The Dragon Blood Collection, Books 1-3

A thousand years have passed since a dragon has been seen in the world. Science and technology have replaced magic, which has dwindled until it has become little more than an element of myth and legend. There are those who still have dragon blood flowing through their veins, distant descendants of the mighty creatures of old. These rare humans have the power to cast magic, the power to heal, and the power to craft alchemical weapons capable of starting wars... or ending them. But they are feared for those powers, and in recent centuries, they have been hunted nearly to extinction. The few remaining survivors must find a way to change how humanity perceives them or be lost to the world forever. The Dragon Blood Collection includes three full-length novels of action, magic, and romance: *Balanced on the Blade's Edge* *Deathmaker* *Blood Charged*

Balanced on the Blade's Edge

Colonel Ridge Zirkander isn't the model of military professionalism—he has a tendency to say exactly what's on his mind, and his record has enough demerits to wallpaper the hull of an airship—but as the best fighter pilot in the Iskandian army, he's used to a little leniency from his superiors. Until he punches the wrong diplomat in the nose and finds himself issued new orders: take command of a remote prison mine in the inhospitable Ice Blades Mountains. Ridge has never been in charge of anything larger than a flier squadron—what's he supposed to do with a frozen fortress full of murderers and rapists? Not to mention the strange woman who shows up right before he arrives... Sardelle Terushan wakes from three hundred years in a mage stasis shelter, only to realize that she is the last of the Referatu, the sorcerers who once helped protect Iskandia from conquerors. Their subterranean mountain community was blown up in a treacherous sneak attack by soldiers who feared their power. Everyone Sardelle ever knew is dead, and the sentient soulblade she has been bonded to since her youth is buried in the core of the mountain. Further, what remains of her home has been infested by bloodthirsty miners commanded by the descendants of the very soldiers who destroyed her people. Sardelle needs help to reach her soulblade—her only link to her past and her last friend in the world. Her only hope is to pretend she's one of the prisoners while trying to gain the commander's trust. But lying isn't her specialty, especially when the world has changed so much in the intervening centuries, and if Colonel Zirkander figures out who she truly is, he'll be duty-bound to sentence her to the only acceptable punishment for sorcerers: death.

Patterns in the Dark

Everyone knows dragons have been extinct for over a thousand years. Everyone is wrong. At least one dragon remains, and military scientists from the Cofah Empire are experimenting with its blood, using the magical substance to power deadly new weapons that could be used to bring the world to its knees.

That's a concern for Zirkander, Cas, and the rest of the Iskandians, but all Tolemek wants is to find his missing sister. The last time he saw her, their father had locked her in an asylum because of a mental illness with no cure. Now the military has taken her. What use the Cofah have for her, Tolemek can only guess, but he is certain she is in danger. He must save her before it's too late. But her fate is inexplicably tied to the dragon's, and he must find it to find her.

Deathmaker

When Lieutenant Caslin Ahn joined Wolf Squadron, she was prepared for the reality that she might one day be killed in the line of duty. She was less prepared for being shot down, assumed dead by her own people, and dragged off to the Cofah Empire as a prisoner of war. As if being thrust into a dungeon and interrogated wasn't bad enough, the sadistic commandant decides to give her a cellmate: the notorious pirate Deathmaker. Given the crimes he's committed against Iskandia, Cas owes it to her people to try and kill him. Part warrior and part scientist, Tolemek "Deathmaker" Targoson has not only slain thousands with his deadly concoctions, but he has a special loathing for Iskandian pilots. It was Ahn's commander, Colonel Zirkander, who ruined his military career, forcing him to leave his country in shame and join a pirate organization. Years later, he uses his dreadful reputation like a shield to keep people away; all he wants is to be left alone to work in his laboratory. But when fate lands him in a cell with Zirkander's protégé, he sees a chance for revenge. Why kill the lieutenant when he can use her to get to his old nemesis? There's just one problem: it's hard to plot against your enemies when you're in prison with them. Cas and Tolemek will have to work together if they hope to escape the Cofah dungeon. In the process, they may find that neither is what the other expects, and that they have far greater problems to worry about than ensnaring each other... Deathmaker is a full-length 85,000-word novel. It is set after the events in *Balanced on the Blade's Edge*, but it can be enjoyed even if you haven't read the first book.

Explorer Academy: The Dragon's Blood (Book 6) (Explorer Academy)

An explosive revelation and a familiar face in the sixth book in this adventure-packed series.

