In his webcast titled "Cave People" in reference to the philosopher Plato's "Allegory of the Cave," DoubleLine CEO Jeffrey Gundlach.on March 12, 2023, briefly reprises his outlook on the federal debt spiral before reviewing other macroeconomic and market topics, including recessionary "storm clouds." Notably, while the government's establishment survey has resilient nonfarm payrolls, Mr. Gundlach marshals evidence showing "the rubric that there's this booming employment economy is contradicted by other areas." Among subjects addressed in the webcast, Mr. Gundlach covers
Federal deficit and national debt spiral
Massive COVID-19-era monetary stimulus as explanation for the absence (to date) of recession
Protracted inversion of the U.S. Treasury yield curve
Weakening consumer confidence
U-3 unemployment rate exceeding 12-month moving average and nearing 36-month MA
Questionable veracity of once-trustworthy economic statistics due to plunging survey response rates
Recessionary divergence between cyclical and noncyclical employment
Deteriorating hiring plans at small businesses
Falling average weekly hours worked in manufacturing. "First they cut the hours, and then they cut the bodies."

Signs of stress among consumers, growing usage of credit cards and a 600-basis point rise to a “punishing” 23% in the average interest rate on credit card debt as forerunners of a future pullback in consumer spending

Inflation as gauged by headline and core CPI

Housing component of CPI versus the Zillow Rent Index and prospects of lower rents due to a construction boom in multifamily housing

Inflation as gauged by headline and core PCE

Inflation as gauged by export and import prices

Commodity prices signaling weak global growth

Review of the Treasury market and a warning regarding narrow credit spreads in high yield corporate bonds

Year-to-date performance of the credit sectors of fixed income, including market pricing of future defaults in CCC corporate bonds

Still-wide spreads on Agency mortgage-backed securities amid discount prices on these securities

AAA spreads compared across non-Agency commercial mortgage-backed securities (CMBS), collateralized loan obligations and corporate bonds

Attractive CMBS versus corporate bonds across AAA, A and BBB cohorts, with warnings against index investing in CMBS

Emerging markets fixed income, which with the Federal Reserve’s Nov. 1, 2023, pivot “finally joined the risk asset party,” although Mr. Gundlach is awaiting a weaker dollar to support the sector

Two Witches and a Whiskey

Feisty bartender Tori returns to fight evil bad guys of evil with her stolen artifacts, fae magic, and three super hot mages. This time, two witches have tricked her into accepting a bounty no one else will take...

Three Mages and a Margarita

Meet Tori. She's feisty. She's broke. She has a bit of an issue with running her mouth off. And she just landed a job at the local magic guild. Problem is, she's also 100% human. Oops.

Dark Arts and a Daiquiri

On a mission to rescue a runaway teen, guild bartender Tori finds herself caught in the web of a notorious darks arts master.

Demon Magic and a Martini

When a demon is loosed in the city, guild bartender Tori gets a crash course in Demonica magic--and it's about to get ugly.

Hunting Fiends for the Ill-Equipped

I thought I'd seen evil, but with each step closer to my parents' murderer, I'm uncovering a different sort of villainy, piece by hidden piece. I've stumbled into an insidious web that silently, secretly ensnares everything it touches. My demon and I came as the hunters... but I think we might be the prey.

Druid Vices and a Vodka

There's bad, and then there's bad. And I'm not sure which applies to a certain reluctant friend of mine. His transgressions include black-magic dealings, kidnapping, and murder, and he's about to add "revenge-fueled killing spree" to his resume-if I don't stop him. Maybe the question is ... should I stop him?

Lost Talismans and a Tequila

I thought I was a good judge of character, but recent events proved me wrong. Now, in a brilliant demonstration of my newfound caution, I'm putting all my faith in a demon who's tried to kill me before.

I don't have any other options, so it's time to find one of the most illegal, reviled, and scarce mythics out there: a demon-mage summoner.

Delivering Evil for Experts

I promised to avenge my parents. But their killer is still on the loose, and he's stolen more than my parents' lives. Now, as he draws closer to his mysterious goals, he's poised to destroy what little I have left. I promised to translate an ancient grimoire. But it holds the secrets of my family--and the secret history of demon summoning. I fear its answers as much as I need them. Who was the foremother of Demonica...and who am I? I promised to send my demon home. But the way he watches me, the way he protects me, the way he touches me--how can I cast him away forever? I swore I would do this for him, but can I? Should I? But I promised--and I will keep my promises even if they cost me my heart, my soul, and my life.

The Alchemist and an Amaretto

What should be a relaxing holiday with Aaron's rich and famous parents is anything but--and not only because of the "rich and famous" part. Someone, or something, is attacking students at their academy . . . and Tori is determined to stop it.

Damned Souls and a Sangria

Once upon a time, I was your average spunky redhead with the lamest employment history ever, a shaky relationship with my only family member, and no idea what I was doing with my life. Now, I'm a pseudo mythic with the best bartending job in the world, the most amazing (and hot) best friends I never knew I needed, and a guild of misfit magic-users who've become my extended family. And I'm about to lose it all. In my desperation to save Ezra, I stumbled into a web of ruthless deception--and seriously pissed off a sleeping hydra. Now its every murderous head is turned toward me and my guild, and I don't know how to stop it. I'm not sure I can. I'm not sure anyone can. But if I don't, we're all doomed--Ezra, Aaron, Kai, and my beloved guild.

