## The Better Mom

Mothering is messy. Our joy and hope in raising children doesn't change the reality that being a mom can be frustrating, stressful, and tiring. But just as God is using us to shape our children, God is using our children and motherhood to shape us. In *The Better Mom*, author Ruth Schwenk, herself a mother of four children, encourages us with the good news that there is more to being a mom than the extremes of striving for perfection or simply embracing the mess. We don't need to settle for surviving our kids' childhood. We can grow through it. With refreshing and heartfelt honesty Ruth emboldens moms to: Find freedom and walk confidently in purpose Create a God-honoring home environment Overcome unhealthy and destructive emotions such as anger, anxiety, and more Avoid glorifying the mess of mom-ing or idolizing perfection Cultivate life-giving friendships At the heart of *The Better Mom* is the

message that Jesus calls us to live not a weary life, but a worthy life. We don't have to settle for either being apathetic or struggling to be perfect. Both visions of motherhood go too far. Ruth offers a better option. She says, "It's okay to come as we are, but what we're called to do and be is far too important to stay there! The way to becoming a better mom starts not with what we are doing, but with who God is inviting us to become."

### The Legend of the Candy Cane (Ats) (Pack of 25)

Long ago there were two villages in a distant land. One was in a valley, and one was on a mountaintop. The people in the mountain village wanted to give each person in the valley a Christmas gift. So the mountain townspeople formed a committee to think of something special. Money was limited, and each gift had to be of equal value to each person. After much time and discussion a decision was finally reached. The town's candy maker, an elderly gentleman who had loved Jesus for many years, came up with an idea--the candy cane. Now, you may be thinking, what is so special about a candy cane--and how can it ever be tied in with the real meaning of Christmas? Continue reading to find out how and why!

- 1 The candy cane is in the shape of a shepherd's staff. Jesus is our Shepherd, and we are his flock. A sheep follows his own shepherd, knows his voice, trusts him, and knows that he is totally safe with him. The sheep will follow no other shepherd than their own. In the same way, if we belong to Jesus, we are to follow only him. (John 10:11; Psalm 23:1; Isaiah 40:11)
- 2 The candy cane has a "J" shape--the first letter of Jesus's name. In the Bible, an angel came to Mary, the mother of Jesus, and said, "Do not be afraid, Mary, for you have found favor with God. And behold, you will conceive in your womb and bear a son, and you shall call his name Jesus" (Luke 1:30-31).
- 3 The wide red stripes on the candy cane represent the blood Jesus shed on the cross for each one of us so that we can have eternal life through him. He restores us and cleans us with his shed blood--the only thing that can wash away our sin (Ephesians 2:13).
- 4 The white stripes on the candy cane represent Jesus's virgin birth and his pure, sinless life. He is the only human being who never committed a single sin, even though he was tempted just as we are. "He committed no sin, neither was deceit found in his mouth" (1 Peter 2:22).
- 5 The narrow red stripes on candy canes symbolize Jesus's stripes, or scars, which he got when he was arrested and whipped. The Bible says we are healed (of sin) because he took those wounds (Isaiah 53:5; 1 Peter 2:24).
- 6 The flavoring in the candy cane is peppermint, which is similar to hyssop. Hyssop is of the mint family and was used in Old Testament times for purification and sacrifice (John 19:29; Psalm 51:7).
- 7 Candy canes are made of hard candy to remind us that Christ is the "rock" of our salvation. "He [Christ] alone is my rock and my salvation, my fortress; I shall not be greatly shaken" (Psalm 62:2).
- 8 AND, if we share our candy cane with someone else because we love that person, we are sharing the love of Jesus (1 John 4:7-8). God gave himself to us when he sent Jesus to earth to save us. He loves us so much that he wants us to spend eternity with him. We are assured of that eternity when we trust and believe in Jesus as our Savior (John 1:12; John 3:3,16). Some people believe this story of the candy cane is only a legend. Others believe it really happened this way. Though there is uncertainty over how the candy cane was invented, it is an excellent picture of Christ and his love for you. If you'd like to receive Jesus as your Savior--here are some next steps: **REPENT** and ask God to forgive you. Trusting that Jesus came to save you from sin should cause genuine humility and remorse for the things you've done wrong. **BELIEVE** that God showed his love for you by sending his only Son Jesus to take away your sins. **PRAY** Dear Jesus, I know that I am a sinner and need your forgiveness. I believe that you died in my place and rose from the grave to pay the penalty for my sin. Come into my life as my Savior and cause me to love you and others in a way that pleases you. Thank you for saving me so that I can receive peace and eternal salvation in the new heavens and new earth. **ATTEND** a Bible-teaching church where you can worship God and meet other Christians. **SHARE** your faith. You've just received the wonderful gift of salvation--tell someone!

