research the life of her distinguished ancestor Anderson R. Abbott. After she told me her story of the discovery of her African heritage and the search for her roots, I urged her to make that the subject of her book. Cathy has served both of these objectives, giving us an intricate and fascinating account of her quest for her own lost identity through the gradual illumination of Dr. Abbott and his legacy for modern Canadians. Family Secrets carries an important message about the issue of 'race' as a historical artifact and as a factor in the lives of real people." – James W. St. G. Walker, University of Waterloo "This is a welcome addition to the growing collection of African-Canadian materials that connects an unknown past to a promising future. That Slaney was unaware of her Black ancestry, despite that heritage being so rich and powerful, speaks to the dilemma of Black history research – it is there but requires considerable digging to uncover." – Rosemary Sadlier, President, Ontario Black History Society

Operation Greylord

Step into Chicago during the 1960s and '70s, where mobsters influence everyone from strip-club owners to Teamsters, aldermen, judges, and local police. It is a world where good men are corrupted by the irresistible lure of money and power, and families are shattered by lies, violence, and tragedy. Danny Seifert, a street-smart and ambitious young man, follows his father's example in his efforts to provide a good, comfortable life for his wife and children. Soon, however, his path leads him toward the dark heart of the Mob. His career choices eventually bring him to a point where he must choose between loyalty to the Mob and probable prison time, or coming clean to the FBI, testifying against Mob leaders and risking retaliation to himself and his family. He chooses the latter, which ultimately leads to his murder and decades of living in fear for his widow, Emma, and their children. As they grow into men, Danny's sons, Joe and Nick, take it upon themselves to find the man responsible for their father's death and make him pay. In seeking retribution for Danny, will they also succumb to lives of crime, or will they follow the high road of law and justice all the way to the Family Secrets trial in 2007, one of the largest Mob trials in history? Find out in *Deadly Associates*, a meticulously researched and poignantly personal story of one family's life inside and outside the Chicago Mob.

Organized Crime in America

Bold and inventive in style, *City of Night* is the groundbreaking 1960s novel about male prostitution. Rechy is unflinching in his portrayal of one hustling 'youngman' and his search for self-knowledge among the other denizens of his neon-lit world. As the narrator moves from Texas to Times Square and then on to the French Quarter of New Orleans, Rechy delivers a portrait of the edges of America that has lost none of its power. On his travels, the nameless narrator meets a collection of unforgettable characters, from vice cops to guilt-ridden married men eaten up by desire, to Lance O'Hara, once Hollywood's biggest star. Rechy describes this world with candour and understanding in a prose that is highly personal and vividly descriptive.

Family Secrets

These are stories you won't read about in the Chicago guide books or travel brochures. Examine Justice Department transcripts involving mobsters and their victims. Meet some of Chicago's legendary characters. Listen in on high class hookers and escorts telling their secrets. Try to solve some of Chicago's most fascinating mysteries. Read about who gets the gravy and who doesn't in a TV newsroom. John Drummond takes you with him as he gets his story -- stories that are sometimes hilarious, sometimes brutal, sometimes poignant, and always fascinating. Book jacket.

Deadly Associates

The chilling true story of how the son of the most violent mobster in Chicago helped bring down the last great American crime syndicate: the one-hundred-year-old Chicago Outfit. In *Operation Family Secrets*, Frank Calabrese, Jr. reveals for the first time the outfit's "made" ceremony and describes being put to work alongside his father and uncle in loan sharking, gambling, labor racketeering, and extortion. As members of the outfit, they plotted the slaying of a fellow gangster, committed the bombing murder of a trucking executive, the gangland execution of two mobsters—whose burial in an Indiana cornfield was reenacted in Martin Scorsese's blockbuster film *Casino*—and numerous other hits. The

Calabrese Crew's colossal earnings and extreme ruthlessness made them both a dreaded criminal gang and the object of an intense FBI inquiry. When Frank Jr., his father, and Uncle Nick are convicted on racketeering violations, "Junior" and "Senior" are sent to the same federal penitentiary in Michigan. It's there that Frank Jr. makes the life-changing decision to go straight. But he needs to keep his father behind bars in order to regain control of his life and save his family. So Frank Jr. makes a secret deal with prosecutors, and for six months—unmonitored and unprotected—he wears a wire as his father recounts decades of hideous crimes. Frank Jr.'s cooperation with the FBI for virtually no monetary gain or special privileges helped create the government's "Operation Family Secrets" campaign against the Chicago outfit, which reopened eighteen unsolved murders, implicated twelve La Cosa Nostra soldiers and two outfit bosses, and became one of the largest organized crime cases in U.S. history. Operation Family Secrets intimately portrays how organized crime rots a family from the inside out while detailing Frank Jr.'s deadly prison-yard mission, the FBI's landmark investigation, and the U.S. attorney's office's daring prosecution of America's most dangerous criminal organization.

