L'economia del petrolio e il lavoro. L'estrazione di idrocarburi in Basilicata tra fabbisogno energetico nazionale e impatto sull'economia locale

Questo numero di «Meridiana» si propone di approfondire la natura complessa e contraddittoria dei mutamenti che hanno investito una particolare realtà meridionale italiana dagli anni cinquanta a oggi, proponendo una riflessione sulla Basilicata e le dinamiche modernizzatrici, aggiornata al presente ma radicata in una prospettiva storica. I contenuti del volume, nel loro insieme, puntano a fornire un contributo al dibattito sulla attuale situazione socio-economica e politica lucana, attraverso una rassegna di ricerche in grado di offrire una profondità storica alla configurazione di una regione che ha sperimentato e continua a sperimentare processi di modernizzazione per certi versi originali ma, al tempo stesso, in linea con quelli di altri contesti italiani. In tal senso, gli approfondimenti proposti risultano funzionali all'idea secondo cui lo studio delle asimmetrie e delle differenze tra realtà territoriali del Mezzogiorno conservi un senso solo se messo in relazione a dimensioni più ampie.

Meridiana 105, 2022

Si ? da poco concluso il Centenario della vittoria della Grande Guerra (1915-1918). La ricorrenza avrebbe dovuto essere opportunamente impiegata per una revisione critica del conflitto, al di fuori dalla retorica ufficiale che ancora accompagna l'evento bellico. Come spesso accade, le ragioni vere che hanno portato le classi dominanti a dichiarare guerra all'impero austro-ungarico non coincidono con la retorica della propaganda. La riappropriazione delle terre irredente ? stata una scusa per nascondere motivazioni ben piu' profonde.

Il Medio Oriente. Potenza, politica e ideologia

L'autore si concentra sulla polarizzazione dell'economia globale, che in vent'anni ha dato vita a un vero e proprio Quarto Mondo: non solo l'Africa Subsahariana, ma anche i ghetti urbani degli Stati Uniti e di altri paesi. Aumento della disuguaglianza e maggior libertà di manovra finanziaria stanno dietro la vertiginosa espansione dei traffici della criminalità globale.

La rivista italiana del petrolio rassegna generale mensile degli olii minerali

Il volume è dedicato al commento delle novità sulla riforma del Codice della nautica da diporto contenute nel decreto legislativo 3 novembre 2017, n. 229. La novella ha l'obiettivo di una maggiore tutela degli interessi pubblici generali quali la protezione dell'ambiente marino, la sicurezza della navigazione e la salvaguardia della vita umana in mare ma anche e soprattutto una maggiore semplificazione dei procedimenti amministrativi. Sono presenti norme per la piena operatività degli sportelli telematici per i diportisti, il Registro telematico delle barche, l'Anagrafe nazionale delle patenti nautiche ma anche interventi in materia di introduzione di nuove figure professionali e una specifica disciplina per le scuole nautiche e i centri di istruzione per la nautica. I contributi presenti nel commentario, agile nella lettura, intendono accompagnare il lettore nella conoscenza e prima interpretazione sistematica delle norme per una visione organica del nuovo assetto giuridico.

Che cos'è l'economia fondiaria Secondo i principi dell'economia, la terra comprende non solo il territorio geografico ma anche tutte le risorse naturali. Alcune regioni geografiche, riserve minerarie, foreste, stock ittici, qualità dell'aria, orbite geostazionarie e sezioni dello spettro elettromagnetico sono alcuni esempi di cose che rientrano in questa categoria. La disponibilità di queste risorse è immutabile. Gli esperti di National Geographic viaggiano in ogni angolo del mondo per cogliere tutti gli aspetti della cultura, della storia e delle tradizioni dei vari luoghi. Questo bagaglio di esperienze si ritrova in ogni guida National Geographic Traveler. Programmare il viaggio, una panoramica generale sulle principali attrazioni del Paese che aiuta a organizzare la visita in base al tempo a disposizione e agli interessi specifici. Itinerari a piedi e in auto, corredati da cartine con rimandi alle descrizioni dei luoghi toccati, che propongono una passeggiata tra i luoghi legati alla storia della schiavitù a Città del Capo, sul lungomare di Durban e un'escursione tra i vigneti del Western Cape. Escursioni lungo itinerari insoliti nel deserto del Kalahari, lungo la Diamond Coast e tra le Maloti Mountains. Da non perdere: un elenco di località e attività vivamente consigliate con i rimandi di pagina alle descrizioni puntuali di ogni capitolo della guida. Da provare: pratiche e originali idee per organizzare un braai in spiaggia, consultare un guaritore tradizionale della cultura nguni, immergersi in una gabbia tra gli squali e prestare servizio come volontari per costruire case o tutelare la fauna selvatica. Suggerimenti forniti da fotografi, autori, ricercatori di National Geographic o da esperti conoscitori del Paese su mete e località assolutamente da visitare. Fotografie e cartine dettagliate che facilitano la selezione delle mete, la creazione di percorsi di visita e consentono di cogliere il meglio di ogni luogo.

