Reports of Civil and Criminal Cases Decided by the Court of Appeals of Kentucky, 1785-1951

Reprint of the original, first published in 1867.

Reports of Cases Argued and Determined in the Supreme Court of Louisiana. By Merritt M. Robinson. [Oct. 1841-March 1846.]

Sweet Chariot is a pathbreaking analysis of slave families and household composition in the nineteenth-century South. Ann Malone presents a carefully drawn picture of the ways in which slaves were constituted into families and households within a community and shows how and why that organization

changed through the years. Her book, based on massive research, is both a statistical study over time of 155 slave communities in twenty-six Louisiana parishes and a descriptive study of three plantations: Oakland, Petite Anse, and Tiger Island. Malone first provides a regional analysis of family, household, and community organization. Then, drawing on qualitative sources, she discusses patterns in slave family household organization, identifying the most significant ones as well as those that consistently acted as indicators of change. Malone shows that slave community organization strongly reflected where each community was in its own developmental cycle, which in turn was influenced by myriad factors, ranging from impersonal economic conditions to the arbitrary decisions of individual owners. She also projects a statistical model that can be used for comparisons with other populations. The two persistent themes that Malone uncovers are the mutability and yet the constancy of Louisiana slave household organization. She shows that the slave family and its extensions, the slave household and community, were far more diverse and adaptable than previously believed. The real strength of the slave community was its multiplicity of forms, its tolerance for a variety of domestic units and its adaptability. She finds, for example, that the preferred family form consisted of two parents and children but that all types of families and households were accepted as functioning and contributing members of the slave community. "Louisiana slaves had a well-defined and collective vision of the structure that would serve them best and an iron determination to attain it," Malone observes. "But along with this constancy in vision and perseverance was flexibility. Slave domestic forms in Louisiana bent like willows in the wind to keep from shattering. The suppleness of their forms prevented domestic chaos and enabled most slave communities to recover from even serious crises."

General Rules of the Supreme Court of the United States as Revised, Corrected and Adopted January 7th, 1884

The Filson Club History Quarterly, first published in 1926, has long enjoyed a reputation as one of the nation's finest regional historical journals. Over the years it has published excellent essays on virtually every aspect of Kentucky history. Gathered together here for the first time are twenty-eight selections, chosen from the first fifty years of the journal's publication. These essays span the range of Kentucky history and culture from frontier criminals to best sellers by Kentucky women writers, and from Indian place names to twentieth century bank failures. Included among the essayists are Thomas D. Clark, J. Winston Coleman, Jr., Robert E. McDowell, Lowell Harrison, Hambleton Tapp, Julia Neal, Allan M. Trout, and many other well-known authorities on Kentucky history. The editors have arranged these essays into five chronological periods, which include the pioneer era, the antebellum years, the Civil War, the late nineteenth century, and the twentieth century. They have carefully chosen essays that provide a topical diversity within each category. Included in this volume are two brief introductory essays sketching the history of The Filson Club and The Filson Club History Quarterly.
