Judaism

Outlines the basics of practical Judaism and considers how Judaism has responded to, and dealt with, a number of key issues and debates, including the impact of the Holocaust and the establishment of the State of Israel.

Judaism

Norman Solomon's succinct book is an ideal introduction to Judaism as a religion and way of life. In addition to surveying the nature and development of Judaism, this Very Short Introduction outlines the basics of practical Judaism -- its festivals, prayers, customs, and various sects. Modern concerns and debates of the Jewish people are also addressed, such as the impact of the Holocaust, the establishment of the State of Israel, the status of women, and medical and commercial ethics.

Judaism

"This ideal introduction to Judaism answers questions such as 'Who are Jews?' and 'How did Judaism develop?' Solomon outlines the basics of practical Judaism, and addresses modern concerns and debates among the Jewish people, such as the impact of the Holocaust, the status of women, and Zionism."--P. [4] of cover.

Judaism: A Very Short Introduction

Norman Solomon's succinct book is an ideal introduction to Judaism as a religion and way of life. Demonstrating the diverse nature and ethnic origin of those with the Jewish faith, Solomon explores how the Jewish religion has developed in the 2,000 years since the days of the Bible. This Very Short Introduction starts by outlining the basics of practical Judaism - its festivals, prayers, customs, and various sects - and goes on to consider how Judaism has responded to, and dealt with, a number of key issues and debates, including the impact of the Holocaust and the establishment of the State of Israel. In this new edition, Solomon considers issues of contemporary Judaism in the twenty first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Torah from Heaven

An intriguing consideration of the validity of traditional notions of divine revelation and authoritative interpretation in today's world.

Islam: A Very Short Introduction

Islam features widely in the news, often in its most militant forms, but few people in the non-Muslim world really understand its nature. Malise Ruthven's Very Short Introduction, offers essential insights into the big issues, provides fresh perspectives on contemporary questions, and guides us through the complex debates.

Making Sense of "God"

All over the world people talk about God and argue endlessly about what God said and what, if anything, we should do about it. Do they know what are they talking about? Do they ever seriously consider what it might look like or feel like if God actually spoke to you? How could you tell, if someone said God spoke to them, whether they were deluded, bluffing, or high on drugs? The reflections, dialogues, and arguments in this book address such questions, often with humor, sometimes provocatively as when the author suggests the ancient gods have returned to invade the institutions of our great religions, or when two spirits, William and James, viewing the world from afar, voice their doubt as to whether the human species will ever attain the pinnacles of cooperation, reason, beauty, and love. Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked, and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society.

Making Sense of God

All over the world people talk about God and argue endlessly about what God said and what, if anything, we should do about it. Do they know what are they talking about? Do they ever seriously consider what it might look like or feel like if God actually spoke to you? How could you tell, if someone said God spoke to them, whether they were deluded, bluffing, or high on drugs? The reflections, dialogues, and arguments in this book address such questions, often with humor, sometimes provocatively as when the author suggests the ancient gods have returned to invade the institutions of our great religions, or when two spirits, William and James, viewing the world from afar, voice their doubt as to whether the

human species will ever attain the pinnacles of cooperation, reason, beauty, and love. Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked, and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society.

Judaism

This book is an attempt to explain the Jewish religion as it is practised today. The first six chapters are concerned with theology. They discuss the nature of God, the role of the Jewish people in God's creation, the divisions within Judaism, the place of the land of Israel in God's scheme, the future hope and the relationship between Judaism and the other great religions of the world. The last seven chapters describe Jewish practice. They discuss Jewish worship, the festivals, the fast days, the ceremonies of childhood and youth, the ceremonies of adulthood, the laws of everyday living and the Jewish way of death and mourning.

The Abrahamic Religions: a Very Short Introduction

In the book of Genesis, God bestows a new name upon Abram--Abraham, a father of many nations. With this name and his Covenant, Abraham would become the patriarch of three of the world's major religions: Judaism, Christianity, and Islam. Connected by their mutual--if differentiated--veneration of the One God proclaimed by Abraham, these traditions share much beyond their origins in the ancient Israel of the Old Testament. This Very Short Introduction explores the intertwined histories of these monotheistic religions, from the emergence of Christianity and Islam to the violence of the Crusades and the cultural exchanges of al-Andalus. Each religion continues to be shaped by this history but has also reacted to the forces of modernity and politics. Movements such as the Reformation and that led by seventh-century Kharijites have emerged, intentioned to reform or restore traditional religious practice but quite different in their goals and effects. Relationships with states, among them Israel and Saudi Arabia, have also figured importantly in their development. The Abrahamic Religions: A Very Short Introduction brings these traditions together into a common narrative, lending much needed context to the story of Abraham and his descendants. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Paganism: A Very Short Introduction

