Traveling with Harold

Traveling With Harold is a personal account of one man's 60+ year journey to find himself. Along the way he discovered the love of his life, overcame racism, gained influence with a millionaire contractor, and impacted the lives of thousands.

Traveling With Harold

Traveling With Harold is an account of the four decades of ministry leadership of Pastor Harold C. Huggins.

Harold Peto, Architect and Designer of Gardens, 1854-1933

Clara the Rabbit realizes she is tired of her small town and looks for an opportunity to escape to the thrilling New York City. Her hairy friend Harold (a gorilla) goes along on the adventurous trip that pushes him to face his biggest fear. In the end, Harold will make a great sacrifice, one that will reveal the way back home, but will also help them both realize the true meaning of friendship. Hairy Harold's & Curious Clara's Extraordinary Trip to New York is a picture book devoted to ordinary characters who discover something extraordinary. It's about Harold, a rather uncouth gorilla with an appreciation for the simple things in life, and Clara, a rabbit who enjoys the latest trends and has an insatiable desire for attention. It's a story that takes place in an enigmatic city full of superlatives and nonstop action, a place sometimes unforgiving to newcomers. The unique and beautifully crafted illustrations in this book explore complex tensions, constantly evoking the combating themes of narcissism and sacrifice.

Hairy Harold and His Extraordinary Trip to New York

In this book Harold L. Vogel comprehensively examines the business economics and investment aspects of major components of the travel industry, including airlines, hotels, casinos, amusement and theme parks and tourism. The book is designed as an economics-grounded text that uniquely integrates a review of each sector's history, economics, accounting, and financial analysis perspectives and relationships. As such, it provides a concise, up-to-date reference guide for financial analysts, economists, industry executives, legislators and regulators, and journalists interested in the economics,

financing and marketing of travel and tourism related goods and services. The third edition of this well-established text updates, refreshes, and significantly broadens the coverage of tourism economics. It further includes new sections on power laws and price-indexing effects and also introduces new charts comparing airline and hotel revenue changes and lodging revenue changes in relation to GDP.

Travel Industry Economics

In his rich new body of work, the Belgian artist Harold Ancart turns an immersive landscape of trees, mountains, and seas into a meditation on painting itself. Ancart often paints subjects that naturally invite contemplation, such as the horizon, clouds, flowers, flames, and icebergs. His newest body of work captures the experience of landscape seen in motion or from a distance: trees blurred while driving past, a far-off inky-black sea, an evocative Martian mountain range. Recalling René Magritte, Egon Schiele, Gustav Klimt, and Piet Mondrian, who approached this subject matter in distinct ways, Ancart blurs form and color, figure and ground, and figuration and abstraction. Reproduced here in magnificent foldouts, two multipanel canvases situate the viewer between a mountainscape and a seascape, both monumental in scale. Ancart segments the seascape with a stark horizon line, dividing sky and ocean. Like other comparable motifs within the artist's oeuvre, the vividly colored cloudy sky functions in an anthropomorphic way, alluding to the endless possibilities and personalities of organic forms. Including an interview with the artist by Bob Nickas, this catalogue offers insight into Ancart's frank reflections on painting, writing, nature, and more. The publication also features a new essay by Laura McLean-Ferris. Taken together, the works in *Traveling Light* meditate on the expansive possibilities of painting.

Mastering Your Away Trip

This course book is written because *Mastering Your Away Trip* helps make sure your trip goes smoothly and allows you to be the good citizen of the United States: to demonstrate consideration, appreciation, and taste.

Harold Ancart: Traveling Light

Demonstrates that US travelers abroad were not limited to the rich and privileged even in previous centuries, by presenting over 2,000 titles with full bibliographic citations and brief evaluative descriptions. Arranged alphabetically by author and indexed by place and author's occupation. Updated from the 1969 edition with titles subsequently discovered. Annotation copyrighted by Book News, Inc., Portland, OR

Mastering Your Away Trip

Harold L. Vogel examines the economics and investment aspects of major industry components including airlines, hotels, casinos and theme parks.

American Travellers Abroad

The Singers Drummer chronicles the music and times of Harold Jones, a world class musician whose career spans the last five decades of jazz and big band swing music. This book highlights Jones career as he evolved into the drummer of choice for some of our most popular vocal legends. But it is about much more than that. It also gives us an entertaining insight into life on the road and is filled with Harold's insightful, sometimes humorous, anecdotes and musings about the famous sidemen, legendary jazz musicians and vocal headliners he has known; featuring more than 100 photos of his renowned friends. Read *The Singers Drummer* and learn why Paul Winter called Harold the Michael Jordan of young jazz drummers in Chicago. Read why Harold became acknowledged as Count Basie's favorite drummer. And why Tony Bennett says This book is a knockout! I am happy that someone is finally putting together a history of what really happens on the road!

Childe Harold's Pilgrimage

Reprint of the original, first published in 1869.

Travel Industry Economics

Childe Harold's Pilgrimage is a lengthy narrative poem in four parts written by Lord Byron. The poem describes the travels and reflections of a world-weary young man who, disillusioned with a life of

pleasure and revelry, looks for distraction in foreign lands. In a wider sense, it is an expression of the melancholy and disillusionment felt by a generation weary of the wars of the post-Revolutionary and Napoleonic eras.

Harold Jones

Harold travels to the sky with the help of his purple crayon.

Childe Harold's Pilgrimage

Harold Klemp, the leading authority on past lives, dreams, and Soul Travel, brings you startling insights in this breakthrough book. Past Lives--Learn to recall memories of past lives! Lessons of long ago can be recaptured now to help our lives today. Our character is made up of virtues and shortcomings, and all are a development from past lives. Dreams--Dreams are real, another way to find wisdom from the heart. Dreams open new avenues of truth and give insights just for you. Soul Travel--Soul Travel is simply a shift in consciousness. Its main benefit is to let us tap into the wisdom and knowledge of the last great frontier--our inner worlds. To fully, consciously ride the wave of divine love coming into our lives every day. Past Lives, Dreams, and Soul Travel prepares you to set foot on the grandest adventure of your life. Find your true purpose. Find greater love than you've ever known. Find spiritual freedom beyond your dreams. This book can change you forever. Eckankar is a modern-day spiritual teaching with ancient roots founded in 1965 by Paul Twitchell. Harold Klemp is the current spiritual leader of Eckankar since 1981.

