Plus One

Divided by day and night and on the run from authorities, star-crossed young lovers unearth a sinister conspiracy in this compelling romantic thriller. Seventeen-year-old Soleil Le Coeur is a Smudge—a night dweller prohibited by law from going out during the day. When she fakes an injury in order to get access to and kidnap her newborn niece—a day dweller, or Ray—she sets in motion a fast-paced adventure that will bring her into conflict with the powerful lawmakers who order her world, and draw her together with the boy she was destined to fall in love with, but who is also a Ray. Set in a vivid alternate reality and peopled with complex, deeply human characters on both sides of the day-night divide, Elizabeth Fama's Plus One is a brilliantly imagined drama of individual liberty and civil rights, and a fast-paced romantic adventure story.

Monstrous Beauty

Fierce, seductive mermaid Syrenka falls in love with Ezra, a young naturalist. When she abandons her life underwater for a chance at happiness on land, she is unaware that this decision comes with horrific and deadly consequences. Almost one hundred forty years later, seventeen-year-old Hester meets a mysterious stranger named Ezra and feels overwhelmingly, inexplicably drawn to him. For generations, love has resulted in death for the women in her family. Is it an undiagnosed genetic defect . . . or a curse? With Ezra's help, Hester investigates her family's strange, sad history. The answers she seeks are waiting in the graveyard, the crypt, and at the bottom of the ocean - but powerful forces will do anything to keep her from uncovering her connection to Syrenka and to the tragedy of so long ago.

Overboard

Escaping from a sinking ferry in the waters off Sumatra, fourteen-year-old Emily fights for survival for herself and a young Indonesian boy, who draws courage from his quiet but firm Islamic faith.

A Death-struck Year

When the Spanish influenza epidemic reaches Portland, Oregon, in 1918, seventeen-year-old Cleo leaves behind the comfort of her boarding school to work for the Red Cross.

Noma Girl

Because of a quirk of history during the Spanish flu pandemic of 1918, present-day America is rigidly divided between people who live and work during the hours of darkness—Smudges—and those known as Rays, who populate the day. A group of Smudges called the Noma live on the fringes of society in loose tribes, preying on Smudges and Rays alike. Gigi is a ruthless Noma, but in this prequel companion story to *Plus One*, she is ordered to abduct a cell phone hacker named Ciel Le Coeur and reveals a surprisingly tender heart. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sylvia's Lovers

Sylvia is a heroine loved by two men of completely different types. The novel follows her development from a wilful, imaginative, but not especially clever girl, to an alert woman who has been matured by her suffering.

BETWEEN THE ACTS

Between the Acts is the final novel by Virginia Woolf, published in 1941 shortly after her suicide. This is a book laden with hidden meaning and allusion. It describes the mounting, performance, and audience of a festival play (hence the title) in a small English village just before the outbreak of the Second World War. Much of it looks forward to the war, with veiled allusions to connection with the continent by flight, swallows representing aircraft, and plunging into darkness. The pageant is a play within a play, representing a rather cynical view of English history. Woolf links together many different threads and ideas - a particularly interesting technique being the use of rhyme words to suggest hidden meanings. Relationships between the characters and aspects of their personalities are explored. The English village bonds throughout the play through their differences and similarities. Adeline Virginia Woolf (1882–1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.

Second Star

A twisty story about love, loss, and lies, this contemporary oceanside adventure is tinged with a touch of dark magic as it follows seventeen-year-old Wendy Darling on a search for her missing surfer brothers. Wendy's journey leads her to a mysterious hidden cove inhabited by a tribe of young renegade surfers, most of them runaways like her brothers. Wendy is instantly drawn to the cove's charismatic leader, Pete, but her search also points her toward his nemesis, the drug-dealing Jas. Enigmatic, dangerous, and handsome, Jas pulls Wendy in even as she's falling hard for Pete. A radical reinvention of J. M. Barrie's classic tale, *Second Star* is an irresistible summer romance about two young men who have yet to grow up—and the troubled beauty trapped between them.

These Broken Stars

It's a night like any other on board the *Icarus*. Then, catastrophe strikes: the massive luxury spaceliner is yanked out of hyperspace and plummets to the nearest planet. Lilac LaRoux and Tarver Merendsen survive. And they seem to be alone. Lilac is the daughter of the richest man in the universe. Tarver comes from nothing, a young war hero who learned long ago that girls like Lilac are more trouble than they're worth. But with only each other to rely on, Lilac and Tarver must work together, making a tortuous journey across the eerie, deserted terrain to seek help. Then, against all odds, Lilac and Tarver find a strange blessing in the tragedy that has thrown them into each other's arms. Without the hope of a future together in their own world, they begin to wonder - would they be better off staying in this place forever? Everything changes when they uncover the truth behind the chilling whispers that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it. The first in a sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds.

Dangerous Creatures

From the world of Beautiful Creatures--the instant New York Times bestselling tale of love and magic. Ridley Duchannes is nobody's heroine. She's a Dark Caster, a Siren. She can make you do things. Anything. You can't trust her, or yourself when she's around. And she'll be the first to tell you to stay away--especially if you're going to do something as stupid as fall in love with her. Lucky for Ridley, her wannabe rocker boyfriend, Wesley "Link" Lincoln, never listens to anyone. Link doesn't care if Rid's no good for him, and he takes her along when he leaves small-town Gatlin to follow his rock-star dream. He teams up with a ragtag group of Dark Casters, and when the band scores a gig at a hot Underground club, it looks like all of Link's dreams are about to come true. But New York City is a dangerous place for both Casters and Mortals, and soon Ridley realizes that Link's bandmates are keeping secrets. With bad-boy club owner Lennox Gates on her heels, Rid is determined to find out the truth. What she discovers is worse than she could have imagined: Link has a price on his head that no Caster or Mortal can ever pay. With their lives on the line, what's a Siren to do? Kami Garcia and Margaret Stohl, the #1 New York Times bestselling coauthors of the Beautiful Creatures novels, are back to cast another magical spell. Their signature blend of mystery, suspense, and romance, with a healthy dose of wit and danger, will pull fans in and leave them begging for more.

The Golden Notebook

The landmark novel of the Sixties – a powerful account of a woman searching for her personal, political and professional identity while facing rejection and betrayal.

Asking for It

Graduate student Vivienne Charles is afraid and ashamed of her own fantasies: being taken by force by a man who will claim her completely. When the mysterious Jonah Marks learns her secret, he makes a stunning offer: they will remain near-strangers and meet in secret so that he can fulfil her fantasies. Their arrangement is twisted. The sex is incredible. And soon their emotions are bound together as tightly as the rope around Vivienne's wrists. But the secrets in their pasts threaten to take their arrangement down an even darker path.

Investment Governance for Fiduciaries

Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector's place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Headlong

Does blood run thicker than ink? When one of London's best-known literary agents is found dead in strange circumstances, seemingly having fallen from his office window, DCI Slider is under pressure to confirm a case of accidental death. But when the evidence points to murder, the team find themselves

uncovering some decidedly scandalous secrets. Every lead seems to result in more questions, and as Slider delves deeper into the publishing world it's up to him to sort fact from fiction.

