Adams' Equity Theory of Motivation: A Simple Summary

Adams' Equity Theory calls for a fair balance to be struck between an employee's "inputs" (hard work, skill level, acceptance, enthusiasm, and so on) and their "outputs" (salary, benefits, intangibles such as recognition, and more). According to the theory, finding this fair balance helps to achieve a strong and ...

Adams' Equity Theory | Organizational Behavior - YouTube

24 Sept 2023 — Equity Theory was based on three theories of social science and psychology, namely, Social Exchange Theory, Social Comparison Theory and the Theory of Cognitive Dissonance (Huseman, Hatfield & Miles, 1987; Adams, 1963). Social Exchange Theory postulates that social relations are rooted in subjective ...

Adams' Equity Theory of Employee Motivation: What Is It?

John Stacey Adams' equity theory helps explain why pay and conditions alone do not determine motivation. It also explains why giving one person a promotion or pay-rise can have a demotivating effect on others.

Explain Life cycle of Servlet init: This method will be Executed only once at the time of loading servlet.

Service : This method will be executed at the time of request processing.it accepts HTTP request

and response Destroy: This method will be executed at the time of destroying object from servlet container

Servlet Context object will be created to entire application • Servlet Context parameters created inside web.xml.These parameters available for entire application

parametername parametervalue I/creating ServletContext object ServletContext context=getServletContext(): I/Getting the value of the initialization parameter and printing it String paramvalue=context.getInitParameter "paramname"

Default Http Session time will be overridden by declaring session time inside () web.xml file. By default 30 mins is the session time. At the time of logout we need to kill the existing session.In http session object there is method called void invalidate()

What is the difference between request.sendRedirect and resquestDispatcher.forward RequestDispatcher.forward will forward the same request and response to other resource.it is completely server side process SendRedirect will forward new request and response objects to other resource.it is completely client side

Die Rhythmik-Lehre

Unveränderter Nachdruck der Originalausgabe von 1881.

Die Lehre von der musikalischen Komposition

Success and efficiency are the latest standards and scales of our society. Virtual surroundings and communication rooms, electronic portals and platforms are pushing us into a new world of personal and professional interaction and cooperation. The network to subdue violence is fragile and crumbly, tradition is no longer a power of our community. What of leisure time, dreams, and fantasy? What of education in the family, at school and at university? Travelling round the world to develop yourself –how man becomes man: pleading for a new determination of the idea of education –a mission of past centuries inadequate nowadays? Regarding September 11th last year, the conflicts and confrontations round the globe, and events in our direct surroundings these questions seem to be a cry at least to reflect upon what is happening around us and where we –all of us –still play an active role. An International Conference on Computers Helping People with Special Needs is like an island –is this a topic at all

these days, is it worth discussing the area of ICT and the situation of people with disabilities, persons who are segregated from developing their personal and professional careers? Indeed the biennial meeting has never included these actualities, but the basic idea behind ICCHP, starting in 1989, was to focus on these fringe groups and to offer a platform of exchange on all aspects of Human Computer Interaction and the usage of ICT for people with special needs.

Rhythmus

Nachdruck des Originals von 1868.

Die Lehre von der musikalischen Komposition, praktisch theoretisch

Guido Adler war ein österreichischer Musikwissenschaftler, Begründer der Wiener Musikwissenschaft und des Musikwissenschaftlichen Instituts der Universität Wien, dessen Leitung er bis 1927 übernahm. Das Musikwissenschaftliche Institut wurde zum Zentrum der österreichischen Musikforschung, Guido Adler wurde von der Gesellschaft der Musikfreunde zum Ehrenmitglied ernannt. Zwischen 1894 und 1938 war er Herausgeber des 83-bändigen Werkes "Denkmäler der Tonkunst in Österreich." Guido Adler war ein Vertrauter des berühmten österreichischen Komponisten Gustav Mahler und verfasste im Jahr 1916 dessen Biographie. In diesem Werk befasst sich Adler umfassend und eingehend mit dem musikalischen Stil. Im ersten Teil behandelt Adler Stilprinzipien. Zunächst ist der Begriff des Stilprinzips Gegenstand von Adlers Studien, dann geht er tiefer ein auf Tonkunst, Stilbildung, Stilwandel, Stilübertragung oder Stilmischung. Weiter untersucht Adler konsequent und analytisch das Tonmaterial und die Tonalität, behandelt das Gebiet der Melodik und der Notation hinsichtlich stilgebender Eigenschaften. Im zweiten Teil beschäftigt sich Adler mit Stilarten, wobei er auf die Entstehung verschiedener Arten von Stilen eingeht, sich mit religiöser und kirchlicher Musik, mit Haus-, Konzert- und Kammermusik auseinandersetzt, mit lyrischem und dramatischem Stil und unter anderem auch mit nationalen Stilarten. Guido Adler geht mit gewohnt wissenschaftlicher Genauigkeit und scharfem Sachverstand vor. Seine Untersuchungen waren wegweisend für die moderne musikwissenschaftliche Theorie und Forschung.

Elementare Musiklehre

Die Lehre von der musikalischen Komposition, praktisch-theoretisch, zum Selbstunterricht, oder als Leitfaden bei Privatunterweisung und öffentlichen Vorträgen
