Animals on Safari

Health and welfare issues of brachycephalic (flat-faced) animals are one of the most pressing problems facing companion animals right now. Dogs, in particular, are suffering from a 'brachycephalic crisis' resulting from a perfect storm where predispositions to an array of health issues are amplified by a population boom for certain brachycephalic breeds such as the French Bulldog and Pug. But yet, for many owners, these dogs represent the perfect companion: endearing personas and cute looks in a socially desirable package. So where is the truth in all of this? This book will equip veterinary professionals, animal welfare scientists, breeders and owners with the fuller story about brachycephalic health and welfare. The first half of the book provides the context of how and why we are in this crisis, offering in-depth historical, social, ethical, communication, nursing, welfare, epidemiological, genetics and international perspectives. The second half shifts towards the clinical arena, with chapters that cover the background, diagnosis, treatment and prevention of the many unique healthcare needs of brachycephalic animals. Cutting-edge knowledge is shared on a range of disciplines including respiratory disease, ophthalmology, dermatology, dentistry, neurology, obesity, reproduction and anaesthesia. With twenty chapters written by world-leading experts, lifetimes of experience and knowledge are condensed into the first book dedicated exclusively to brachycephaly in companion animals. This essential reference resource will inform, challenge and stimulate; it will open your mind to new opportunities for you to improve the welfare of brachycephalic animals by your personal and collective choices and actions. But prepare to be surprised: you may just find that your views on brachycephaly in companion animals will be changed forever.

Humans have always pondered what makes us different from animals. After all, many species exhibit behaviors that resemble our own (or is it the other way around?). This informative volume covers 20 of the world's most well-known animals, including African elephants, flamingos, giant pandas, Nile crocodiles, and polar bears. Divided by geographical regions (African Jungles, Plains, and Waterways; Asian Forests; Warm Oceans; North America; and The Poles), the chapters cover some of the basic habits and behaviors of a particular animal, such as elimination, self-grooming, and sleeping. Social behaviors, from friendly to threatening, are discussed, as are sexual and parental interactions. Numerous sidebars showcase vital stats on each animal, quirky facts, and trivia. Each chapter ends with a list of behaviors for readers to look for at the zoo or in the wild. Plentiful introductory material highlights zoo conditions and habitat simulation and includes a lengthy overview of how animals behave in general.

The Dog

In the past decade, philosopher Bernard Rollin points out, we have "witnessed a major revolution in social concern with animal welfare and the moral status of animals." Adopting the stance of a moderate, Harold Guither attempts to provide an unbiased examination of the paths and goals of the members of the animal rights movement and of its detractors. Given the level of confusion, suspicion, misunderstanding, and mistrust between the two sides, Guither admits the difficulty in locating, much less staying in, the middle of the road. The philosophical conflict, however, is fairly clear: those who resist reform, fearing that radical change in the treatment of animals will infringe on their business and property rights, versus the new activists who espouse a different set of moral and ethical obligations toward animals. From his position as a moderate, Guither presents a brief history of animal protection

and the emergence of animal rights, describes the scope of the movement, and identifies major players such as Paul and Linda McCartney and organizations such as People for the Ethical Treatment of Animals that are actively involved in the movement. He concentrates on what is actually happening in the 1990s, discussing in detail the possible consequences of the current debate for those who own, use, or enjoy animals in entertainment and leisure pursuits. A reference work for students in animal sciences and veterinary medicine, the book also poses questions for philosophers, sociologists, and public policymakers as well as animal owners, animal and biomedical researchers, and manufacturers and distributors of animal equipment and supplies.

Introduces readers to the history of books in Britain—their significance, influence, and current and future status Presented as a comprehensive, up-to-date narrative, *The Book in Britain: A Historical Introduction* explores the impact of books, manuscripts, and other kinds of material texts on the cultures and societies of the British Isles. The text clearly explains the technicalities of printing and publishing and discusses the formal elements of books and manuscripts, which are necessary to facilitate an understanding of that impact. This collaboratively authored narrative history combines the knowledge and expertise of five scholars who seek to answer questions such as: How does the material form of a text affect its meaning? How do books shape political and religious movements? How have the economics of the book trade and copyright shaped the literary canon? Who has been included in and excluded from the world of books, and why? *The Book in Britain: A Historical Introduction* will appeal to all scholars, students, and historians interested in the written word and its continued production and presentation.

A rat will go out of its way to help a stranger in need. Lions have adopted the calves of their prey. Ants farm fungus in cooperatives. Why do we continue to believe that life in the animal kingdom is ruled by competition? In *The Social Lives of Animals*, biologist Ashley Ward takes us on a wild tour across the globe as he searches for a more accurate picture of how animals build societies. Ward drops in on a termite mating ritual (while his guides snack on the subjects), visits freelance baboon goatherds, and swims with a mixed family of whales and dolphins. Along the way, Ward shows that the social impulses we've long thought separated humans from other animals might actually be our strongest connection to them. Insightful, engaging, and often hilarious, *The Social Lives of Animals* demonstrates that you can learn more about animals by studying how they work together than by how they compete.