The View from Castle Rock

WINNER OF THE NOBEL PRIZE IN LITERATURE The world's finest living short story writer turns to her family for inspiration; and what follows is a fictionalised, brilliantly imagined version of the past. From her ancestors' view from Edinburgh's Castle Rock in the eighteenth century to her parents' thwarted ambitions in Ontario, and her own awakening in 1950s Canada, Munro effortlessly weaves fact and myth to create an epic story of past and present, proving that fiction has much to tell us about life.

The Founder's Dilemmas

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

The Girl Who Tweeted Wolf

"If we get 400 followers, John Hobson will solve that nasty wolf-murder case for free! Fight the thing himself if he has to! #HobsonVsWolf!" Angelina Choi was only trying to drum up some Twitter followers and make a good impression on her first day interning at John Hobson's one-man detective agency. But the campaign went viral and now they have a murder to solve, no money coming in, and an unwilling Hobson faced with battling some enormous beast. With both follower and body counts rising, can they crack the case without offending everyone or being eaten by a huge dog? The Girl Who Tweeted Wolf is the first case starring Hobson & Choi, a bickering, mismatched detective duo for 21st century London. This book collects the debut storyline of the hit darkly comic crime web serial, extensively rewritten and improved for this definitive edition. Also included: book-exclusive bonus story The Left Hand Is Always Right, grim tale from a dark corner of Hobson & Choi's London - The Left Hand, budget pub of crime.

From She-Wolf to Martyr

In 1343 a seventeen-year-old girl named Johanna (1326–1382) ascended the Neapolitan throne, becoming the ruling monarch of one of medieval Europe's most important polities. For nearly forty years, she held her throne and the avid attention of her contemporaries. Their varied responses to her reign created a reputation that made Johanna the most notorious woman in Europe during her lifetime. In *From She-Wolf to Martyr*, Elizabeth Casteen examines Johanna's evolving, problematic reputation and uses it as a lens through which to analyze often-contradictory late-medieval conceptions of rulership, authority, and femininity. When Johanna inherited the Neapolitan throne from her grandfather, many questioned both her right to and her suitability for her throne. After the murder of her first husband, Johanna quickly became infamous as a she-wolf—a violent, predatory, sexually licentious woman. Yet, she also eventually gained fame as a wise, pious, and able queen. Contemporaries—including Francesco Petrarca, Giovanni Boccaccio, Birgitta of Sweden, and Catherine of Siena—were fascinated by Johanna. Drawing on a wide range of textual and visual sources, Casteen reconstructs the fourteenth-century conversation about Johanna and tracks the role she played in her time's cultural imaginary. She argues that despite Johanna's modern reputation for indolence and incompetence, she crafted a new model of female sovereignty that many of her contemporaries accepted and even lauded.

The Raft

Robie is an experienced traveler. She's taken the flight from Honolulu to the Midway Atoll, a group of Pacific islands where her parents live, many times. Juliet Immortal

Fans of Maggie Stiefvater's *Shiver* and Becca Fitzpatrick's *Hush* will relish this intense paranormal love story featuring Romeo and Juliet, literary history's most tragic couple, who meet again, not as true lovers, but truly as enemies. The most tragic love story in history . . . Juliet Capulet didn't take her own life. She was murdered by the person she trusted most, her new husband, Romeo Montague, a sacrifice made to ensure his own immortality. But what Romeo didn't anticipate was that Juliet would be granted eternity, as well, and would become an agent for the Ambassadors of Light. For 700 years, she's fought Romeo for the souls of true lovers, struggling to preserve romantic love and the lives of the innocent. Until the day she meets someone she's forbidden to love, and Romeo, oh Romeo, will do everything in his power to destroy that love. "These violent delights have violent ends And in their triumph die, like fire and powder, Which as they kiss consume." —*Romeo and Juliet* by William Shakespeare

Some Boys

Some girls say no. Some boys don't listen. When Grace meets Ian, she's afraid. Afraid he'll reject her like the rest of the school, like her own family. After she accuses Zac, the town golden boy, of rape, everyone turns against her. Ian wouldn't be the first to call her a slut and a liar. Except Ian doesn't reject her. He's the one person who looks past the taunts and the names and the tough-girl act to see the real Grace. He's the one who gives her the courage to fight back. He's also Zac's best friend. "A bold and necessary look at an important, and very real, topic. Everyone should read this book." — Jennifer Brown, author of *Thousand Words* and *Hate List A* gut-wrenching, powerful love story told from alternating points of view by the acclaimed author of *Send*.

Behavioral Finance: The Second Generation

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

Curious Toys

An intrepid young woman stalks a murderer through turn-of-the-century Chicago in "this rich, spooky, and atmospheric thriller that will appeal to fans of Henry Darger and Erik Larson alike." (Sarah McCarry) In the sweltering summer of 1915, Pin, the fourteen-year-old daughter of a carnival fortune-teller, dresses as a boy and joins a teenage gang that roams the famous Riverview amusement park, looking for trouble. Unbeknownst to the well-heeled city-dwellers and visitors who come to enjoy the midway, the park is also host to a ruthless killer who uses the shadows of the dark carnival attractions to conduct his crimes. When Pin sees a man enter the Hell Gate ride with a young girl, and emerge alone, she knows that something horrific has occurred. The crime will lead her to the iconic outsider artist Henry Darger, a brilliant but seemingly mad man. Together, the two navigate the seedy underbelly of a changing city to uncover a murderer few even know to look for.

Someone to Cherish

'One of the best!' Julia Quinn, Sunday Times bestselling author of the *Bridgerton* series Is love worth the loss of one's freedom and independence? Mrs Tavernor has always firmly believed it is not. Curiosities of Literature

When Rosie Gennaro first meets Jimmy Hailler, she has walked away from life in Sydney, leaving behind the place on Dalhousie that her father, Seb, painstakingly rebuilt for his family but never saw completed. Two years later, Rosie returns to the house and living there is Martha, whom Seb Gennaro married less than a year after the death of Rosie's mother. Martha is struggling to fulfil Seb's dream, while Rosie is coming to terms with new responsibilities. And so begins a stand-off between two women who refuse to move out of the home they both lay claim to. As the battle lines are drawn, Jimmy Hailler re-enters Rosie's life. Having always watched other families from the perimeters, he's now grappling, heartbreakingly, with forming one of his own ...

Place on Dalhousie, The

In Mario Alberto Zambrano's acclaimed literary debut, "a Mexican-American girl uses the game of Lotería to reveal her memories, which add up to a heart-wrenching tale of violence, love and a broken family" (Los Angeles Times)--now available as a limited Olive Edition from Harper Perennial. With her older sister, Estrella in the ICU and her father in jail, eleven-year-old Luz Castillo has been taken into the custody of the state. Alone in her room, the young girl retreats behind a wall of silence, writing in her journal and shuffling through a deck of lotería cards--a Mexican version of bingo featuring bright, colorful images. Neither the social worker assigned to her case nor her Aunt Tencha, who desperately pleads for her niece's release, can cajole Luz to speak. The young girl's only confidant is her journal. Within its pages, Luz addresses an invisible higher power, sharing her secrets and the story of her family's tragic demise--and the terrifying night that ripped them apart forever. Using the lotería cards as her muse, Luz picks one card from the deck with each shuffle. Each of the cards' colorful images-- mermaids, bottles, spiders, death, and stars--sparks a random memory. Pieced together, these snapshots bring into focus the joy and pain of the young girl's life, including the violence inflicted against her sister, the disappearance of her mother, her father's arrest. But just as the story becomes clear, a breathtaking twist changes everything. A surprising, spellbinding tale richly imaginative and atmospheric, *Lotería* is an exquisite debut novel from an outstanding new voice in fiction.

