Why did you write a book about human nature?

How do we reverse a lack of self-awareness?

How to get rid of qualities we don't like about ourselves

Where does our dark side come from?

How to pursue that thing you've always wanted to do

The unseen importance of creating a sense of urgency

How to know if you're following a false purpose

Should a young person just be saying yes to everything?

How to manage other people that get in the way of what we want to do

Do we have to lie to be successful?

How to read someone's body language

A smile says loads about how someone feels about you

People's personalities are contagious

Frenemies, what they mean and how to spot one

What's the most controversial point from your book?

Does equality exist when we all strive for power?

Becoming the best, what it really means

Is death a motivator for you?

The importance of relationships

How to deal with dark thoughts

Advice for people going through self-doubt & hard moments

Why did you write this book, The Sublime?

What would be your parting message to the world?

How can we rise above our emotional reactions?

How has your research influenced how you view politics?
