Shadow Child

Fact and fiction combine in a classic that scared Vermonters out of the woods.

The Shadow Child

Eighteen-year-old Emma has loving parents, a happy home life, and a promising future ahead of her. So why, one morning, does she leave home without a trace? Her parents Cath and Jim are devastated.

They have no idea why Emma left, where she is - or even whether she is still alive. A year passes, and the couple are still coping with Emma's absence, not to mention all of the unanswered questions she left behind. What Cath and Jim cannot know is that, close by, Emma is also struggling with her new life - in particular, with the trauma that caused her to run away in the first place. But the three of them must realise that, in order to trust each other once again, they have to come to terms with the secrets of their pasts; secrets that have been hidden for years ... Secrets that have the power to destroy them.

Shadow Child

To outsiders, the deep, impenetrable forest that blankets Vermont's Green Mountains gives the state its peaceful and verdant mystique, but those same dark woods hide a secret from pre-history that reaches menacingly into the present. Joseph A. Citro's widely read publications about the more haunting history, legends, and lore of New England have earned him a reputation as an expert on themes of the supernatural. In this book (first published in 1987), however, he deftly melds real-life ancient ruins, a keen eye for the social fabric of small-town Vermont, and a soaring imagination to fashion a gripping tale of a family's life-or-death struggle to save their farm from an enemy far more devastating than banks, taxes, or land developers. Eric Nolan is a man already too familiar with death. His brother's long-ago disappearance, the loss of his parents, and his wife's recent demise in an auto accident have left him near the edge physically and emotionally. In desperation he returns to his boyhood haunt, the family farm in rural Antrim, Vermont, now occupied by his cousin, Pamela, her husband, Clint, and Luke, their four-year-old son. But any solace Eric might find there is short-lived. Something terrible is going on in the woods on Pinnacle Mountain and it seems to be centered around a mysterious stone structure that, a local historian believes may be the relic of an ancient race. The mystery deepens as people begin to vanish one by one, first a village policeman, then a local hermit, a researcher, and finally Clint himself. As baffling and violent incidents continue it becomes harder to deny that a powerful and malevolent force is at work in the Green Mountains, a force that has targeted young Luke. Though it defies Eric's every rational instinct, he must ultimately confront a reality he can neither accept nor deny. As he and the others struggle to quell the rising tide of evil, the siege escalates to a brutal battle for life itself. Citro twists every shock possible out of this finely crafted gothic thriller that tests the limits of legend and belief.

Shadow Child

A powerful novel from Radio 4 presenter and Times columnist Libby Purves, inspired by the loss of her own son. 'Family love is one of the most powerful elemental forces on earth, and at that moment, our last moment as a unit of three, we rode a great curling triumphant wave of it, all together. Death may have thought that he won, but I think otherwise.' There is no right way to deal with the loss of a beloved son. Marion and Tom are doing their dignified best, but their own relationship is taking a battering. So when a fierce, strange woman turns up and demands to see the dead boy, Marion is almost glad of the distraction. Against Tom's wishes, she determines to find out more about her son's life away from home. The quest takes her out of her comfortable, conventional world to a shabby office in East London, and a series of shocks. Tom, furious, finds his own solution, and amid scandal, sorrow and exaltation the quiet Middle-Englanders discover that there is more than one kind of family.

Shadow Child

For fans of Tayari Jones and Ruth Ozeki, from National Book Critics Circle Award finalist Rizzuto comes a haunting and suspenseful literary tale set in 1970s New York City and World War II-era Japan, about three strong women, the dangerous ties of family and identity, and the long shadow our histories can cast. Twin sisters Hana and Kei grew up in a tiny Hawaiian town in the 1950s and 1960s, so close they shared the same nickname. Raised in dreamlike isolation by their loving but unstable mother, they were fatherless, mixed-race, and utterly inseparable, devoted to one another. But when their cherished threesome with Mama is broken, and then further shattered by a violent, nearly fatal betrayal that neither young woman can forgive, it seems their bond may be severed forever--until, six years later, Kei arrives on Hana's lonely Manhattan doorstep with a secret that will change everything. Told in interwoven narratives that glide seamlessly between the gritty streets of New York, the lush and dangerous landscape of Hawaii, and the horrors of the Japanese internment camps and the bombing of Hiroshima, *Shadow Child* is set against an epic sweep of history. Volcanos, tsunamis, abandonment, racism, and war form the urgent, unforgettable backdrop of this intimate, evocative, and deeply moving story of motherhood, sisterhood, and second chances.

The Shadow Child

In a future where the Population Police enforce the law limiting a family to only two children, Luke, an illegal third child, has lived all his twelve years in isolation and fear on his family's farm in this start to the Shadow Children series from Margaret Peterson Haddix. Luke has never been to school. He's never had a birthday party, or gone to a friend's house for an overnight. In fact, Luke has never had a friend. Luke is one of the shadow children, a third child forbidden by the Population Police. He's lived his entire life in hiding, and now, with a new housing development replacing the woods next to his family's farm, he is no longer even allowed to go outside. Then, one day Luke sees a girl's face in the window of a house where he knows two other children already live. Finally, he's met a shadow child like himself. Jen is willing to risk everything to come out of the shadows—does Luke dare to become involved in her dangerous plan? Can he afford not to?