Sidonie and the Loup-Garou and Other Stories from the Bayou

The short fiction in this book introduces the reader to an interesting assortment of characters. The lead story-Sidonie and the Loup-Garou-features a high school girl who learns it is a good idea to heed the warnings of her Cajun grandparents. The final tale-The Ghost and Sadie Stackpoole- solves the 200-year-old mystery of Jean LaFitte's buried treasure in southwest Louisiana. Sandwiched between these two tales are another ghost, a couple of voodoo dolls, and several women out to teach their men there's a limit to how much garbage they'll tolerate. A famous journalist returns to his hometown for a class reunion and faces down a painful episode from his past. A young wife discovers that sleeping on satin sheets is highly overrated. The story of Little Red Riding Hood takes on a Cajun twist when Ti-Rouge meets up with the kokodree-a big, bad alligator. For entertainment with a Cajun feel, spend a couple of nights with these and other characters in the pages of this collection.

Loup Garou

A horrific novel of epic proportion steeped in Cajun tradition and Voodoo. Find yourself immersed deep in the Sect Rouge territory of post-Civil War Louisiana Bayou. Find yourself in the darkest recesses of the bayou where evil reigns in the form of a Voodoo Mamba, Nattie Garou. Taste the terror as you discover Sect Rouge Voodoo, and Nattie's shape-shifting followers-the blood-thirsty, cannibalistic Loup Garou. Follow young Lexiana Babineau through her transformation from innocent Cajun fille, to a woman of l'Garou. You will feel yourself transported, transformed, and immersed in Lexie's battle against Nattie to regain her son, Louck, who was born of Voodoo and raised on the blood of innocents. Fall in love with Louck, cold-blooded killer guided by the wolf at the root of his soul, as he fights for his own humanity and the love of a girl. The characters are as rich as gumbo, as intoxicating as fresh-brewed tafia, and as potent as Voodoo....

Loup-Garou

The rugged beauty of the Mount St. Helens wilderness is being haunted by a killer. Hikers, loggers, and local residents are dying in horrible, mysterious ways, and lawmen Bud O'Brien and Charlie Redtail are forced to think it just might be a monster ... maybe Bigfoot itself. Enter Cryptozoologist Dr. Ian McDermott, Ph.D., who struggles with his own personal demons as he uncovers the impossible and ugly truth behind it all - an evil more malevolent than anyone ever imagined. Loup-Garou is the first in the Ian McDermott, Paranormal Investigator series. Atmospheric, often beautiful, and always intensely scary investigations into what we were told as children were only myths and legends. The hunt is on.

Henri and the Loup-garou

A father's trip home through the woods to his young children is endangered by the dreadful beast, the Loup-Garou.

From the Bayou to the Big League

He roamed the marshes of Cameron Parish in Louisiana when he was ten, and hunted rabbits using barrel staves as weapons. He rode out the hurricane of 1918 in a ditch with his family while everything they owned blew away. They moved to Lake Charles, and he spent his thirteenth summer hunting and skinning alligators. He attended Lake Charles High School where he excelled in all sports: football, basketball, and track, but his first love was always baseball. In 1930 he left for Springfield, Missouri, to play for the Springfield Midgets. Thus began a journey that took him from the bayous of Louisiana to the merry-go-round of professional baseball in St. Louis, Hollywood, San Diego, and Pittsburgh. He got cussed out by Babe Ruth, ate Sunday dinners with the DiMaggios, and drove Ted Williams to practice and games since Ted was too young to drive. He returned to Louisiana after his baseball career to come full circle skinning alligators once again.

Wild Justice

Keeley Chesson, a crime reporter for a city newspaper, is orphaned at age fourteen, courtesy of a sheriff's deputy who killed her parents and got away with it. Now, fourteen years later, the deaths of her parents still a mystery and the deputy now her town's police chief, tragedy again rocks her world when her aunt, the woman who took her in and finished rearing her, is murdered. Keeley is inside the house when her aunt and cousin are shot by two gunmen. She narrowly escapes detection, but is able to watch the men drive off. One of them she has known since elementary school-the good-for-nothing son of her town's chief of police. As they drive away she sees someone else in the truck-the killer's girlfriend who is also Keeley's best friend. Wracked with grief over the deaths of her relatives and her friend's betrayal, Keeley vows to get justice. She's afraid to call law enforcement because the killer's father has made sure his son never had to pay for anything he ever did. She feels she has to do it herself, and begins a quest for justice and revenge that puts her in danger of losing her own life.