Childe Harold's Pilgrimage

Childe Harold's Pilgrimage was the poem which brought Lord Byron public recognition. He himself disliked the poem, because he felt it revealed too much of himself. In it a young man (called childe after the medieval term for a candidate for knighthood) travels to distant lands to relieve the boredom and weariness brought on by a life of dissipation. It is thought to be a comment on the post-Revolutionary and -Napoleonic generation, who were weary of war.

Childe Harold's pilgrimage

This edition made to fit most pockets and formatted for a smaller page. Makes a great traveling companion. Childe Harold's Pilgrimage is a classic narrative poem in four parts. It describes the travels and reflections of a world-weary young man who, disillusioned with a life of pleasure and revelry, looks for distraction in foreign lands. Byron, through Childe Harold, regrets his wasted early youth and so re-designs himself on this pilgrimage, which takes him through Portugal, the Mediterranean and Aegean Sea between 1809 and 1811. Many of the events are said to be auto-biographical, with Byron himself initially hesitating to publish the first two cantos of the poem as he felt it revealed too much of himself.

Childe Harold's Pilgrimage (With Byron's Biography)

Edition bilingue anglais-grec

Childe Harold's Pilgrimage. [With a Portrait.]

This book is the true story of one man's attempt to live out his lifelong dream of sailing around the world to strange foreign ports in his own sailboat. Upon retiring from teaching school and farming in Michigan, Harold Knoll, Jr. left his forthcoming sedentary life, took his sailboat down to the Gulf, and headed around the world. Few men have the courage to do this, even though a lot of us have these dreams. Volume I covered the first part of his journey from Michigan to Trinidad. Volume II covered his journey from Trinidad to Spain and through France to Amsterdam and Scandinavia. Volume III covered the third part of his journey from Amsterdam around the British Isles, through the French canals to the Mediterranean, and down the coast of Italy. Volume IV covers his trip from Rome to Greece and through the Aegean Sea to Turkey. Volume V covers his trip to the Black Sea and back to Turkey. This Volume VI covers his trip from Turkey to Cyprus to Lebanon, to Israel to Egypt and the Red Sea. Captain Knoll, a true free spirit, picks up crew as he travels along. In the process, he meets many very fascinating people and has many thrilling, and sometimes humorous, experiences. Forthcoming volumes will cover the future trips that he takes as he proceeds on his voyage around the world the "wrong way" (against the prevailing winds).

Childe Harold

Childe Harold's Pilgrimage is a long poem about a traveling young man who journeys across the world to combat his disillusionment with his own society. Since the title character is a "childe\

Harold's Trip to the Sky

With his magic purple crayon, Harold draws himself into a rocket voyage to Mars, then safely back to earth just in time for breakfast.

Childe Harold's pilgrimage

COMMENTS FROM THOSE THAT ARE THE LIGHT OF SHAG DANCING "Harold Bessent and Fat Harold's Beach Club are to shag dancing and beach music as baseball and apple pie are to America. The resurgence and continued growth and popularity of the shag and beach music are due in a large way to Harold's enthusiastic, energetic, and consistent support." —Charlie Womble and Jackie McGee, professional shag dancers "Fat Harold's Beach Club and Harold himself have kept a place to dance for years now, for those young and old alike. There has never been someone that has loved the dance and the people it brings into his life more than Fat Harold. Every beach band wants to say that they have played at Fat Harold's Beach Club and HOTO's! That must surely say something about Harold Bessent as a man!" —Jeff Hargett, 2005 National Shag Dance champion "I have known Harold Bessent since I was eleven years old, and for all that time and still today, he has provided a place for the people to dance and listen to this music called beach music. He is truly an ambassador, and I thank you." —Judy Collins, owner, Judy's House of Oldies, North Myrtle Beach, South Carolina

Childe Harold's Pilgrimage, complete

H.W. Tilman has been called 'arguably the best expedition writer and best explorer-mountaineer' of the 20th century. This omnibus of exploratory mountain travel covers the years 1919-1952.

Past Lives, Dreams, and Soul Travel

Covers receipts and expenditures of appropriations and other funds.

Childe Harold's Pilgrimage

When Pigsticks wants to win first prize at the Tuptown Science Fair, there's only one place to look for help - the future! But his rusty time machine is hard to control and soon Pigsticks and Harold are landing in trouble all throughout history. Will they make it home, or be lost in time - forever?

Luggage Labels and the Golden Age of Travel

Double Decker Dream Machine

A family buys a double decker bus and remodels it. As they are remodeling it transforms into a "Dream machine" that transports the family to different adventures around the world. This first book takes us on an adventure revolving around art, culture, music, food of Mexico.

Dream Machines

Mattie and Jason chose the Saturday of the annual Woodward Dream Cruise in Detroit as their wedding day. They love watching the parade of 40,000 classic cars and hot rods cruise Woodward. One week before their wedding, at a two-family meet-and-greet, their grandfathers recognize each other from a Woodward drag race over a girl in 1965 that was interrupted. They swore to God that someday they would finish the race. Their anger had been a festering wound for fifty years. A 50 year old grudge and they kept their old hot rods, just in case. They challenge each other to a final race on Woodward, Friday night, just like in 1965. All they have to do is restore the hot rods in one week and race the night before the wedding and the Dream Cruise. What could go wrong? Plenty. "Dream Machines races into our hearts. There is so much to love about this delightful story. It doesn't get much better than drive-in restaurants, waitresses on roller skates, vanilla shakes, and drag races. "At the heart is the theme of a family coming together as they let go of past grudges and learn what is truly important in life. The plot is fun, entertaining and cleverly crafted. There are genuine laughs, and the characters are colorful and come to life. We fall in love with all of them. "We have no doubt that readers and audiences of all ages will smile as they enter the world of Dream Machines." —Terri Zinner, Afilmwriter.com

Dear Dream Maker

When I rest my eyes and fall into that place of disconnection from my surroundings, I slide over into a land of creative, colorful narrations. My dreams are often so eventful that I wake up exhausted. The events in this book are real in my dreaming mind. This volume includes dreams and notes from 1997 through 2006. I have been journaling my dreams for decades and decided there must be a reason, therefore I am sharing. These episodes of varying lengths are neither fiction nor nonfiction, fantasy nor reality, just dreams. Sometimes they are funny and at times, they reflect the job I am working or events that have actually happened in my real life. I have also included some diary notes that fit between some of the dreams that may offer context. I have rarely tried to interpret my dreams, mainly because I am hesitant to connect with the power or prophecy or clairvoyance. There is space for interpretation and space for response to prompts about different dream scenarios and triggers. I encourage everyone to read, imagine, and travel to familiar or strange places in my mind and your own.

