Folk-stories of the Northern Border

"Soldier mortals would not survive if they were not blessed with the gift of imagination and the pictures of hope," wrote Confederate Private Henry Graves in the trenches outside Petersburg, Virginia. "The second angel of mercy is the night dream." Providing fresh perspective on the human side of the Civil War, this book explores the dreams and imaginings of those who fought it, as recorded in their letters, journals and memoirs. Sometimes published as poems or songs or printed in newspapers, these rarely acknowledged writings reflect the personalities and experiences of their authors. Some expressions of fear, pain, loss, homesickness and disappointment are related with grim fatalism, some with glimpses of humor.

The Home Voices Speak Louder Than the Drums

A revolutionary telling of the spiritual journey of the mentor and the adept. With this memoir death becomes but an intermission and the dreams shared of the Magus after his passing prove Act II, after Act I a life of creative genius in the theatre, radio, television as a director. That life I shared in for seven magical years in Babylon; New York City, and Toronto. It's the fantastical, magical story of love, loss and a nasty betrayal in the theatre, famous persons in both America and Canada, all told with incisive wit, refreshing candour and of course there is for good measure, kick-ass hot sex!

Dream Magus of Babylon

In this book the author discusses the places of science in rituals and mantras. Using structural analysis he shows that rituals in general, whether religious, political, social or otherwise have common structural patterns. These patterns are shared by poetry, music, dance and gymnastics, but not by language.

Consideration of animal rituals and pathological rituals leads him to propose a general theory which unifies all rituals-like activities.

Book Excerpt: ...dered me good service in the investigation of phobias, obsessions, illusions, and the like, and which, under the name "psycho-analysis," had found acceptance by a whole school of investigators. The manifold analogies of dream life with the most diverse conditions of psychical disease in the waking state have been rightly insisted upon by a number of medical observers. It seemed, therefore, a priori, hopeful to apply to the interpretation of dreams methods of investigation which had been tested in psychopathological processes. Obsessions and those peculiar sensations of haunting dread remain as strange to normal consciousness as do dreams to our waking consciousness; their origin is as unknown to consciousness as is that of dreams. It was practical ends that impelled us, in these diseases, to fathom their origin and formation. Experience had shown us that a cure and a consequent mastery of the obsessing ideas did result when once those thoughts, the connecting links between the morbid ideas and the re...

Jewish Dreams and Realities Contrasted with Islamic and Christian Claims

Parables were used by Jesus to reveal to us the kingdom of God and to move us from being bystanders to active recipients of God's work of revelation. However, parables are constantly at risk of being buried as 'mummies of prose', as George MacDonald puts it. We become so familiar with the language of Scripture that Jesus' parables no longer work on us in this revelatory and transforming way. George MacDonald, the Victorian poet and theologian, observed this very process at work in Victorian society. It was a culture saturated with Christian jargon but often devoid of a profound understanding of the gospel for its own time and culture. The language of Scripture no longer penetrated people's hearts, imaginations, and attitudes; it no longer transformed people's lives. MacDonald, called to be a pastor, turned a story and more specifically the 'parabolic' as a means of spiritual awakening. He created fictive worlds in which the language of Jesus would find a new home and regain its revelatory power for his particular Victorian audience.

Dream Psychology

This collection of verse is an escape from reality when we need one, though it is as real as anything we would call "real." Written with my deepest core, including a little essence of myself in every verse . . . trying and answering questions often asked by my wandering mind in words. Do I find a little of my personal Utopia in the collection? I find a lot more . . . It is hoped that the reader would find answers to some question I am sure you have asked yourselves in the long run, somewhere in this space-time continuum given to us. It is hoped that in the end, you enjoy the journey.