The Queen of Attolia

The Chemical Wedding of Christian Rosenkreutz, often looked upon as the third Rosicrucian manifesto, has an entirely different tone from the other Rosicrucian documents. Unlike the Rosicrucian manifestoes, which address the transformation of society, The Chemical Wedding is concerned with the inner transformation of the soul. It is a deeply interior work, one which asks the reader to step into

its world of symbols and walk with Christian Rosenkreutz along his path of transformation. Despite its importance as a key text of the Western esoteric traditions, this is the first ever contemporary English translation of *The Chemical Wedding*, made especially for this edition by Joscelyn Godwin. Also included in this edition is an introduction and commentary by Adam McLean, which illuminates the transformative symbolism.

Loteria

Sara Shepard's *Pretty Little Liars* series meets the cult classic film *Fargo* in this gripping, dark comedy by debut author Kathleen Hale. A quiet town like Friendship, Wisconsin, keeps most of its secrets buried . . . but when local teen Ruth Fried is found murdered in a cornfield, her best friend, Kippy Bushman, decides she must uncover the truth and catch the killer. Since the police aren't much help, Kippy looks to her newly discovered idol, journalist Diane Sawyer, for tips on how to conduct her investigation. But Kippy soon discovers, if you want to dig up the truth, your hands have to get a little dirty, don'tcha know. In this riveting young adult novel, Kathleen Hale creates a quirky murder mystery that is intricately plotted and sure to keep readers guessing, laughing, and cringing until the surprising final pages. "Can a murder mystery be funny? You betcha!" raved *Kirkus Reviews* in a starred review.

The Chemical Wedding of Christian Rosenkreutz

From the Falmouth Historical Society Collection Cited as the only extant firsthand record of a mermaid encounter in New England waters, this deathbed letter from a great-grandfather to his great-grandson is more likely an instructive fiction--a parable of regret. Supposedly corroborating the mermaid story, a ship's log (in the collections of the Provincetown Historical Museum) of the schooner *Hannah*, which plucked Mr. Stanton from South Weepectet in 1788, indicates that the crew saw two figures on the island prior to his rescue, but failed to locate a second victim. However, regarding accuracy and reliability, this is the same crew, under Captain John Merriweather, that reported sightings of a ghost ship and not one, but two sea monsters. --James S. Rucker, Archivist, Family Collections, Falmouth Historical Society, 1924 At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

No One Else Can Have You

In all her twenty-five years, lovely Venetia Lanyon has never been further than Harrogate, nor enjoyed the attentions of any but her two wearisomely persistent suitors. Then, in one extraordinary encounter, she meets a neighbour she only knows by reputation - the infamous Lord Damerel - and before she knows better, is egging on a libertine whose way of life has scandalised the North Riding for years.

Men Who Wish to Drown

The *Razorland Trilogy*: *Enclave*, *Outpost*, and *Horde* The New York Times—bestselling trilogy is the story of two young people in an apocalyptic world—facing dangers, and feelings, unlike any they've ever known. *Enclave*: Fifteen-year-old Deuce lives in a world below New York City which has been decimated by war and plague. As part of her new role as Huntress, Deuce is paired with Fade, another teenage Hunter. When the pair discovers that the neighboring enclave has been decimated by tunnel monsters, the elders refuse to listen to their warnings. And when Deuce and Fade are exiled from the enclave, the girl born in darkness must survive in daylight in the ruins of a city whose population has dwindled to a few dangerous gangs. *Outpost*: Deuce's whole world has changed. Down below, she was considered an adult. Now, topside in a town called Salvation, she's a "brat" in need of training in the eyes of the townsfolk. To make matters worse, her Hunter partner, Fade, keeps Deuce at a distance. Her feelings for Fade are still strong, but he seems not to want her around anymore. Things have been changing on the surface, just as they did below ground. The monsters don't intend to let Salvation survive, and it may take a girl like Deuce to turn back the tide. *Horde*: The survival of Salvation is up to Deuce, Fade, Stalker, and Tegan. Deuce decides the only way to fight an army is to raise one. At first, everyone laughs at the idea of a girl leading humanity's forces against the Freaks, but then she proves herself in combat. Can Deuce render a permanent truce with the Freaks? Who will survive? Includes bonus chapters from Ann Aguirre's *Mortal Danger*!

Almost one hundred forty years later, seventeen-year-old Hester meets a mysterious stranger named Ezra and feels overwhelmingly, inexplicably drawn to him. For generations, love has resulted in death for the women in her family. Is it an undiagnosed genetic defect . . . or a curse? With Ezra's help, Hester investigates her family's strange, sad history. The answers she seeks are waiting in the graveyard, the crypt, and at the bottom of the ocean - but powerful forces will do anything to keep her from uncovering her connection to Syrenka and to the tragedy of so long ago.

Overboard

Escaping from a sinking ferry in the waters off Sumatra, fourteen-year-old Emily fights for survival for herself and a young Indonesian boy, who draws courage from his quiet but firm Islamic faith.

A Death-struck Year

When the Spanish influenza epidemic reaches Portland, Oregon, in 1918, seventeen-year-old Cleo leaves behind the comfort of her boarding school to work for the Red Cross.

Noma Girl

Because of a quirk of history during the Spanish flu pandemic of 1918, present-day America is rigidly divided between people who live and work during the hours of darkness—Smudges—and those known as Rays, who populate the day. A group of Smudges called the Noma live on the fringes of society in loose tribes, preying on Smudges and Rays alike. Gigi is a ruthless Noma, but in this prequel companion story to *Plus One*, she is ordered to abduct a cell phone hacker named Ciel Le Coeur and reveals a surprisingly tender heart. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Sylvia's Lovers

Sylvia is a heroine loved by two men of completely different types. The novel follows her development from a wilful, imaginative, but not especially clever girl, to an alert woman who has been matured by her suffering.

BETWEEN THE ACTS

Between the Acts is the final novel by Virginia Woolf, published in 1941 shortly after her suicide. This is a book laden with hidden meaning and allusion. It describes the mounting, performance, and audience of a festival play (hence the title) in a small English village just before the outbreak of the Second World War. Much of it looks forward to the war, with veiled allusions to connection with the continent by flight, swallows representing aircraft, and plunging into darkness. The pageant is a play within a play, representing a rather cynical view of English history. Woolf links together many different threads and ideas - a particularly interesting technique being the use of rhyme words to suggest hidden meanings. Relationships between the characters and aspects of their personalities are explored. The English village bonds throughout the play through their differences and similarities. Adeline Virginia Woolf (1882–1941) was an English writer who is considered one of the foremost modernists of the twentieth century and a pioneer in the use of stream of consciousness as a narrative device.