City of Night

The Chicago organized crime family known as the 'Outfit' dates back to the reign of the infamous Al Capone and prohibition. As the years passed and prohibition was repealed, Outfit bosses had to adapt and seek new ways to make money illegally. One of those was the expanding gambling and entertainment oasis in the desert: Las Vegas. A lot of cash passed through the Vegas casinos and the mobsters devised a way to get some of it, using a process that came to be known as 'the skim.' To protect their interests, the Outfit sent an enforcer to Sin City in 1971. He was to make sure their casino operations ran smoothly and deal with interlopers, employees who were skimming the skim and other troublemakers, by any means necessary. His name was Tony Spilotro. To help him run his empire Tony imported several heavies from Chicago. Among them was his childhood friend Frank Cullotta, who would function as Tony's street lieutenant. His assignment was to assemble a crew of thieves, arsonists and killers to provide muscle for Tony as necessary, and carry out lucrative burglaries that Tony brought to their attention. Frank and his crew were dubbed by the news media as the Hole in the Wall Gang. The Spilotro era in Vegas was dramatized in the 1995 blockbuster movie Casino, in which Joe Pesci played a character based on Spilotro. Character actor Frank Vincent played 'Frankie' based on Frank Cullotta. The real Frank Cullotta was a technical consultant to the film and appeared in several scenes as a hit man. As screenwriter Nick Pileggi said, 'Without Frank Cullotta there would have been no Casino.' In 'The Rise and Fall' of Tony Spilotro, Frank tells the true story of Tony Spilotro, his rise up the ladder to become an Outfit boss, his subsequent fall from power and murder at the hands of the Outfit. Frank also talks about the many murders Tony committed, ordered or planned. In several instances Frank names the killers in cases that are officially unsolved. It's a story that only Frank Cullotta could tell.

The hotel workers and local tradespeople rush to prepare the small town for the influx of vacationers. But just as the season is getting into full swing, a small note appears on a municipal notice board: the Sanitation Department is announcing an increase in its jurisdiction. No one knows what the Sanitation Department is, but no matter – the festival carries on. Soon inspectors are spread all over town, bringing estrangement, suspicion and mistrust wherever they go. Meanwhile, the guests carry on pursuing their pleasures and the townspeople attend to their troubles. Then another announcement appears: all Jews must register with the Sanitation Department. An allegory, satire and fable all in one, Badenheim 1939 is a story of denial and normalisation, masterfully creating an atmosphere of impending dread and

Reeve Lindbergh, daughter of aviator-authors Charles A. and Anne Morrow Lindbergh, writes about the intersection of fame and privacy from her unique perspective, as the spokesperson for the arguably most famous family of the twentieth century. In her new book, Lindbergh reflects on her own *Two Lives*, navigating her role as the public face of her family while, at the same time, leading a very quiet existence in rural Vermont. After devoting years to keeping separate her Lindbergh life and her everyday life on her farm, she now finds herself able to make peace with her two lives. Lindbergh takes us into the National Air and Space Museum and her own kitchen drawers with equal ease, discovering that the history-making items on display are, for her, like the memorabilia that most families keep in the attic. *Two Lives* reconciles the seemingly separate worlds of fame and privacy, even finding a certain sweetness when they intersect.

"[A] tender, funny, terrific new play. . . . Mr. Eno's voice, which teases out the poetry in the pedestrian and finds glinting humor in the static that infuses our faltering efforts to communicate, is as distinctive as any American playwright's today."The New York Times "Weird and wonderful . . . Eno's familiar sudden-shifting between profound and playful verbiage is delightfully disarming and sometimes awfully funny."Variety Plays as funny and moving, as wonderful and weird as The Realistic Joneses do not appear often on Broadway. Or ever, really. Mr. Eno's voice may be the most singular of his generation, but it's humane, literate and slyly hilarious. For all the sadness woven into its fabric, The Realistic Joneses brought me a pleasurable rush virtually unmatched by anything I've seen this season."The New York Times As usual, Eno's dialogue is a marvel of compression and tonal control, trivial chitchat flipping into cosmic profundity with striking ease. There's much to savor: the dry but meaningful banter, the joy of humans sharing time and space, battling the darkness with a joke or silence. Life in Enoland isn't what you'd call realistic it's more real than that."Time Out New York [An] elliptical, funny, dark and strangely moving new play. Eno is a writer with heart and compassion."Chicago Tribune Eno's first-ever commercial foray ups the creative ante in a Broadway climate that can be resistant to new voices. [A] very fine play where laughter exists a heartbeat, or heartbreak, away from tears."The Telegraph Meet Bob and Jennifer and their new neighbors John and Pony, two suburban couples who have more in common than their identical last names. Boasting the playwright's quintessential existential quirkiness, this new comedy finds poetry in the banal while humorously exploring our ever-floundering efforts at communication. Listed as one of New York Times's Best Plays of 2012, The Realistic Joneses received its Broadway premiere in spring 2014, starring Toni Collette, Michael C. Hall, Tracy Letts and Marisa

