The Eye of the Serpent

This is a quintessential book for Cinema buffs and particularly those who are passionate about Tamil cinema, which has the distinction of having played a significant role in history of films in India. Tracing the evolution of Tamil films from the time of pre-independence, when it was anathema for local Congress leaders to be associated with the celluloid, to the arrival of an American, Ellis Dungan, who made masterpieces like Meera, the book showcases vignettes about every important milestone in the vast canvas of Tamil films. In the almost ten decades of its evolution, Tamil cinema has grown to exert a dominant influence on the social and political life of Tamil Nadu in a manner that is unparalleled elsewhere in the world. This seminal volume is an analytical study of Tamil cinema both as an art form and as a socio-political force. Theodore Baskaran traces its history, and presents the achievements of many filmmakers with colourful insights. For the film buff as well as the serious student of film studies, The Eye of the Serpent is a handy reference book on several aspects of Tamil cinema - its character and evolution, the songs and songwriters, filmmakers and script writers, the beginnings of the unique nexus between cinema and politics in Tamil Nadu and much more.

The residents of Pipalnagar, a dull and dusty small town, hope to one day leave behind their humdrum lives for the thrills of Delhi. Deep Chand, the barber, dreams of giving the prime minister a haircut; Pitamber wishes to ride an autorickshaw instead of pulling a cycle-rickshaw; and Aziz will be happy with a junk shop in Chandni Chowk. Sharing their dreams of escape is the narrator Arun, a struggling detective-fiction writer. As he waits for inspiration to write a blockbuster, he seeks and discovers love in unusual places—with the young prostitute Kamla, wise beyond her years, and the orphan and epileptic Suraj, surprisingly optimistic despite his difficult circumstances. In Delhi Is Not Far, one of his

most enduring novels, Ruskin Bond sketches a moving portrait of small- town India with characteristic sympathy and quiet wisdom.

On Directing Film

This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios of Madras—Modern Theatres, AVM, Gemini, Vijaya-Vauhini, and Prasad— through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.

This book is the first to focus on violent and/or 'abusive' behaviours in lesbian, gay, bisexual and/or transgender, non-binary gender or genderqueer people's intimate relationships. It provides fresh empirical data from a comprehensive mixed-methods study and novel theoretical insights to destabilise and queer existing narratives about intimate partner violence and abuse (IPVA). Key to the analysis, the book argues, is the extent to which Michael Johnson's landmark typology of IPVA can be used to make sense of the survey data and accounts of 'abusive' behaviours given by LGB and/or T+ participants. As well as calling for IPVA scholars to challenge heteronormativity and cisnormativity and improve IPVA measurement, this book offers guidance and a new tool to assist practitioners from a variety of relationships services with identifying victims/survivors and perpetrators in LGB and/or T+ people's relationships. It will appeal to academics and practitioners in the field of domestic violence and abuse.

The course of south Indian history from pre-historic times to the contemporary era is a complex narrative with many interpretations. Reflecting recent advances in the study of the region, this volume provides an assessment of the events and socio-cultural development of south India through a comprehensive analysis of its historical trajectory. Investigating the region's states and configurations, this book covers a wide range of topics that include the origins of the early inhabitants, formation of the ancient kingdoms, advancement of agriculture, new religious movements based on bhakti, and consolidation of centralized states in the medieval period. It further explores the growth of industries in relation to the development of East-West maritime trade in the Indian Ocean as well as the wave of Islamicization and the course of commercial relations with various European countries. The book then goes on to discuss the advent of early-modern state rule, impact of the raiyatwari system introduced by the British, debates about whether the region's economy developed or deteriorated during the eighteenth century, decline of matriliney in Kerala, emergence of the Dravidian Movement, and the intertwining of politics with contemporary popular culture. Well illustrated with maps and images, and incorporating new archaeological evidence and historiography, this volume presents new perspectives on a gamut of issues relating to communities, languages, and cultures of a macro-region that continues to fascinate scholars and readers alike.