Volgere di millennio

Noi siamo il nostro profilo Facebook? Le intelligenze artificiali sono tecnologie o soggetti sociali? Com'è possibile che il bitcoin abbia creato una crisi in Kazakistan? Come ha fatto un chatbot su Twitter ad aver imparato frasi razziste, violente e antisemite senza bisogno di programmazione? La società del XXI secolo è il prodotto di un panorama sociale che vede interconnessi persone (e le loro relazioni), dati (nella forma di informazioni e algoritmi) e tecnologie (dispositivi e servizi sempre nuovi). Le scienze sociali, da un punto di vista teorico e metodologico, ci aiutano ad analizzare questi fenomeni e a immaginare risposte.

Capitale, natura e lavoro

Cos'è la storia economica mondiale La storia economica del mondo comprende lo sviluppo dell'attività economica umana nel corso del tempo. È stato stimato che nel corso della preistoria il PIL medio pro capite mondiale fosse stato di circa 158 dollari all'anno e non aumentò di molto fino alla Rivoluzione Industriale. Il bestiame è stato probabilmente il primo oggetto o cosa fisica specificamente utilizzato in un modo sufficientemente simile alla definizione moderna di denaro, ovvero come mezzo di scambio. Come trarne vantaggio (I) Approfondimenti e convalide sui seguenti argomenti: Capitolo 1: Storia economica del mondo Capitolo 2: Economia dell'Alberta Capitolo 3: Economia del Canada Capitolo 4: Economia dell'Ecuador Capitolo 5: Recessione Capitolo 6: Economia della Corea del Sud Capitolo 7: Economia della Svizzera Capitolo 8: Economia del Regno Unito Capitolo 9: Economia degli Stati Uniti Capitolo 10 : Economia dell'Australia Capitolo 11: Ciclo economico Capitolo 12: Economia dell'Africa Capitolo 13: Storia economica dell'India Capitolo 14: Economia del Medio Oriente Capitolo 15: Economia dell'India sotto il Raj britannico Capitolo 16: Economia dell'Asia orientale Capitolo 17: Globale recessione Capitolo 18: Storia economica della Federazione Russa Capitolo 19: Crisi energetica degli anni '70 Capitolo 20: Storia economica dell'Italia Capitolo 21: Storia economica del Ghana (II) Rispondere alle principali domande del pubblico sulla storia economica mondiale. Che cos'è lo sviluppo sostenibile?

Black Out è un diario di viaggio in un mondo ossessionato dallo spettro della "grande penuria" di oro nero. È una testimonianza diretta di ciò che è stato detto e fatto per una rivoluzione verde prossima ventura. È un documento sulle reazioni alle proposte a volte improbabili, spesso irrealizzabili per un'alternativa eco-friendly al petrolio. È un illuminante saggio in cui Serge Enderlin ha analizzato le interconnessioni tra risorse energetiche, sviluppo (o inviluppo) economico e strategie politiche intervistando i produttori d'energia in tutti i settori, politici, studiosi e ambientalisti, raccogliendo i dati più recenti sulla querelle energetica ed esponendoli in un linguaggio chiaro e ironico, né apocalittico, né ideologico. Soprattutto, ha smontato impietosamente i falsi miti e i miraggi che perennemente risorgono sull'argomento, da quella dell'etanolo ricavato dal mais, alla scoperta d'impraticabili giacimenti d'oro nero al Polo Nord fino all'ultima moda, anche italiana: la riscoperta del nucleare. Senza tacere gli spropositati progetti di ricerca di energia alternativa che vedono tra i principali paesi impegnati niente meno che gli Emirati Arabi. Un testo essenziale per scoprire come stanno davvero le cose sulla terra.