## The Legend of the Candy Cane

The candy cane is a wonderful Christmas treat that Santa, and his elves, created many years ago in his North Pole kitchen. It was winter-white and delicious. But, after years of plain white, Santa was ready for a new look. Santa's art contest would determine the design that would be placed on the canes. Everyone in the North Pole village wanted to enter. Whose design would win? The candy cane, for many years, was white like winter snow. But, one year dear old Santa said, "Plain white has got to go!" So, open up and start to read and by the end you'll see why stripes are put on candy canes and how it came to be! PLEASE take time to review the illustration previews. A video may be available for this purpose. The art is done in a similar fashion to: Reindolphins: A Christmas Tale. It incorporates digitally altered/modified photos. Over 1,000 pictures were taken of our elves by artist Lisa Santa Cruz. Again, before purchase, please make sure that it is a style and technique that you will enjoy and appreciate. Thank you! - Missing Piece Press, LLC

## How the Candy Cane Got Its Stripes

The work "The Allegory of the Cave," also known as the Cave Allegory or Cave Parable, is an extremely intelligent allegory with a philosophical and pedagogical intent, written by the Greek philosopher Plato. It is found in the work "The Republic" and aims to exemplify how human beings can free themselves from the condition of darkness that imprisons them through the light of truth. It is a timeless text whose message fits perfectly into contemporary times when sectarian ideologies still permeate many societies. Furthermore, reading "The Allegory of the Cave" allows for a beneficial reflection by rescuing and presenting important philosophical values to readers.

## The Legend of the Candy Cane

In Mexico, the poinsettia is called flor de la Nochebuena flower of the Holy Night. At Christmastime, the flower blooms and flourishes, the quite exquisite red stars lighting up the countryside. Beloved Newbery honor-winning author and Caldecott honor-winning illustrator Tomie dePaola has embraced the legend using his own special feeling for Christmas. His glorious paintings capture not only the brilliant colors of Mexico and its art, but also the excitement of the children preparing for Christmas and the hope of Lucida, who comes to see what makes a gift truly beautiful.

## The Candy Cane Rain

Christmas from Heaven is the story of the humble beginnings of what became a beacon of hope to a war-torn land, the story of Gail Halvorsen, a young pilot in the US Army Air Corps who was assigned as a cargo pilot to the Berlin Airlift, in which US forces flew much-needed supplies into a Soviet-blockaded Berlin. As he performed his duties, Lt. Halvorsen began to notice the German children gathered by the fences of Tempelhof Air Base. Knowing that they had very little, he one day offered them some chewing gum. From that small act, an idea sprang: He would "bomb" Berlin with candy. Fashioning small parachutes, he and his crew sent them floating down as they approached the Berlin airport, wiggling the wings of their C-54 as a signal to the children that their anticipated cargo would soon arrive. Lt. Halvorsen became known by hundreds, if not thousands, of children in Berlin as "Uncle Wiggly Wings"

or "The Candy Bomber." Word soon spread, and donations of candy and other supplies poured in from sympathetic Americans. Lt. Halvorsen's small idea became a great symbol of hope not only to German children in a bombed-out city but to all those who yearned for freedom.

### Honest Creativity

An essential guide for not only fostering genuine personal expression, but also the courage to share our most meaningful work with others—all without pretense or artifice. Author, filmmaker, educator, cultural commentator, and Variety Mentor of the Year recipient Craig Detweiler has taught thousands how to launch creative projects with intention, awareness, and confidence. As a result, his students have founded festivals, started companies and schools, written acclaimed graphic novels, and directed movies for Marvel. Now, at a time when generative AI can aggregate text and images in seconds, Detweiler shows why "honest creativity" is one of the core tenets that separates humans from machines. Readers will learn, not only how to prioritize ideas, but also how to develop their own method for producing cohesive, whole, and enduring works; escaping comfort zones; and cultivating a like-minded community that both motivates and challenges. This groundbreaking approach promises to help creators turn problems into possibilities by first honing their ability to innovate and then preparing them to handle the feedback—both positive and negative—that is inevitable when private work is displayed in the public sphere. For Detweiler, creating honestly is a way of honoring the gift of life, and his transcendent guide shows us how we can excel in an act that is, fundamentally, both uniquely human and magnificently divine.

### Crunch!

The potato chip has been one of America's favorite snacks since its accidental origin in a nineteenth-century kitchen. *Crunch! A History of the Great American Potato Chip* tells the story of this crispy, salty treat, from the early sales of locally made chips at corner groceries, county fairs, and cafes to the mass marketing and corporate consolidation of the modern snack food industry. *Crunch!* also uncovers a dark side of potato chip history, including a federal investigation of the snack food industry in the 1990s following widespread allegations of antitrust activity, illegal buyouts, and predatory pricing. In the wake of these "Great Potato Chip Wars," corporate snack divisions closed and dozens of family-owned companies went bankrupt. Yet, despite consolidation, many small chippers persist into the twenty-first century, as mom-and-pop companies and upstart "boutique" businesses serve both new consumers and markets with strong regional loyalties. Illustrated with images of early snack food paraphernalia and clever packaging from the glory days of American advertising art, *Crunch!* is an informative tour of large and small business in America and the vicissitudes of popular tastes.