Digital Audio Tape Recorders

These essays in celebration of the Wright brothers' first flight 100 years ago grew out of presentations by a group of prominent scholars in 2003 at a conference sponsored by the NASA History Division and held at the Great Lakes Science Center in Cleveland, Ohio. The volume focuses on the careers of some of the many men and women who helped to realize the dream of flight both through the atmosphere and beyond. These accounts are original and compelling because they examine the history of flight through the lens of biography.

Realizing the Dream of Flight

Weather solutions know no boundaries as this book will demonstrate. Eddie Stormbart had a winning idea and he created a huge cloud machine that had a rain-making capacity four times that of current models and he called it 'Cloudtanic'. In Scarborough the town council hired a drizzle to quell any trouble from agitated holidaymakers. Oban's 'Fresh Food Gathering' was saved by fresh water deliveries and watercress was the main beneficiary. Great Yarmouth's 'slot machines' provided a jackpot shower. The Cloud Museum in deeper Salford is a revelation. Crime extends to all sectors of society and the world of weather is no exception. Two amorous undergraduates completed work experience aboard cloud machines. A honeymoon cruise onboard a cloud machine was a dream come true for an American couple. You can enjoy all this stuff without getting wet, but it would still be advisable to have an umbrella handy - better to be safe rather than drenched!

Realizing the Dream of Flight

A beautiful university campus in California. A young girl who needs help writing computer programs for her class. A foreign born who has traveled thousand of miles at the young age of 21 to design

computers which can imagine. An old world romantic confused by the new definition of love in the brave new world. A true story which is better than any fiction. It begins as a story of an ambitious young man traveling to a land far away from his home to fulfill his ambitions. It unfolds in the fast moving technology world of Silicon Valley. From there we hop to San Francisco and land in Southern California, where we hold our breath as our narrator survives the infamous wildfires. Technology. Art. Wit. Ambition. Humor. Imagination. They all come together in this wonderful tale of a man's journey though space, time, life and love.

It's not just about rain

This expanded Second Edition of the book was published on May 27, 2011 and has 12 new chapters. This humorous photo-book follows one man's journey through United States as he ventures from Silicon Valley to Seattle, San Francisco to San Diego in a quest for his dream job and his search for a place he could call home. The book starts in 1987, at University of California campus in Davis, where it all began, where Artificial Imagination was conceived. We then fast forward by 15 years to 2002. Our main character, a Executive in the Software industry and working in Silicon Valley. Soon, he is heading to Seattle to work for Amazon.com at a lower level management position. We read one lively story after another about the life in the Northwest and learn about his lovely wife and two daughters. Our adventurer then heads to Nashville to work for a software company, and finally returns to California, when he gets caught in the infamous wild fires of 2007. Kudos to the author to be able to find humor in the middle of the Inferno! A Review by John Lehman, the author of Everything is changing A Review by John Lehman, the author of Everything is changing I was half way through this book when I realized it is almost poetry in the form of prose. I am not just referring to the short paragraphs, but the imaginative leaps, stunning imagery and most importantly, words which hook us in, make us think this is our story . . . We see them on the page but live them in the theater of our imagination. This book reminds us that we share the mysteries of the human mind and soul, no matter what our occupation, no matter where we were born. "Why I am here may appear to be a simple question, but . . . is there a deeper purpose of being where we are?" We know that the question applies not only to the location where we spend our lives, but also to overall existence, and our place in the time continuum. Just as the author who traveled from New Delhi to Silicon Valley felt he has traveled forty years into the future, so do I, sitting in the agricultural landscape of Wisconsin felt that I have had a glimpse into the vitality of the Hi-Tech worlds of California and Seattle. I feel I am in the hands of a good guide. Here is what it means to do research in Computers: "Rip apart an electronic system and you see nothing moving, nothing vibrating, it's almost a make-believe world, a child's fantasy, a writer's imagination." and what it means to yearn for acceptance: "I looked at Seattle's glistening skyline on one side and its beautiful waterfront on the other and asked it the same questions I had asked San Francisco 16 years ago: will it accept me? Or will its people treat me as someone different, not one of the? And will I accept it, call it my home? Right then, she appeared from no where, as if the city had sent her to answer my questions . . ." I loved the section addressing Seattle's slacker sun, that comes late to work, like at 9 AM and goes back home at 4, the observation that for males, until the age eight, we want every young woman to be our mother, then for the next thirty years our friend and when we have daughters, we feel like bringing every young woman a glass of warm milk and cookies. His first day in Nashville, the author looks out of his window and sees snow. The conclusion he draws about the snow flakes very fittingly describes his life and the message we can take with us from this hip, funny, poignant, beautiful book: "the snowflakes descend slowly, floating in the air, allowing the current to carry them with it, letting it change their paths. They have chosen not to confront their destiny, choosing instead to enjoy every second of their short lives, their journey to the ground." Welcome home, Kalpanik! John Lehman, author of Everything is Changing

Welcome to California

Remade in France: Anglicisms in the Lexicon and Morphology of French chronicles the current status of French Anglicisms, a popular topic in the history of the French language and a compelling example of the influence of global English. The abundant data come from primary sources-a large online newspaper corpus (for unofficial Anglicisms) and the dictionary (for official Anglicisms)-and secondary sources. This book examines the appearance and behavior of English items in the lexicon and morphology of French, and explains them in the context of French neology and lexical activity. The first phase of the latest contact period (1990-2015) has its own complex linguistic characterization, including a significant influx of nonce borrowings and very low frequency Anglicisms, heterogeneous and creative borrowing outcomes, and direct phraseological borrowing. This book is a counterargument to the well-known criticism that Anglicisms are lexical polluters. On the contrary, the use of Anglicisms

requires the inventive application of complex linguistic rules, and the borrowing of Anglicisms into the French lexicon is convincing proof that language change is systematic. The findings bring novel interdisciplinary insights to the domains of borrowing in a non-bilingual contact setting; global English as a source of lexical creativity in the French lexicon; the phases, patterns and processes of integration of English loanwords; the morphology of borrowing; and computational corpus linguistics. The appended database is a snapshot of a synchronic period of linguistic contact and a useful lexicographic resource.

Artificial Imagination (Special Edition)

This is the extended second edition of the book. Some of the reviews refer to the first edition, which was published 3 years ago. A young man full of hope and aspirations who travels to a new world. A technology whiz kid who becomes a Silicon Valley executive by age 33. An old world romantic confused by the definition of love in the brave new world. A true story so imaginative and incredible that no fiction writer could have thought of it. It begins as a story of ambitions, aspirations and young love at the University of California in 1987. It unfolds in the fast moving world of Hi-Tech industry in Silicon Valley San Francisco and Seattle. From the west coast we jump to Nashville for a brief detour to sample the software industry there, and then get back to Southern California, where we hold our breath as our narrator survives the infamous wildfires. Technology. Art. Wit. Literature. Humor. Imagination. They all come together in this wonderful tale of man's journey through space, time, life and love.

