Intro

An education system's three responsibilities are "personal, cultural and economic."

Nurturing a Culture of Creativity

Obsolete education and training systems no longer nurture and develop the talents and abilities necessary to succeed in today's reality.

The Acceleration of Change

The world population explosion is also driving change.

Those skills begin with education.

Employers complain they have problems finding creative thinkers who can communicate and collaborate.

Instead of prioritizing talent and providing professional development, companies emphasize recruitment, a short-term strategy.

The invention of the IQ measurement in the early 1900s influenced the structure of school systems throughout the world.

Creativity has many different starting points.

It demands testing, refining and developing your work.

Holistic Education

Education systems that rest on rationalism focus on teaching objective knowledge and using deductive reasoning.

"Personal" - Embrace these concepts to nurture the creativity of everyone in your company

"Innovation is the child of imagination" - Allow team members to take risks and explore their unique abilities.

"Group" - Build creative teams on these principles

"Cultural" - Support a corporate culture that breeds innovation based on these ideas

Sir Ken Robinson, PhD, is an internationally recognized expert on creativity, innovation and human resources.

The Element

Do Not Enjoy What They Do for a Living

Plague of Adhd

Aesthetic Pleasure

Terence Tao

Make Sure Standards Are Set and We all Keep to Them and that People Have Real Incentives To
Make Sure There's a Proper Return on Investment All the Language Is Language You Would Apply
to Manufacturing Things the Difficulty Is this that Human Beings Are Not Things Motor Cars Have
no Interest in How They'Re Made and Human Beings Do Human Beings Are Full of Feelings and
Intuitions and Values and Relationships and Ideas and Aspirations and Imagination and You CanNot
Educate People if You Don't Engage with Them as People if We Overlook the Personal Character of
Education

You Know if We if We Move Things around You Never Know because Life Is Not Linear It's Organic
What Happens When You Invest in Your Own Interests and Talents Is Your Life Changes Other People

Come into Your Life You Have Different Experiences You Engage with Yourself Differently and Your Relationships with Other People Change Their Lives Too and They Change the Course of What You Do It's a Synergistic Process of Being and What We've between Don Our Children Is an Inert System of Linear Planning Which Has Its Roots in the Imperatives of Manufacturing Not in the Principles and Ethics of the Organic Process of Being Alive in the World Now the Old System Is Based on a Meeting Point of an Economic Imperative and a Model of Intelligence We Have a Different Set of Economic Circumstances Now a Different Set of Cultural Imperatives

The Old System Is Based on a Meeting Point of an Economic Imperative and a Model of Intelligence We Have a Different Set of Economic Circumstances Now a Different Set of Cultural Imperatives and the Only Way We'll Meet Them Is by Investing Properly in the Things That Make Us Distinctively Human the Powers of Imagination and Creativity and Finding those Talents and Abilities in Ourselves That Make Us Who We Are and this Isn't some Loose Liberal Idea the Only Way We'll Cope with the Future Is My Recognize that We Are a Part of Shaping It and To Make It Work We Have To Have All Our Wits about Us and To Celebrate

And the Only Way We'll Meet Them Is by Investing Properly in the Things That Make Us Distinctively Human the Powers of Imagination and Creativity and Finding those Talents and Abilities in Ourselves That Make Us Who We Are and this Isn't some Loose Liberal Idea the Only Way We'll Cope with the Future Is My Recognize that We Are a Part of Shaping It and To Make It Work We Have To Have All Our Wits about Us and To Celebrate the Real Principle of Ecology Which Is Diversity and the Dynamism of Different Ways of Thinking Coming Together and Creating Something Fresh Anew The Only Way We'll Cope with the Future Is My Recognize that We Are a Part of Shaping It and To Make It Work We Have To Have All Our Wits about Us and To Celebrate the Real Principle of Ecology Which Is Diversity and the Dynamism of Different Ways of Thinking Coming Together and Creating Something Fresh Anew Now this Is Not a Romantic Idea this Can Be Done in Fact It's the Only Way It Ever Works I Know Great Scores All across this Country and every One of Them Is Based on Customizing the Curriculum to those Kids It's Based on Encouraging the Creative Capabilities of the Teachers in the System