The Long-Forgotten Winter King

I'm learning to embrace who and what I am, but there's one thing I can't face: the night Zak betrayed me. But even with the mysteries of our shared past hanging between us, I can't turn Zak away when he asks for my help. Powerful fae are going missing, and when he tried to investigate, Lallakai vanished too. Now he wants me to venture with him into the territory of the Shadow Court, but its bloodthirsty courtiers don't welcome meddling druids. Danger is gathering around us, seen and unseen. As we uncover incomprehensible clues about the missing fae, we realize this nightmare runs deeper than we imagined, and unveiling it means delving into the past--our past. If I abandon Zak now, he'll never make it out alive. But if I stay at his side, if I face the truth of that night, it will destroy us both. -- From the author of the best-selling Guild Codex books comes a new series that delves into the dark, dangerous world of druids and fae alongside two ravaged souls who may be exactly what the other needs ... if they don't kill each other first. Unveiled can be read as a standalone series or in conjunction with other Guild Codex series. For the full reading order, visit Annette Marie's website.

Slaying Monsters for the Feeble

Demons are evil. That's what Robin's textbooks say, but when it comes to Zylas, nothing is simple. He's cold, ruthless, and temperamental. . . but is he heartless? Robin needs to figure it out, or they'll destroy each other before the real monsters get a chance.

Wicked as They Come

The first in a steampunk paranormal romance series in which a woman is transported to a world filled with vampires and magic. When nurse Tish Everett forced open the lovely locket she found at an estate sale, she had no idea she was answering the call of Criminy Stain, from the far off land of Sang. He'd cast a spell for her, but when she's transported right to him, she's not so sure she's ready to be under the spell of another man. If only Criminy wasn't so deliciously rakish... Half the inhabitants of Sang are Pinkies--human--and the other half are Bludmen, who in Tish's world would be called vampires. But they don't mess with any of the bat/coffin/no sunlight nonsense. They're rather like you and me, just more fabulous, long living, and mostly indestructible--they're also very good kissers. But when the evil

Mayor of Manchester (formerly Bludchester) redoubles his efforts to rid Sang of the Bludmen once and for all, he steals Tish's locket in hopes of traveling back to her world himself for reinforcements. Criminy and Tish must now battle ghosts, sea monsters, wayward submarines, a secret cabal, and thundering Bludmares to get the locket back and allow Tish to return home...but has she found love with Criminy? Could she stay in Sang forever?

Punk 57

"MISHA I can't help but smile at the lyrics in her letter. She misses me. In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other teacher paired me up with her student, Ryen. My teacher, believing Ryen was a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything. The best take-out pizza. Android vs. iPhone. Whether or not Eminem is the greatest rapper ever... And that was the start. For the next seven years, it was us. Her letters are always on black paper with silver writing. Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules. No social media, no phone numbers, no pictures. We had a good thing going. Why ruin it? Until I run across a photo of a girl online. Name's Ryen, loves Gallo's pizza, and worships her iPhone. What are the chances? F*ck it. I need to meet her. I just don't expect to hate what I find. RYEN He hasn't written in three months. Something's wrong. Did he die? Get arrested? Knowing Misha, neither would be a stretch. Without him around, I'm going crazy. I need to know someone is listening. It's my own fault. I should've gotten his

To add to her troubles, everyone seems eager to warn Persephone away from the God of the Dead by exposing his hellish past. Things only get worse when a horrible tragedy leaves Persephone's heart in ruin and Hades refusing to help. Red Winter

Piper Griffiths wants one thing in life: To become a Consul, a keeper of the peace between humans and daemons. There are precisely three obstacles in her way. The first is Lyre. Incubus. Hotter than hell and with a wicked streak to match. His greatest mission in life is to get Piper into bed and otherwise annoy the crap out of her. The second is Ash. Draconian. Powerful. Dangerous. He knows too much and reveals nothing. Also, disturbingly attractive - and scary. Did she mention scary? The third is the Sahar Stone. Top secret magical weapon of mass destruction. Previously hidden in her Consulate until thieves broke in, went on a murder spree, and disappeared with the weapon. And they left Piper to take the fall for their crimes. Now she's on the run, her dreams of becoming a Consul shattered and every daemon in the city gunning to kill her. She's dead on her own, but there's no one she can trust - no one except two entirely untrustworthy daemons . . . See problems one and two. CHASE THE DARK is Book 1 in the Steel & Stone series. Book 2, BIND THE SOUL, is now available for pre-order.