Blood Charged

Sardelle Terushan, sorceress and healer, should be lying low. Magic is forbidden in Iskandia, and magic users are drowned, shot, or otherwise slain. The problem? She's fallen in love with ace fighter pilot and national hero, Colonel Ridge Zirkander, a man whom everybody notices, including the king. It's not long before Sardelle has spies dogging her steps and people trying to blow her up. Worse, her presence is jeopardizing Ridge's career. If she can't find a solution to the nation's centuries-old hatred of magic, the only way to protect Ridge-and herself-may be to leave. Ridge Zirkander isn't used to worrying about more than shooting down Cofah airships and keeping the officers in his squadron alive, but his world has gotten more complicated since giving his heart to Sardelle. It's difficult to keep people from noticing a mysterious and enigmatic woman, not to mention her chatty sentient sword. He's been passing her off as an archaeologist to his fellow pilots, but when the king calls him in to a private meeting, Ridge fears his secret has been discovered. But the king-and the rest of the country-has a greater problem. Cofah military scientists have acquired something that shouldn't exist in the world any longer: dragon blood. In addition to having countless mysterious properties, it's a powerful energy source that can be used to create devastating weapons. Ridge, Sardelle, and their allies must travel to the empire as part of a secret strike force to steal the dragon blood. If they fail, the Cofah will finally have the power to destroy all of Iskandia.

Under the Ice Blades

Blood of Dragons (The Rain Wild Chronicles, Book 4)

Carlos works on a fishing boat in the middle of the sea. After a storm, he spots a woman clinging to driftwood. The woman's friends are lost, maybe swallowed by the ocean. But the woman says it was no storm that capsized her ship, it was a monster!

Wings Above the Waves

Ridge, Sardelle, and their comrades may have rescued Tolemek's sister and freed the dragon, but trouble awaits at home. The king is missing, a secret organization is hunting sorcerers, and the capital is more vulnerable than ever to enemy attack. Worst of all, at least from Ridge's point of view, someone put that jackass Colonel Therrik in charge of the flier battalion. Ridge and his allies have a lot of problems to fix, but they can't show their faces in the capital without being arrested or shot. This time, it's going to take a lot more than magic to save the country. The Blade's Memory is the fifth installment in the Dragon Blood series.

The Blade's Memory

Cracked Open

A sixteen-year-old cowboy is working at a ranch for the summer. His father said it would be good for him. One night, the horses begin to snort in fear--and a strange teenage boy appears where a fire-breathing shadow once stood. The cowboy is afraid, until he sees that the stranger's birthmark is dragon-shaped--just like his.

Dragon Cowboy

An elite forces officer with a dreadful reputation. A bookish paleontologist with a love for mysteries. An ancient stronghold full of secrets that will take both of them to unearth. Professor Lilah Zirkander (yes, she's related to the famous pilot, and no, she can't get him to autograph your undergarments) is looking forward to a summer in the paleontology lab, researching and cataloging new fossils. But that summer takes an unexpected turn when the king sends her into the Ice Blades to a secret mine where ancient dragon bones have been discovered. Rumor has it that they're cursed and dangerous, but Lilah is more concerned about dealing with the outpost commander, a fierce officer with the temperament of a crabby badger. As punishment for irking the king, Colonel Vann Therrik is overseeing the hardened criminals working in the remote Magroth Crystal Mines. He would like a chance to redeem himself—and escape the loathsome duty station—but nothing is going his way. Cursed fossils have delayed production, miners are trying to escape, and now a scientist has shown up, making demands on his time. Worse, she's the cousin of his nemesis General Zirkander. As if one Zirkander in his world wasn't bad enough. Investigating the fossils leads Lilah and Vann into the depths of Magroth Mountain where centuries-old secrets lurk, and a long-forgotten threat stalks the passages. To have any chance at survival, they'll have to work together and perhaps learn that neither is what the other expected. Shattered Past is a stand-alone novel set in the author's Dragon Blood world.

Shattered Past

Dragons have returned to the world, and they're wreaking havoc on human civilizations. Only one man has the power to stop them. Born an outcast who's never fit in, Telryn "Trip" Yert has spent his entire life hiding a secret that could get him killed: In a world where magic is forbidden, the ancient blood of dragons flows through his veins. Joined by a snarky sentient sword, a band of equally snarky allies, and the smart scholarly woman he longs to impress, Trip must master his powers, learn the secrets of his heritage, and go on a quest to save mankind. If he fails, dragons may take over the world and enslave all of humanity. This is the complete five-novel Heritage of Power series, full of adventure, romance, and fast-paced page turning fun. It includes: 1. Dragon Storm 2. Revelations 3. Origins 4. Unraveled 5. Gold Dragon

Heritage of Power (The Complete Series, Books 1-5)

It's been a week since the dragon Morishtomarc fell, and Sardelle is not convinced that Ridge is truly gone. With a companion who thinks he's a god and a soldier who would happily kill her, she heads back to the mountains to look for signs that Ridge survived. What they uncover threatens to destroy their country and all they care about. Meanwhile, the Cofah emperor is furious with Iskandia over the loss of its airships and still has a bounty on Tolemek's head. King Angulus sends Tolemek, Cas, and Kaika on a daring mission that could solve both problems... or leave them all dead.