'Paganism' is an evocative word that, even today, conjures up deep-seated emotions and prejudices. Until recently, it was primarily a derogatory term used by Christians to describe the non-Christian cultures confronted and vanquished by their Churches. For some it evokes images of sacrifice and barbaric behaviour, while for others it symbolises a peace-loving, nature-worshipping spiritual relationship with the earth. This Very Short Introduction explores the meaning of paganism - through a chronological overview of the attitudes towards its practices and beliefs - from the ancient world through to the present day. Owen Davies largely looks at paganism through the eyes of the Christian world, and how, over the centuries, notions and representations of its nature were shaped by religious conflict, power struggles, colonialism, and scholarship. Despite the expansion of Christianity and Islam, Pagan cultures continue to exist around the world, whilst in the West new formations of paganism constitute one of the fastest-growing religions. Focussing on paganism in Europe, but exploring the nature of paganism globally, Davies looks at how Europeans discovered new cultures through colonial expansion, missionary work, and anthropological study. Contemporary social paganism can be a liberating and social force, and the idea of a global Pagan theology is now on the religious map. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Thomas Aquinas: A Very Short Introduction

Thomas Aquinas, an Italian Catholic priest in the early thirteenth century, is considered to be one of the great Christian thinkers who had, and who still has, a profound influence on Western thought. He was a controversial figure who was exposed and engaged in conflict. This Very Short Introduction looks

at Aquinas in a historical context, and explores the Church and culture into which Aquinas was born. It considers Aquinas as philosopher, and looks at the relationship between philosophy and religion in the thirteenth century. Fergus Kerr, in this engaging and informative introduction, will make *The Summa Theologiae*, Aquinas's greatest single work, accessible to new readers. It will also reflect on the importance of Thomas Aquinas in modern debates and asks why Aquinas matters now. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Humanism: A Very Short Introduction

Summary: Philosopher Stephen Law explains why humanism--though a rejection of religion--nevertheless provides both a moral basis and a meaning for our lives.-publisher description.

The Old Testament: A Very Short Introduction

The author offers an exploration of the 'Old Testament', illuminating its importance as history, literature, and sacred text. He provides an overview of one of the great pillars of Western religion and culture, a book which remains important today for Jews, Christians, and Muslims worldwide.

Religion: a Very Short Introduction

Religion plays a central role in human experience. Billions of people around the world practice a faith and act in accordance with it. Religion shapes how they enter the world and how they leave it - how they eat, dress, marry, and raise their children. It affects law, economy, and government. It sanctifies injustice and combats it. Beginning with the first signs of religion among ancient humans and concluding with a look at modern citizens and contemporary trends, leading scholar Thomas Tweed examines this powerful and enduring force in human society. *Religion: A Very Short Introduction* offers a concise non-partisan overview of religion's long history and its complicated role in the world today.

An Introduction to Judaism

This book is intended for students of religion and others who seek an introduction to Judaism.

Textual Sources for the Study of Judaism

"Alexander assembles material from Scripture and tradition, through religious law and ethical literature to a section on Society and the Jews, and prefaces the whole with an admirable introduction."-Jonathan Sacks, *Jewish Chronicle* "The texts . . . which are drawn from over two thousand years of history, are usefully divided, annotated and glossed. They enable students to explore the tradition in a new way [and] give a marvellous insight into the richness and liveliness of the Jewish religion and culture: we are given wit and pathos in addition to popular story and religious law."-Janet Trotter, *Resource*

Jewish Literature: A Very Short Introduction

The story of Jewish literature is a kaleidoscopic one, multilingual and transnational in character, spanning the globe as well as the centuries. In this broad, thought-provoking introduction to Jewish literature from 1492 to the present, cultural historian Ilan Stavans focuses on its multilingual and transnational nature. Stavans presents a wide range of traditions within Jewish literature and the variety of writers who made those traditions possible. Represented are writers as dissimilar as Luis de Carvajal the Younger, Franz Kafka, Bruno Schulz, Isaac Babel, Anzia Yezierska, Elias Canetti, Isaac Bashevis Singer, Irving Howe, Clarice Lispector, Susan Sontag, Philip Roth, Grace Paley, Amos Oz, Moacyr Scliar, and David Grossman. The story of Jewish literature spans the globe as well as the centuries, from the marrano poets and memorialists of medieval Spain, to the sprawling Yiddish writing in Ashkenaz (the "Pale of Settlement" in Eastern Europe), to the probing narratives of Jewish immigrants to the United States and other parts of the New World. It also examines the accounts of horror during the Holocaust, the work of Israeli authors since the creation of the Jewish State in 1948, and the "ingathering" of Jewish works in Brazil, Bulgaria, Argentina, and South Africa at the end of the twentieth century. This kaleidoscopic introduction to Jewish literature presents its subject matter as constantly changing and adapting.

