Spotlight on Advanced

Spotlight on Advanced is a comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam. An exciting new feature of this revised edition is the Ideas Generator. Test takers need to generate ideas to pass the Speaking and Writing papers of the exam. The Ideas Generator uses National Geographic videos to stimulate students' interest in common exam topics, help them build ideas about these topics and gather the language they need to effectively write or speak about them. After each video lesson students will have a bank of ideas, functional language and vocabulary tied to eight topics that commonly appear in the exam. One of the most difficult parts of the exam for students is the Speaking Test. The Speaking Test videos and worksheets will prepare students by getting them to engage with simulations of all four parts of the Speaking test.

Spotlight on CAE. Student's book. Per le Scuole superiori

Spotlight on CAE is a comprehensive course carefully written to the new CAE exam specifications introduced in December 2008. It prepares adult and younger learners to excel in the revised exam. All four skills are developed within each of the sixteen units, and are supported by an overall skills-based examination syllabus.

Spotlight on Modern Transformer Design

Spotlight on Modern Transformer Design introduces a novel approach to transformer design using artificial intelligence (AI) techniques in combination with finite element method (FEM). Today, AI is widely used for modeling nonlinear and large-scale systems, especially when explicit mathematical models are difficult to obtain or completely lacking. Moreover, AI is computationally efficient in solving hard optimization problems. Many numerical examples throughout the book illustrate the application of the techniques discussed to a variety of real-life transformer design problems, including: • problems relating to the prediction of no-load losses; • winding material selection; • transformer design optimisation; • and transformer selection. Spotlight on Modern Transformer Design is a valuable learning tool for advanced undergraduate and graduate students, as well as researchers and power engineering professionals working in electric utilities and industries, public authorities, and design offices.

Spotlight on CAE : [completely new series for the updated 2008 CAE exam]

Spotlight on FCE prepares students to be fully aware of how the exam works and how to be ready to pass it. It consolidates and builds on essential areas of grammar and vocabulary. It also develops the speaking, reading, writing and listening skills required to pass. Spotlight on FCE also works well with the new online preparation course My FCE, which offers over 40 hours of additional test preparation.

Spotlight on CAE Student's Book + Mycae Online Course Self Study Version

Complete CAE is a course for the 2008 updated CAE exam. Informed by the Cambridge Learner Corpus and providing a complete CAE exam paper specially prepared by Cambridge ESOL, it is the most authentic exam preparation course available. This topic-based course covers every part of the CAE exam in detail, ensuring that students are fully equipped to tackle each part of every paper. The Class Audio CDs contain all the audio for the Students' Book.

Complete CAE Class Audio CDs (3)

The books consist of a collection of six complete practice tests each for the Cambridge ESOL Certificate in Advanced English (CAE) examination. The tests have been designed to reflect the exam type tasks according to the most recent CAE specifications, which were introduced in December 1999. Therefore, they provide excellent preparation for the Cambridge CAE examination as well as any other examinations at the same level.

This festschrift in honor of Professor Budugur Lakshminarayana's 60th birthday-based on the proceedings of a symposium on Turbomachinery Fluid Dynamics and Heat Transfer held recently at The Pennsylvania State University, University Park-provides authoritative and conclusive research results as well as new insights into complex flow features found in the turbomachinery used for propulsion, power, and industrial applications. Explaining in detail compressors, heat transfer fields in turbines, computational fluid dynamics, and unsteady flows, Turbomachinery Fluid Dynamics and Heat Transfer covers: Mixing mechanisms, annulus wall boundary layers, and the flow field in transonic turbocompressors The numerical implementation of turbulence models in a computer code Secondary flows, film cooling, and thermal turbulence modeling The visualization method of modeling using liquid crystals Innovative techniques in the computational modeling of compressor and turbine flows measurement in unsteady flows as well as axial flows and compressor noise generation And much more Generously illustrated and containing key bibliographic citations, Turbomachinery Fluid Dynamics and Heat Transfer is an indispensable resource for mechanical, design, aerospace, marine, manufacturing, materials,

industrial, and reliability engineers; and upper-level undergraduate and graduate students in these disciplines.

Turbomachinery Fluid Dynamics and Heat Transfer

This book reviews the theoretical fundamentals of grey-box identification and puts the spotlight on MoCaVa, a MATLAB-compatible software tool, for facilitating the procedure of effective grey-box identification. It demonstrates the application of MoCaVa using two case studies drawn from the paper and steel industries. In addition, the book answers common questions which will help in building accurate models for systems with unknown inputs.

Business Plus is a three-level, integrated-skills, business English course, from A1 (false beginner) to B1 (pre-intermediate) levels. Each level of the Student's Book has 10 units. Designed to be easy and enjoyable to teach, each unit features integrated skills and language practice. Units also include cultural awareness sections that connect learners to their region and beyond. In addition, TOEIC-style practice sections allow students' progress to be measured.

Business Plus Level 1 Student's Book

This book sheds light on the 'Romanian orphans' including those who stayed in institutions throughout their childhood as well as those who were adopted, reporting on their experiences in children's homes, foster care, domestic adoption as well as intercountry adoption and providing new evidence on what is important for children in care today.

This book brings together contributions from a range of social welfare settings, including child welfare, unemployment, mental health and substance abuse treatment, to examine how interprofessional collaboration and service user participation are realised or challenged in multi-agency meetings. It provides empirically grounded analyses of specific aspects of multi-agency work and offers a distinctive conceptual framework for understanding and analysing interaction during meetings in various social welfare settings. Based on audio and video recordings, the authors provide clear examples of actual practices of social welfare professionals and demonstrate how the realisation of collaborative and integrated welfare policy is contingent on effective interactional practices between professionals and service users.

A Reading Course in Homeric Greek, Book One, Third Edition is a revised edition of the well respected text by Frs. Schoder and Horrigan. This text provides an introduction to Ancient Greek language as found in the Greek of Homer. Covering 120 lessons, readings from Homer begin after the first 10 lessons in the book. Honor work, appendices, and vocabularies are included, along with review exercises for each chapter with answers.

Power Up Level 4 Pupil's Book

This preparation book for the Cambridge advanced and proficiency exams provides coverage of the structures and vocabulary essential for exam success. Grammar is presented clearly and concisely in each unit with integrated vocabulary content, and varied and challenging exercises.

Ready for Advanced [Certificate in Advanced English]

This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.

Interprofessional Collaboration and Service User Participation

Cambridge English Proficiency 2 contains four complete and authentic examination papers for Cambridge English: Proficiency, also known as Cambridge Certificate of Proficiency in English (CPE). This collection of examination papers provides the most authentic exam preparation available. These examination papers allow candidates to familiarise themselves with the content and format of the exam and to practise useful examination techniques. Audio CDs containing the exam Listening material, a Student's Book with answers, and a Student's Book with answers with downloadable Audio are available separately.

A Reading Course in Homeric Greek, Book 1

'Target Cambridge English: First' prepares students for the First Certificate in English (FCE) exam from Cambridge English Language Assessment. Essential exam practice, tips and strategies are combined with stimulating, communicative activities ensuring lessons are varied and engaging - and that students are ready for their exam.