Remade in France

This book presents three lectures by Allan Hobson, entitled "The William James Lectures on Dream Consciousness". The three lectures expose the new psychology, the new physiology and the new philosophy that derive from and support the protoconsciousness hypothesis of dreaming. They review in detail many of the studies on sleep and dreaming conducted since the days of Sigmund Freud. Following the lectures are commentaries written by scholars whose expertise covers a wide range of scientific disciplines including, but not limited to, philosophy, psychology, neurology, neuropsychology, cognitive science, biology and animal sciences. The commentaries each answer a specific question in relation to Hobson's lectures and his premise that dreaming is an altered state of consciousness. Capitalizing on a vast amount of data, the lectures and commentaries provide undisputed evidence that sleep consists of a well-organized sequence of subtly orchestrated brain states that undoubtedly play a crucial function in the maintenance of normal brain functions. These functions include both basic homeostatic processes necessary to keep the organism alive as well as the highest cognitive functions including perception, decision making, learning and consciousness.

Welcome to the USA

Reliving his early days out of college, Dan recalled his encounter with the old shepherd – Damianos – while he had been taking another trip down to the past in company of his wife, Malou. Damianos guided him through the maze of his recollections and offered him the possibility of forging an alternative future for himself. Meanwhile, Dan's family – Malou, Stefano, Daniel and Gaby – has been searching for Dan. Traveling back to the time at which Dan was lost, they were told that Dan had chosen to take an alternative path to reach his future. Dismayed but willing to accept her husband's choice, Malou and the three children were preparing themselves to follow Dan into the future, when Daniel disappeared unexpectedly after going for a swim at the marina where the family cruiser was moored. Dan and Gustavo, together with Chippewa, the Dream Maker are about to find out that Dan's son, Daniel, was probably lost in time when we rejoin the family and friends in Dream Maker – Book 3

Dream Consciousness

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The Dream Maker

London's Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War: its fin-de-siècle buildings and dark streets infamous for sex, crime, political disloyalty, and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters. Indulgences for the privileged and the upwardly mobile edged a

dangerous, transgressive space imagined to be "outside" the nation. Treating Soho as exceptional, but also representative of London's urban transformation, Judith Walkowitz shows how the area's foreignness, liminality, and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century. She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters, revealing how Soho became a showcase for a new cosmopolitan identity.

Nights Out

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Popular Mechanics

The year is 2025. Immense numbers of people swarm the globe. In countless, astonishing ways, technology has triumphed—but at a staggering cost. Starvation is rampant. City dwellers gasp for breath under blackened skies. And tottering on the brink of environmental collapse, the world may be ending ... It is a future that could well be ours. In their second shocking and fascinating portrait of America's possible destiny, Whitley Strieber and James Kunetka have again written a breathless thriller, a book that gives us an important warning and ultimately a message of hope.

Home Audio Recording Act

The story of a handful of talented American engineers and adventurers who labored to conquer gravity in a flying machine. When Orville and Wilbur Wright soared over Kill Devil Hills in North Carolina's outer banks and solved the problem of aerial navigation, they wrote the last chapter in a long story. For decades prior, a small community of engineers, scientists, and dreamers—men named Chanute and Langley and Herring—had tried to make the ascent in every conceivable craft, from kites and gliders to an assortment of powered flying models. This fascinating assortment of characters and contraptions comes to life in Tom Crouch's classic *A Dream of Wings*. In the quest for flight, aeronautical societies were formed and broke apart, successes were celebrated, hopes rose and fell, and lessons were learned and built upon. The dreamers who blazed the path to a flying machine are bravely realized in these delightful pages.

Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. Each and every issue is packed with punishing product reviews, insightful and innovative how-to stories and the illuminating technical articles that enthusiasts crave.

Nanoscience and Technology

Introduce children to literature with stories and activities about things that go! Approximately 125 picture books are annotated, and a skills index allows the activity leader to use stories that will reinforce such skills as rhythm, following directions, and word recognition. Grades PreK-3.

Popular Science

For the first time, nearly seventy of Wilbur and Orville Wright's published writings are brought together in a single, annotated reference. Spanning the decades from the brothers' turn-of-the-century experiments with gliders until Orville's death in 1948, the articles describe the design of their aircraft, early test flights, and camp life at Kitty Hawk. Because Wilbur's sudden death in 1912 ended any hope that the Wrights would produce a book of their own, the articles collected in this volume are their only published words.

Nature's End

Still one of the most comprehensive books on die-cast cars available anywhere, this reference includes up-to-date information on pricing, driver listings, and every racing card ever issued for NASCAR, IndyCar, Formula One, NHRA, and Sprint Cars.

Dempa Digest

Karen Tei Yamashita's novels, essays, and performance scripts have garnered considerable praise from scholars and reviewers, and are taught not only in the United States but in at least half a dozen countries in Asia, South America, and Europe. Her work has been written about in numerous disciplines in the humanities and social sciences. *Karen Tei Yamashita: Fictions of Magic and Memory* is the first anthology given over to Yamashita's writing. It contains newly commissioned essays by established, international scholars; a recent interview with the author; a semiautobiographical keynote address delivered at an international conference that ruminates on her Japanese American heritage; and a full bibliography. The essays offer fresh and in-depth readings of the magic realist canvas of *Through the Arc of the Rain Forest* (1990); the Japanese emigrant portraiture of *Brazil-Marú* (1992); Los Angeles as rambunctious geopolitical and transnational fulcrum of the Americas in *Tropic of Orange* (1997); the fraught relationship of Japanese and Brazilian heritage and labor in *Circle K Cycles* (2001); Asian American history and politics of the 1960s in *I Hotel* (2010); and *Anime Wong* (2014), a gallery of performativity illustrating the contested and inextricable nature of East and West. This essay-collection explores Yamashita's use of the fantastical, the play of emerging transnational ethnicity, and the narrative tactics of reflexivity and bricolage in storytelling located on a continuum of the unique and the communal, of the past and the present, and that are mapped in various spatial and virtual realities.