Second Star

A twisty story about love, loss, and lies, this contemporary oceanside adventure is tinged with a touch of dark magic as it follows seventeen-year-old Wendy Darling on a search for her missing surfer brothers. Wendy's journey leads her to a mysterious hidden cove inhabited by a tribe of young renegade surfers, most of them runaways like her brothers. Wendy is instantly drawn to the cove's charismatic leader, Pete, but her search also points her toward his nemesis, the drug-dealing Jas. Enigmatic, dangerous, and handsome, Jas pulls Wendy in even as she's falling hard for Pete. A radical reinvention of J. M. Barrie's classic tale, *Second Star* is an irresistible summer romance about two young men who have yet to grow up—and the troubled beauty trapped between them.

These Broken Stars

It's a night like any other on board the *Icarus*. Then, catastrophe strikes: the massive luxury spaceliner is yanked out of hyperspace and plummets to the nearest planet. Lilac LaRoux and Tarver Merendsen survive. And they seem to be alone. Lilac is the daughter of the richest man in the universe. Tarver comes from nothing, a young war hero who learned long ago that girls like Lilac are more trouble than they're worth. But with only each other to rely on, Lilac and Tarver must work together, making a tortuous journey across the eerie, deserted terrain to seek help. Then, against all odds, Lilac and Tarver find a strange blessing in the tragedy that has thrown them into each other's arms. Without the hope of a future together in their own world, they begin to wonder - would they be better off staying in this place forever? Everything changes when they uncover the truth behind the chilling whispers that haunt their every step. Lilac and Tarver may find a way off this planet. But they won't be the same people who landed on it. The first in a sweeping science fiction trilogy, *These Broken Stars* is a timeless love story about hope and survival in the face of unthinkable odds.

Dangerous Creatures

From the world of *Beautiful Creatures*--the instant New York Times bestselling tale of love and magic. Ridley Duchannes is nobody's heroine. She's a Dark Caster, a Siren. She can make you do things. Anything. You can't trust her, or yourself when she's around. And she'll be the first to tell you to stay away--especially if you're going to do something as stupid as fall in love with her. Lucky for Ridley, her wannabe rocker boyfriend, Wesley "Link" Lincoln, never listens to anyone. Link doesn't care if Rid's no good for him, and he takes her along when he leaves small-town Gatlin to follow his rock-star dream. He teams up with a ragtag group of Dark Casters, and when the band scores a gig at a hot Underground club, it looks like all of Link's dreams are about to come true. But New York City is a dangerous place for both Casters and Mortals, and soon Ridley realizes that Link's bandmates are keeping secrets. With bad-boy club owner Lennox Gates on her heels, Rid is determined to find out the truth. What she discovers is worse than she could have imagined: Link has a price on his head that no Caster or Mortal can ever pay. With their lives on the line, what's a Siren to do? Kami Garcia and Margaret Stohl, the #1 New York Times bestselling coauthors of the *Beautiful Creatures* novels, are back to cast another magical spell. Their signature blend of mystery, suspense, and romance, with a healthy dose of wit and danger, will pull fans in and leave them begging for more.

The landmark novel of the Sixties – a powerful account of a woman searching for her personal, political and professional identity while facing rejection and betrayal.

Asking for It

Graduate student Vivienne Charles is afraid and ashamed of her own fantasies: being taken by force by a man who will claim her completely. When the mysterious Jonah Marks learns her secret, he makes a stunning offer: they will remain near-strangers and meet in secret so that he can fulfil her fantasies. Their arrangement is twisted. The sex is incredible. And soon their emotions are bound together as tightly as the rope around Vivienne's wrists. But the secrets in their pasts threaten to take their arrangement down an even darker path.

Investment Governance for Fiduciaries

Governance is a word that is increasingly heard and read in modern times, be it corporate governance, global governance, or investment governance. Investment governance, the central concern of this modest volume, refers to the effective employment of resources—people, policies, processes, and systems—by an individual or governing body (the fiduciary or agent) seeking to fulfil their fiduciary duty to a principal (or beneficiary) in addressing an underlying investment challenge. Effective investment governance is an enabler of good stewardship, and for this reason it should, in our view, be of interest to all fiduciaries, no matter the size of the pool of assets or the nature of the beneficiaries. To emphasize the importance of effective investment governance and to demonstrate its flexibility across organization type, we consider our investment governance process within three contexts: defined contribution (DC) plans, defined benefit (DB) plans, and endowments and foundations (E&Fs). Since the financial crisis of 2007–2008, the financial sector's place in the economy and its methods and ethics have (rightly, in many cases) been under scrutiny. Coupled with this theme, the task of investment governance is of increasing importance due to the sheer weight of money, the retirement savings gap, demographic trends, regulation and activism, and rising standards of behavior based on higher expectations from those fiduciaries serve. These trends are at the same time related and self-reinforcing. Having explored the why of investment governance, we dedicate the remainder of the book to the question of how to bring it to bear as an essential component of good fiduciary practice. At this point, the reader might expect investment professionals to launch into a discussion about an investment process focused on the best way to capture returns. We resist this temptation. Instead, we contend that achieving outcomes on behalf of beneficiaries is as much about managing risks as it is about capturing returns—and we mean “risks” broadly construed, not just fluctuations in asset values.

Headlong

Does blood run thicker than ink? When one of London's best-known literary agents is found dead in strange circumstances, seemingly having fallen from his office window, DCI Slider is under pressure to confirm a case of accidental death. But when the evidence points to murder, the team find themselves uncovering some decidedly scandalous secrets. Every lead seems to result in more questions, and as Slider delves deeper into the publishing world it's up to him to sort fact from fiction.

The View from Castle Rock

WINNER OF THE NOBEL PRIZE IN LITERATURE The world's finest living short story writer turns to her family for inspiration; and what follows is a fictionalised, brilliantly imagined version of the past. From her ancestors' view from Edinburgh's Castle Rock in the eighteenth century to her parents' thwarted ambitions in Ontario, and her own awakening in 1950s Canada, Munro effortlessly weaves fact and myth to create an epic story of past and present, proving that fiction has much to tell us about life.

The Founder's Dilemmas

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

Raised among the ruins of a conquered mountain nation, Maren dreams only of sharing a quiet life with her girlfriend Kaia—until the day Kaia is abducted by the Aurati, prophetic agents of the emperor, and forced to join their ranks. Desperate to save her, Maren hatches a plan to steal one of the emperor's coveted dragons and storm the Aurati stronghold. If Maren is to have any hope of succeeding, she must become an apprentice to the Aromatory—the emperor's mysterious dragon trainer. But Maren is unprepared for the dangerous secrets she uncovers: rumors of a lost prince, a brewing rebellion, and a prophecy that threatens to shatter the empire itself. Not to mention the strange dreams she's been having about a beast deep underground... With time running out, can Maren survive long enough to rescue Kaia from impending death? Or could it be that Maren is destined for something greater than she could have ever imagined?