Soulblade (Dragon Blood, Book 7)

Will and his mother get stuck in a blizzard while on their way to visit Will's dad, and they are shocked when they are rescued by a dragon that may or may not be Will's older brother Henry.

Claws in the Snow

General Ridgewalker Zirkander is getting married. Sardelle—the woman who's battled dragons, shamans, and countless enemy soldiers at his side—has accepted his proposal, and it's the perfect time for a wedding. It's been two months since any dragons or sorceresses attacked the city, the Cofah haven't come after their kidnapped emperor, and King Angulus has stopped yelling at Ridge for his inadvertent role in destroying the castle. Yes, it's the perfect time for a wedding. Never mind that the resident dragon who thinks he's a god is pressuring Ridge to build a temple for him, or that the pirate-turned-scientist Tolemek has disappeared. Or that Ridge's mother is on the verge of discovering that magic exists and her future daughter-in-law is a sorceress. These are small hiccups, and the wedding will go smoothly. Ridge is sure of it. Really.

Oaths (Dragon Blood, Book 8)

Imperial law enforcer Amaranthe Lokdon is good at her job: she can deter thieves and pacify thugs, if not with a blade, then by toppling an eight-foot pile of coffee canisters onto their heads. But when ravaged bodies show up on the waterfront, an arson covers up human sacrifices, and a powerful business coalition plots to kill the emperor, she feels a tad overwhelmed. Worse, Sicarius, the empire's most notorious assassin, is in town. He's tied in with the chaos somehow, but Amaranthe would be a fool to cross his path. Unfortunately, her superiors order her to hunt him down. Either they have an unprecedented belief in her skills... or someone wants her dead.

The Emperor's Edge

The morning after a storm, Rico searches the beach for rare and unusual objects. He doesn't believe his eyes, the sand is covered with dozens of giant eggs. Rico and his friend, Dr. Agon, will soon discover that the eggs are not the key to treasure but a doorway to terror!

Terror Beach

"You, dear reader, continue at your own risk. It is not for the faint of heart—no more so than the study of dragons itself..." From Scirland to the farthest reaches of Eriga, Isabella, Lady Trent is known to be the world's preeminent dragon naturalist. She is the remarkable woman who brought the study of dragons out of the misty shadows of myth into the clear light of modern science. But before she became the illustrious figure we know today, there was a bookish young woman whose passion for learning and natural history defied the stifling conventions of her day. Here at last, in her own words, is the true story of a pioneering spirit who risked her reputation, her prospects and her fragile flesh to satisfy her

scientific curiosity; of how she sought true love and happiness despite her lamentable eccentricities; and of her thrilling expedition to the perilous mountains of Vystrana, where she made the first of many historic discoveries that would change the world forever.

His conscience might balk over tearing the lovers apart, but the dragon inside, the darkness he tries to suppress, demands he takes what belongs to him--regardless of the cost. Jonathan Ebel and Dakota Taylor, newlyweds who are unaware that the slightest hint of dragonblood simmers within their veins, are drawn to the pale-eyed stranger but are hesitant to acknowledge their inexplicable attraction to Elijah. Can Jon admit his desire and open himself to submit to another man? Can Dakota accept the inevitable, knowing she may hurt the man she's loved most of her life? Will Elijah finally get his heart's wish? Three dragonbloods are required to create life, but the destined mates must find the courage to make themselves vulnerable to each other, or their legacy--and their species--dies with them.

'The most captivating children's book I've seen so far this year,' Amanda Craig, The Times Ping is a slave in a little-used royal palace on the edge of the Emperor's kingdom. Her tyrannic master is a cruel drunk who neglects his duties as Imperial Dragonkeeper and under his watch the Emperor's dragons have dwindled from a magnificent dozen to a miserable two. When one dragon dies, only the ancient and wise Long Danzi remains. His fate seems sealed – until Ping comes to his rescue in a moment of startling bravery that reveals her destiny as a Dragonkeeper. Pursued by the Emperor's forces and an evil dragon hunter, Ping, Danzi, and a rat called Hua, set off on a remarkable journey across the kingdom. Bound for the Ocean, they carry a mesmerising, beautiful dragon stone that must be protected at any cost. Surviving dangers of all kinds – a shape-shifting necromancer, and a ritual sacrifice among them – the trio finally arrive at Ocean, Danzi's final place of rest. But as her dragon-friend leaves Ping forever, the dragon stone reveals its spectacular secret...