The Koran: A Very Short Introduction

The Koran has constituted a remarkably strong core of identity and continuity for a religious tradition that is now in its fifteenth century. This Very Short Introduction explores the significance of the Koran both in the modern world and in traditional Muslim culture. Michael Cook provides a lucid and direct account of the Koran as codex, as scripture, as liturgy, and as the embodiment of truth, and examines its means of formation and dissemination. He also discusses issues of interpretation for certain key verses, demonstrating that fecundity of the text for readers throughout the world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Judaism

"How have the Jews survived? For millennia, they have defied odds by overcoming the travails of exile, persecution, and recurring plans for their annihilation. This book charts the long journey of the Jews through history. At the same time, it points to two unlikely factors to explain the survival of the Jews: antisemitism and assimilation"--

Jewish History

This short introduction provides an understanding of the diversity of Anglicanism by exploring its history, theology, and structure. It also reveals what it is that holds the Anglican Communion together despite the crises that threaten it.

Anglicanism: A Very Short Introduction

The Tenacity of Unreasonable Beliefs examines how and why Jewish, Christian, and Muslim fundamentalists defend their belief in the divine authorship of the Bible and the Koran against evidence to the contrary from scholarship and science, and the harmful and dangerous consequences of their beliefs.

The Tenacity of Unreasonable Beliefs

In this provocative but balanced essay, Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century. He prompts us to consider why political systems evolve, how politics offers both power and order in our society, whether democracy is always a good thing, and what future politics may have in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Politics: A Very Short Introduction

Jesus turned water into wine, Mohammad split the moon into two, and Buddha walked and spoke immediately upon birth. According to recent statistics, even in the present age of advanced science and technology, most people believe in miracles. In fact, newspapers and television regularly report alleged miracles, such as recoveries from incurable diseases, extremely unlikely coincidences, and religious signs and messages on unexpected objects. In this book the award-winning author and philosopher Yujin Nagasawa addresses some of our most fundamental questions concerning miracles. What exactly is a miracle? What types of miracles are believed in the world's great religions? What do recent scientific findings tell us about miracles? Can we rationally believe that miracles have really taken place? Can there be acts that are more religiously significant than miracles? Drawing on a vast variety of fascinating examples from across the major religions, Nagasawa discusses the lively debate on miracles that ranges from reported miracles in ancient scriptures in the East and West to cutting-edge scientific research on belief formation. Throughout, he drives us to ask ourselves if and how we can still believe in miracles in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Miracles

A historical tour de force that demolishes the myths and taboos that have surrounded Jewish and Israeli history, *The Invention of the Jewish People* offers a new account of both that demands to be read and reckoned with. Was there really a forced exile in the first century, at the hands of the Romans? Should we regard the Jewish people, throughout two millennia, as both a distinct ethnic group and a putative nation—returned at last to its Biblical homeland? Shlomo Sand argues that most Jews actually descend from converts, whose native lands were scattered far across the Middle East and Eastern Europe. The formation of a Jewish people and then a Jewish nation out of these disparate groups could only take place under the sway of a new historiography, developing in response to the rise of nationalism throughout Europe. Beneath the biblical back fill of the nineteenth-century historians, and the twentieth-century intellectuals who replaced rabbis as the architects of Jewish identity, *The Invention of the Jewish People* uncovers a new narrative of Israel's formation, and proposes a bold analysis of nationalism that accounts for the old myths. After a long stay on Israel's bestseller list, and winning the coveted Aujourd'hui Award in France, *The Invention of the Jewish People* is finally available in English. The central importance of the conflict in the Middle East ensures that Sand's arguments will reverberate well beyond the historians and politicians that he takes to task. Without an adequate understanding of Israel's past, capable of superseding today's opposing views, diplomatic solutions are likely to remain elusive. In this iconoclastic work of history, Shlomo Sand provides the intellectual foundations for a new vision of Israel's future.

The Invention of the Jewish People

A comprehensive guide to all aspects of Jewish life--from childhood to daily practices to death--as well as details of worship and festivals.

A Short Introduction to Judaism

The classic, essential guide to the beliefs, ideals and practices that form the historic Jewish faith.

Basic Judaism

This third edition of *Historical Dictionary of Judaism* covers the history of the Jewish religion through a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 800 cross-referenced entries on important personalities in Jewish religious history.

Historical Dictionary of Judaism

This Very Short Introduction introduces the reader to the teachings of the Buddha and to the integration of Buddhism into daily life. What are the distinctive features of Buddhism? Who was the Buddha, and what are his teachings? How has Buddhist thought developed over the centuries, and how

can contemporary dilemmas be faced from a Buddhist perspective? Words such as 'karma' and 'nirvana' have entered our vocabulary, but what do they mean? Damien Keown's book provides a lively, informative response to these frequently asked questions about Buddhism.