The Goblin Emperor

Maia, the youngest, half-goblin son of the Emperor has lived his entire life in exile, distant from the Imperial Court and the deadly intrigue that suffuses it. But when his father and three sons in line for the throne are killed in an "accident," he has no choice but to take his place as the only surviving rightful heir. Entirely unschooled in the art of court politics, he has no friends, no advisors, and the sure knowledge that whoever assassinated his father and brothers could make an attempt on his life at any moment. Surrounded by sycophants eager to curry favour with the naïve new emperor, and overwhelmed by the burdens of his new life, he can trust nobody. Amid the swirl of plots to depose him, offers of arranged marriages, and the spectre of the unknown conspirators who lurk in the shadows, he must quickly adjust to life as the Goblin Emperor. **UNBOUND WORLDS 100 BEST FANTASY NOVELS OF ALL TIME**

The Girl Who Tweeted Wolf

"If we get 400 followers, John Hobson will solve that nasty wolf-murder case for free! Fight the thing himself if he has to! #HobsonVsWolf!" Angelina Choi was only trying to drum up some Twitter followers and make a good impression on her first day interning at John Hobson's one-man detective agency. But the campaign went viral and now they have a murder to solve, no money coming in, and an unwilling Hobson faced with battling some enormous beast. With both follower and body counts rising, can they crack the case without offending everyone or being eaten by a huge dog? *The Girl Who Tweeted Wolf* is the first case starring Hobson & Choi, a bickering, mismatched detective duo for 21st century London. This book collects the debut storyline of the hit darkly comic crime web serial, extensively rewritten and improved for this definitive edition. From She-Wolf to Martyr

In 1343 a seventeen-year-old girl named Johanna (1326–1382) ascended the Neapolitan throne, becoming the ruling monarch of one of medieval Europe's most important polities. For nearly forty years, she held her throne and the avid attention of her contemporaries. Their varied responses to her reign created a reputation that made Johanna the most notorious woman in Europe during her lifetime. In *From She-Wolf to Martyr*, Elizabeth Casteen examines Johanna's evolving, problematic reputation and uses it as a lens through which to analyze often-contradictory late-medieval conceptions of rulership, authority, and femininity. When Johanna inherited the Neapolitan throne from her grandfather, many questioned both her right to and her suitability for her throne. After the murder of her first husband, Johanna quickly became infamous as a she-wolf—a violent, predatory, sexually licentious woman. Yet, she also eventually gained fame as a wise, pious, and able queen. Contemporaries—including Francesco Petrarca, Giovanni Boccaccio, Birgitta of Sweden, and Catherine of Siena—were fascinated by Johanna. Drawing on a wide range of textual and visual sources, Casteen reconstructs the fourteenth-century conversation about Johanna and tracks the role she played in her time's cultural imaginary. She argues that despite Johanna's modern reputation for indolence and incompetence, she crafted a new model of female sovereignty that many of her contemporaries accepted and even lauded.

He's the one person who looks past the taunts and the names and the tough-girl act to see the real Grace. He's the one who gives her the courage to fight back. He's also Zac's best friend. "A bold and necessary look at an important, and very real, topic. Everyone should read this book." —Jennifer Brown, author of *Thousand Words* and *Hate List A* gut-wrenching, powerful love story told from alternating points of view by the acclaimed author of *Send*.

Behavioral Finance: The Second Generation

Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and

avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

Curious Toys

An intrepid young woman stalks a murderer through turn-of-the-century Chicago in "this rich, spooky, and atmospheric thriller that will appeal to fans of Henry Darger and Erik Larson alike." (Sarah McCarry) In the sweltering summer of 1915, Pin, the fourteen-year-old daughter of a carnival fortune-teller, dresses as a boy and joins a teenage gang that roams the famous Riverview amusement park, looking for trouble. Unbeknownst to the well-heeled city-dwellers and visitors who come to enjoy the midway, the park is also host to a ruthless killer who uses the shadows of the dark carnival attractions to conduct his crimes. When Pin sees a man enter the Hell Gate ride with a young girl, and emerge alone, she knows that something horrific has occurred. The crime will lead her to the iconic outsider artist Henry Darger, a brilliant but seemingly mad man. Together, the two navigate the seedy underbelly of a changing city to uncover a murderer few even know to look for.

Someone to Cherish

'One of the best!' Julia Quinn, Sunday Times bestselling author of the Bridgerton series Is love worth the loss of one's freedom and independence? Mrs Tavernor has always firmly believed it is not. Place on Dalhousie, The

In Mario Alberto Zambrano's acclaimed literary debut, "a Mexican-American girl uses the game of Lotería to reveal her memories, which add up to a heart-wrenching tale of violence, love and a broken family" (Los Angeles Times)--now available as a limited Olive Edition from Harper Perennial. With her older sister, Estrella in the ICU and her father in jail, eleven-year-old Luz Castillo has been taken into the custody of the state. Alone in her room, the young girl retreats behind a wall of silence, writing in her journal and shuffling through a deck of lotería cards--a Mexican version of bingo featuring bright, colorful images. Neither the social worker assigned to her case nor her Aunt Tencha, who desperately pleads for her niece's release, can cajole Luz to speak. The young girl's only confidant is her journal. Within its pages, Luz addresses an invisible higher power, sharing her secrets and the story of her family's tragic demise--and the terrifying night that ripped them apart forever. Using the lotería cards as her muse, Luz picks one card from the deck with each shuffle. Each of the cards' colorful images-- mermaids, bottles, spiders, death, and stars--sparks a random memory. Pieced together, these snapshots bring into focus the joy and pain of the young girl's life, including the violence inflicted against her sister, the disappearance of her mother, her father's arrest. But just as the story becomes clear, a breathtaking twist changes everything. A surprising, spellbinding tale richly imaginative and atmospheric, Loteria is an exquisite debut novel from an outstanding new voice in fiction.

The Queen of Attolia

The Chemical Wedding of Christian Rosenkreutz, often looked upon as the third Rosicrucian manifesto, has an entirely different tone from the other Rosicrucian documents. Unlike the Rosicrucian manifestoes, which address the transformation of society, The Chemical Wedding is concerned with the inner transformation of the soul. It is a deeply interior work, one which asks the reader to step into its world of symbols and walk with Christian Rosenkreutz along his path of transformation. Despite its importance as a key text of the Western esoteric traditions, this is the first ever contemporary English translation of The Chemical Wedding, made especially for this edition by Joscelyn Godwin. Also included in this edition is an introduction and commentary by Adam McLean, which illuminates the transformative symbolism.

Loteria

Sara Shepard's Pretty Little Liars series meets the cult classic film Fargo in this gripping, dark comedy by debut author Kathleen Hale. A quiet town like Friendship, Wisconsin, keeps most of its secrets buried . . . but when local teen Ruth Fried is found murdered in a cornfield, her best friend, Kippy Bushman, decides she must uncover the truth and catch the killer. Since the police aren't much help, Kippy looks to her newly discovered idol, journalist Diane Sawyer, for tips on how to conduct her investigation. But Kippy soon discovers, if you want to dig up the truth, your hands have to get a little dirty, don'tcha know. In this riveting young adult novel, Kathleen Hale creates a quirky murder mystery that is intricately plotted and sure to keep readers guessing, laughing, and cringing until the surprising final pages. "Can a murder mystery be funny? You betcha!" raved Kirkus Reviews in a starred review.