Chase the Dark

The most important rule for an Apprentice Consul is simple: Don't get involved with daemons. Well, Piper is planning to break that rule--big time. After a near-deadly scandal with the Sahar Stone, she has the chance to return to the only life she's ever wanted. All she has to do to keep her Apprenticeship is forget about Ash and Lyre. Ash might be enigmatic and notoriously lethal, and Lyre might be as sinfully irresistible as he is irritating, but they're not bad for a couple of daemons. There's just one problem: Ash is missing. Really, she shouldn't risk her future for him. He lied. He betrayed her. But he also saved her life, damn it. Wherever he is, he's in trouble, and if she doesn't save his sorry butt, who will? But with every dangerous secret she unravels, each one darker than the last, she slips deeper into Ash's world--a world with no escape for either of them.

Hunter: the Vigil Witch Finders

In the ultimate companion for the Guild Codex series, The Guild Codex Comic Collection brings beloved characters to life with vivid color and personality in this collection of short comics.

Bind the Soul

It is true that it is problematic to decide whether or not to include alcoholic beverages among drugs in the strict sense of the word. Perhaps their primordial power has been domesticated during millennia of

enjoyment. Myths have passed down to us a more powerful image, and also a more disturbing one, in which Dionysius appears as the master of the festival, with his retinue of satyrs, silenoi, maenads and wild beasts.

The Guild Codex Comic Collection

When a teen boy is kidnapped, Kit & Lienna are tasked with hunting down Vancouver's most wanted criminal.

Approaches

The only thing more dangerous than the denizens of the Underworld ... is stealing from them. As a nymph living in exile among humans, Clio has picked up some unique skills. But pilfering magic from the Underworld's deadliest spell weavers? Not so much. Unfortunately, that's exactly what she has to do to earn a ticket home.

Rogue Ghosts & Other Miscreants

Hard Work Will Pay Off Later. Laziness Pays Off Now. Let's get one thing straight - Ivy Wilde is not a heroine. In fact, she's probably the last witch in the world who you'd call if you needed a magical helping hand. If it were down to Ivy, she'd spend all day every day on her sofa where she could watch TV, munch junk food and talk to her feline familiar to her heart's content. However, when a bureaucratic disaster ends up with Ivy as the victim of a case of mistaken identity, she's yanked very unwillingly into Arcane Branch, the investigative department of the Hallowed Order of Magical Enlightenment. Her problems are quadrupled when a valuable object is stolen right from under the Order's noses. It doesn't exactly help that she's been magically bound to Adeptus Exemptus Raphael Winter. He might have piercing sapphire eyes and a body which a cover model would be proud of but, as far as Ivy's concerned, he's a walking advertisement for the joyless perils of too much witch-work. And if he makes her go to the gym again, she's definitely going to turn him into a frog.

The Night Realm

After surviving a round-trip to hell, Piper figures she can survive anything. After all, she just lived through the devastating loss of her Consul apprenticeship and a torturous stint at boarding school. How much worse could it get? Well, she wasn't expecting a group of crazy radicals to burn her home to the ground and take her prisoner. The Gaians, a.k.a. the crazy radicals, plan to rid Earth of daemons and they need Piper's help. In exchange for her cooperation, they promise her the answer to all her problems: magic. With her own magic, she could reclaim her apprenticeship, the only future she's ever wanted. But her magic comes at price - it could kill her. With the only life she's ever known crumbling around her and her future slipping from her grasp, she needs Ash's help one more time. But the greatest danger of all lies within her, and no matter what she does, she may lose everything - including him.

Slouch Witch

Piper thought she could handle the Sahar, the most powerful magical weapon in existence. She thought she could protect her loved ones and stop a war. She thought she could make a difference. She was wrong, and her mistakes were paid for in blood. Leaving her world--and her failures--behind, she retreats to the Underworld with Ash and the other draconians. They forge deep into long-abandoned mountains, the first draconians to fly the valleys and passes in centuries--or so they thought. Until now, Ash's mysterious heritage has been nothing but a name, but his presence does not go unnoticed. A new danger stalks him, one that may be even greater than what they escaped. Cut off from the power she'd come to rely on and lost in a world where she doesn't belong, Piper has never felt so hopeless. But she must find her strength, and find it quickly, before she loses Ash to an ancient power he can't fight, before her home is devastated by the daemon war, and before her mind, body, and soul are consumed by the Sahar's insidious magic.

Yield the Night

In the mesmerizing sequel to *Red Winter*, Emi can no longer hide within the safety of the shrines. The goddess has charged Emi and Shiro with a new task, one that will take them deep into the perilous realm of yokai. With the fate of the world in her mortal hands, is she strong enough to sacrifice everything - including him?

Unleash the Storm

Piper is feeling a bit overwhelmed. With Seiya and Lyre missing, Ash recovering from near fatal injuries, and the Gaians picking fights with daemons all over the city, a girl can't help but think she might be in over her head. And this time, she's on her own. Before she even has a chance to investigate the Gaians' new stockpile of mysterious, high-tech weaponry, an old enemy ambushes her: Samael's henchman Raum. He wants Ash's help and won't take "get lost" for an answer. She doesn't know if she can trust Raum, but even more than that, she can't trust herself with Ash. Sooner or later he'll catch up to her, and she fears she won't be able to walk away from him a second time. Despite her feelings, it will take their combined strength to face a frightening discovery about the Gaians. She and Ash begin to realize that the daemon war is coming to Earth, and they might be the only ones who can stop it-if it's not already too late.