"Doctors heal, or try to, but as nurses we step into the breach, figure out what needs to be done for any given patient today, on this shift, and then, with love and exasperation, do it as best as we can."—from *Critical Care* "At my job, people die," writes Theresa Brown, capturing both the burden and the singular importance of her profession. Brown, a former English professor at Tufts University, chronicles here her first year as an R.N. in medical oncology. As she does so, Brown illuminates the unique role of nurses in health care, giving us a deeply moving portrait of the day-to-day work nurses do: caring for the person who is ill, not just the illness itself. *Critical Care* takes us with Brown as she struggles to tend to her patients' needs, both physical (the rigors of chemotherapy) and emotional (their late-night fears). Along the way, we see the work nurses do to fight for their patients' dignity, in spite of punishing treatments and an often uncaring hospital bureaucracy. We also see how a twelve-hour day of caring for the seriously ill gives Brown herself a deeper appreciation of what it means to be alive. Ultimately, this is a book about embracing life, whether in times of sickness or health. As she takes us into the place where patients and nurses meet, Brown shows us the power of human connection in the face of mortality. She does so with a keen sense of humor and remarkable powers of observation, making *Critical Care* a powerful contribution to the literature of medicine.

Toward a Theory of True Crime Narratives

Toward a Theory of True Crime Narratives vivifies how nonfiction murder stories are told, what role they play in society, and in the form of true crime why they remain enduringly popular internationally on every platform. This book establishes for the first time the actual line—or dotted line—between mainstream journalism and the multimedia phenomena of true crime. Presenting a stable definition of what is—and what is not—true crime will either challenge or justify Truman Capote's claims regarding the creation of a "new journalism" with *In Cold Blood*, and accordingly expose the reluctance of the promoters of NPR's *Serial*, HBO's *The Jinx*, and Netflix's *Making a Murderer* to refer to their products as such. This research codifies true crime texts of various types on multiple platforms—radio, television, print, digital, and film—to reveal the defining characteristics of the genre.

Toward a Theory of True Crime

The mass media genre known as true crime is dismissed often as a more sensational, less reliable iteration of traditional crime journalism. Consumer and editorial confusion exists because there is no overarching criteria determining what is, and what is not, true crime. To that extent, the complete history of true crime's origins and its best practitioners and works cannot be known with any certainty, and its future forms cannot be anticipated. Scholarship is overdue on an effective criteria to determine when nonfiction murder narratives cease to be long-form crime reporting and become something else. Against the backdrop of this long-evolving, multi-faceted literary/documentary genre, the researcher in this exploratory, qualitative study seeks to (a) examine the historical tension between formal journalism and true crime; (b) reveal how traditional journalism both reviles and plunders true crime for its rhetorical treasures; and (c) explain how this has destabilized the meaning of the term - true crime - to the degree that a more substantive understanding needs to be established. Through a textual analysis of the forms and functions of representative artifacts, the researcher will suggest that a Theory of True Crime could be patterned after time-tested analytic codes created for fiction, but structured in a simple two-stage examination that would test for dominant characteristics of established true crime texts.

Deconstructing True Crime Literature

This book provides a critical discussion of True Crime literature, arguing for the deconstruction of the genre into subgenres that better reflect a work's contents. In analysing seminal and lesser-known works, the areas of authenticity, accuracy, and author proximity are considered to form a framework on which an individual publication's subgenre (re)categorisation can be assessed. The book considers the likes of Ann Rule, Truman Capote, and Maggie Nelson, among other notable authors. Their works – those that fit into True Crime and those that defy categorisation within the genre as it exists – are reviewed, and their defining features critiqued. Topics such as narrative methodologies, figurative language, and utilisation of research are considered in support of this. These strands combine to a

larger discussion regarding a deconstruction of True Crime, and the ways in which this will improve the social responsibility of the genre, and encourage a more conscientious consumerism of it.

The New True Crime

How serialized crime shows became an American obsession TV shows and podcasts like *Making a Murderer*, *Serial*, and *Atlanta Monster* have taken the cultural zeitgeist by storm, and contributed to the release of wrongly imprisoned people—such as Adnan Syed. The popularity of these long-form true crime docuseries has sparked greater attention to issues of inequality, power, social class, and structural racism. More and more, the American public is asking, Who is and is not deserving of punishment, and who is and is not protected by the law? In *The New True Crime*, Diana Rickard argues that these new true crime series deserve our attention for what they reveal about our societal understanding of crime and punishment, and for the new light they shine on the inequalities of the criminal justice system. Questioning the finality of verdicts, framing facts as in the eye of the beholder—these new series unmoor our faith in what is knowable, even as, Rickard critically notes, they often blur the lines between “fact” and “fiction.” With a focus on some of the most popular true crime podcasts and streaming series of the last decade, Rickard provides an in-depth analysis of the ways in which this new media—which allows for binge-listening or watching—makes crime into a public spectacle and conveys ideological messages about punishment to its audience. Entertainment values have always been entwined with crime news reporting. Newsworthy stories, Rickard reminds us, need to involve sex, violence, or a famous person, and contain events that can be framed in terms of individualism and conservative ideologies about crime. Even as these old tropes of innocent victims and deviant bad guys still dominate these docuseries, Rickard also unpacks how the new true crime has been influenced by the innocence movement, a diverse group of organizers and activists, be they journalists, lawyers, formerly incarcerated people, or family members, who now have a place in mainstream consciousness as DNA evidence exonerates the wrongly convicted. *The New True Crime* questions the knowability of truth and probes our anxieties about the “real” nature of true crime media. For fans of true crime shows and anyone concerned about justice in America, this book will prove to be essential reading.