The Chemical Wedding of Christian Rosenkreutz

From the Falmouth Historical Society Collection Cited as the only extant firsthand record of a mermaid encounter in New England waters, this deathbed letter from a great-grandfather to his great-grandson

is more likely an instructive fiction--a parable of regret. Supposedly corroborating the mermaid story, a ship's log (in the collections of the Provincetown Historical Museum) of the schooner Hannah, which plucked Mr. Stanton from South Weepecket in 1788, indicates that the crew saw two figures on the island prior to his rescue, but failed to locate a second victim. However, regarding accuracy and reliability, this is the same crew, under Captain John Merriweather, that reported sightings of a ghost ship and not one, but two sea monsters. --James S. No One Else Can Have You

In all her twenty-five years, lovely Venetia Lanyon has never been further than Harrogate, nor enjoyed the attentions of any but her two wearisomely persistent suitors. Then, in one extraordinary encounter, she meets a neighbour she only knows by reputation - the infamous Lord Damerel - and before she knows better, is egging on a libertine whose way of life has scandalised the North Riding for years.

Men Who Wish to Drown

The Razorland Trilogy: Enclave, Outpost, and Horde The New York Times—bestselling trilogy is the story of two young people in an apocalyptic world—facing dangers, and feelings, unlike any they've ever known. Enclave: Fifteen-year-old Deuce lives in a world below New York City which has been decimated by war and plague. As part of her new role as Huntress, Deuce is paired with Fade, another teenage Hunter. When the pair discovers that the neighboring enclave has been decimated by tunnel monsters, the elders refuse to listen to their warnings. And when Deuce and Fade are exiled from the enclave, the girl born in darkness must survive in daylight in the ruins of a city whose population has dwindled to a few dangerous gangs. Outpost: Deuce's whole world has changed. Down below, she was considered an adult. Now, topside in a town called Salvation, she's a "brat" in need of training in the eyes of the townsfolk. To make matters worse, her Hunter partner, Fade, keeps Deuce at a distance. Her feelings for Fade are still strong, but he seems not to want her around anymore. Things have been changing on the surface, just as they did below ground. The monsters don't intend to let Salvation survive, and it may take a girl like Deuce to turn back the tide. Horde: The survival of Salvation is up to Deuce, Fade, Stalker, and Tegan. Deuce decides the only way to fight an army is to raise one. At first, everyone laughs at the idea of a girl leading humanity's forces against the Freaks, but then she proves herself in combat. Can Deuce render a permanent truce with the Freaks? Who will survive? Includes bonus chapters from Ann Aguirres *Mortal Danger*!

The Razorland Trilogy

The Man who Used the Universe

A notorious criminal pursues peace—and power—with alien enemies in this sci-fi novel from the #1 New York Times—bestselling author of *The Damned Trilogy*. No one knows the true motives of Kees van Loo-Macklin. He's a mastermind criminal who gave up his place at the head of the dark underworld to become a legitimate member of Evenwaith's cities. But soon he was reaching out to powerful enemies—the slimy aliens called the Nuel. Loo-Macklin negotiates an illusory peace agreement and gains precious alien secrets in the process. Is he after peace, power or pure evil? With enemy starships beginning to amass, we won't have to wait long to find out.

The Man Who Used the Universe

ALL MY LIFE I have been looking for a Man who has discovered the universal law which lies back of the Sermon on the Mount, and who consciously uses that law with full awareness of its meaning and full obedience to its principles. Tens of thousands preach it or write about it, yet have little understanding of its meaning. I doubt if there are many men in the whole world who actually know that cosmic basis sufficiently to live it knowingly. If I could find such a man, I thought to myself, he would be so cosmically aware of the Light of God that he would know the spiritual Cause of all Effect. Such a one would be a super-genius, for the hidden secrets of the universe would be his. He would see the universe as a

whole and know his relationship to it and to God. All knowledge of Cause would be his, and the power to use it.

The Man Who Tapped the Secrets of the Universe

This fast-paced action novel is set in a future where the world has been almost destroyed. Like the award-winning novel *Freak the Mighty*, this is Philbrick at his very best. It's the story of an epileptic teenager nicknamed Spaz, who begins the heroic fight to bring human intelligence back to the planet. In a world where most people are plugged into brain-drain entertainment systems, Spaz is the rare human being who can see life as it really is. When he meets an old man called Ryter, he begins to learn about Earth and its past. With Ryter as his companion, Spaz sets off an unlikely quest to save his dying sister -- and in the process, perhaps the world.

The Masters of the Universe Book

Have you ever wondered how our universe began? Or what it takes to put humans on the moon? Do you know what happens in the microscopic world of a life-saving vaccine? What would you do if you could travel through space and time? Embark on the adventure of a lifetime in this beautiful collection of up-to-the-minute essays, mind-blowing facts and out-of-this-world colour photographs, by the world's leading scientists including Professor Stephen Hawking himself. This edition features brand-new content from Dr Mary Dobson: *Plagues, Pandemics and Planetary Health*. This unmissable volume was curated by Stephen and Lucy Hawking, whose series of children's books *George's Secret Key* was a global hit. George's stories are punctuated with fascinating real-life facts and insights from leading scientists and now this incredible non-fiction has been collected into one bumper volume, with new content from key scientific figures and up-to-the-minute facts and figures for readers in 2021. READERS LOVE UNLOCKING THE UNIVERSE: "Despite its scientific content the essays are written in a very accessible style and the many topics investigated which range from the physical explanations of the universe to earth science to robotics and future predictions. Highly recommended for curious minds from around 10 years upwards" - Sue Warren, Blogger "My 9 y.o. loves this book. We've previously discussed a lot of the concepts, but this seems to answer questions I hadn't thought of, but my son wanted to know"

Unlocking the Universe

Every night, above our heads, a drama of epic proportions is playing out. Diamond planets, zombie stars, black holes heavier than a billion Suns. The cast of characters is extraordinary, and each one has its own incredible story to tell.

The Universe: The book of the BBC TV series presented by Professor Brian Cox

Mastering the Universe is a must-read for members of the He-Man generation as well as for toy collectors, pop culture enthusiasts, inventors, and anyone interested in the drama of business history-as-bloody-a-battleground-as anything He-Man ever faced. Book jacket.

Across the Universe

In *Life, the Universe and Everything*, the third title in Douglas Adams' blockbusting sci-fi comedy series, *The Hitchhiker's Guide to the Galaxy*, Arthur Dent finds himself enlisted to prevent a galactic war. This edition includes exclusive bonus material from the Douglas Adams archives, and an introduction by Simon Brett, producer of the original radio broadcast. Following a number of stunning catastrophes, which have involved him being alternately blown up and insulted in ever stranger regions of the Galaxy, Arthur Dent is surprised to find himself living in a cave on prehistoric Earth. However, just as he thinks that things cannot get possibly worse, they suddenly do. An eddy in the space-time continuum lands him, Ford Prefect, and their flying sofa in the middle of the cricket ground at Lord's, just two days before the world is due to be destroyed by the Vogons. Escaping the end of the world for a second time, Arthur, Ford, and their old friend Slartibartfast embark (reluctantly) on a mission to save the whole galaxy from fanatical robots. Not bad for a man in his dressing gown . . . Follow Arthur Dent's galactic (mis)adventures in the rest of the trilogy with five parts: *So Long*, and *Thanks for All the Fish*, and *Mostly Harmless*.

