This book presents a wholly new perspective on the Child Support Agency. The authors were granted privileged access to the CSA's own staff and were thus able to monitor case conduct from both the Agency and the client perspective. In a gripping analysis they compare the accounts of former husbands and wives with those of their respective legal advisers, and, critically, they incorporate the experience and views of the beleaguered CSA staff who attempted to calculate and enforce child maintenance obligations in those same cases. The media picture of the misery visited upon 'absent fathers' is borne out in part, but even more striking is the authors' account of a catastrophic administrative failure which led to the abandonment of many of the basic tenets of administrative justice. The reasons do not lie in the perceived unfairness of the formula but rather in the failure of those drafting the Child Support legislation to appreciate the impact of such change upon the rest of our hugely complex benefit structure. Their failure to grasp that the problems of inadequate disclosure and ineffective enforcement - with which courts had grappled for decades - could not be tackled effectively by a distant bureaucracy.

Child Support

This book showcases existing problems within the African-American community that are exacerbated by its over-reliance on a very flawed child support system. Bestselling author and social critic Demico Boothe shares his personal story of being wrongfully convicted of a crime, being sent to federal prison, and coming out of prison only to have to immediately deal with a hostile child support system that seemed intent on sending him back to prison over money he didn't have. Boothe shares how the current child support system poorly served him and his family and identifies and analyzes many areas within the system that need fixing. Boothe identifies racism, emotionalism, anti-male feminism, and profit motive as the main driving forces of the U.S. child support system, not the bettering of the welfare of children. Upon finding that unemployed and underemployed black fathers are disproportionately the recipients of the worst punitive actions that the system has to offer due to economic and racial reasons, Boothe decided to pen a book about it, hoping to shed some much-needed light on this issue. Important facts and in-book points of discussion about the U.S. Child Support System and the black family: Over 115 billion dollars is currently owed to the government in back child support and associated fees, mostly by poor black fathers The U.S. Child Support System began formation in the early 1800's and was originally designated for white women only, and has since only been updated to incorporate more punitive enforcement actions that are now levied disproportionately against poor black fathers The Child Support System has been instrumental in the much-talked-about breakdown and dwindling of the two-parent black family household since the late 1970's The Child Support System prioritizes payments over parentage when it comes to fathers, while nearly 70% of all black children in the U.S. are raised in households headed by single women The U.S. Child Support System actively serves as a form of probationary surveillance on poor fathers The U.S. Child Support System is openly anti-family and anti-male The American Feminist Movement - which started in the early 1800's as a white-women-only movement that sought to create more economic parity and equity between white men and women - is largely responsible for the anti-male slant within the U.S. Child Support System The U.S. Child Support System helped create the false "Deadbeat Dad" stereotype that the mainstream media often only relegates to black men The U.S. Child Support System helped create the "Bitter Baby Mama" syndrome in the black community Federal and state governments reap multilevel economic profits via the U.S. Child Support System