Buddhism: A Very Short Introduction

In the history of philosophy, few topics are so relevant to today's cultural and political landscape as philosophy in the Islamic world. Yet, this remains one of the lesser-known philosophical traditions. In this Very Short Introduction, Peter Adamson explores the history of philosophy among Muslims, Jews, and Christians living in Islamic lands, from its historical background to thinkers in the twentieth century. Introducing the main philosophical themes of the Islamic world, Adamson integrates ideas from the Islamic and Abrahamic faiths to consider the broad philosophical questions that continue to invite debate: What is the relationship between reason and religious belief? What is the possibility of proving God's existence? What is the nature of knowledge? Drawing on the most recent research in the field, this book challenges the assumption of the cultural decline of philosophy and science in the Islamic world by demonstrating its rich heritage and overlap with other faiths and philosophies.

Philosophy in the Islamic World: A Very Short Introduction

The Hebrew Bible, or Christian Old Testament, contains some of the finest literature that we have. This biblical literature has a place not only in the synagogue or the church but also among the classics of world literature. The stories of Jacob and David, for instance, present the earliest surviving examples of literary characters whose development the reader follows over the length of a lifetime. Elsewhere, as in the books of Esther or Ruth, readers find a snapshot of a particular, fraught moment that will define the character. The Hebrew Bible also provides quite a few high points of lyric poetry, from the praise and lament of the Psalms to the double entendres in the love of poetry of the Song of Songs. In short, the Bible can be celebrated not only as religious literature but, quite simply, as literature. This book offers a thorough and lively introduction to the Bible's two primary literary modes, narrative and poetry, foregrounding the nuances of plot, character, metaphor, structure and design, and intertextual allusions. Tod Linafelt thus gives readers the tools to fully experience and appreciate the Old Testament's literary achievement. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Hebrew Bible as Literature

This book is a concise guide to the history, beliefs and practices of this major world faith. Covering all the key aspects of Judaism, including the impact of the Holocaust and the significance of Israel on Jewish self-understanding, gain real insight into what it means to be Jewish today. NOT GOT MUCH TIME? One, five and ten-minute introductions to key principles to get you started. AUTHOR INSIGHTS Lots of instant help with common problems and quick tips for success, based on the author's many years of experience. FIVE THINGS TO REMEMBER Quick refreshers to help you remember the key facts. TRY THIS Innovative exercises illustrate what you've learnt and how to use it.

Judaism - An Introduction: Teach Yourself

"This book includes a chronology and an introduction that presents an overview of all aspects of Judaism. Numerous cross-referenced dictionary entries detail important people, writings, institutions, concepts, Hebrew words, philosophy, theology, and religious law, and an extensive bibliography provides access for further study."--Jacket.

The A to Z of Judaism

This is an introduction to the subject of academic theology. Its basic approach is interrogative, raising key questions so as to lead into a range of selected topics such as knowledge community, salvation, God, prayer and evil.

Theology: A Very Short Introduction

"The conflict between Palestine and Israel is one of the most highly publicized and bitter struggles of modern times, a dangerous tinderbox always poised to set the Middle East aflame, and to draw the United States into the fire. In this volume the author illuminates the history of the problem, reducing it to its very essence. He explores the Palestinian-Israeli dispute in twenty-year segments, to highlight the historical complexity of the conflict throughout successive decades. Each chapter starts with an examination of the relationships among people and events that marked particular years as historical stepping stones in the evolution of the conflict, including the 1897 Basel Congress, the 1917 Balfour Declaration and British occupation of Palestine, and the 1947 U.N. Partition Plan and the war for Palestine. Providing an exploration of the main issues, the author explores not only the historical basis of the conflict, but also looks at how and why partition has been so difficult and how efforts to restore peace continue today"--OCLC

The Palestinian-Israeli Conflict: A Very Short Introduction

This volume shows the influence of the Sage's teachings over the course of Chinese history--on state ideology, the civil service examination system, imperial government, the family, and social relations--and the fate of Confucianism in China in the nineteenth and twentieth centuries, as China developed alongside a modernizing West and Japan. Some Chinese intellectuals attempted to reform the Confucian tradition to address new needs; others argued for jettisoning it altogether in favor of Western ideas and technology; still others condemned it angrily, arguing that Confucius and his legacy were responsible for China's feudal, "backward" conditions in the twentieth century and launching campaigns to eradicate its influences. Yet Chinese continue to turn to the teachings of Confucianism for guidance in their daily lives.

Confucianism

The first complete look at the social status and daily life of medieval Jewish women.

Pious and Rebellious

Society's attitudes to rhetoric are often very negative. Here, Richard Toye provides an engaging, historically informed introduction to rhetoric, from Ancient Greece to the present day. Wide-ranging in its scope, this Very Short Introduction is the essential starting point for understanding the art of persuasion.