La pubblicità serve solo per vendere? O diventa anche uno strumento politico inserito in un ampio piano strategico di comunicazione? Una politica comunicativa allettante e incisiva, come quella dell'Ente nazionale idrocarburi guidato da Enrico Mattei, quanto può incidere sulla società e quanto ne riflette di essa? Quanto può influenzare l'immaginario collettivo degli italiani? Sono solo alcune delle domande a cui prova a dare risposta il volume. E lo fa attraverso l'analisi della strategia politica della comunicazione

attuata dall'azienda dal miracolo economico agli anni Settanta. Le interviste alla Rai del presidente Enrico Mattei, i cortometraggi pubblicitari per la rubrica televisiva Carosello e le prime due riviste aziendali sono alcuni degli strumenti di comunicazione che, in sinergia tra loro, rispondono al bisogno di presentare al pubblico l'immagine di un'azienda moderna e di successo. Il volume documenta lo stretto legame che le attività dell'azienda hanno avuto con la società italiana, non solo perché l'Eni è stato uno dei pilastri del boom economico, ma anche per la capacità della politica comunicativa aziendale di riflettere l'immaginario di un'epoca e di essere in sintonia con l'evoluzione sociale del Paese.

La festa è finita. La scomparsa del petrolio, le nuove guerre, il futuro dell'energia

Nell'aprile del 1621 a Selamon, un villaggio nell'arcipelago delle Banda, una spruzzata di minuscole isole perse tra l'Oceano Indiano e il Pacifico, un banale incidente – una lampada schiantatasi al suolo nella bale-bale, la sala riunioni requisita per sé e per i suoi da Martijn Sonck, funzionario olandese della Compagnia delle Indie orientali – innescò uno dei crimini più efferati che la storia del colonialismo ricordi. Sonck aveva ricevuto l'ordine di distruggere il villaggio ed eliminare i suoi abitanti. Aveva, però, i nervi a fior di pelle poiché aveva percepito nell'apparente acquiescenza dei nativi un rabbioso fermento. Quando la lampada cadde, il suo nervosismo si mutò in panico. Lui e i suoi consiglieri afferrarono le armi e cominciarono a sparare a casaccio. I bandanesi, abitanti dell'unico luogo del pianeta dove cresce l'albero della noce moscata, una delle spezie di cui le grandi potenze coloniali si contendevano il monopolio commerciale, furono massacrati, annientati senza pietà. Nelle pagine di Amitav Ghosh, questa feroce storia di conquista e sfruttamento – dell'uomo sull'uomo e dell'uomo sulla natura – assurge a parabola della furia devastatrice del colonialismo occidentale e delle sue irreversibili conseguenze fino ai giorni nostri. Come in tante situazioni analoghe, il genocidio dei bandanesi cancellò dalla faccia della terra anche la loro tradizione di armonioso connubio con la natura. Se oggi il nostro futuro come specie è in pericolo, avverte Ghosh, le cause vanno ricercate a partire dalla scoperta del Nuovo Mondo e dall'apertura delle rotte attraverso l'Oceano Indiano. L'odierna crisi climatica, demografica e sociale non è, infatti, estranea all'ordine geopolitico inaugurato dai colonizzatori del Primo mondo, alla visione meccanicistica delle terre di conquista in cui la natura esiste solo in quanto risorsa da sfruttare e non come entità viva, autonoma e densa di significato; all'assoggettamento indiscriminato di «umani selvaggi» e di «non umani» come alberi, animali, paesaggi. Nella potente narrazione di Ghosh, i drammi del nostro presente globalizzato – migrazioni, siccità, pandemia, guerre, emergenza energetica – si ricongiungono così a episodi soltanto temporalmente remoti, in realtà così affini nella loro furia devastatrice che la maledizione della noce moscata non è affatto lontana da noi. «Raccontando la storia di un popolo massacrato per colpa di un albero, Ghosh porta avanti una potente battaglia personale, in cui il suo talento narrativo gioca un ruolo essenziale». The Guardian «Illuminante». The New Yorker

Politiche di popolazione e migrazioni

«In modo agile e colloquiale Sylos racconta il suo percorso formativo, espone le sue convinzioni sulla società italiana, spiega le sue convincenti idee sul funzionamento del sistema economico e sul metodo di indagine degli economisti, narra la sua partecipazione al dibattito e alla vita politica del Paese dalla seconda metà degli anni Cinquanta fino a oggi. Con spirito combattivo, coraggio e linearità rari. Specialmente nel nostro Paese». Luca Paolazzi, Il Sole 24 ore Una testimonianza biografica che vale come un atto di accusa. Alla sbarra sono i ritardi della cultura italiana e l'orgoglio degli economisti. Ma anche un 'breviario civile' che consente di comprendere le ragioni della crisi italiana e che indica nell'etica la via d'uscita per un paese ancora a 'civiltà limitata'.