W. Chase Sigmund Freud (1856-1939) was an Austrian neurologist and the father of psychoanalysis, a clinical method for treating psychopathology through dialogue between a patient and a psychoanalyst. In creating psychoanalysis, Freud developed therapeutic techniques such as the use of free association and discovered transference, establishing its central role in the analytic process. Freud's redefinition of sexuality to include its infantile forms led him to formulate the Oedipus complex as the central tenet of psychoanalytical theory. His analysis of dreams as wish-fulfillments provided him with models for the clinical analysis of symptom formation and the mechanisms of repression as well as for elaboration of his theory of the unconscious. Freud postulated the existence of libido, an energy with which mental processes and structures are invested and which generates erotic attachments, and a death drive, the source of compulsive repetition, hate, aggression and neurotic guilt.

Many struggle to live a victorious life as a result of their ignorance of the potency, which the Spoken Word carries. Challenges are made to be faced, but it is only revelation and incessant confession of God's Word that is capable of making any man triumphant. The Spoken Word is 365 days devotional, exploring all areas of life, and revealing the power of God to heal, transform, enrich and bless. This devotional is released by God in this season to satisfy the hunger of men, heal the broken hearted, liberate the captives, and empower the weak. Who would ever believe that the wisest man – Solomon, was born out of the erroneous affair of David and Bathsheba? In this case, the author recounts, "From the shells of total shame, and from the marrows of the utmost disgrace, God can still birth fame" When you think all is over, and when you have given up to an ill fate; God will start something fabulously new in your life.

The Hundred Fathom Curve

'This is a blast of fresh air' Jonathan Clark, TLS 'Thank goodness for Gottlieb' Daily Telegraph 'A joy to read' Economist The author of the celebrated *The Dream of Reason* vividly explains the rise of modern thought from Descartes to Rousseau. Western philosophy is now two and a half millennia old, but much of it came in just two staccato bursts, each lasting only about 150 years. In his landmark survey of Western philosophy from the Greeks to the Renaissance, *The Dream of Reason*, Anthony Gottlieb documented the first of these, which came in the Athens of Socrates, Plato, and Aristotle. Now, in *The Dream of Enlightenment*, Gottlieb expertly navigates the second great explosion of thought, taking us to northern Europe in the wake of its wars of religion and the rise of Galilean science. In a relatively short period - from the early 1640s to the eve of the French Revolution - Descartes, Hobbes, Spinoza, Locke, Leibniz, and Hume all made their mark. *The Dream of Enlightenment* tells their story and that of the birth of modern philosophy. As Gottlieb explains, all these men were amateurs: none had much to do with any university. They tried to fathom the implications of the new science and of religious upheaval, which led them to question traditional teachings and attitudes. What does the advance of science entail for our understanding of ourselves and for our ideas of God? How should a government deal with religious diversity - and what is government actually for? Such questions remain our questions. Yet it is because we still want to hear them that we can easily get these philosophers wrong. It is tempting to think they speak our language and live in our world; but to understand them properly, we must step back into

their shoes. Gottlieb puts readers in the minds of these frequently misinterpreted figures, elucidating the history of their times while engagingly explaining their arguments and assessing their legacy. The Dream of Enlightenment creates a sweeping account of what they amounted to, and why we are still in their debt.

The Forty Fathom Bank

The narrator recounts a tour of a volcano on one of the Sandwich Islands and a dream that accompanied it soon after. In this dream, the narrator is guided to the tomb of an indigenous chieftain. He then attempts to follow the directions given in the dream.

THE SPOKEN WORD

"Part novel and part autobiography, *The Great Fire of London* originates in the author's determination to come to terms with the sudden death of his young wife Alix, whose absence haunts every page. Paralyzed by grief, and having failed to complete the novel he had wanted to write, Jacques Roubaud begins a book about that very failure. He submerges his love and his sorrow in meditations that range from despair to playfulness, taking slow and painful steps toward surviving his great loss."--BOOK JACKET.

