Despite an often unfair reputation as being less popular, less successful, or less refined than their bona-fide Broadway counterparts, Off Broadway musicals deserve their share of critical acclaim and study. A number of shows originally staged Off Broadway have gone on to their own successful Broadway runs, from the ever-popular A Chorus Line and Rent to more off-beat productions like Avenue

Q and Little Shop of Horrors. And while it remains to be seen if other popular Off Broadway shows like Stomp, Blue Man Group, and Altar Boyz will make it to the larger Broadway theaters, their Off Broadway runs have been enormously successful in their own right. This book discusses more than 1,800 Off Broadway, Off Off Broadway, showcase, and workshop musical productions. It includes detailed descriptions of Off Broadway musicals that closed in previews or in rehearsal, selected musicals that opened in Brooklyn and in New Jersey, and American operas that opened in New York, along with general overviews of Off Broadway institutions such as the Light Opera of Manhattan. The typical entry includes the name of the host theater or theaters; the opening date and number of performances; the production's cast and creative team; a list of songs; a brief plot synopsis; and general comments and reviews from the New York critics. Besides the individual entries, the book also includes a preface, a bibliography, and 21 appendices including a discography, filmography, a list of published scripts, and lists of musicals categorized by topic and composer.

In *What a Difference a Day Makes: Women Who Conquered 1950s Music*, Steve Bergsman highlights the Black female artists of the 1950s, a time that predated the chart-topping girl groups of the early 1960s. Many of the singers of this era became wildly famous and respected, and even made it into the Rock 'n' Roll Hall of Fame. However, there were many others, such as Margie Day, Helen Humes, Nellie Lutcher, Jewel King, and Savannah Churchill, who made one or two great records in the 1950s and then disappeared from the scene. The era featured former jazz and blues singers, who first came to prominence in the 1940s, and others who pioneered early forms of rock 'n' roll. In a companion volume, Bergsman has written the history of white women singers of the same era. Although song styles were parallel, the careers of Black and white female singers of the period ran in very different directions as the decade progressed. The songs of African American vocalists like Dinah Washington and Etta James were segregated to the R&B charts or covered by pop singers in the early and mid-1950s but burst into prominence in the last part of the decade and well into the 1960s. White singers, on the other hand, excelled in the early 1950s but saw their careers decline with the advent of rock music. In this volume, Bergsman takes an encyclopedic look at both the renowned and the sadly faded stars of the 1950s, placing them and their music back in the spotlight.

Dominic Lyne's Cycle-2 series charts the beginnings of the author's journey through the mental health system through a collection of illustrated shorts and diary entries. It allows the reader into the author's mind, revealing how he perceives the world around him, his thoughts and addictions. It provides an interesting insight into the mind of someone who is truly not connected with 'reality'. A look into the otherside of the mirror. This all-in-one edition compiles all three books and includes 'Eyes of Insanity', 80 pages of bonus material containing a wealth of previously unreleased images, writings and transcripts, adding further depth to the Cycle-2 journey.

The Very Best of Elvis Costello

A groundbreaking collection of inspiring and instructive conversations about the beauty, brutality, discipline, and technique of being a successful singer. "This is a captivating look at both the nitty-gritty preparation and emotional energy that 'it takes [for artists] to stand up to that mic... reach down into their guts, and give everything they've got for the sake of the song.' Its star power and up-close, revelatory detail will keep readers riveted from start to finish." —Publishers Weekly, starred review "For all of the conversations we have about music, there is precious little talk about the art of communicating emotion and meaning via the human voice. The Singer's Talk remedies this by reaching out to a wide range of different singers, who speak insightfully about both the skill and the magic required to change minds and break hearts." —Steven Hyden, author of *Twilight of the Gods* and other books These revelatory, frequently funny, and deeply engrossing in-depth interviews provide fans and aspiring singers a backstage pass to the challenges every vocalist faces onstage and in the studio. Packed with never-before-heard stories, *The Singers Talk* reveals a truly intimate side to these iconic personalities while offering a master class on how the best in their field keep their vocal cords in shape and protect themselves on the road—along with countless other tricks, techniques, strategies, and philosophies to help vocalists at every level perfect the craft of singing. "This is the most geeked out I've ever talked about my voice!" —Thom Yorke This historic roster of artists includes: Bryan Adams, Tony Bennett, Nick Cave, Chuck D, Roger Daltrey, Joe Elliott, Emmylou Harris, Brittany Howard, Chrissie Hynde, Norah Jones, Simon Le Bon, Geddy Lee, Willie Nelson, Stevie Nicks, Ozzy Osbourne, Steve Perry, Lionel Richie, LeAnn Rimes, Smokey Robinson, Robert Smith, Bruce Springsteen, Mavis Staples, Rod Stewart, Paul Stanley, Michael Stipe, Jeff Tweedy, Roger Waters, Dionne Warwick, Ann Wilson, Thom Yorke, and many more. Additionally, the book features conversations about legendary voices no longer with us, such as Butch Vig on Kurt Cobain, Clive Davis on Whitney Houston, Nile Rodgers on David Bowie, and Jimmy Iovine on Tom Petty. "Singing is so much more than hitting the right note. It's about connecting with the audience, connecting with something divine to a certain degree. It's connecting to your most primitive and deepest intuition, and to your nature as a human on this planet." —Karen O. More than just an indispensable guide for singers of any level, *The Singers Talk* is an unforgettable read for music fans everywhere. All royalties from *The Singers Talk* will benefit the kids and families at St. Jude Children's Research Hospital through their Music Gives to St. Jude Kids campaign.