A Dream of Wings: Americans and the Airplane, 1875-1905

This book draws together classic and contemporary texts on the "Horizontal Metropolis" concept. Taking an interdisciplinary approach, it explores various theoretical, methodological and political implications of the Horizontal Metropolis hypothesis. Assembling a series of textual and cartographic interventions, this book explores those that supersede inherited spatial ontologies (urban/rural, town/country, city/non-city, society/nature). It investigates the emergence of a new type of extended urbanity across regions, territories and continents up to the global scale through the reconstruction of a fundamental but neglected tradition. This book responds to the radical nature of the changes underway today, calling for a rethinking of the Western Metropolis idea and form along with the emergence of new urban paradigms. The Horizontal Metropolis concept represents an ambitious attempt to offer new instruction to take on this challenge at the global scale. The book is intended for a wide audience interested in the emergence and development of new approaches in urbanism, architecture, cultural theory, urban and design education, landscape urbanism and geography.

Maximum PC

Boeing's 747 'heavy' has achieved a fifty-year reign of the airways, but now airlines are retiring their fleets as a different type of long-haul airliner emerges. Yet the ultimate development of the 747, the -800 model, will ply the airways for many years to come. Even as twin-engine airliners increasingly dominate long-haul operations and the story of the four-engine Airbus A380 slows, the world is still a different place thanks to the great gamble that Boeing took with its 747. From early, difficult days designing and proving the world's biggest-ever airliner, the 747 has grown into a 400-ton leviathan capable of encircling the world. Boeing took a massive billion-dollar gamble and won. Taking its maiden flight in February 1969, designing and building the 747 was a huge challenge and involved new fields of aerospace technology. Multiple fail-safe systems were designed, and problems developing the engines put the whole programme at risk. Yet the issues were solved and the 747 flew like a dream said pilots – belying its size and sheer scale. With its distinctive hump and an extended upper-deck allied to airframe, avionics and engine developments, 747 became both a blue-riband airliner and, a mass-economy class travel device. Fitted with ultra-efficient Rolls-Royce engines, 747s became long-haul champions all over the world, notably on Pacific routes. across the Atlantic in January 1970, 747 became the must-have, four-engine, long haul airframe. Japan Airlines, for example, operated over sixty 747s in the world's biggest 747 fleet. By the renowned aviation author Lance Cole, this book provides a detailed yet engaging commentary on the design engineering and operating life and times of civil aviation's greatest sub-sonic achievement.

Full Speed Ahead

With hundreds of listings of books and databases, this book saves writers research time and frustration by pointing them straight to the information they need to create better, more accurate fiction and nonfiction.

World Highways

Dream Machines is a history of the ways in which machines have been imagined. It considers seven different kinds of speculative, projected or impossible machine: machines for teleportation, dream-production, sexual pleasure and medical treatment and cure, along with 'influencing machines', invisibility machines and perpetual motion machines.

The Published Writings of Wilbur and Orville Wright

Presents a collection of significant writings of Frank Lloyd Wright.

Awol on the Appalachian Trail

A 41-year-old engineer quits his job to hike the Appalachian Trail. This is a true account of his hike from Georgia to Maine, bringing to the reader the life of the towns and the people he meets along the way.

The Politics of the Trail

A history of conflict on display through a morning commute through Jerusalem

The Trail

Toby has to finish the final thing on The List. It's a list of brave, daring, totally awesome things that he and his best friend, Lucas, planned to do together, and the only item left is to hike the Appalachian Trail. But now Lucas isn't there to do it with him. Toby's determined to hike the trail alone and fulfill their pact, which means dealing with the little things -- the blisters, the heat, the hunger -- and the big things -- the bears, the loneliness, and the memories. When a storm comes, Toby finds himself tangled up in someone else's mess: Two boys desperately need his help. But does Toby have any help to give? The Trail is a remarkable story of physical survival and true friendship, about a boy who's determined to forge his own path -- and to survive.

Along the Trail

This Is A New Release Of The Original 1903 Edition.

Dogs on the Trail

A delightful photographic journey into a year in the life of a team of sled dogs, based on Braverman's wildly popular Twitter feed. When Blair Braverman started posting pictures of her dog team on Twitter, she had no idea the response she would get. Being a musher, after all, isn't just about racing--raising dogs from puppyhood to retirement (and beyond) is a full-time job. She and her husband, musher Quince Mountain, wanted to share stories about life with their dog team. And not just the big stuff, like expeditions and wild animal encounters, but also the everyday things: the challenge of storing a thousand pounds of raw meat, scouting new trails with the dogs, the decisions that go into putting a team together, how she trains puppies to be brave. These were goofy stories, scary stories, heartfelt stories, stories that clearly connected with people and kept going viral. Inspired by those connections, *Dogs on the Trail* is a chronicle of a year in the life of their dog team. Beginning in the fall as the weather starts to cool, training on both dry land and in the snow, then camping and racing. Spring brings mud--lousy for sledding, but the dogs love it. And summer is the season of puppies. The book ends on a beginning, in anticipation of the adventurous lives that the new pups have in store. An irresistible adventure, *Dogs on the Trail* will delight and entertain while taking you inside a musher's world, and showing you why the wilderness isn't simply a place to visit but also a home to return to.

Along the Colorado Trail

John Fielder llama-packed the 470 miles of the spectacular Colorado Trail from Denver to Durango. Here's your ticket to seeing the trail wind through the Colorado Rockies from home!

Moments Along a Trail

Stretching more than 1,200 miles across the Sunshine State, the green ribbon of the Florida National Scenic Trail connects the silent depths of the Everglades cypress swamps with the crystalline white sand beaches of Pensacola. Illustrated with fetching full-color photographs, this volume weaves a narrative of day hikes and backpacking trips with snippets of the natural and cultural history that define the essence of Florida.

Along the Florida Trail

The Trail Home describes my 2,650 mile trek on the Pacific Crest Trail and the internal transformation that occurred along the way. Starting in southern California and heading northward, I spent six months journeying through some of the most spectacular landscapes in America, from the arid deserts of the southwest to the High Sierras and the Cascade Mountains. Ultimately, I would arrive at the Canadian border in mid October, but I was no longer the same person as when I began. The Trail Home describes the intertwined, dual journey that I would undertake the external journey exploring the physical landscape and the internal journey exploring the landscape of my soul. I came to the realization as I hiked along the Pacific Crest Trail that we live fragmented and disjointed lives. We have been promised happiness and fulfillment from a culture mired in materialism, competition, and shallowness. As a result of following the pathway to success laid out before me, my life had become fragmented without any real meaning: my spirituality had stagnated; my intellectual curiosity had deteriorated; my imagination had atrophied. As I walked northward along the trail, the sheer steadfastness of the land its permanence, patience, and endurance seeped into my soul. The rhythm of the landscape slowed my pace and calmed my spirit, allowing a new, more spiritual life to unfold within me, often leaving me in tears. By the end of the hike, I had recaptured the lost harmony that feeds the mind, body, and soul and I became whole again.