Lie Under the Fig Trees

It's time to wake up and smell the carnage. Just as every night gives way to dawn, all dreams yield to the break of day. For Marty, that's kind of a problem. When you've fought killer clowns, sailed the seven skies, and generally laid waste to your own dreamspace, real life can be kind of a drag. At least, until your nightmares crawl through the cracks and shadows, and take a liking to your town. When the jesters come a knocking, it's time to man up. When the unmentionables under your bed come a biting, it's time to grab your trusty, pint-sized pirate compadre and lead a charge against the night terrors. What does this mean for Marty? It means the crew of *The Flying Fathom* are back, surfing on rainbows, swashing their buckles, and saving the world, one sleepy little town at a time. Book one of this series, *The Forty First Wink*, brought you a glimpse of utter, rum-swilling madness. Now *The Fathom Flies Again*, pushing you over the edge and chuckling at your plummeting screams, before scuttling off to find something shiny to steal. Remember, if you hear something under your bed, don't move. Don't make a sound. Draw your cutlass and think of something devilishly witty to shout, because things, my friend, are about to get all too real.

The Variety of Dream Experience

Haunting DC is a political activist ghost story, exploring the origins of the Occupy Wall Street movement and the origins of the soul. The journey begins when would-be political activist Garrett Wagner wakes up dead only to discover confusion in the afterlife, which requires the aid of his guide, Deidre Valerian. Garrett, still yearning for purpose decides to continue his activism by haunting corrupt politicians in Washington DC. Deidre agrees to assist Garrett as it aids her current research into the problem of the growing number of directionless souls. On their journey they recruit a long deceased watercraft salesman, a team of Roller Derby girls and an urban legend famous for haunting the Aldebaron Bed and Breakfast. Garrett's group goes on a crusade continuing the Global Justice Movement's agenda from beyond the grave. The antagonist Charles Bellmore is a demonologist employed by U.S. Senator John Kassel. Garrett's campaign threatens to topple the Senator's policies as well as his pocketbook and Bellmore is charged with ending these hauntings. His nefarious allegiance to the Brotherhood of Baphomet and the demon Glasya Labolas grants him the opportunity to attack Garrett's group. Bellmore sensing the possibility to possess even greater occult power sells his own soul for the chance. *Haunting DC* is an open question about the traditional explanations of the afterlife and spiritual motivation. The present day faltering religious, moral and ideological authority plays out through the characters in amazement and amusement as they discover the origins of their own motivations.

A 95-year old Missourian, diagnosed with an inoperable blastoma, decides to write the story of his unusual life before he passes into history. Chester Hanley, born in 1907 in Gaults Dip, Missouri, has had an unusual existence. When he is born, a friend of his fathers donates a small orange bush as a birthing gift. It fruits every few months as the boy matures but each harvest only yields two oranges. Just like life, sometimes they are sweet, sometimes bitter and very occasionally one is bitter and one sweet. The fruit appears, during his early years, to be a catalyst in triggering dreams and, in those dreams, Chester sees glimpses of the present and future. Quincy Rawlins, the tree donator, warns Chester and his father in no uncertain terms that the boy can benefit others from what he learns in his dreams but he can never profit from the magic himself. In 1916, his father goes off to war but comes home a shell of his former self. Where before, he was a non-violent man, he now strikes his wife a few times. He assaults some fellow farmers and is sent to Prison in Springfield. When he returns, he is more violent and Chesters mother banishes him from the home. He goes to New York and becomes a street fighter where he is accidentally injured when he falls and strikes his head on a kerb. He comes back home as a shadow of a robust man he once was. He is put into a nursing home near Saint Louis where Chesters mother begins an affair with the treating doctor. Chester sees this in a dream and goes to the clinic, finds his neglected father and brings him back home. Later, his father suffers a brain aneurism and finally he dies. The story encompasses the lives of Chesters three younger siblings, three ex-wives, his involvement in World War II and his ongoing battles with his mother. He becomes a best-selling author (albeit involuntarily) and travels the USA and abroad but never lives anywhere except Gaults Dip. He stops writing in the 1960s but when, in late 2002, he diagnosed with the inoperable brain tumour, he decides to write his life story.
