The Single Woman's Guide to Retirement

This is a book for retirees, armchair sailors, dreamers, and lovers of the wind and sea. Sailing couple, Matts and Jeanine Djos, will suggest how to find just the right pre-owned boat by their own example and describe from personal experience what may be involved in buying and refitting a boat, shaking it down, and finding just the right marina. Also included are tactics for heavy weather sailing, common sense seamanship, the pleasures (and advantages) of seniority, personal health and safety, and onboard ambiance and comfort. As the poet, Tennyson, wrote, "There lies the ort, the vessel puffs her sail, and while much is taken, much still abides." So come join them, and perhaps you too shall discover something unexpected and remarkable about the rollicking sea, the wayward heavens, and the wonder of discovering a well-found boat that suits your needs perfectly!

Getting the Best Out of Your Retirement - Maximising the Benefits of Your Retirement Years

The Sandwich Generation refers to people typically in their thirties or forties, responsible for bringing up their children, saving and accumulating wealth for themselves, and caring for their aging parents. The goal: make sure you can afford your own retirement (however that looks for you), while also taking care of your loved ones along the way. It seems like a daunting task, but with the help of this creative and informative guide, you will learn the necessary insight to achieve your financial goals! Meet Jen and Jack. They have now been married for six years; they have two beautiful children, a lovely home, run the finances of their household jointly, and are dealing with being a part of The Sandwich Generation. They are figuring out how to save for both college and retirement. Jen and Jack also face the very likely scenario where they will need to help Jack's parents as they age. In addition, Jack has decided to start a business and is overwhelmed with all the financial decisions involved. Whether you are like Jen and Jack or whether you have different goals for the future, the fundamental principles of financial security remain the same. Throughout this book, the author guides you on Jen and Jack's journey, but at each stage, you also will be considering the variety of alternatives you may be facing in your life. You may not fit all parts of this - perhaps your parents have done their own financial planning, and you will never have to take care of them, or you may never want to have children. If that is the case, please feel free to take what applies to you and discard everything that does not. This book is organized topically, so it can easily serve as a reference guide for you to make key decisions in areas that may be new or unfamiliar. Whatever your goals may be, this book will help you achieve them!

This book focuses on the contemplation of retirement as opposed to contemplation after retirement! Its recommendations can help preserve your post retirement mental health as well as that of your wife and loved ones. Unless you die on the job (and for many people that is the best way to go) you will someday walk or be thrown out of your work. If at that time, you conclude that you have enough money to retire, just how would you go about it? Where would you go? What would you do? What would you say to your wife and loved ones? You need to figure it all out before you leave your current profession! There are actually only three simple reasons to work! You probably know a couple of them, but unless you know and have contemplated all three, you need to keep working at least until you have finished this book!

Taking the Mystery Out of Retirement Planning

A moving, funny, heartwarming tale of love and friendship, for anyone who loved *The Unlikely Pilgrimage of Harold Fry*, *The Keeper of Lost Things* and *Three Things about Elsie*. It's never too late to grow old disgracefully... The life of 79-year-old pensioner Peggy Smart is as beige as the décor in her retirement village. Her week revolves around aqua aerobics and appointments with her doctor. The highlight of Peggy's day is watching her neighbour Brian head out for his morning swim. Peggy dreams of inviting the handsome widower - treasurer of the Residents' Committee and one of the few eligible men in the village - to an intimate dinner. But why would an educated man like Brian, a chartered accountant no less, look twice at Peggy? As a woman of a certain age, she fears she has become invisible, even to men in their eighties. But a chance encounter with an old school friend she hasn't seen in five decades - the glamorous fashionista Angie Valentine - sets Peggy on an unexpected journey of self-discovery. Can she channel her 'inner Helen Mirren' and find love and friendship in her twilight years?

Ready to Retire? What You and Your Spouse Need to Know About The New Reality of Retirement Conceived and written for those about to retire - or already in retirement and the women (and men) who live with them. *Ready to Retire?* helps people understand what they and their partners are going through as they meet the new reality of life beyond the workplace. Cultural messaging has traditionally reinforced the idea of the man as bread winner and men have a particularly hard time making the retirement adjustment as they so often completely self-identify with their work. In light of this cultural trend, bestselling author and sociologist Lyndsay Green sets out to demystify retirement for men and their partners, and provides an engaging and uplifting portrait of the emotional landscape of men in their sixties and seventies. While most books on this subject focus on finances, Lyndsay Green writes more about the psychological implications of retirement. More descriptive than instructional, the book is based on interviews with over sixty people, from age 56 to 88, living in cities, small towns and rural areas. In spite of the fact that many men have a deep-rooted fear about retirement, and that so often their spouses can be baffled by their inability to express those fears and needs, Lyndsay Green discovered that the story of men's retirement is mostly one of adjustment, revitalization and reinvention. *Ready to Retire?* is an inspiring portrait of the emotional lives of men who have retired or are considering retirement, and the women (and men) they live with.

In this volume, the authors examine the U.S. auto industry and present a full-scale analysis of the work and retirement decisions of its workers. They address organizational context and the logic of financial incentives in employer-provided early retirement plans. The impact of pension provisions, layoffs, plant closures, attitudes about 'generational equity', and other factors influencing the workers' evaluation of the optimum time to end their careers in the auto industry are explored.