Podcast Journalism

Podcasting's stratospheric rise has inspired a new breed of audio reporting. Offering immersive storytelling for a binge-listening audience as well as reaching previously underserved communities, podcasts have become journalism's most rapidly growing digital genre, buoying a beleaguered news industry. Yet many concerns have been raised about this new medium, such as the potential for disinformation, the influence of sponsors on content, the dominance of a few publishers and platforms, and at-times questionable adherence to journalistic principles. David O. Dowling critically examines how podcasting and its evolving conventions are transforming reporting—and even reshaping journalism's core functions and identity. He considers podcast reporting's most influential achievements as well as its most consequential ethical and journalistic shortcomings, emphasizing the reciprocal influences between podcasting and traditional and digital journalism. Podcasting, both as a medium and a business, has benefited from the blurring of boundaries separating news from entertainment, editorial from advertising, and neutrality from subjectivity. The same qualities and forces that have allowed podcasting to bypass the limitations of traditional categories, expand the space of social and political discourse, and provide openings for marginalized voices have also permitted corporations to extend their reach and far-right firebrands to increase their influence. Equally attentive to the medium's strengths and flaws, this is a vital book for all readers interested in how podcasting has changed journalism.

True Crime in American Media

This book explores contemporary American true crime narratives across various media formats. It dissects the popularity of true crime and the effects, both positive and negative, this popularity has on perceptions of crime and the justice system in contemporary America. As a collection of new scholarship on the development, scope, and character of true crime in twenty-first century American media, analyses stretch across film, streaming/broadcast TV, podcasts, and novels to explore the variety of ways true crime pervades modern culture. The reader is guided through a series of interconnected topics, starting with an examination of the contemporary success of true crime, the platforms involved, the narrative structures and engagement with audiences, moving on to debates on representation and

the ethics involved in portraying both victims and perpetrators of crime within the genre. This collection provides new critical work on American true crime media for all interested readers, and especially scholars and students in the humanities and social sciences. It offers a significant area of research in social sciences, criminology, media, and English Literature academic disciplines.

Entertainment, Journalism, and Advocacy

This book explores the exponential growth of true crime podcasting and its effects on the growth of criminal justice reform advocacy in the United States. Sherrill argues that true crime podcasts exist as hybrid organizations with multiple goals, including entertainment, criminal justice reform advocacy, and journalistic inquiry.

The (Mis)Representation of Queer Lives in True Crime

This book examines the representation and misrepresentation of queer people in true crime, addressing their status as both victims and perpetrators in actual crime, as well as how the media portrays them. The chapters apply an intersectional perspective in examining criminal cases involving LGBTQ people, as well as the true crime media content surrounding the cases. The book illuminates how sexual orientation, gender, race, and other social locations impact the treatment of queer people in the criminal legal system and the mass media. Each chapter describes one or more high-profile criminal cases involving queer people (e.g., the murders of Brandon Teena and Kitty Genovese; serial killer Aileen Wuornos; the Pulse nightclub mass shooting). The authors examine how the cases are portrayed in the media via news, films, podcasts, documentaries, books, social media, and more. Each chapter discusses not only what is visible or emphasized by the media but also what is invisible in the accounting or societal focus surrounding the case. Lesser-known (but similar) cases are used in the book to call attention to how race, gender, sexuality, sexual orientation, social class, and/or other features influence the dominant narrative surrounding these cases. Each chapter addresses "teachable moments" from each case and its coverage, leaving readers with several considerations to take with them into the future. The book also provides media resources and supplemental materials so that curious readers, including scholars, students, content creators, and advocates, can examine the cases and media content further. The book will appeal to scholars and students of criminology, psychology, sociology, law, media studies, sexuality studies, and cultural studies, and people with an interest in true crime.