This Is Not a Romantic Idea this Can Be Done in Fact It's the Only Way It Ever Works I Know Great Scores All across this Country and every One of Them Is Based on Customizing the Curriculum to those Kids It's Based on Encouraging the Creative Capabilities of the Teachers in the System It's Based on the Engagement with the Community and It's Based on a Recognition the Curriculum Itself Has To Be Broad Enough To Encompass the Broad Range of Abilities That the Children Bringing with Them Naturally to School It's Not a Way of Avoiding this Use the Only Way To Engage with the Issue and I Believe by the Way We Could Make this Transformation Begin Tomorrow

It's Not a Way of Avoiding this Use the Only Way To Engage with the Issue and I Believe by the Way We Could Make this Transformation Begin Tomorrow It Often I Think People Believe We Have To Wait for the Government To Do Something this Government any Government and that We Look for a Single Model That We Can Apply across the Whole System That's Not How Nature Worked Is Not How Ecology Works All the Great Schools I Know Are Great because They Meet Standards but every One of Them Is Different and They're Different because They Are Rooted in Local Circumstances They're Running through the Way the Culture Is Forming Itself Anyway I Think What a Great Organization like the Can Do a Great Meeting Point at People like this Is Can Do Is Promulgate a Different Type of Conversation and if We Can Do that I Believe that We'll Find There Will Be a New Harvest of Human Achievement That We Would Find It Hard To Anticipate but on Which We Will Depend Thank You So Much for the Introduction So I Think We've Got a Couple of Minutes if You're on for It if You've Got Time for some Questions Where Are the Microphones

That's How 2 / 3 the Blue Man Group Met and They Were Doing Street Theater and They Had this Idea To Paint Themselves Blue They Can't Remember Why Blue or Who Had the Idea They Said It's Very Interesting that You Would Never Have Seen that As Much of a Business Proposition Yeah That Will Go Bold and Blue You Know and Take the World by Storm but They've Actually Now Built a Global Brand There Are Blue Men Shows and I Think 12 Cities and a Whole Range of Creative Industries That Have Come Off the Back of the Blue Man Group but They're all Married Now to Three Great Girls and They Have Got Children They all Work Together Now all Six of Them

No Matter How Ugly It Is or How Unlikely It May Seem You Got To Try To Follow Your Creative Instincts and Not Worry about What It Looks like or How Much Money It's Worth One Thing That Drew Us Together Initially Even before There Was Blue Man Is that that We Were in Our Own Ways Disappointed with Our Educational Experience and that's One Reason Why We Wanted To Start a School We Wanted To Create the Kind of School That We Would Have Loved To Have Gone to We Wanted To Make a School That either We Wished We Had Gone to or that We Fantasized

We Knew We Wanted To Create a School that a Big Part of It Was Actually Teaching Kids How They Think Teaching Them a Level of Self-Awareness That We Thought Was Missing from Our Educational Experience I Think Involves Having the Entire Brain Just Really Alive and Exhilarate and Tingling with Life Force and that Means To Be Part of Our Educational Model I Mean that Seems like a Crazy Revolutionary Idea but It Really Actually Seems to Us that It Makes Sense Makes Actual Academic You Know It Seems like When We'Re all Kids at One Time like Everybody Paints but Somehow We Throw Away that Kind of Inspiration

The Thing Is of Course a Lot of the Jobs Our Kids Will Be Doing Haven't Been Invented Yet Nobody's Thought of Them yet You Know but They Will if We Allow Them To Do It and I Came across a Great Quote It's Just from Thinking What You'Re Just Saying There-Ready I Thought I'D Leave You One Was from Henry David Thoreau Who Said that We Should all Aim To Dwell As Near as Possible to the Channel in Which Your Life Flows and a Lot of this Is Finding Other People Who Are Taking the Same Journey Connecting with People Who Feel as You Do