Rhetoric: A Very Short Introduction

Windows to Southeast Asia

PACKAGE THIS TITLE WITH OUR 2016 MLA SUPPLEMENT, Documenting Sources in MLA Style (package ISBN-13: 9781319084370). Get the most recent updates on MLA citation in a convenient, 40-page resource based on The MLA Handbook, 8th Edition, with plenty of models. Browse our catalog or contact your representative for a full listing of updated titles and packages, or to request a custom ISBN. Critical Thinking, Reading, and Writing is a compact but complete guide to critical thinking and argumentation. Comprising the text portion of the widely adopted Current Issues and Enduring Questions, it draws on the authors' dual expertise in effective persuasive writing and comprehensive rhetorical strategies to help students move from critical thinking to argumentative and researched writing. This extraordinarily versatile text includes comprehensive coverage of classic and contemporary approaches to argument, from Aristotelian to Toulmin, to a new chapter on rhetorical analysis of pop culture texts, as well as 35 readings (including e-Pages that allow students to take advantage of working with multimodal arguments on the Web), and a casebook on the state and the individual. This affordable guide can stand alone or supplement a larger anthology of readings.

An Anthology of English Writing in Southeast Asia

Critical Theory Today is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today:

feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semi-otics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Critical Thinking, Reading, and Writing

In this second volume of diaries from one of Australia's greatest writers, we see Garner in love; asking herself questions about relationships, individuality, morality and contentment. For readers of Lisa Taddeo's *Three Women*, and avid Garner fans, this volume illuminates the inner life of a writer with all its turmoil and joy.

Critical Theory Today

The Routledge Concise History of Southeast Asian Writing in English traces the development of literature in the region within its historical and cultural contexts. This volume explores creative writing in English across different genres and media, establishing connections from the colonial activity of the early modern period through to contemporary writing across Southeast Asia, focusing especially on the Philippines, Malaysia, Singapore and Hong Kong. In this critical guide, Rajeev S. Patke and Philip Holden: interweave text and context through the history of creative writing in the region examine language use and variation, making use of illuminating examples from speech, poetry and fictional prose trace the impact of historical, political and cultural events engage with current debates on national consciousness, globalization, modernity and postmodernism provide useful features including a glossary, further reading section and chapter summaries. Direct and clearly written, this Concise History guides readers through key topics while presenting a unique, original synthesis of history and practice in Southeast Asian writing in English. It is the ideal starting point for students and all those seeking a better understanding of Southeast Asian literatures and cultures.

Produced by Speechki in 2021.

One Day I'll Remember This

Charles Bernstein has described conceptual "poetry pregnant with thought." Against Expression, the premier anthology of conceptual writing, presents work that is by turns thoughtful, funny, provocative, and disturbing. Editors Craig Dworkin and Kenneth Goldsmith chart the trajectory of the conceptual aesthetic from early precursors such as Samuel Beckett and Marcel Duchamp through major avant-garde groups of the past century, including Dada, Oulipo, Fluxus, and language poetry, to name just a few. The works of more than a hundred writers from Aasprong to Zykov demonstrate a remarkable variety of new ways of thinking about the nature of texts, information, and art, using found, appropriated, and randomly generated texts to explore the possibilities of non-expressive language. --Book Jacket.

The Routledge Concise History of Southeast Asian Writing in English

This book contains interpretations of Ecclesiastes by authors from Asia and Pasifika. Essays engage oral traditions, customs, and written texts not usually encountered in biblical scholarship. Topics of wisdom, gender, justice, vanity, bitterness, life, death, labor, exile, pain, and philosophy invite readers to reconsider their own interpretations.

Woman, Native, Other

"In 1822, England's convicts were sent to Australia. The worst of those were sent to Van Diemens Land. The worst of those were sent to Sarah Island. There was no worse place in the world. Escape, and your food walked beside you"--Back cover.

Against Expression

Epic fantasy legend, and author of #1 New York Times bestselling series *The Wheel of Time*®, Robert Jordan's never-before published novel, *Warrior of the Altai*: Draw near and listen, or else time is at an end. The watering holes of the Plain are drying up, the fearsome fanghorn grow more numerous, and bad omens abound. Wulfgar, a leader of the Altai people, must contend with twin queens, warlords, prophets and magic in hopes of protecting his people and securing their future. Elspeth, a visitor from another world, holds the answers, but first Wulfgar must learn to ask the right questions. But what if the knowledge that saves the Altai will also destroy them? Books in Print Supplement

The present age has seen an explosion of verse novels in many parts of the world. Australia is a prolific producer, as are the USA and the UK. Novels in verse have also appeared in Canada, New Zealand, India, South Africa, Jamaica and several other countries. A novel written in verse contradicts theories that distinguish the novel as essentially a prose genre. The boundaries of prose and verse are, however, somewhat fluid. This is especially evident in the case of free verse poetry and the kinds of prose used in many Modernist novels. The contemporary outburst may seem a uniquely Postmodernist flouting of generic boundaries, but, in fact, the verse novel is not new. Its origins reach back to at least the eighteenth century. Byron's *Don Juan*, in the early nineteenth century, was an important influence on many later examples. Since its first surge in popularity during the Victorian era, it has never died out, though some fine examples, most of them from the earlier twentieth century, have been neglected or forgotten. This book investigates the status of the verse novel as a genre and traces its mainly English-language history from its beginnings. The discussion will be of interest to genre theorists, prosodists, narratologists and literary historians, as well as readers of verse novels wishing for some background to this apparently new literary phenomenon.