Narratives of Guilt and Innocence

Illustrates how the power of narrative influences how police, prosecutors, juries, and judges construct legal reality Wrongful convictions have been studied primarily through the lenses of law, psychology, and the social sciences. Though scholarship has established canonical factors that help explain why the innocent are convicted, a very simple question has not been answered: How is it possible that prosecutors can convince juries and themselves of the guilt of an innocent defendant, often even against strong exculpatory evidence? Narratives of Guilt and Innocence seeks to address this crucial question by highlighting the narrative blueprint of a given criminal justice system and then how the power of narrative influences how police, prosecutors, juries, and judges construct legal reality and the evidence for it. That law and storytelling are connected is a common trope, but we know surprisingly little about the intricate role storytelling plays in criminal cases and wrongful convictions in particular. This book questions the effectiveness of the adversarial contest between prosecutor and defense as a means to arrive at the truth and argues that narrative is an important factor in the construction of legal reality. Wrongful convictions exemplify that narrative and truth have an uncomfortable relationship. Ralph Grunewald provides a retelling and reading of well-known miscarriages of justice, including the best-known wrongful conviction in Germany. Applying a comparative perspective shows that the narrative desire as a human trait has a universal power with a persistence that transcends the regulatory and procedural setup of a given system. Narratives of Guilt and Innocence puts wrongful convictions into an interdisciplinary and comparative context and vividly demonstrates just how much the process of storytelling affects legal reality.

Death in Old Mexico

In a Mexico City mansion on October 23, 1789, Don Joaquín Dongo and ten of his employees were brutally murdered by three killers armed with machetes. Investigators worked tirelessly to find the perpetrators, who were publicly executed two weeks later. Labelled the 'crime of the century,' these events and their aftermath have intrigued writers of fiction and nonfiction for over two centuries. Using

a vast range of sources, Nicole von Germeten recreates a paper trail of Enlightenment-era greed and savagery, and highlights how the violence of the Mexican judiciary echoed the acts of the murderers. The Spanish government conducted dozens of executions in Mexico City's central square in this era, revealing how European imperialism in the Americas influenced perceptions of violence and how it was tolerated, encouraged, or suppressed. An evocative history, *Death in Old Mexico* provides a compelling new perspective on late colonial Mexico City.

Representing Gender-Based Violence

This book focuses on the politics, ethics and stereotypical pitfalls of representational practices surrounding Gender-Based Violence (GBV) from a global perspective. The originality of the volume is linked to its cross-disciplinary perspective as the topic of representing GBV is analyzed across the domains of philosophy/epistemology, fiction and the arts (including literature, film, television series and music) and non-fictional representations in the media (including broadcast media, online/print journalism, transmedia activism). The volume identifies contemporary representational practices and the theoretical and critical responses, examining various aspects of popular culture from around the world. In doing so, the editors put feminism in conversation with global trends to identify its cultural frontline. The volume will appeal to scholars working on gender and violence from diverse fields.

The Routledge Handbook of Crime Fiction and Ecology

The Routledge Handbook of Crime Fiction and Ecology is the first comprehensive examination of crime fiction and ecocriticism. Across 33 innovative chapters from leading international scholars, this Handbook considers an emergent field of contemporary crime narratives that are actively responding to a diverse assemblage of global environmental concerns, whilst also opening up 'classic' crime fictions and writers to new ecocritical perspectives. Rigorously engaged with cutting-edge critical trends, it places the familiar staples of crime fiction scholarship – from thematic to formal approaches – in conversation with a number of urgent ecological theories and ideas, covering subjects such as environmental security, environmental justice, slow violence, ecofeminism and animal studies. The Routledge Handbook of Crime Fiction and Ecology is an essential introduction to this new and dynamic research field for both students and scholars alike.

Journalism and Crime

Through a critical, transdisciplinary approach, *Journalism and Crime* offers a chronological interrogation of crime journalism from its first origins in 16th century print, to a transatlantic phenomenon in the 19th century and through to the complex networked digital spheres of the current day. This is the first book to historicise the development of journalism and crime together in relation to the people on both sides of the exchange. Taking a 470-year historical sweep, it tracks the cultural, political and social significance of crime journalism and its place as the longest sustained genre of media. It emphasises how crime journalism both reflects and drives shifts in media ownership, the priorities of profit, use of new technologies and legal and political governance. Written in an accessible style, this is essential reading for courses that consider the development and nature of journalism as well as supplementary reading for broader courses within journalism, communication, media studies, criminology, sociology and history.

Understanding Victimology

Understanding Victimology: An Active Learning Approach is the only textbook with extensive discussion of both online and offline victimization reinforced by group and individual learning activities. Our textbook offers instructors a variety of active learning exercises – in the book itself and in the authors' ancillaries – that engage students in the material and shed light on the experiences of marginalized social groups. Through these activities, students become engaged with the material at a higher level of learning. They learn how victimization happens and the challenges people who experience crime face in acquiring assistance from the criminal-legal system at a more intimate level instead of simply reading about it. Students also build their abilities to work with others in a collaborative learning environment, encouraging professional socialization for the future. The chapters in this second edition address gaps in information typically presented in victimology that ignore prevention or intervention, even though these topics are currently at the forefront of the national conversation going on about sexual violence in higher education. New to this edition are added coverage of immigrants and minorities and new chapters on the media and victimization and on victimization across the gender spectrum, as well as an

online instructor resource covering UK case studies, legal framework, and social context that broadens the book's global appeal. Suitable for undergraduate courses in victimology, this book also serves the needs of sociology and women's studies courses and can be taught university-wide as part of diversity and inclusion initiatives.

