

bridging the gap an oral health guide for medical personnel

[#oral health for medical personnel](#) [#interprofessional oral care](#) [#healthcare provider education](#) [#systemic-oral health link](#) [#dental-medical integration](#)

This comprehensive guide serves to bridge the crucial knowledge gap, offering essential oral health for medical personnel insights. It highlights the profound systemic-oral health link, empowering healthcare provider education to confidently incorporate foundational oral care principles into daily practice. Fostering true interprofessional oral care, this resource is vital for achieving seamless dental-medical integration and ultimately enhancing overall patient well-being.

Thousands of students rely on our textbook collection to support their coursework and exam preparation.

The authenticity of our documents is always ensured.

Each file is checked to be truly original.

This way, users can feel confident in using it.

Please make the most of this document for your needs.

We will continue to share more useful resources.

Thank you for choosing our service.

This document remains one of the most requested materials in digital libraries online.

By reaching us, you have gained a rare advantage.

The full version of Oral Health Guide Medical Staff is available here, free of charge.

Tooth brushing should be carried out twice a day

Please remember that tooth-brushing takes a full two minutes

Use a small headed medium texture bristles toothbrush, with a small amount of fluoride toothpaste.

Start by tilting the toothbrush against your teeth

Move the brush in small circular movements

Next brush the outer surfaces of each tooth

keeping the bristles angled against the gumline.

Do the same thing for the inside surfaces of all the teeth.

Now brush the biting surfaces of the teeth

To clean the inside surface of the front teeth

gently move the brush longways down the tooth from the gum for a few seconds.

For the lower teeth tilt the brush vertically and pull the toothbrush gently upwards from the gum for a few seconds.

If you eat or drink sweet things, plaque mixes with sugar and causes tooth decay.

Finally, spit out any remaining toothpaste.

Do not rinse the mouth with water, or any kind of mouthwash.

I Spoke Before the U.S. House Judiciary Committee - I Spoke Before the U.S. House Judiciary Committee by Jordan B Peterson 855,036 views 8 days ago 31 minutes - On March 7th, 2024, Dr. Jordan B. Peterson was invited to be an expert witness before the U.S. House Judiciary committee. The hearing comes to order, overview

FBI overreach, and their intended goal

Swearing in Dr. Peterson

Dr. Peterson testifies: "George Orwell could scarcely imagine this"

Question one: will it stop with Conservatives?

Question two: why not embrace AI and the surveillance state for improved safety?

Question three: why did Canada decide that you need more "education?"

Question four: why are the U.S. safeguards on free speech so important?

Question five: should the banks be required to inform their customers when the GOV requests their records?

Question six: can you tell us about the de-banking incidents during the Canadian Freedom Convoy?

Question seven: who are the biggest victims of de-banking?

Question eight: can you explain to what extent citizen's "virtualized selves" will be used by big tech, big gov, and the banks?

Simulation Learning System for Potter: Basic Nursing (User Guide and Access Code)

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course with realistic patient care scenarios and supportive learning resources that correspond to your Lewis: Medical-Surgical Nursing, 8th Edition text. The SLS offers: targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic health record (EHR); skills drills for perfecting your techniques; post-simulation exercises like charting and concept mapping; and review resources such as animations and text references. Using SLS helps bridge the gap between lecture and clinical to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. 51 online evidence-based simulation scenarios with QSEN-based performance objectives Skills drills mini-scenarios that focus on applying a single skill Electronic health record powered by SimChart Pre- and post-simulation activities to help you prepare for simulation and reinforce your understanding after simulation

Simulation Learning System for Lewis Et Al: Medical-Surgical Nursing (User Guide and Access Code)

The Simulation Learning System (SLS) for LPN is an online toolkit designed to help nursing programs effectively incorporate simulation into their curriculum. This comprehensive product offers 34 simulation scenarios that correspond to the deWit Fundamental Concepts and Skills for Nursing, 4th Edition text and cover each core nursing discipline: Nursing Fundamentals, Medical-Surgical Nursing, Pediatric

Nursing, OB-Peds Nursing, and Psychiatric Mental Health Nursing. It also offers detailed instructions for preparation and implementation of the simulation experience, debriefing questions that encourage critical thinking, and learning resources to reinforce comprehension. Bridge the gap between lecture and clinicals with Elsevier's Simulation Learning System (SLS) for RN. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. 34 simulation scenarios correspond to the deWit Fundamental Concepts and Skills for Nursing, 4th Edition text: 13 scenarios for Medical-Surgical Nursing 4 scenarios for OB Nursing 5 scenarios for Pediatric Nursing 10 scenarios for Nursing Fundamentals 2 scenarios for Psychiatric Nursing NEW! Robust EHR platform (powered by SimChart) will now house the skills drills and patient records for simulation. More than 180 skills drills give you additional opportunities to practice and master core skills prior to simulation. Each drill includes documentation exercises connected with the skill, so you'll get more experience working within the EHR. Pre- and post-simulation activities help you prepare and reinforce understanding after simulation.

