**Business**, Owners and Managers.

Supervising people involves more than telling them what to do. Effective supervision involves motivation from within the individual, not by externals.

Acknowledge their contributions. Let them be confident that when you pass their suggestions and contributions, up the chain of command, you will acknowledge the members of your team as the source.

Take time for them. When a superviso comes to you. stop what you are doing. make eye contact. If you can't be interrupted, immediately set up a later time, when you will be able to pay full

Let them know that you see their potential, and encourage their growth. Encourage learning. Help them to take on extra responsibility, but be available to offer support when they are in unfamiliar territory

6. Explain why. Provide the information that will give both purpose to their activities and understanding of your requirements. Providing information only on a need to know basis may work for the CIA but it does not build teams

Don't micro-manage. Let them know the plans and the goals that you trust them to do their best, and then let them have the freedom to make at least some of the decisions.

Praise in public, correct in private. NOTHING undermines morale as effectively as public humiliation.

Set reasonable boundaries, and empower your supervisees to set theirs. Once set, respect them.

This is not a challenge to your power.it is their right as human beings.