Language, Ideology and Identity in Serial Killer Narratives

In this book, Gregoriou explores the portrayal of the serial killer identity and its related ideology across a range of contemporary crime narratives, including detective fiction, the true crime genre and media journalism. How exactly is the serial killer consciousness portrayed, how is the killing linguistically justified, and how distinguishing is the language revolving around criminal ideology and identity across these narrative genres? By employing linguistic and content-related methods of analysis, her study aims to work toward the development of a stylistic framework on the representation of serial killer ideology across factual (i.e. media texts), factional (i.e. true crime books) and fictional (i.e. novels) murder narratives. 'Schema' is a term commonly used to refer to organised bundles of knowledge in our brains, which are activated once we come across situations we have previously experienced, a 'group schema' being one such inventory shared by many. By analysing serial murder narratives across various genres, Gregoriou uncovers a widely shared 'group schema' for these murderers, and questions the extent to which real criminal minds are in fact linguistically fictionalised. Gregoriou's study of the mental functioning and representation of criminal personas can help illuminate our schematic understanding of actual criminal minds.

Television by Stream

Online television streaming has radically changed the ways in which programs are produced, disseminated and watched. While the market is largely globalized with some platforms streaming in multiple countries, audiences are fragmented, due to a large number of choices and often solitary viewing. However, streaming gives new life to old series and innovates conventions in genre, narrative and characterization. This edited collection is dedicated to the study of the streaming platforms and the future of television. It includes a plethora of carefully organized and similarly structured chapters in order to provide in-depth yet easily accessible readings of major changes in television. Enriching a growing body of literature on the future of television, essays thoroughly assess the effects new television media have on institutions, audiences and content.

Other Girls to Burn

Sponsored by the Communication, Information Technologies, and Media Sociology section of the American Sociological Association (CITAMS), this volume features social science research that examines the practices, patterns and messages related to representations of crime in mass media around the world.

Mass Mediated Representations of Crime and Criminality

This book posits an interconnection between the ways in which contemporary television serials cue cognitive operations, solicit emotional responses, and elicit aesthetic appreciation. The chapters explore a number of questions including: How do the particularities of form and style in contemporary serial television engage us cognitively, emotionally, and aesthetically? How do they foster cognitive and emotional effects such as feeling suspense, anticipation, surprise, satisfaction, and disappointment? Why and how do we value some serials while disliking others? What is it about the particularities of serial television form and style, in conjunction with our common cognitive, emotional, and aesthetic capacities, that accounts for serial television's cognitive, socio-political, and aesthetic value and its current ubiquity in popular culture? This book will appeal to postgraduates and scholars working in television studies as well as film studies, cognitive media theory, media psychology, and the philosophy of art.

Cognition, Emotion, and Aesthetics in Contemporary Serial Television

This book explores the recent surge in true crime by critically exploring how murder and violence are represented in documentaries, films, podcasts, museums, novels and in the press, and the effects. From a range of contributors, it touches on a wide variety of topics overall and illustrates how examining true crime across the changing popular media landscape can contribute to important debates in

contemporary culture and society. It encourages a critical eye towards understanding the harmful stereotypes, myths and misinformation that popular media can bring. Arranged around four sections, including: true crime trials, representations of victims, the consumption of serial killer narratives, and true crime spaces, each chapter explores different themes and topics across traditional and newer media. These topics include: emotion and appeals for justice in *Making a Murderer*, #MeToo and misogyny in crime narratives, true crime journalism being exploitative, the ethics of consuming dark tourism and the appetite for true crime, live streamed murder, and the ways in which true murder accounts might lend insight into other types of crime such as domestic violence and stalking. This book stimulates discussion on courses in crime, media and culture as well as in film and media studies, and it also speaks to those with a general interest in true crime.