Deadly Class #13

'One of Britain's outstanding poets' Sir Paul McCartney 'Riveting' Observer 'An exuberant account of a remarkable life' *New Statesman* This is a memoir as wry, funny, moving and vivid as its inimitable subject himself. This book will be a joy for both lifelong fans and for a whole new generation. John Cooper Clarke is a phenomenon: Poet Laureate of Punk, rock star, fashion icon, TV and radio presenter, social and cultural commentator. At 5 feet 11 inches (32in chest, 27in waist), in trademark dark suit, dark glasses, with dark messed-up hair and a mouth full of gold teeth, he is instantly recognizable. As a writer his voice is equally unmistakable and his own brand of slightly sick humour is never far from the surface. *I Wanna Be Yours* covers an extraordinary life, filled with remarkable personalities: from Nico to Chuck Berry, from Bernard Manning to Linton Kwesi Johnson, Elvis Costello to Gregory Corso, Gil Scott Heron, Mark E. Smith and Joe Strummer, and on to more recent fans and collaborators Alex Turner, Plan B and Guy Garvey. Interspersed with stories of his rock and roll and performing career, John also reveals his boggling encyclopaedic take on popular culture over the centuries: from Baudelaire and Edgar Allan Poe to Pop Art, pop music, the movies, fashion, football and showbusiness – and much, much more, plus a few laughs along the way.

Suppressed Inklings

More than perhaps any other major filmmaker, Martin Scorsese has grappled with the idea of the American Dream. His movies are full of working-class strivers hoping for a better life, from the titular waitress and aspiring singer of *Alice Doesn't Live Here Anymore* to the scrappy Irish immigrants of *Gangs of New York*. And in films as varied as *Casino*, *The Aviator*, and *The Wolf of Wall Street*, he vividly displays the glamour and power that can come with the fulfillment of that dream, but he also shows how it can turn into a nightmare of violence, corruption, and greed. This book is the first study of Scorsese's profound ambivalence toward the American Dream, the ways it drives some men and women to aspire to greatness, but leaves others seduced and abandoned. Showing that Scorsese understands the American dream in terms of a tension between provincialism and cosmopolitanism, Jim Cullen offers a new lens through which to view such seemingly atypical Scorsese films as *The Age of Innocence*, *Hugo*, and *Kundun*. Fast-paced, instructive, and resonant, *Martin Scorsese and the American Dream* illuminates an important dimension of our national life and how a great artist has brought it into focus.

Wings of love

From his days as a club face alongside Philip Sallon, Marilyn and Steve Strange, through the years of global pop superstardom with Culture Club, his rebirth as a world-class DJ, as a leading light of musical theatre with the award-winning *Taboo*, a cutting edge photographer and a confrontational and acclaimed fashion designer, one of the many things you can say about George is: he's never stood still. It's been one hell of a trip. A decade and a half ago, George was coming to terms with the fall-out from serious drug addiction, the failure of his relationship with Jon Moss and the collapse of Culture Club. For lesser men this would have been the end but for George it became the start of a period of remarkable reinvention. Told with George's trademark biting wit, brutal honesty and sparkling insight, this book reveals the whole story, reappraising his rise to stardom and all the madness that followed. He talks about his solo singing career, his initiation into the dance music scene, and his role as the driving force behind theatrical sensation *Taboo*. George also discusses the achievement of the apparently impossible task of reuniting the famously fractious Culture Club. It is only now, many years on from the glittering, glossy Eighties, that George makes an insightful and often hilarious assessment of the impact of that extraordinary era.

Almost half the pregnancies that occur in the United States each year are unplanned. Some of them happen to married women, some to unmarried; some occur due to failure to use contraception; some due to contraceptive failure. In a political climate that polarizes around issues of sexuality and choice

and a popular culture that glamorizes pregnancy and fetishizes motherhood, we rarely hear the stories of women who did not seek to become pregnant. This is one of them.