That Winter

Pamela Gillilan was born in London in 1918, married in 1948 and moved to Cornwall in 1951. When she sat down to write her poem *Come Away* after the death of her husband David, she had written no poems for a quarter of a century. Then came a sequence of incredibly moving elegies. Other poems followed, and two years after starting to write again, she won the Cheltenham Festival poetry competition. Her first collection *That Winter* (Bloodaxe, 1986) was shortlisted for the Commonwealth Poetry Prize.

Sissy Dreams: From Boyfriend to Girlfriend

Receiving a text from Sasha, my girlfriend, at work was always risky. Especially when she wanted to know if her girlfriend was horny. A short and sweet (and filthy) story.

Stardust in My Hand

Stardust In My Hand is a diverse medley of poems collected over a span of twenty years. Since the collection doesn't follow a central theme it is divided into four sections. Part I: *Mementos* follows the author from a childhood with two imaginary playmates (see *Two Friends*) to her later years and the pain of losing a grandson (see *The Girl on the Side of the Road*.) Part II: *Louisiana* captures the flavor of life in her beloved state-from Mardi Gras to hurricanes. Part III: *Oddments* is a miscellany of unrelated poetry such as two ekphrastic poems written after looking at paintings, and many poems written in response to the Poem a Day Challenge held in November and April every year. Part IV: *The Old Lie* is self-explanatory, conveying the author's deep feelings about war and were written from the point of view of one who waits in fear for the uniforms to appear at the front door. Five of the poems were winners or finalists in contests: *Arlington*; *Deer in the Wood*; *I Remember*; *The Girl on the Side of the Road*; and *Death of a Queen*.

Melodious Accord

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall results, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an

inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

The Rejection of Consequentialism

7. Mostra Internazionale Di Architettura

Cult gay erotica writer Larry Townsend covered a daring and eclectic range of subjects in his writings. From uniforms to dungeons, from ruthless tops to hapless bottoms, from the LA scene to the classical music scene - in over 40 books, he offered his insights into them all. Christopher Trevor offers a homage to this pioneer of early BDSM and Leather Culture writing.

Jessie Willcox Smith

The twelfth-century French poet Chrétien de Troyes is a major figure in European literature. His courtly romances fathered the Arthurian tradition and influenced countless other poets in England as well as on the continent. Yet because of the difficulty of capturing his swift-moving style in translation, English-speaking audiences are largely unfamiliar with the pleasures of reading his poems. Now, for the first time, an experienced translator of medieval verse who is himself a poet provides a translation of Chrétien's major poem, Yvain, in verse that fully and satisfyingly captures the movement, the sense, and the spirit of the Old French original. Yvain is a courtly romance with a moral tenor; it is ironic and sometimes bawdy; the poetry is crisp and vivid. In addition, the psychological and the socio-historical perceptions of the poem are of profound literary and historical importance, for it evokes the emotions and the values of a flourishing, vibrant medieval past.

"Acharnians" is the earliest of the existent comedies of Aristophanes, produced in 425 BCE. It is a direct attack on the folly of war. The story deals with an Athenian farmer, Dikaiopolis, who surprisingly obtains a private peace treaty with the Spartans and enjoys the benefits of peace despite resistance

from some of his fellow Athenians. This drama is celebrated for its absurd humor and its innovative appeal for an end to the Peloponnesian War.

This Can't be Happening at Macdonald Hall!

In between managing his estate and visiting his brother in London, Mr Knightley is both exasperated and amused by his neighbour, Emma Woodhouse, whose misguided attempts to manage the affairs of the inhabitants of Highbury lead to disastrous results.

A Study of the Hong Kong Martial Arts Film

Jean Bottero, one of the world's leading figures in Ancient Near Eastern Studies, approaches the Bible as an astounding variety of documents that reveal much of their time of origin, historical events, and climates of thought.

The Acharnians

Birth of God

Don Celestino is old and bitter and afraid, an impossible man. An anarchist who has been in exile from his native Spain for more than twenty years, he lives with his daughter in Paris, but in his mind he is still fighting the Spanish Civil War. He fulminates against the daily papers; he brags about his past exploits. He has become bigoted, self-important, and obsessed; a bully to his fellow exiles and a tyrant to his daughter, Pascualita. Then a family member dies in Madrid and there is an inheritance to sort out. Pascualita wants to go to Spain, which is supposedly opening up in response to the 1960s, and Don Celestino feels he has no choice but to follow. He is full of dread and desire, foreseeing a heroic last confrontation with his enemies, but what he encounters instead is a new commercialized Spain that has no time for the past, much less for him. Or so it seems. Because the last act of Don Celestino's dizzying personal drama will prove that though "there is nothing serious . . . , there is tragedy." An astonishing modern take on Don Quixote, Chaos and Night untangles the ties between politics and paranoia, self-loathing and self-pity, rage and remorse. It is the darkly funny final flowering of the art of Henry de Montherlant, a solitary and scarifying modern master whose work, admired by Graham

Greene and Albert Camus, is sure to appeal to contemporary readers of Thomas Bernhard and Roberto Bolaño.