L'economia buona

Ordinare al ristorante, arredare la casa, cambiare banca, programmare una vacanza, scegliere un cosmetico. Un libro che racconta la sostenibilità e il suo contrario, vale a dire quei tanti, quotidiani, grandi o piccoli gesti che compiamo per "sabotare" il nostro pianeta. Un libro che con un linguaggio semplice, e con l'ironia che contraddistingue l'autrice, raccoglie studi, esperienze e offre consigli pratici, ma anche prospettive a lungo termine che possono davvero fare la differenza per migliorare la qualità della vita, nostra e delle generazioni future. Finalmente, con consapevolezza. Nelle parole dell'autrice «un libretto di istruzioni per costruire un futuro migliore». O forse l'unico futuro possibile.

World Factbook 2018 In italiano

Sapienza manifatturiera e competenza hi tech. Sta qui «la morale del tornio»: la centralità dell'industria nel nuovo equilibrio tra sviluppo sostenibile ed etica del lavoro. È un viaggio nell'universo produttivo italiano, con occhio attento soprattutto alla «grande Milano» e alle aree più sviluppate del Nord. E le parole chiave sono innovazione, qualità, ricerca, capitale umano. L'Italia, infatti, è un paese abituato «a produrre all'ombra dei campanili cose belle che piacciono al mondo». E sta ancora qui la chiave della nostra competitività: puntare sull'eccellenza industriale, legare radici nel territorio a visioni internazionali. Nelle «neofabbriche» fondate su produzione e servizi d'avanguardia, dalla meccanica alla chimica, dalla gomma all'agro-alimentare ecc, si conferma la forza d'una «cultura politecnica» che guida le migliori imprese. «Impresa è cultura», appunto. Per crescere ancora, servono imprenditori, manager e tecnici che siano «ingegneri-filosofi», con una forte intelligenza del cuore.

Sugar Mummies

Jamaica: a sensual paradise where the sun, sea and sand are free but anything more comes at a price. Welcome to the 21st century where women travel across the world in search of sex, love, and liberation but the reality is that hard cash equals hard men. Toned torsos and slick sweet talk meets orange peel beneath the coconut trees in an exchange that leaves everyone short-changed. Sugar Mummies is a funny, provocative and revealing study of the pleasures and pitfalls of female sex tourism. It was a huge success at the Royal Court Theatre in August 2006, and proceeded to tour throughout the UK.

Tanika Gupta: Political Plays

The first collection of plays by acclaimed British dramatist Tanika Gupta includes Sugar Mummies, White Boy, Sanctuary and Gladiator Games. Refusing to be pigeonholed as an 'Asian playwright', Gupta has a fresh perspective on race relations, generational divide and sexual politics. A National

Youth Theatre production, *White Boy* attempts to make sense of school-age stabbings and the nature of inner city white identity, in an increasingly complex racial landscape. In *Sugar Mummies*, the gender politics of the sex trade are inverted as wealthy white women flock to the Caribbean to take advantage of the native toy-boys. But who is exploiting who? On the eve of his release from Feltham Young Offenders Institution, Zahib Mubarek was attacked and killed by his racist cellmate. *Gladiator Games* is a verbatim drama that documents the Mubarek family's pursuit of the truth and the incompetence of the official response. In *Sanctuary* a London churchyard becomes a haven for the gardener Kabir. When a photo of an African church appears in this little Eden, a complex drama of morality and conscience unfolds.

In *Sugar Mummies*, the gender politics of the sex trade are inverted as wealthy white women flock to the Caribbean to take advantage of the native toy-boys. But who is exploiting who? On the eve of his release from Feltham Young Offenders Institution, Zahib Mubarek was attacked and killed by his racist cellmate. *Gladiator Games* is a verbatim drama that documents the Mubarek family's pursuit of the truth and the incompetence of the official response. In *Sanctuary* a London churchyard becomes a haven for the gardener Kabir. When a photo of an African church appears in this little Eden, a complex drama of morality and conscience unfolds.

Anita and Me

This poignant coming-of-age tale follows Meena, a young girl growing up in the only Punjabi family in a 1970s Black Country mining village. Meena spends her days happily getting into scrapes with the other local children until one day the impossibly cool Anita enters her life. Suddenly Meena knows exactly who she wants to be but is Anita all that she seems? Soon Meena's world is turned upside down as she is caught between two very different cultures. *Anita and Me* paints a comic, poignant, compassionate and colourful portrait of village life in the era of flares, power cuts, glam rock, decimalisation and Ted Heath. It has been adapted for the stage by the multi-award-winning Tanika Gupta.