The Shadow Child

"Everything that had happened to Nina was real. She had real handcuffs on her wrists, real scars on her back, real fear flooding her mind. "'They're going to kill me,' Nina whispered, and it was almost a relief to finally, finally give up hope." In a society that allows no more than two children per family under penalty of death, third children are forced into hiding, or to live with false identity papers. In *Among the Impostors*, Nina Idi was arrested for treason for supposedly trying to trick the Population Police into arresting other students she said were illegal third children. Now she faces torture or death -- unless she agrees to betray three other imprisoned third children. Her dilemma intensifies when she meets the prisoners -- who are only ten, nine, and six. As she did so brilliantly in the Publishers Weekly best-selling *Among the Hidden* and in *Among the Impostors*, Margaret Peterson Haddix once again brings readers to a world in which nothing is as it seems -- a world in which an imprisonment leads to an adventure of mind, body, and spirit.

National Bestseller Like many young women, Beth Powning faced decisions of whether and when to start a family. Ambivalence gave way to dreams for a baby, and at age twenty-four she became pregnant. But eleven days past her due date, she delivered a perfect, stillborn son. In this beautifully wrought exploration of motherhood and loss, the acclaimed New Brunswick writer takes us on a powerful journey into the heart of grief and renewal.

Shadow Child

A story of the impact of childhood chronic disease on siblings and families. Each year, thousands of families are faced with the specter of childhood chronic disease. Despite often being labeled as "lucky ones," childhood chronic diseases take a severe toll on the healthy brothers and sisters of the sick child. Feelings of fear, jealousy, resentment and extraordinary responsibility are common among such healthy siblings. These children and young adults can feel emotionally neglected within the family structure. Shadow Child explores all of these impacts in the context of the author's relationship with his younger brother. Shadow Child is the story of the author's personal experience as a healthy sibling of a brother inflicted with Type 1 Diabetes when he was four years old (preceded by Juvenile Rheumatoid Arthritis when he was two). The book focuses on the impact that chronic diseases such as diabetes have on the families of the inflicted child, and explores how various interfamily relationships change due to the introduction of chronic disease.

Among the Enemy

A Past Without Shadow examines 50 years of German children's books in which the darkest horrors of the Third Reich have routinely remained hidden. The horrors of the Third Reich are systematically screened and filtered, allowing the darker, bleaker parts of history to escape illumination. Here Zohar Shavit explores 345 German books for children describing the Third Reich and the Holocaust, and finds a shocking distortion of the past: a recurrent narrative which suggests that the Germans themselves had no hand in the suffering inflicted on the Jews. These books, Shavit argues, have created the false historical lesson that the real victims of Hitler's crimes were the German people themselves. First published to great acclaim in Hebrew and now available in English, this book is a wake-up call for anyone concerned about German children's literature and its responsibility to past and future.

Among the Brave

A young girl forms an unforgettable friendship with an elderly neighbor while searching for answers about her family's past in this national bestseller and Pulitzer Prize nominee. Eleven-year-old Clara is struggling to find the truth about her missing father and grandfather and her twin sister, dead at birth, but her mother steadfastly refuses to talk about these people who are lost to her daughter. When Clara begins interviewing Georg Kominsky, a lone old man, for a school biography assignment, she finds that he is equally reticent about his own concealed history. Precocious and imaginative, the girl invents

version upon version of Mr. Kominsky's past, just as she invents lives for the people missing from her own shadowy past. The journey of discovery that these two oddly matched people embark upon is at the heart of this beautiful story about friendship and communion, about discovering what matters most in life, and about the search to find the missing pieces of ourselves. McGhee's prose glistens with shrewd truth and wild imaginings, creating a novel that will reverberate in the hearts and minds of readers long after the book is finished.

'A real ode to the power of creativity...' L.D. Lapinski, author of *The Strangeworlds Travel Agency*

Shadow Jumper

In the Shadow of the Dreamchild uses new research to show that the long-standing image of the life of Charles Dodgson, better known to millions of fans around the world as Lewis Carroll, as exclusively child-centred and unworldly, his preoccupation with Alice Liddell, and his supposedly unnatural sexuality are all in fact nothing more than myths: that they belong to an invented persona, created around the name "Carroll," and have almost nothing to do with Dodgson's real but overshadowed life. Meticulously researched, the book traces the development of this false persona and demonstrates how generations of biographers have helped to create fictions about Dodgson's life, rather than bring the documentary facts before the public. It uses the data to recreate a startlingly new picture of Dodgson's personality, his experiences, and, crucially, his all-important relationship with the Liddell family. In the Shadow of the Dreamchild challenges almost every scholastic and literary insight on Carroll that has developed over the past century.