Reading Ecclesiastes from Asia and Pasifika

In late-1990s Britain, the *salwaar-kameez* or 'Punjabi suit' emerged as a high-fashion garment. Popular both on the catwalk and on the street, it made front-page news when worn by Diana, Princess of Wales and by Cherie Booth, the wife of UK Prime Minister Tony Blair. In her ethnography of the local and global design economies established by Asian women fashion entrepreneurs, Parminder Bhachu focuses on the transformation of the *salwaar-kameez* from negatively coded 'ethnic clothing' to a global garment fashionable both on the margins and in the mainstream. Exploring the design and sewing businesses, shops and street fashions in which this revolution has taken place, she shows how the *salwaar-kameez* is today at the heart of new economic micro-markets which themselves represent complex, powerfully coded means of cultural dialogue and racial politics. The innovative designs of second-generation British Asian women are drawn from characteristically improvisational migrant cultural codes. Through their hybrid designs and creation of new aesthetics, these women cross cultural boundaries, battling with racism and redefining both Asian and British identities. At the same time, their border-crossing commercial entrepreneurship produces new diaspora economies which give them control over many economic, aesthetic, cultural and technological resources. In this way, the processes of global capitalism are gendered, racialized and localized through the interventions of diasporic women from the margins.

Forthcoming Books

'This is an outstanding volume of poetry. It is wonderfully original and deliciously complex. Its intellectual pirouettes and cutbacks are a pleasure to follow, always offering an incredibly agile and aesthetically stimulating journey. With brio and wit, Coleman's poems jag through various allusions, from computer games to Shakespeare, from reality TV to Blue Light Discos. In lesser hands such a dizzying array of references could lead to a kind of vertigo or even a sense of self-indulgent over-referencing. Yet Coleman's omnivorous poems handle disparate elements superbly, holding an openness in tension with their erudite clarity.' - Lachlan Brown 'These poems of great architectural skill and precision are small houses (nothing in excess) of scrutiny - what is watched on the television, what is read in print and on the screen, is analysed in the context of "responsibility". Wry, aphoristic, compiled brick by brick, expression by expression, each poem accords with and flouts the regulations at once - that is, this immaculate crafter of the poem also questions the propaganda of prosody and poetics. Smart, learned, and ironic, the work leads us through the artifice of art and aesthetics, confronting our cultural certainties and pre-judgements. Satire with compassion, wit with deep insight. His is a unique voice.' - John Kinsella

And Now I Am Alone

Lecturers, why waste time waiting for the post to arrive? Request your e-inspection copy today! In the new third edition of this popular and highly readable book, the author draws on her considerable experience and extensive research to demonstrate a creative dynamic mode of reflection and reflexivity. Using expressive and explorative writing combined with in-depth group work/mentoring alongside appropriate focussed research, it enables critical yet sensitive examinations of practice. Gillie offers a searching and thorough approach which increases student and professional motivation, satisfaction, and deep levels of learning. She clearly explains reflection; reflexivity; narrative; metaphor, and complexity, and grounds the literary and artistic methods in educational theory and values. Clear step-by-step practical methods are given for every aspect of the process. New to this edition are: A chapter presenting different ways of undertaking and facilitating reflective practice Further international coverage, including material from Australia, New Zealand and the United States. The Third Edition also includes: An annotated glossary explaining key terms End-of-chapter activities and exercises Suggested further reading, and clear guides on chapter contents and how to use the book. Companion website www.uk.sagepub.com/bolton An accompanying companion website includes a range of free additional materials for lecturers and students to use in tutorials and for independent study, including discussion, workshop exercises, glossary and online readings. The methods are appropriate to, and used worldwide by, students and professionals across education; medicine and healthcare; clinical psychology; therapy; social work; pastoral care; counselling; police; business management; organisational consultancy; leadership training.

EastLife

This book offers important insights into the challenging yet rewarding journey of undertaking a PhD. Written by students, for students, the book explores a range of case studies from creative arts and humanities doctoral students, embracing a cognitive, emotional and transformational metaphor of the journey. The volume is organised around themes and concerns identified as important by PhD students, such as building resilience and working with supervisors, and includes personal stories, case studies, scholarly signposts and key take-away points relevant to all doctoral settings. With perspectives from all stages of the doctoral journey, this book is sure to become a valuable support to students and supervisors alike, as well as those working in research education and training.

Instructor's Edition for Current Issues and Enduring Questions

In this landmark of American fiction, Cather tells the story of young Alexandra Bergson, whose dying father leaves her in charge of the family and of the Nebraska lands they have struggled to farm.