Simulation Learning System for Lpn/LVN (User Guide and Access Code)

This money-saving package includes the 9th edition of Medical-Surgical Nursing - Single-Volume Text and Simulation Learning System. Please refer to the individual product pages for the duration of access to these products.

Medical-Surgical Nursing with Access Code

The Simulation Learning System (SLS) integrates simulation into your health assessment course by providing realistic scenarios and supportive learning resources that correspond to Wilson: Health Assessment for Nursing Practice, 4th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This product is intended to be used in an instructor-led course in order to access product content. Duration for access to this product, which may be at the discretion of your institution, is up to 36 months. Elsevier reserves the right to restrict or remove access due to changes in product portfolio or other market conditions.

Health Assessment for Nursing Practice Simulation Learning System Access Code

This money-saving package includes the 9th edition of Medical-Surgical Nursing - Two-Volume Text and Simulation Learning System. Please refer to the individual product pages for the duration of access to these products.

Medical-Surgical Nursing 2 Volume Set with Access Code

The Simulation Learning System (SLS) integrates simulation technology into your fundamentals of nursing course by providing realistic scenarios and supportive learning resources that correspond to Potter: Fundamentals of Nursing, 7th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Simulation Learning System for Potter & Perry

The Simulation Learning System (SLS) integrates simulation into your health assessment course by providing realistic scenarios and supportive learning resources that correspond to Wilson: Health Assessment for Nursing Practice, 4th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning

experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This product is intended to be used in an instructor-led course in order to access product content.

Simulation Learning System for Health Assessment for Nursing Practice (User Guide and Access Code)

The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to James: Nursing Care of Children, 3rd edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Simulation Learning System for James

This money saving package includes the James: Nursing Care of Children, 3rd edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for James: Nursing Care of Children, 3rd edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to James: Nursing Care of Children, 3rd edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Simchart (2-Year Access) and Simulation Learning System for RN 2.0 Package

The Simulation Learning System (SLS) integrates simulation technology into your maternity nursing course by providing realistic scenarios and supportive learning resources that correspond to Lowdermilk: Maternity Nursing, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Medical-Surgical Nursing in Canada - Text and Simulation Learning System, 8e (User Guide and Access Code) Package

This money saving package includes Potter: Fundamentals of Nursing, 8th edition textbook and Simulation Learning System.

Nursing Care of Children - Text and Simulation Learning System Package

This money saving package includes the Hockenberry: Wong's Essentials of Pediatric Nursing, 8th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Hockenberry: Wong's Essentials of Pediatric Nursing, 8th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Essentials of Pediatric Nursing, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook

references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Simulation Learning System for Lowdermilk: Maternity Nursing (User Guide and Access Code)

This money-saving package includes the 3rd edition of Foundations of Nursing in the Community - Text and Simulation Learning System.

Medical-Surgical Nursing in Canada - Text and Simulation Learning System, 8E (User Guide and Access Code) Package

This money saving package includes Lewis' 7th edition Medical-Surgical Nursing - Single-Volume Textbook, Simulation Learning System, and FREE Study Guide.

Fundamentals of Nursing - Text and Simulation Learning System Package

This money-saving package includes the 9th edition of Medical-Surgical Nursing - Two-Volume Text and Simulation Learning System.

Wong's Essentials of Pediatric Nursing - Text and Simulation Learning System Package

This money saving package includes the Lowdermilk: Maternity Nursing, 8th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Lowdermilk's Maternity Nursing, 8th edition. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. The Simulation Learning System (SLS) integrates simulation technology into your maternity nursing course by providing realistic scenarios and supportive learning resources that correspond to Lowdermilk: Maternity Nursing, 8th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.

Foundations of Nursing in the Community - Text and Simulation Learning System

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course by providing realistic scenarios and supportive learning resources that correspond to Lewis et al: Medical-Surgical Nursing: Assessment and Management of Clinical Problems, 7th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This valuable, money saving package includes Medical Surgical Nursing, 7th edition and Simulation Learning System for Medical-Surgical Nursing.

Medical-Surgical Nursing - Single-Volume Text, Simulation Learning System, and Study Guide Package

The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Essentials of Pediatric Nursing, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Medical-Surgical Nursing (Two-Volume Set) - Text and Elsevier Adaptive Quizzing (Access Card) Updated Edition Package

This money-saving package includes the 9th edition of Wong's Essentials of Pediatric Nursing - Text and Simulation Learning System Package.