The Trail Home

Along the Trail: A Book of Lyrics

Once a person hikes a long trail, they catch the bug, but does it get any easier the second time around? Four years after starting the Appalachian Trail with his brother, Brian takes to the Continental Divide Trail for his second thru-hike in familiar company. However, trail life is not always as rewarding and romantic as the pictures you see or second-hand stories you hear. "Divided" provides an accurate account of life on trail: what hikers ponder, eat, love, loathe, and the questions they tire of answering. Some moments are too short, some are painfully long while others are whisked away unceremoniously with the wind. Follow along on the journey as Brian navigates difficulties, successes and everything between while attempting to walk from Mexico to Canada.

Divided

Donning a backpack for a long, lonely walk, the author of "Marching Through Georgia: My Walk with Sherman" retraces the Cherokee Trail of Tears, the 900 miles his ancestors had been forced to travel in 1838. Map.

Walking the Trail

This edition contains no advertising, and is stitch-bound. It covers the whole story of the expedition, beginning east of the Mississippi River as Thomas Jefferson and Meriwether Lewis planned, and Lewis trained and traveled. Then follows Lewis and Clark and company to the Pacific and back to St. Louis. Accessible history text combines with tourism information on following their path today, and maps combine both then and now.

Along the Trail with Lewis and Clark

Boots McFarland is an adventurous outdoor-loving cartoon character who has been hiking the trails for over 15 years. On the Trail with Boots McFarland-Volume 1 is a collection of humorous comics capturing the highs and lows of backpacking life, interspersed with entries from the author's Pacific Crest Trail hiking journal. The ideas for most of these cartoons come directly from personal trail experiences... real or imagined. Over the years, Boots cartoons have become popular in the worldwide hiking community and now for the first time, the artist Geolyn J. Carvin is offering these images in book form. You'll be ready to hit the trail after reading these pages!

On the Trail with Boots McFarland

This guidebook describes the Cape Wrath Trail, a long-distance trek from Fort William to Cape Wrath crossing the wild northwest of the Scottish Highlands. The route is described from south to north in 14 stages, with 6 alternative stages along the way, allowing for a flexible itinerary of between two and three weeks. A long tough trek with no waymarking, this is for the tried and tested backpacker. The guidebook includes OS mapping, route profiles and detailed route descriptions and gives you all the information you need about accommodation (including hotels, bothies, B&Bs and bunkhouses), campsites and amenities en route, to help you plan and prepare for this epic challenge. The Cape Wrath Trail is regarded as the toughest long-distance route in Britain and offers unparalleled freedom and adventure to the experienced and self-sufficient backpacker prepared to walk for many days in remote wilderness. Travelling through the wild and rugged landscapes of Morar, Knoydart, Torridon and Assynt, it will test the limits of your endurance.

Walking the Cape Wrath Trail

In a revolutionary new quest for a deeper understanding of Grail lore, folklorist and historian Stuart McHardy draws on decades of research in his native Scotland to expose a phenomenally powerful force of nature that could be the genesis of the Grail.

On the Trail of the Holy Grail

Adventure on National Scenic Trails does not need to end when one is old. Not beginning long-distance hiking until age 60, Mary takes us with her on her trail journeys to experience encounters with the beauty of wilderness from the Eastern ranges of the Appalachian Trail, the challenges of desert, snow, granite and thick forests of the Pacific Crest Trail, and the rugged and the remote grandeur of the Continental Divide Trail. Along the way, she introduces the Trail Community. Hikers of many ages and walks of life labeled with colorful monikers called trail names, and trail angels, planned and total surprises, grace her journey. Bears, moose, deer, coyotes, turkey vultures, hawks, eagles, owls, pronghorn, and endless supplies of squirrels and chipmunks share the world through which she walked. Everyday challenges of completing seemingly endless miles, encountering new adventures, sometimes with friends and much of the time solo, brought Mary to the first pages of this book on a glorious day sighting two grizzly bears and completing long-distance hiking's Triple Crown at age 76. Throughout this inspirational journey, Mary shares the perspective of an aging adult. Challenges of failing body parts add drama and obstacles to be overcome like rocks in the trail or adapted to like the trails that wind slowly up steep mountains. Come along and experience long trails with the Old Lady on The Trail.

Old Lady on the Trail

Full color photographs coupled with the story of the author's hike portray the vast drama of the landscape of the area.

Along the Pacific Crest Trail

Selected to be read on Radio Four's Book of the Week. 'One of the best books I've read in the last five or ten years... Wild is angry, brave, sad, self-knowing, redemptive, raw, compelling, and brilliantly written, and I think it's destined to be loved by a lot of people, men and women, for a very long time.' --Nick Hornby

At twenty-six, Cheryl Strayed thought she had lost everything. In the wake of her mother's rapid death from cancer, her family disbanded and her marriage crumbled. With nothing to lose, she made the most impulsive decision of her life: to walk eleven-hundred miles of the west coast of America - from the Mojave Desert, through California and Oregon, and into Washington state - and to do it alone. She had no experience of long-distance hiking and the journey was nothing more than a line on a map. But it held a promise - a promise of piecing together a life that lay in ruins at her feet. Strayed's account captures the agonies - both mental and physical - of her incredible journey; how it maddened and terrified her, and how, ultimately, it healed her. Wild is a brutal memoir of survival, grief and redemption: a searing portrayal of life at its lowest ebb and at its highest tide.

Wild

"The Boy Scouts on the Trail" is an exciting adventure novel written by George Durston. In this captivating story, a group of Boy Scouts embarks on a thrilling journey through the wilderness, following a trail that leads them to unknown destinations and exciting discoveries. As they traverse rugged terrain and navigate through dense forests, the Boy Scouts encounter various challenges and obstacles that test their physical abilities, outdoor skills, and resilience. They rely on their knowledge of camping, hiking, and survival techniques to overcome these hurdles and continue their expedition. Along the trail, the scouts engage in activities that foster teamwork, leadership, and camaraderie. They learn the importance of cooperation, effective communication, and trust as they work together to overcome obstacles and accomplish their goals. The scouts also develop a deep appreciation for nature, gaining a greater understanding of the environment and the importance of conservation. Throughout their journey, the Boy Scouts encounter encounters with wildlife, encounter natural wonders, and learn about the rich history and culture of the areas they explore. They discover hidden treasures, unravel mysteries, and face unexpected adventures that challenge their courage and ingenuity. "The Boy Scouts on the Trail" is not only a thrilling adventure but also a story that promotes the values of scouting, including self-reliance, resilience, and respect for nature. It encourages young readers to embrace outdoor exploration, appreciate the beauty of the natural world, and cultivate important life skills."