Warrior of the Altai

Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology

and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including:

- theory corners with concise, boxed-out digests of key theoretical concepts
- case illustrations putting the main points of each chapter into context
- learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion
- a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes.

This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

A Genealogy of the Verse Novel

Charles Darwin has been extensively analysed and written about as a scientist, Victorian, father and husband. However, this is the first book to present a carefully thought out pedagogical approach to learning that is centered on Darwin's life and scientific practice. The ways in which Darwin developed his scientific ideas, and their far reaching effects, continue to challenge and provoke contemporary teachers and learners, inspiring them to consider both how scientists work and how individual humans 'read nature'. Darwin-inspired learning, as proposed in this international collection of essays, is an enquiry-based pedagogy, that takes the professional practice of Charles Darwin as its source. Without seeking to idealise the man, Darwin-inspired learning places importance on:

- active learning
- hands-on enquiry
- critical thinking
- creativity
- argumentation
- interdisciplinarity.

In an increasingly urbanised world, first-hand observations of living plants and animals are becoming rarer. Indeed, some commentators suggest that such encounters are under threat and children are living in a time of 'nature-deficit'. Darwin-inspired learning, with its focus on close observation and hands-on enquiry, seeks to re-engage children and young people with the living world through critical and creative thinking modeled on Darwin's life and science.

Dangerous Designs

At least since the late nineteenth century onwards, Chinese literature as a form of cultural production has been taking place within a specific social space, including writers, critics, journalists, editors, publishers, printers and booksellers. Focusing on people as well as on texts, and looking at what writers did as well as at what they wrote, the essays in this volume draw a vivid and variegated picture of Chinese literary life throughout the modern period. The book treats differences between periods, but also traces the continuities that have characterised modern Chinese literary practice and its discourses from the beginning to the present, including ties of allegiance, utilisation of 'the people' and appropriation of the west. The book places modern Chinese literature firmly within its socio-historical context, thereby increasing the reader's awareness of the hidden assumptions behind literary production. In doing so, it opens new perspectives on Chinese culture as a whole, and on literature as a cosmopolitan concept.

Mount Sumptuous

This book is the ideal source for teaching oral language, reading, writing, and the content areas in English to K-12 English learners. In an approach unlike most other books in the field, Reading, Writing, and Learning in ESL looks at contemporary language acquisition theory as it relates to instruction and provides detailed suggestions and methods for motivating, involving, and teaching English language learners. Praised for its strong research base, engaging style, and inclusion of specific teaching ideas, the book offers thorough coverage of oral language, reading, writing, and academic content area instruction in English for K-12 English learners. Thoroughly updated throughout, the new edition includes a new chapter on using the Internet and other digital technologies to engage students and promote learning, many new teaching strategies, new and revised activities, and new writing samples.

Reflective Practice

This groundbreaking collection reflects an uncompromised definition of feminism by women of color. 65,000 copies in print.

The Doctoral Experience

In the late 19th century, orphaned Jim Burden is sent to the wilderness in Nebraska to live with his grandparents. He arrives at the same time as the Shimerda family, including the eldest daughter Antônia, who becomes his closest neighbors. Life in the American West is tough, especially for the impoverished Shimerda family, and pioneers must struggle for survival. A friendship blossoms between Jim and Antônia as they explore nature and have adventures together, a friendship that will last a lifetime. *My Antônia* became an immediate success when first published and is today considered Willa Cather's first masterpiece. It is praised for its depiction of the American West and its ability to highlight the aspirations of ordinary, poor people in a time when it was customary to write about the elite. WILLA CATHER [1873-1947] was an American author. After studying at the University of Nebraska, she worked as a teacher and journalist. Cather's novels often focus on settlers in the USA with a particular emphasis on female pioneers. In 1923, she was awarded the Pulitzer Prize for the novel *One of Ours*, and in 1943, she was elected to the American Academy of Arts and Sciences.

O Pioneers!

“... a diverse and stimulating group of essays that together represents a significant contribution to thinking about the nascent field of contemporary Asian art studies ... *Contemporary Asian Art and Exhibitions: Connectivities and World-making* ... brings together essays by significant academics, curators and artist working in Australia, Asia and the United Kingdom that reflect on contemporary art in the Asia-Pacific region, and Australia's cultural interconnections with Asia. It will be a welcome addition to the body of literature related to these emergent areas of art historical study.” — Dr Claire Roberts, Senior Lecturer in Art History, University of Adelaide This volume draws together essays by leading art experts observing the dramatic developments in Asian art and exhibitions in the last two decades. The authors explore new regional and global connections and new ways of understanding contemporary Asian art in the twenty-first century. The essays coalesce around four key themes: world-making; intra-Asian regional connections; art's affective capacity in cross-cultural engagement; and Australia's cultural connections with Asia. In exploring these themes, the essays adopt a diversity of approaches and encompass art history, art theory, visual culture and museum studies, as well as curatorial and artistic practice. With introductory and concluding essays by editors Michelle Antoinette and Caroline Turner this volume features contributions from key writers on the region and on contemporary art: Patrick D Flores, John Clark, Chaitanya Sambrani, Pat Hoffie, Charles Merewether, Marsha Meskimmon, Francis Maravillas, Oscar Ho, Alison Carroll and Jacqueline Lo. Richly illustrated with artworks by leading contemporary Asian artists, *Contemporary Asian Art and Exhibitions: Connectivities and World-making* will be essential reading for those interested in recent developments in contemporary Asian art, including students and scholars of art history, Asian studies, museum studies, visual and cultural studies.