The Methuen Drama Guide to Contemporary British Playwrights

The Methuen Drama Guide to Contemporary British Playwrights is an authoritative guide to the work of twenty-five playwrights who have risen to prominence since the 1980s. Written by an international team of scholars, it will be invaluable to anyone interested in, studying or teaching contemporary drama. Among the many playwrights whose work is examined are Sarah Daniels, Terry Johnson, Martin Crimp, Sarah Kane, Anthony Neilson, Mark Ravenhill, Simon Stephens, Debbie Tucker Green, Tanika Gupta and Richard Bean. Each essay features: A biographical sketch and introduction to the playwright A discussion of their most important plays An analysis of their stylistic and thematic traits, the critical reception and their place in the discourses of British theatre A bibliography of texts and critical material

White Boy

Good for youth theatre. "Dynamo of a play-an exuberant tragedy."--Kate Kellaway, *The Observer*

Modern British Playwriting: 2000-2009

Essential for students of theatre studies, Methuen Drama's *Decades of Modern British Playwriting* series provides a comprehensive survey and study of the theatre produced in each decade from the 1950s to 2009 in six volumes. Each volume features a critical analysis and reevaluation of the work of four/five key playwrights from that decade authored by a team of experts, together with an extensive commentary on the period. Edited by Dan Rebellato, *Modern British Playwriting: 2000-2009* provides an authoritative and stimulating reassessment of the theatre of the decade, together with a detailed study of the work of David Greig (Nadine Holdsworth), Simon Stephens (Jacqueline Bolton), Tim Crouch (Dan Rebellato), Roy Williams (Michael Pearce) and Debbie Tucker Green (Lynette Goddard).

The volume sets the context by providing a chronological survey of the decade, one marked by the War on Terror, the excesses of economic globalization and the digital revolution. In surveying the theatrical activity and climate, Andrew Haydon explores the response to the political events, the rise of verbatim theatre, the increasing experimentation and the effect of both the Boyden Report and changes in the Arts Council's priorities. Five scholars provide detailed examinations of the playwrights' work during the decade, combining an analysis of their plays with a study of other material such as early play drafts and the critical receptions of the time. Interviews with each playwright further illuminate this stimulating final volume in the Decades of Modern British Playwriting series.

Contemporary British Theatre

This edited collection brings together a team of internationally prominent academics and delivers cutting-edge discourse on the strongly emerging tradition of experimentation in contemporary British theatre - redefining what the dramatic stands for today. Each chapter of the collection focuses on influential contemporary plays and playwrights.

A Short History of Tractors in Ukrainian

Nikolai, an 86 year old retired Ukrainian engineer and tractor historian in Peterborough, has fallen in love with 36 year old Valentina. His daughters, Vera and Nadezhda, who have not spoken to one another since their mother's death, unite in horror to defend their father and what remains of his pension. But is Valentina a refugee searching for better opportunities, or a bogus visa seeker trying to cheat a vulnerable old man? Growing closer to her sister, and unearthing some family history from which she has previously been shielded, Nadezhda finally understands the animosity between Vera and her father. Award-winning writer Tanika Gupta has created a wonderful re-telling of this dark family comedy, adapted from the bestselling novel by Marina Lewycka for the stage. It explores the hopes and hardships of immigrants, and how past experiences can shape families and relationships.

Finance, Terror, and Science on Stage

This collection of essays examines the contribution of British plays to key social, political, and intellectual debates since 2000. It explores some of the most pressing concerns that have dominated the public discourse in Britain in the last decade, focusing on their representation in dramatic texts. Each essay provides an in-depth analysis of one play, assessing its particular contribution to the debate in question. The book aims to show how contemporary drama has developed unique ways to present the complexities and ambiguities of certain issues with aesthetic as well as emotional appeal.

Love 'N Stuff

Tanika Gupta returns with a hilarious and touching story of love, attachment and what we mean by home. Bindi and Mansoor might just be the most popular couple on their street, but after 45 years of a loving marriage, Mansoor has vowed to swap the cold streets of Stratford for a sun soaked Delhi. The problem? Bindi's not convinced and has concocted a last minute plan to lure him back.