Critiquing Violent Crime in the Media

Justice on Demand: True Crime in the Digital Streaming Era offers a theoretical rumination on the question asked in countless blogs and opinion pieces of the last decade: Why are we so obsessed with true crime? Author Tanya Horeck takes this question further: Why is true crime thought to be such a good vehicle for the new modes of viewer/listener engagement favored by online streaming and consumption in the twenty-first century? Examining a range of audiovisual true crime texts, from podcasts such as *Serial* and *My Favorite Murder* to long-form crime documentaries such as *The Jinx* and *Making a Murderer*, Horeck considers the extent to which the true crime genre has come to epitomize participatory media culture where the listener/viewer acts as a "desktop detective" or "internet sleuth." While Facebook and Twitter have re-invigorated the notion of the armchair detective, Horeck questions the rhetoric of interactivity surrounding true crime formats and points to the precarity of justice in the social media era. In a cultural moment in which user-generated videos of real-life violence surface with an alarming frequency, *Justice on Demand* addresses what is at stake in the cultural investment in true crime as packaged mainstream entertainment. Paying close attention to the gendered and racialized dimensions of true crime media, Horeck examines objects that are not commonly considered "true crime," including the subgenre of closed-circuit television (CCTV) elevator assault videos and the popularity of trailers for true crime documentaries on YouTube. By analyzing a range of intriguing case studies, Horeck explores how the audience is affectively imagined, addressed, and commodified by contemporary true crime in an "on demand" mediascape. As a fresh investigation of how contemporary variations of true crime raise significant ethical questions regarding what it means to watch, listen, and "witness" in a digital era of accessibility, immediacy, and instantaneity, *Justice on Demand* will be of interest to film, media, and digital studies scholars.

Religion Online provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization, autonomous religious worship, millennials' affinity for new media, and the rise of fundamentalism in the global south. While other works describe case studies, this book explains how new media are interwoven into the very fabric of religious belief, behavior, and community. Chapters break down the past, present, and projected future of the use of digital media in relation to faith traditions of many varieties, extending from mainline Christianity to new religious movements. The book also examines the impacts of digital media on beliefs and practices around the world. In exploring these subjects, it calls on the study of culture, namely anthropology, to conceptualize a technological period as significant as the industrial revolution.

Religion Online [2 volumes]

This book provides a transversal scholarly exploration of the multiple changes exhibited around Venezuelan media during the Chávez regime. Bringing together a body of original research by key scholars in the field, the book looks at the different processes entailed by Chavismo's relationship with the media, extending their discussion beyond the boundaries of the specific cases or examples and into the entire articulation of a nearly-perfect communicational hegemony. It explores the wide-ranging transformations in the national mediascape, such as how censorship of journalistic endeavors has

impacted news consumption/production in the country to the complexities of Venezuelan filmmaking during Chavismo, from the symbolic postmortem persistence of Chávez to the profound transformations undergone by telenovelas, from the politically induced migration of online audiences to the reinvention of media spaces for cultural journalism as forms of resistance. Allowing readers to engage not only with the particular case studies or exemplars presented, but with the underlying cultural, economic, political, societal, and technical aspects that come into play and which allow the extrapolation of this body of research onto other national or international contexts, this book will be an important resource for scholars and students of journalism, communication, media studies, and politics.

When Media Succumbs to Rising Authoritarianism

This book provides a varied, thorough and informative analysis of how newspapers covered the 2014 Scottish independence referendum in its critical final months. Providing a wealth of new empirical findings, the book engages with the key themes and issues presented by a variety of newspaper outlets. These main observations include: a major focus on the economic aspects of the debate; persistent concerns regarding an independent Scotland's prospects on the world stage, both militarily and strategically; the re-emergence of Gordon Brown as a political heavyweight; and a myopic focus on Alex Salmond, who would come to be framed as personally synonymous with the abstract concept of Scottish independence. The book will be the first point of contact for readers interested in the subject, providing an overview which is meticulously researched, authoritative and engaging, and offering broader insights in the areas of journalism, political communication and media studies.

Front-Page Scotland

This book examines the professional activity of public television journalists in Poland operating in the still unstable system of a post-communist state, to demonstrate how the media can work in the public interest to strengthen democracy. Drawing on in-depth interviews with Telewizja Polska (TVP) journalists, the author shows how public television in Poland has become highly politicised and commercialised, and must defend against constant attacks on its autonomy. She draws parallels with the media systems in Hungary and the Czech Republic to analyse potential legal solutions and to highlight how Poland's journalists are subject to influences from the political class as well as from the market – a situation brought about by flawed legislation, the absence of a political culture, an inefficient internal regulating process, and lack of suitable training for the journalists themselves. Adding an important perspective on recently developed media systems, this book will be an important resource for scholars and students of journalism, media studies, media industries, politics and media history.

Public Television in Poland

True crime is crime fact that looks like crime fiction. It is one of the most popular genres of our pathological public sphere, and an integral part of our contemporary wound culture—a culture, or at least cult, of commiseration. If we cannot gather in the face of anything other than crime, violence, terror, trauma, and the wound, we can at least commiserate. That is, as novelist Chuck Palahniuk writes, we can at least "all [be] miserable together." The "murder leisure industry," its media, and its public: these modern styles of violence and intimacy, sociality and belief, are the subjects of *True Crime: Observations on Violence and Modernity*. *True Crime* draws on and makes available to American readers—and tests out—work on systems theory and media theory (for instance, the transformative work of Niklas Luhmann on social systems and of Friedrich Kittler on the media apriori—work yet to make its impact on the American scene). *True Crime* is at once a study of a minor genre that is a scale model of modern society and a critical introduction to these forms of social and media history and theory. With examples, factual and fictional, of the scene of the crime ranging from Poe to CSI, from the true crime writing of the popular Japanese author Haruki Murakami to versions of "the violence-media complex" in the work of the American novelist Patricia Highsmith and the Argentinian author Juan José Saer, *True Crime* is a penetrating look at modern violence and the modern media and the ties that bind them in contemporary life.