Along the Trail

"Walking in the nearly forgotten footsteps of the legendary first Knights Templar, an American and a 68-year old Frenchman embark on a mission all their own. Traveling simply and trusting in the kindness of strangers, they set off to carry a message of peace along a route historically used for war. Their incredible journey leads them thousands of miles across eleven countries and two continents toward Jerusalem. After the outbreak of war, everything is uncertain - except for their steadfast and perhaps life-threatening resolve ... weaves a richly detailed Chaucerian tapestry of characters, intrigue, and adventure with personal growth and social commentary. Their poignant tale is a powerful testimony to the courage of the human spirit and an affirmation of the dream of peace still very much alive in the world today. It also provides a signpost for those who dream of making a similar journey along this trail; one destined to become a path of peace for people of all nations, cultures and faiths"--Publisher's description.

The Boy Scouts on the Trail

A practical guidebook for walking from Land's End to John O'Groats. The 1956km (1215 mile) long-distance route, known as the End to End Trail, follows paths and tracks rather than road, and takes to the hills whenever it can. The route is presented in 61 daily stages averaging just less than 32km (20 miles).

Along the Templar Trail

God only knows what possessed Bill Bryson, a reluctant adventurer if ever there was one, to undertake a gruelling hike along the world's longest continuous footpath—The Appalachian Trail. The 2,000-plus-mile trail winds through 14 states, stretching along the east coast of the United States, from Georgia to Maine. It snakes through some of the wildest and most spectacular landscapes in North America, as well as through some of its most poverty-stricken and primitive backwoods areas. With his offbeat sensibility, his eye for the absurd, and his laugh-out-loud sense of humour, Bryson recounts his

confrontations with nature at its most uncompromising over his five-month journey. An instant classic, riotously funny, *A Walk in the Woods* will add a whole new audience to the legions of Bill Bryson fans.

The End to End Trail

This book, by the legendary "Mr. Algonquin," has delighted readers across Canada and the U.S. from the time of its first publication.

A Walk in the Woods

The never-before-told story of the horned rabbit—the myths, the hoaxes, and the entirely real scientific breakthroughs it has inspired—and how it became a cultural touchstone of the American West. Just what is a jackalope? Purported to be part jackrabbit and part antelope, the jackalope began as a local joke concocted by two young brothers in a small Wyoming town during the Great Depression. Their creation quickly spread around the U.S., where it now regularly appears as innumerable forms of kitsch—wall mounts, postcards, keychains, coffee mugs, shot glasses, and so on. A vast body of folk narratives has carried the jackalope's fame around the world to inspire art, music, film, even erotica! Although the jackalope is an invention of the imagination, it is nevertheless connected to actual horned rabbits, which exist in nature and have for centuries been collected and studied by naturalists. Around the time the two young boys were creating the first jackalope in Wyoming, Dr. Richard Shope was making his first breakthrough about the cause of the horns: a virus. When the virus that causes rabbits to grow "horns" (a keratinous carcinoma) was first genetically sequenced in 1984, oncologists were able to use that genetic information to make remarkable, field-changing advances in the development of anti-viral cancer therapies. The most important of these is the human papillomavirus (HPV) vaccine, which protects against cervical and other cancers. Today, jackalopes are literally helping us cure cancer. For fans of David Quammen's *The Song of the Dodo*, Jon Mooallem's *Wild Ones*, or Jeff Meldrum's *Sasquatch*, Michael P. Branch's remarkable *On the Trail of the Jackalope* is an entertaining and enlightening road trip through the heart of America.

On the Trail

Each day, as Oded Löwenheim commutes by mountain bike along dirt trails and wadis in the hills of Jerusalem to Hebrew University, he feels a strong emotional connection to his surroundings. But for him this connection also generates, paradoxically, feelings and emotions of confusion and estrangement. In *The Politics of the Trail*, Löwenheim confronts this tension by focusing on his encounters with three places along the trail: the separation fence between Israel and the Palestinians; the ruins of the Palestinian village Qalunya, demolished in 1948; and the trail connecting the largest 9/11 memorial site outside the U.S. with a top-secret nuclear-proof bunker for the Israeli cabinet. He shares the stories of the people he meets along the way and considers how his own subjectivity is shaped by the landscape and culture of conflict. Moreover, he deconstructs, challenges, and resists the concepts and institutions that constitute such a culture and invites conversation about the idea of conflict as a culture.

Walking Cheshire's Sandstone Trail

Discusses various aspects of hiking, including warming up, gear, packing, safety, map reading, food, topography, and more.

Along the Trail in Algonquin Park

Lying on the Trail is a book written by a liar named me for your entertainment. Spanning trails, ponds, mountains and hot-tubs near and far. Including bumbling adventures, yoga instructors, broken bones, opened beers, paddlers, swingers and even the occasional bit of walking you'll find a fair 'n fine variety of tales around this fire. This is not a trail journal, but a collection of lies that spans many trails and many years. So for all those looking for a little something different, well, it's different.

On the Trail of the Jackalope

Kentucky packhorse librarian Tansy Calhoun doesn't mind the rough trails and long hours as she serves her Appalachian mountain community during the Great Depression. Yet she longs to find love like the heroines in her books. When a charming writer comes to town, she thinks she might have found it—or is the perfect man actually closer than she thinks? Perdita Sweet has called these mountains home for so long she's nearly as rocky as the soil around her small cabin. Long ago she thought she could

love, but when the object of her affection up and married someone else, she stopped giving too much of herself away to others. As is so often the case, it's easier to see what's best for others than to see what's best for oneself, and Perdita knows who Tansy should choose. But why would anyone listen to the romantic advice of an old spinster? Saddle up for a heartfelt story of love--love of family, love of place, and the love of a lifetime--from bestselling author Ann H. Gabhart.

The Politics of the Trail

In February 2019, award-winning writer Alex Roddie left his online life behind when he set out to walk 300 miles through the Scottish Highlands, seeking solitude and answers. In leaving the chaos of the internet behind for a month, he hoped to learn how it was truly affecting him – or if he should look elsewhere for the causes of his anxiety. *The Farthest Shore* is the story of Alex's solo trek along the remote Cape Wrath Trail. As he journeyed through a vanishing winter, Alex found answers to his questions, learnt the nature of true silence, and discovered frightening evidence of the threats faced by Scotland's wild mountain landscape.