Great Expectations

Pip, a poor village boy, finds two chance meetings set his life on an unexpected course. At the water's edge, he has a terrifying encounter with an escaped convict. In the decaying grandeur of Miss Haversham's house, he falls hopelessly in love with the heartless Estella. When an anonymous benefactor helps him move to Calcutta, the heart of the British Raj, Pip pursues his great expectations and his dream of winning Estella's heart. Relocating Pip's extraordinary journey to nineteenth-century India, this coming-of-age story, evoking some of Dickens' most colourful characters, is faithful to the period of the book and the richness of Dickens' language – a vivid theatrical retelling of a universally loved masterpiece.

Meet the Mukherjees

Contemporary Black British Playwrights

Ibsen's best-known play displays his genius for realistic prose drama. An expression of women's rights, the play climaxes when the central character, Nora, rejects a smothering marriage and life in "a doll's house."

A Doll's House

Taking the reader from Glasgow to Lagos and beyond, *Red Dust Road* is a heart-stopping memoir, a story of parents and siblings, friends and strangers, belonging and beliefs, biology and destiny. With an introduction by the First Minister of Scotland, Nicola Sturgeon. From the moment when, as a little girl, she realizes that her skin is a different colour from that of her beloved mum and dad, to the tracing and finding of her birth parents, her Highland mother and Nigerian father, Jackie Kay's journey in *Red Dust Road* is one of unexpected twists, turns and deep emotions. In a book remarkable for its warmth and candour, she discovers that inheritance is about much more than genes: that we are shaped by songs as much as by cells, and that what triumphs, ultimately, is love. 'Like the best memoirs, this one is written with novelistic and poetic flair. *Red Dust Road* is a fantastic, probing and heart-warming read' – Independent

Red Dust Road

On the eve of his release from Feltham Young Offenders Institution, Zahid Mubarek, a young British Asian man, was attacked by his racist cellmate. One week later he died of his injuries. How was this allowed to happen? This new play traces the Mubarek family's pursuit of the truth. Based on evidence given to the Zahid Mubarek Inquiry and interviews taken, one of Britain's leading writers examines the incompetence of the official response to Zahid Mubarek's death.

Anything But Sweet

Hyperion: A Romance (1839) is a novel by Henry Wadsworth Longfellow. Although he is known predominately as one of the leading American poets of the nineteenth century, Longfellow began his career writing moderately successful travelogues, stories, and novels. Inspired by his travels throughout Europe, as well as by the death of his first wife, Longfellow published Hyperion: A Romance to lukewarm critical response. Although less significant than his lyric and epic poetry, Hyperion captures an artist

coming into his own within a Romantic tradition flooded with major and minor figures across the globe. Modeled partly on Goethe's Wilhelm Meister's Lehrjahre (1796), *Hyperion: A Romance* is the story of Paul Flemming, a young academic who travels to Germany following the loss of a close friend. Taking in the sights, sounds, folk tales, and music of the countryside, towns, and villages he visits, Flemming muses on the position of humanity in the world and the meaning of art in relation to nature. Filled with such lofty thoughts, he is entirely unprepared to meet and fall in love with a German woman. At a moment of growth and on the brink of reconciling with his trauma, Flemming attempts to offer himself to another only to find that life has a strange way of reflecting the mind of the artist. *Hyperion: A Romance* is a fascinating blend of travel narrative, philosophy, and bildungsroman from a writer with a poet's sense of the world. With a beautifully designed cover and professionally typeset manuscript, this edition of Henry Wadsworth Longfellow's *Hyperion: A Romance* is a classic of American literature reimagined for modern readers.

The Philosophy of Mystery

A cult modern classic, *Tropic of Capricorn* is as daring, frank and influential as Henry Miller first novel, *Tropic of Cancer*. A story of sexual and spiritual awakening, *Tropic of Capricorn* shocked readers when it was published in 1939. A mixture of fiction and autobiography, it is the story of Henry V. Miller who works for the Cosmodemonic telegraph company in New York in the 1920s and tries to write the most important work of literature that was ever published. *Tropic of Capricorn* paints a dazzling picture of the life of the writer and of New York City between the wars: the skyscrapers and the sewers, the lust and the dejection, the smells and the sounds of a city that is perpetually in motion, threatening to swallow everyone and everything. 'Literature begins and ends with the meaning of what Miller has done' Lawrence Durrell 'The only imaginative prose-writer of the slightest value who has appeared among the English-speaking races for some years past' George Orwell 'The greatest American writer' Bob Dylan Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include *Tropic of Cancer* (1934), *Tropic of Capricorn* (1939), and the Rosy Crucifixion trilogy (*Sexus*, 1949, *Plexus*, 1953, and *Nexus*, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.