This book describes innovative ways to do research about, and design interventions for, cyberbullying by children and adolescents. It does this by taking a narrative approach. How can narrative research methods complement the mostly quantitative methods (e.g. surveys, experiments,) in cyberbullying research ? And how can stories be used to inform young people about the issue and empower them?

Throughout the book, special attention is paid to new information and communication technologies, and the opportunities ICTs provide for narrative research (e.g. as a source of naturally occurring stories on cyberbullying), and for narrative health interventions (e.g. via Influencers). The book thus integrates research and insights from the fields of cyberbullying, narrative methods, narrative health communication, and new information and communication technologies.

True Crime Narratives

Explores the role of stories in criminal culture and justice systems around the world. Stories are much more than a means of communication—stories help us shape our identities, make sense of the world, and mobilize others to action. In *Narrative Criminology*, prominent scholars from across the academy and around the world examine stories that animate offending. From an examination of how criminals understand certain types of crime to be less moral than others, to how violent offenders and drug users each come to understand or resist their identity as 'criminals', to how cultural narratives motivate genocidal action, the case studies in this book cover a wide array of crimes and justice systems throughout the world. The contributors uncover the narratives at the center of their essays through qualitative interviews, ethnographic fieldwork, and written archives, and they scrutinize narrative structure and meaning by analyzing genres, plots, metaphors, and other components of storytelling. In doing so, they reveal the cognitive, ideological, and institutional mechanisms by which narratives promote harmful action. Finally, they consider how offenders' narratives are linked to and emerge from those of conventional society or specific subcultures. Each chapter reveals important insights and elements for the development of a framework of narrative criminology as an important approach for understanding crime and criminal justice. An unprecedented and landmark collection, *Narrative Criminology* opens the door for an exciting new field of study on the role of stories in motivating and legitimizing harm.

True Crime Unbelievable Cases

A "necessary and brilliant" (NPR) exploration of our cultural fascination with true crime told through four "enthraling" (The New York Times Book Review) narratives of obsession. In *Savage Appetites*, Rachel Monroe links four criminal roles—Detective, Victim, Defender, and Killer—to four true stories about women driven by obsession. From a frustrated and brilliant heiress crafting crime-scene dollhouses to a young woman who became part of a Manson victim's family, from a landscape architect in love with a convicted murderer to a Columbine fangirl who planned her own mass shooting, these women are alternately mesmerizing, horrifying, and sympathetic. A revealing study of women's complicated relationship with true crime and the fear and desire it can inspire, together these stories provide a window into why many women are drawn to crime narratives—even as they also recoil from them. Monroe uses these four cases to trace the history of American crime through the growth of forensic science, the evolving role of victims, the Satanic Panic, the rise of online detectives, and the long shadow of the Columbine shooting. Combining personal narrative, reportage, and a sociological examination of violence and media in the 20th and 21st centuries, *Savage Appetites* is a "corrective to the genre it interrogates" (The New Statesman), scrupulously exploring empathy, justice, and the persistent appeal of crime.

Murder, Myth and Make-believe

For centuries, people have been drawn to true stories of crime and the justice system. But what began primarily as a literary genre focusing on murder has evolved. From docuseries and podcasts to Facebook groups and events such as CrimeCon, modern true crime has become diverse, complex, and interactive. In *Fear, Justice, and Modern True Crime*, Dawn Cecil examines the genre to uncover the messages it conveys. Modern true crime, Cecil argues, has the potential to inform people about crime-related issues and the criminal justice system—but it can also reinforce popular stereotypes. Her work deftly unpacks the impact of true crime stories on our perceptions, our fears, and even the process of justice.

Fear, Justice and Modern True Crime

Dalla serialità post-televisiva ai podcast, il true crime si sta imponendo nel panorama mediatico contemporaneo come genere narrativo di massa. Questo volume indaga le questioni etiche e politiche connesse alla rappresentazione della colpa e del colpevole, alla luce delle trasformazioni linguistiche della nonfiction cinematografica e dell'affermazione commerciale delle docu-serie crime. Quali sono le intenzioni e i problemi del cinema che documenta la colpa criminale? In che modo la nonfiction interagisce e alimenta il dibattito pubblico sulla giustizia? Il libro tenta di rispondere a queste domande, definendo un perimetro interdisciplinare entro il quale analizzare la performatività documentaria in relazione alla pretesa di verità e di giustizia dell'azione testimoniale.