Life, the Universe and Everything

The Man Who Tapped the Secrets of the Universe This is a short biography of the artist, sculpture and great thinker Walter Russell (1871-1963) includes the Preface to the 1953 edition. It also includes the Five Laws of Success.

The Man who Tapped the Secrets of the Universe

A major scientific revolution has begun, a new paradigm that rivals Darwin's theory in importance. At its heart is the discovery of the order that lies deep within the most complex of systems, from the origin of life, to the workings of giant corporations, to the rise and fall of great civilizations. And more than anyone else, this revolution is the work of one man, Stuart Kauffman, a MacArthur Fellow and visionary pioneer of the new science of complexity. Now, in *At Home in the Universe*, Kauffman brilliantly weaves together the excitement of intellectual discovery and a fertile mix of insights to give the general reader a fascinating look at this new science--and at the forces for order that lie at the edge of chaos. We all know of instances of spontaneous order in nature--an oil droplet in water forms a sphere, snowflakes have a six-fold symmetry. What we are only now discovering, Kauffman says, is that the range of spontaneous order is enormously greater than we had supposed. Indeed, self-organization is a great undiscovered principle of nature. But how does this spontaneous order arise? Kauffman contends that complexity itself triggers self-organization, or what he calls "order for free," that if enough different molecules pass a certain threshold of complexity, they begin to self-organize into a new entity--a living cell. Kauffman uses the analogy of a thousand buttons on a rug--join two buttons randomly with thread, then another two, and so on. At first, you have isolated pairs; later, small clusters; but suddenly at around the 500th repetition, a remarkable transformation occurs--much like the phase transition when water abruptly turns to ice--and the buttons link up in one giant network. Likewise, life may have originated when the mix of different molecules in the primordial soup passed a certain level of complexity and self-organized into living entities (if so, then life is not a highly improbable chance event, but almost inevitable). Kauffman uses the basic insight of "order for free" to illuminate a staggering range of phenomena. We see how a single-celled embryo can grow to a highly complex organism with over two hundred different cell types. We learn how the science of complexity extends Darwin's theory of evolution by natural selection: that self-organization, selection, and chance are the engines of the biosphere. And we gain insights into biotechnology, the stunning magic of the new frontier of genetic engineering--generating trillions of novel molecules to find new drugs, vaccines, enzymes, biosensors, and more. Indeed, Kauffman shows that ecosystems, economic systems, and even cultural systems may all evolve according to similar general laws, that tissues and terra cotta evolve in similar ways. And finally, there is a profoundly spiritual element to Kauffman's thought. If, as he argues, life were bound to arise, not as an incalculably improbable accident, but as an expected fulfillment of the natural order, then we truly are at home in the universe. Kauffman's earlier volume, *The Origins of Order*, written for specialists, received lavish praise. Stephen Jay Gould called it "a landmark and a classic." And Nobel Laureate Philip Anderson wrote that "there are few people in this world who ever ask the right questions of science, and they are the ones who affect its future most profoundly. Stuart Kauffman is

one of these." In *At Home in the Universe*, this visionary thinker takes you along as he explores new insights into the nature of life.

At Home in the Universe

Suppose you and I still wondered whether all of the pinpoints of light in the night sky are the same distance from us. Suppose none of our contemporaries could tell us whether the Sun orbits the Earth, or vice versa, or even how large the Earth is. Suppose no one had guessed there are mathematical laws underlying the motions of the heavens. How would - how did - anyone begin to discover these numbers and these relationships without leaving the Earth? What made anyone even think it was possible to find out "how far," without going there? In *Measuring the Universe* we join our ancestors and contemporary scientists as they tease this information out of a sky full of stars. Some of the questions have turned out to be loaded, and a great deal besides mathematics and astronomy has gone into answering them. Politics, religion, philosophy and personal ambition: all have played roles in this drama. There are poignant personal stories, of people like Copernicus, Kepler, Newton, Herschel, and Hubble. Today scientists are attempting to determine the distance to objects near the borders of the observable universe, far beyond anything that can be seen with the naked eye in the night sky, and to measure time back to its origin. The numbers are too enormous to comprehend. Nevertheless, generations of curious people have figured them out, one resourceful step at a time. Progress has owed as much to raw ingenuity as to technology, and frontier inventiveness is still not out of date.

Measuring the Universe

'Therefore this terror and darkness of the mind Not by the sun's rays, nor the bright shafts of day, Must be dispersed, as is most necessary, But by the face of nature and her laws.' Lucretius' poem *On the Nature of the Universe* combines a scientific and philosophical treatise with some of the greatest poetry ever written. With intense moral fervour Lucretius demonstrates to humanity that in death there is nothing to fear since the soul is mortal, and the world and everything in it is governed not by the gods, but by the mechanical laws of nature. By believing this, men can live in peace of mind and happiness. Lucretius bases his argument on the atomic theory expounded by the Greek philosopher Epicurus. His poem explores sensation, sex, cosmology, meteorology, and geology through acute observation of the beauties of the natural world and with moving sympathy for man's place in it. Sir Ronald Melville's accessible and accurate verse translation is complemented by an introduction and notes situating Lucretius' scientific theories within the thought of 1st century BCE Rome and discussing the Epicurean philosophy that was his inspiration and why the issues Lucretius' poem raises about the scientific and poetical views of the world continue to be important. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

On the Nature of the Universe

Skeletor has a plan to lure Teela to him, using the thousands of shadow men at his disposal. He commands them to bring a slab of Mentalite to him so he can focus his energies and send a telepathic message, disguised as He-Man, to Teela, requesting that she come to him. Teela complies, undergoing several trials along the way, such as Mer-Man and Beast Man. She eventually overcomes them with the help of Stratos. Stratos alerts He-Man and he is able to defeat Skeletor and the shadow men by shattering the Mentalite.

This stunning repackaged of an intense teen romance introduces confident Angela and intellectual Tycho, who seem an unlikely pair. They share a passion for deciphering the universe outside their own personal struggles. To Angela and Tycho, it seems the universe can be ordered; their own lives cannot. As their family struggles swirl around them, they are suddenly desperate to discover where they fit in.

The Catalogue of the Universe

The deepest concern of every thinking individual must surely be with the three great subjects which comprise the title of the book, and with the relationships between them. The profound concepts inevitably involved in a discussion of such a theme are presented with great clarity and wisdom, and the many diagrams and charts with which the ideas are illustrated are invaluable aids to comprehension. East and West meet here in enlightened synthesis. Chapters include such topics as Cosmic Consciousness, The Monad and the Logos, Involution and Evolution, Mathematics as the Basis of Manifestation and Reality and Consciousness. The book also includes both a glossary and index.