Maternity Nursing

Companion publication to Lewis's Medical-Surgical Nursing 3e by Brown and Edwards

Medical-Surgical Nursing - Single-Volume Text and Simulation Learning System Package

The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Simulation Learning System for Hockenberry: Wong's Essentials of Pediatric Nursing (User Guide and Access Code)

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course by providing realistic scenarios and supportive learning resources that correspond to Black & Hawks: Medical-Surgical Nursing: Clinical Management for Positive Outcomes, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED. Reading assignments from your medical-surgical nursing textbook focus study on relevant clinical concepts Pre-simulation exercises help students think critically about clinical problems that could occur during the simulation experience Fully-functional electronic medical record (EMR) allows students to reference important patient data-including history & physical, physician orders, and lab results-and input all relevant documentation during or after simulation Concept mapping allows students to create a plan of care that addresses the patient's health state Post-simulation journaling encourages students to reflect on and learn from their simulation experience Interdisciplinary communication provides practice in using the SBAR method to prepare a change-of-shift report for the oncoming nurse Multimedia resources including animations, skills videos, and audio clips offer review of physiologic processes and nursing procedures prior to and following simulation

Wong's Essentials of Pediatric Nursing - Text and Simulation Learning System Package

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course by providing realistic scenarios and supportive learning resources that correspond to Lewis et al: Medical-Surgical Nursing: Assessment and Management of Clinical Problems, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This valuable, money saving package includes Medical Surgical Nursing, 2-Volume Set, 8th edition and Simulation Learning System for Medical-Surgical Nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Fundamentals of Nursing - Text and Simulation Learning System

The ultimate active-learning environment is here! Nursing Concepts Online for RN 2.0 combines all of Elsevier's top conceptual learning tools into one easy-to-use course format. This online course comes

with a wide assortment of evaluative capabilities to help you hone your critical thinking skills and apply your knowledge of nursing concepts and exemplars to clinical practice. Plus, a single access code gives you access to newly enhanced video skills, pre-loaded simulation scenarios, concept-based case studies, a functional EHR, adaptive mastery quizzes, priority exemplar links, and more! Elsevier Adaptive Quizzing for Nursing Concepts uses adaptive quizzing to help you master concepts. Integrated case studies from the Giddens' text provide critical thinking questions with answers. HESI RN Patient Reviews provides you with RN-level critical thinking exercises that offer problem-based learning and application of concepts in a practice environment. Self-assessment questions allow you to test your understanding of key concepts and prepare for the NCLEX exam. Exemplar boxes highlight priority exemplars that link directly to relevant content for quick review. SimChart for Nursing helps you learn patient charting skills and the active application of concepts in the clinical setting. Single sign-on access code provides quick access to all conceptual learning tools. Direct links to the Giddens' Concepts for Nursing Practice, 2nd Edition text allows you to skip directly to relevant information in the text. NEW! Clinical Skills: Essentials Collection demonstrates how to perform nursing skills in high-definition video with step-by-step instructions and NCLEX exam-style review questions.

Basic Nursing - Text and Simulation Learning System Package

The Simulation Learning System (SLS) integrates simulation technology into your maternity nursing course by providing realistic scenarios and supportive learning resources that correspond to Lowdermilk: Maternity & Women's Health Care, 9th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This product is intended to be used in an instructor-led course in order to access product content.

Simulation Learning System for Lewis's Medical-Surgical Nursing

This money-saving package includes the 5th edition of Community/Public Health Nursing - Text and Simulation Learning System.

Simulation Learning System for Hockenberry: Wong's Nursing Care of Infants and Children

Master important nursing skills for the clinical setting with Nursing Skills Online 4.0 (NSO). This interactive learning system offers 19 modules that are organized around the 5-step nursing process. Each module uses a structured pace to guide you through the skills that have the greatest effect on patient safety. Modules also include critical thinking tasks and case studies to help you apply your learning to realistic patient situations.

Simulation Learning System for Black and Hawks: Medical-Surgical Nursing (User Guide and Access Code)

Learn best practices for successfully integrating virtual simulation into nursing curriculum Written for students in nurse educator programs, nursing faculty, and other health care educators, Virtual Simulation in Nursing Education unpacks the necessary tools for successful integration of technology into nursing programs. The benefits of virtual simulation in nursing education are innumerable: less expensive, easier to access, and location independent compared with nondigital simulations. Yet the evolving nature of both curricula and technology complicates the implementation of a coherent integration plan. Success requires a coordinated impetus from faculty, administrators, and students to enrich a technologically enhanced learning landscape. With a practical, how-to focus, this book describes the unique dynamics and demands of using virtual simulation as a core teaching method and focuses on the best practices for integrating this technology into the nursing curriculum. The first text to detail systematic strategies for faculty, students, and administrators, Virtual Simulation in Nursing Education examines the most effective teaching methods and activities, discusses challenges and pitfalls to integrating virtual simulation into a curriculum, and examines how learning outcomes are met. With an eye toward motivating students to embrace technology throughout their careers, content illustrates how students can leverage technologies to maximize learning and support practice. Replete with savvy tips from virtual simulation experts, chapters include exemplars that present the models in