Trekking on a Trail

Bring nature into your home with the inspiring true story of hope and the healing powers of the natural world, in one of the most talked about books of the decade FROM THE MILLION-COPY BESTSELLING AUTHOR 'This is what you need right now to muster hope and resilience . . . a beautiful story and a reminder that humans can endure adversity' Stylist 'A beautiful book, it really lives up to the hype . . . an enjoyable, gentle yet moving read' Pandora Sykes on *The High Low* _____ Just days after Raynor learns that Moth, her husband of 32 years, is terminally ill, their home is taken away and they lose their livelihood. With nothing left and little time, they make the brave and impulsive decision to walk the 630 miles of the sea-swept South West Coast Path, from Somerset to Dorset, via Devon and Cornwall. Carrying only the essentials for survival on their backs, they live wild in the ancient, weathered landscape of cliffs, sea and sky. Yet through every step, every encounter and every test along the way, their walk becomes a remarkable journey. *The Salt Path* is an honest and life-affirming true story of coming to terms with grief and the healing power of the natural world. Ultimately, it is a portrayal of home, and how it can be lost, rebuilt and rediscovered in the most unexpected ways. _____ THE SUNDAY TIMES BESTSELLER, WINNER OF THE ROYAL SOCIETY LITERATURE CHRISTOPHER BLAND PRIZE & SHORTLISTED FOR THE 2018 COSTA BIOGRAPHY AWARD & WAINWRIGHT GOLDEN BEER BOOK PRIZE 2018 GUARDIAN BEST BOOKS OF SUMMER 'A beautiful, thoughtful, lyrical story of homelessness, human strength and endurance' Guardian 'Mesmerising. Lying on the Trail

Hiking 2,159 miles from Georgia to Maine was not my idea...I was not a lost youth searching for an identity. I was not retired and looking for a new way to spend my time. I was not sorting through death or divorce. I was not recently fired from a job. The truth is, my boyfriend asked me on a date. So begins the story of one young woman's journey along the legendary Appalachian Trail. What starts as a date turns into the experience of a lifetime as Adrienne Hall faces blinding snowstorms, flooded rivers, and seemingly endless mountaintops. Yet despite the physical and mental hardships, she finds her commitment to her hiking companion and the AT experience growing with every mile. When she emerges from her trip - a million footsteps, countless candy bars, and one engagement proposal later - Adrienne has lived an adventure that few will ever know. Written with warmth, insight, and a keen sense of observation, *A Journey North* is a personal story about discovering what it means to hike the amazing corridor of wilderness that is the Appalachian Trail. (6 x 9 1/4, 224 pages, case bound)

Circular Walks Along the Gritstone Trail and Mow Cop Trail

Using this comprehensive hiker's guide to travel services along Florida's National Scenic Trail, you can plan a weekend, a week, or an entire walk across Florida using the logistical details for hikers and backpackers presented in this book. Covering more than 1,400 miles of hiking on the Florida Trail and connected footpaths, *The Florida Trail Guide* offers you hundreds of starting points for a walk in the woods, Florida-style. Spanning from the edge of the Everglades to Gulf Islands National Seashore in Pensacola Beach, the Florida Trail is one of America's great National Scenic Trails. With statewide volunteer efforts coordinated by the Florida Trail Association since 1966, the route of the trail leads you through the most diverse landscapes you'll find along a trail in a single state. From tropical forests

in South Florida to the deep ravines and Appalachian-like bluffs of Northwest Florida, hikers enjoy an extraordinary amount of scenery on a trail that is best enjoyed from October through April. The trail passes by and through many small towns and several cities and is within an hour's drive of most of Florida's major cities. Included in this guide are a full map of the trail, 36 regional overview maps, 63 town maps with service details for towns located along or close to the trail, GPS coordinates for several hundred trailheads and trail access points, at-a-glance services icons, section and thru-trail mileage, mileage charts with point-to-point details based on trail landmarks, calculated mileages between designated campsites, post office locations and hours, hotels and campgrounds near the trail, contact information for thousands of services, permit requirements, important precautions, and basics you should know about hiking in Florida. Links are included to let you expand on the details in this book with online resources.

Along a Storied Trail

A willful New York debutante travels the rugged Great Plains for a future in the flourishing American West in this New York Times bestseller. Charting the trail across the Great Plains from New York City to the Mexican territory of California, a headstrong couple embarks on a new life in this classic work of historical fiction as unforgiving, moving, and unpredictable as the frontier. A recent finishing school graduate, eighteen-year-old Garnet Cameron is desperate for direction. Too driven for the restrictive manners of the upper class, Garnet is naturally drawn to Oliver Hale, a frontier trader. Unlike the men Garnet is accustomed to, Oliver treats her as his equal and respects her independence. His tales of adventure on the plains thrill her. And his proposal of marriage is accepted. Garnet eagerly grabs hold of the promise and prospect of an exciting future, only to discover how ill-prepared she is for the punishing landscape of the Jubilee Trail and the even harsher realities of human nature. Adapted into a feature film, Jubilee Trail is a classic novel of a woman in the West, beloved not only for the rebelliousness and resilience of its heroine, but for its authenticity, grand sweep, unsparing intimacy, and honest portrayal of the survivors and victims—as well as the victors and villains—of a defiant American wilderness.

The Farthest Shore

The Snowdonia Slate Trail is a new waymarked trail that runs for 83 miles through North Wales. It leads from the coast at Bangor into the heart of Snowdonia to make a circuit ending at Bethesda. The trail joins up villages with a choice of welcoming accommodation. The walking is varied, ranging from easy valleys to mountain passes, from wild moorland to river gorges. Highlights include the National Slate Museum of Wales, stunning views of Snowdon and nearby mountains, and abandoned slate villages high in the hills. The trail also passes the Penrhyn quarry with its impressive galleries of slate crossed by the longest, fastest zip-wire in Europe. This guidebook is in rucksack-friendly format and printed on rainproof paper. Lavishly illustrated with 95 colour photos, it contains large-scale mapping and all you need to plan and enjoy your holiday: 14 pages with clear mapping of the route at 1:40,000, practical information about public transport and travel, section with inside knowledge on how best to climb Snowdon, detailed route descriptions including where to find refreshments and accommodation, background on the slate industry heritage, the 'Great Little Trains of Wales' and wildlife.
