Better answers result in a whole host of benefits.
RELATIONSHIPS
Closed questions are questions which require a short answer, often one word and chosen from a limited set of possible answers. For example, yes or no questions, or multiple choice questions or a question to get a specific piece of information.
CONTRAST
The questions in the example become more restrictive, starting with open questions, which allow very broad answers and at each step the questions become more focused and the answers become more restrictive.
Rhetorical Questions?
And while we are talking about responses, how you interpret the response is equally important to the question.
