Complementary and Alternative Medicine - What You Need To Know - Complementary and Alternative Medicine - What You Need To Know by Rehealthify 175,460 views 9 years ago 2 minutes, 3 seconds - Complementary and **alternative medicine**, (CAM) is the term for medical products and practices that are not part of standard care.

Standard care is what medical doctors, doctors of osteopathy and allied health professionals, such as nurses and physical therapists, practice

Complementary medicine is used together with standard medical care

An example is using acupuncture to help with side effects of cancer treatment

Alternative medicine is used in place of standard medical care

An example is treating heart disease with chelation therapy (which seeks to remove excess metals from the blood) instead of using a standard approach.

Studies are underway to determine the safety and usefulness of many CAM practices