Introducing Intercultural Communication

In these twenty-two interviews with verse novelists from the UK, USA, Australia and Canada, Linda Weste explores the uniqueness of storytelling through poetry and the genre of the verse novel. Her subjects are notable representatives of countries where the genre thrives; among them is Bernardine Evaristo, joint winner of the Booker Prize in 2019; and what they have to say enriches our understanding of the many ways poetry and narratives can meld to create a unique reading experience.

Darwin-Inspired Learning

Octavia E. Butler's works of science fiction invite readers to consider the structures of power in society and to ask what it means to be human. Butler addresses social justice issues such as poverty, racism, and violence against women and connects the history of slavery in the United States with speculation on a biologically altered future world. The first section of this volume, "Materials," lists secondary sources and interviews with Butler and suggests texts that instructors might pair with her works. Essays in the second section, "Approaches," situate Butler in science fiction, modernism, and Afrofuturism and provide interdisciplinary approaches from political science, philosophy, art, and digital humanities. The contributors present strategies for teaching Butler in literature courses as well as courses designed for adult learners, preservice teachers, and students at historically black colleges and universities.

The Literary Field of Twentieth Century China

This latest volume of MoMA's Primary Documents reflects on the effects that communism's disintegration across Central and Eastern Europe--including the Soviet Union's fifteen republics--had on the art practices, criticism, and cultural production of the following decades.

Reading, Writing and Learning in ESL

The world may be more riven by murderous violence than ever before, yet Nobel Laureate Amartya Sen argues in this sweeping philosophical work that its brutalities are driven as much by confusion as by inescapable hatred. Sen argues in his new book that conflict and violence are sustained today, no less than the past, by the illusion of a unique identity. Indeed, the world is increasingly taken to be divided between religions (or 'cultures' or 'civilizations'), ignoring the relevance of other ways in which people see themselves through class, gender, profession, language, literature, science, music, morals or politics, and denying the real possibilities of reasoned choices. In *Identity and Violence* he overturns such stereotypes as the 'the monolithic Middle East' or 'the Western Mind'. Through his penetrating investigation of such subjects as multiculturalism, fundamentalism, terrorism and globalization, he brings out the need for a clear-headed understanding of human freedom and a constructive public voice in Global civil society. The world, Sen shows, can be made to move towards peace as firmly as it has recently spiralled towards war.

This Bridge Called My Back

During the 1980s and 1990s Asian 'developmental states' attracted much attention in political science and economics literature, but the role of law in the economic development was neglected. It was only after the Asian crisis of 1997 that many analysts began to focus on a lack of regulation and transparency as a major factor triggering the crisis. The crucial questions now are how successful the current reforms will be, and which features of the Asian approach to commercial law will be resistant to reform pressures. This book examines the prospects for commercial law reform in Asia, giving particular attention to Japan and Singapore, as frequently cited role models for Asian developmentalism, and also examining development related business laws in countries such as China, Korea, Indonesia, Malaysia, Vietnam and the Philippines.

My Ántonia

A collection of short stories from Africa covering a range of subjects, from the conflict between traditional and new ways of life and values, to the role of women in society. The main introduction provides a background for discussion, as well as ideas for students to use in their own writing.

Contemporary Asian Art and Exhibitions

Ru: In Vietnamese it means lullaby; in French it is a small stream, but also signifies a flow - of tears, blood, money. Kim Thy's *Ru* is literature at its most crystalline: the flow of a life on the tides of unrest and on to more peaceful waters. In vignettes of exquisite clarity, sharp observation and sly wit, we are carried along on an unforgettable journey from a palatial residence in Saigon to a crowded and muddy Malaysian refugee camp, and onward to a new life in Quebec. There, the young girl feels the embrace of a new community, and revels in the chance to be part of the American Dream. As an adult, the waters become rough again: now a mother of two, she must learn to shape her love around the younger boy's autism. Moving seamlessly from past to present, from history to memory and back again, *Ru* is a book that celebrates life in all its wonder: its moments of beauty and sensuality, brutality and sorrow, comfort and comedy.

Inside the Verse Novel

A collection of stories and poems with the central theme of water, from each of the 54 countries of the Commonwealth. Suggested level: primary, intermediate.

Approaches to Teaching the Works of Octavia E. Butler

Art and Theory of Post-1989 Central and Eastern Europe