real-life scenarios, and clinical reasoning questions to reinforce learning. Key Features: Accompanied by an Instructor's Manual and PowerPoint slides Teaches students of nurse educator programs, nurse educators, and administrators how to successfully use virtual simulation Provides useful tools, best practices, and savvy strategies for integrating technology into the curriculum Includes examples and clinical reasoning questions to reinforce content Demonstrates how students can maximize learning and support practice with virtual simulation technology Provides a firm foundation for students to embrace technology throughout their careers

Medical-Surgical Nursing

Learn to master important nursing skills for the clinical setting with Nursing Skills Online 4.0 (NSO) for Yoost Fundamentals of Nursing 2nd Edition. This interactive learning system offers 19 modules which include 4 to 8 lessons each, enhanced by 900 interactive activities, 130 video clips, 95 animations and slide shows, 1100 images, 855 assessment items, and 1020 glossary terms. Each module mirrors the text, using a structured pace to strategically guide you through chunks of information which you can apply to critical thinking tasks or case studies. In addition, lesson quizzes allow you to evaluate your mastery of the content.

Nursing Concepts Online for RN 2.0 (Access Card)

This money-saving package includes the 5th edition of Community/Public Health Nursing Practice - Text and Simulation Learning System.

Simulation Learning System for Maternity and Women's Health Care (User Guide and Access Code)

This money saving package includes the 7th edition of Lewis's Medical-Surgical Nursing - 2-Volume Textbook, Simulation Learning System, and FREE Study Guide.

Community/Public Health Nursing - Text and Simulation Learning System

The Simulation Learning System (SLS) integrates simulation technology into your medical-surgical nursing course by providing realistic scenarios and supportive learning resources that correspond to Black & Hawks: Medical-Surgical Nursing: Clinical Management for Positive Outcomes, 8th Edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing. This valuable, money saving package includes Medical Surgical Nursing, 8th edition and Simulation Learning System for Medical-Surgical Nursing. STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.

Fundamentals of Nursing Nursing Skills Online Version 4.0 Access Code

Learn to master important nursing skills for the clinical setting with Nursing Skills Online 3.0 (NSO). This interactive learning system offers 18 modules organized around the 5-step nursing process. Each module uses a structured pace to guide you through the skills that have the greatest effect on patient safety. Modules also include critical thinking tasks and case studies to help you apply your learning to realistic patient situations, as well as review tools to help you evaluate your competency before performing skills in the clinical setting. Case-based/problem-oriented format for learning activities provides you with real-life patient scenarios and promotes critical thinking. Frequent interactivity enhances your learning and engagement with content to make understanding complex concepts easier. Self-assessment exercises allow you to test your knowledge of key concepts including correct answers and rationales for immediate feedback. The latest evidence-based information in clinical skills & techniques keeps you on the cutting edge of nursing. Lesson Post Tests provide an immediate score upon completion including rationales behind correct responses. Printable procedure guidelines enable you to study and learn anywhere you go. QSEN correlated headings and exercises help you better understand the six Quality and Safety Education for Nurses (QSEN) core competencies. Patient Centered Care screens address variations in approaches to patients of varied cultures and ages during the performance of the skill. Quality Improvement exercises present critical thinking challenges, prodding you to use patient care data to improve outcomes. Evidence-Based Practice icons link to

recently published research articles and a brief discussion of how they have already changed or may change practice in the future. Safety Considerations screens address the global safety issues in play for the lesson topic. Teamwork and Collaboration screens include information on delegation, as well as cooperation with other healthcare professionals who may have input in to patient welfare (physical therapists, nutritionists, respiratory therapists, pharmacists, etc.).

Virtual Simulation in Nursing Education

This money saving package includes the Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition textbook, and the Simulation Learning System (SLS) User Guide & Access Code for Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition. **STUDENT ACCESS ONLY - INSTITUTIONAL LICENSE REQUIRED.** The Simulation Learning System (SLS) integrates simulation technology into your pediatric nursing course by providing realistic scenarios and supportive learning resources that correspond to Hockenberry: Wong's Nursing Care of Infants and Children, 9th edition. The SLS offers targeted reading assignments and critical thinking exercises to prepare you for the simulation experience; access to patient data with a shift report and fully-functional electronic medical record (EMR); post-simulation exercises including charting and documentation activities in the EMR, reflective journaling, and concept mapping; and review resources including animations, videos, and textbook references. Simulation with the SLS is a complete learning experience that bridges the gap between lecture and clinicals to prepare you for the real world of nursing.