Man, Mind, and the Universe

Brimming with alternative universes, futuristic landscapes and gleeful metaphysics... Yu's spirit of invention is infectious. - Sunday Times Highly inventive and hilarious - The Times

With only TAMMY - a slightly tearful computer with self-esteem issues - a software boss called Phil - Microsoft Middle Manager 3.0 - and an imaginary dog called Ed for company, fixing time machines is a lonely business and Charles Yu is stuck in a rut. He's spent the better part of a decade navel-gazing, spying on 39 different versions of himself in alternate universes (and discovered that 35 of them are total jerks). And he's kind of fallen in love with TAMMY, which is bad because she doesn't have a module for that. With all that's on his mind, perhaps it's no surprise that when he meets his future self, he shoots him in the stomach. And that's a beginner's mistake for a time machine repairman. Now he's stuck in a time loop, going in circles forever. All he has, wrapped in brown paper, is the book his future self was trying to press into his hands. It's called How to Live Safely in a Science Fictional Universe. And he's the author. And somewhere inside it is the information that could save him.

Man and This Mysterious Universe

Eighteen science fiction stories deal with love, madness, and death on Mars, Venus, and in space.

How to Live Safely in a Science Fictional Universe

The universe--demystified! With eye-catching graphics, science illustrator Ben Gilliland unravels the complex concepts of scientific cosmology. In his funny, smart, and accessible guide to the evolution of our universe, Gilliland leads us from the Big Bang to the development of the stars, galaxies, and planets--and into the future. Each chapter highlights groundbreaking discoveries in physics, with amusing sidebars throughout.

The Illustrated Man

Danny Wallace wanted to write about a place so special and so crucial to our existence that it had never before been tackled: the Centre of the Universe. But then he realised that getting there might be

a problem, and when he did, there'd probably be nothing much to write about. Until he heard about a manhole cover, on a small street, in a small town, tucked away in a remote part of Idaho. The manhole cover had been declared the Centre of the Universe. The mayor had the science to back it up. The town rejoiced. And the name of the town? Wallace. It was a cosmic coincidence Danny couldn't resist...

How to Build a Universe

This work has been written in consequence of the great interest excited by my article, under the same title, which appeared simultaneously in *The Fortnightly Review* and the *New York Independent*. Two friends who read the manuscript were of opinion that a volume, in which the evidence could be given much more fully, would be desirable, and the result of the publication of the article confirmed their view. I was led to a study of the subject when writing four new chapters on Astronomy for a new edition of *The Wonderful Century*. I then found that almost all writers on general astronomy, from Sir John Herschel to Professor Simon Newcomb and Sir Norman Lockyer, stated, as an indisputable fact, that our sun is situated in the plane of the great ring of the Milky Way, and also very nearly in the centre of that ring. The most recent researches also showed that there was little or no proof of there being any stars or nebulae very far beyond the Milky Way, which thus seemed to be the limit, in that direction, of the stellar universe. Turning to the earth and the other planets of the Solar System, I found that the most recent researches led to the conclusion that no other planet was likely to be the seat of organic life, unless perhaps of a very low type. For many years I had paid special attention to the problem of the measurement of geological time, and also that of the mild climates and generally uniform conditions that had prevailed throughout all geological epochs; and on considering the number of concurrent causes and the delicate balance of conditions required to maintain such uniformity, I became still more convinced that the evidence was exceedingly strong against the probability or possibility of any other planet being inhabited.

Danny Wallace and the Centre of the Universe

"*Man's Place in the Universe*" is a book written by Alfred Russel Wallace, a British naturalist, biologist, and co-discoverer of the theory of evolution by natural selection. The book, published in 1903, explores Wallace's thoughts on the significance of humanity in the context of the cosmos. In "*Man's Place in the Universe*," Wallace discusses topics related to the nature of the universe, evolution, and the unique attributes of human beings. He considers philosophical and scientific questions about the place of humans in the grand scheme of existence, addressing both the biological aspects of evolution and the broader implications for human consciousness and purpose. Alfred Russel Wallace's work contributed significantly to the development of evolutionary theory, and "*Man's Place in the Universe*" reflects his broader interests in natural philosophy. The book provides insights into the worldview of a prominent 19th-century naturalist and the intellectual climate of the time.

Man's Place in the Universe

With a new introduction by Kelly Link, the Locus Award-winning science fiction novel by legendary author Ursula K. Le Guin, set in a world where one man's dreams rewrite the future. During a time racked by war and environmental catastrophe, George Orr discovers his dreams alter reality. George is compelled to receive treatment from Dr. William Haber, an ambitious sleep psychiatrist who quickly grasps the immense power George holds. After becoming adept at manipulating George's dreams to reshape the world, Haber seeks the same power for himself. George—with some surprising help—must resist Haber's attempts, which threaten to destroy reality itself. A classic of the science fiction genre, *The Lathe of Heaven* is prescient in its exploration of the moral risks when overwhelming power is coupled with techno-utopianism.

Man's Place in the Universe

When his best friend-turned-boyfriend goes missing and seems to be remembered by nobody else, Ozzie begins to believe that the universe is shrinking and forges ties with a new friend while struggling to figure out what is happening.

The Lathe Of Heaven

The author says that the social contract theory of John Locke, the immortal souls of humans, and doubts of the divinity of Jesus (by Ben Franklin, Thomas Jefferson, and John Adams) caused the separation of

the U.S. colonists from England on July 4, 1776. However, the author says that the USA has lost its God and has no facts about the universe in which we live. He also says that Locke's social contract theory and the immortal souls of humans were never installed by Congress. And he says that the doubts of the divinity of Jesus were never verified. In his new book, the author opens his widely respected mind to find answers to the above unknowns. In his studies of the immortal souls, the author concludes that all nations must become equal so that the immortal souls of every Little God can be reborn naturally by God. His study provides answers of all doubts about the divinity of Jesus and says that only one active God exists and governs the immortal souls and the universe forever. In time, only one religion will exist.

At the Edge of the Universe

A self-professed "comprehensive anticipatory design scientist," the inventor Buckminster Fuller (1895-1983) was undoubtedly a visionary and his creations often bordered on the realm of science fiction. *You Belong to the Universe* documents Fuller's six-decade quest to "make the world work for one hundred percent of humanity." Critic and experimental philosopher Jonathon Keats sets out to revive Fuller's unconventional practice of comprehensive anticipatory design, placing Fuller's philosophy in a modern context and dispelling much of the mythology surrounding Fuller's life. Keats argues that Fuller's life and ideas, namely doing "the most with the least," are now more relevant than ever as humanity struggles to meet the demands of an exploding world population with finite resources.

Before the Big Bang there was NOTHING AT ALL. No galaxies, no space, no light and no sound. Then suddenly, 13.8 billion years ago, IT ALL BEGAN... This beautiful follow-up to *The Story of Life* brings to life the story of our universe for younger children. Travel back in time to the Big Bang, see galaxies and stars form, watch the birth of our planet and how life begins, join the first man on the moon, and wonder what mysteries are still waiting to be discovered.

Man's Place in the Universe: A Study of the Results of Scientific Research in Relation to the Unity Or Plurality of Worlds (1904)

The hero of the novel, Mr. Barnstaple, is a depressive journalist working for the newspaper "The Liberal." At the beginning of the story, Barnstaple, as well as a few other Englishmen, are accidentally transported to the parallel world of Utopia. Utopia is like an advanced Earth, although it had been quite similar to Earth in the past in a period known to Utopians as the "Days of Confusion." Utopia is a utopian world: it has a utopian world government, advanced science, and even pathogens have been eliminated and predators are almost tamed. --wikipedia.com.