### Para-Sites

*Para-Sites*, the penultimate volume in the Late Editions series, explores how social actors located within centers of power and privilege develop and express a critical consciousness of their own situations. Departing from the usual focus of ethnography and cultural analysis on the socially marginalized, these pieces probe subjects who are undeniably complicit with powerful institutional engines of contemporary change. In each case, the possibility of alternative thinking or practices is in complex relation to the subject's source of empowerment. These cases challenge the condition of cynicism that has been the favored mode of characterizing the mind-set of intellectuals and professionals, comfortable in their lives of middle-class consumption and work. In their effort to establish para-sites of critical awareness parallel to the levels of political and economic power at which they function, these subjects suggest that those who lead ordinary lives of modest power and privilege might not be parasites in relation to the systems they serve, but may be creating unique and independent critical perspectives.

"If you enjoy these too-good-to-be-true tales, Brunvand's new book will give you hours of pleasure."—Chicago Tribune A fabulously entertaining book from the ultimate authority on those almost believable tales that always happen to a "friend of a friend." Alligators in the sewers? A pet in the microwave? A tragic misunderstanding of the function of cruise control? No, it didn't really happen to your friend's sister's neighbor: it's an urban legend. And no matter how savvy you think you are, you are sure to find in this collection of over 200 tales at least one story you would have sworn was

true. Jan Harold Brunvand has been collecting and studying this modern folklore for over twenty years. In *Too Good to Be True* he captures the best stories in their best retellings, along with their latest variations and examples of how the stories have changed as they move from person to person and place to place. To help you find your favorite, Brunvand has arranged the tales thematically. "Bringing Up Baby" is full of episodes of child-rearing gone wrong, including the grisly tale of the drugged out baby-sitter who mistakes the kid for a turkey. "Funny Business" showcases stories of infamous lapses in customer service, such as the story of the shockingly expensive chocolate chip cookie recipe. And "The Criminal Mind" features both brilliant --if they were real --scams, as well as the purported antics of the less mentally gifted. Whether you want to become an expert debunker or just have plenty of laughs, this book will surprise and entertain you. Illustrated throughout. "Informative and entertaining.... Brunvand has collected more than 200 of the most-repeated and best-known examples of modern folk-myth."—Tampa Tribune "[N]ot only an entertaining anthology, but an excellent introduction to the study of folklore itself."—Publishers Weekly "A fun read... . One of the most important and celebrated works of premodern Korean prose fiction, *Kmmo sinhwa* (*New Tales of the Golden Turtle*) is a collection of five tales of the strange artfully written in literary Chinese by Kim Sisp (1435–1493). Kim was a major intellectual and poet of the early Chosŏn dynasty (1392–1897), and this book is widely recognized as marking the beginning of classical fiction in Korea. The present volume features an extensive study of Kim and the *Kmmo sinhwa*, followed by a copiously annotated, complete English translation of the tales from the oldest extant edition. The translation captures the vivaciousness of the original, while the annotations reveal the work's complexity, unraveling the deep and diverse intertextual connections between the *Kmmo sinhwa* and preceding works of Chinese and Korean literature and philosophy. The *Kmmo sinhwa* can thus be read and appreciated as a hybrid work that is both distinctly Korean and Sino-centric East Asian. A translator's introduction discusses this hybridity in detail, as well as the unusual life and tumultuous times of Kim Sisp; the *Kmmo sinhwa*'s creation and its translation and transformation in early modern Japan and twentieth-century (especially North) Korea and beyond; and its characteristics as a work of dissent. *Tales of the Strange* by a Korean Confucian Monk will be welcomed by Korean and East Asian studies scholars and students, yet the body of the work—stories of strange affairs, fantastic realms, seductive ghosts, and majestic but eerie beings from the netherworld—will be enjoyed by academics and non-specialist readers alike.

According to Moore's Law, not only does the number of transistors in an integrated circuit double every two years, but transistor size also decreases at a predictable rate. At the rate we are going, the downsizing of CMOS transistors will reach the deca-nanometer scale by 2020. Accordingly, the gate dielectric thickness will be shrunk to less than half-nanometer oxide equivalent thickness (EOT) to maintain proper operation of the transistors, leaving high-k materials as the only viable solution for such small-scale EOT. This comprehensive, up-to-date text covering the physics, materials, devices, and fabrication processes for high-k gate dielectric materials, *Nano-CMOS Gate Dielectric Engineering* systematically describes how the fundamental electronic structures and other material properties of the transition metals and rare earth metals affect the electrical properties of the dielectric films, the dielectric/silicon and the dielectric/metal gate interfaces, and the resulting device properties. Specific topics include the problems and solutions encountered with high-k material thermal stability, defect density, and poor initial interface with silicon substrate. The text also addresses the essence of thin film deposition, etching, and process integration of high-k materials in an actual CMOS process. Fascinating in both content and approach, *Nano-CMOS Gate Dielectric Engineering* explains all of the necessary physics in a highly readable manner and supplements this with numerous intuitive illustrations and tables. Covering almost every aspect of high-k gate dielectric engineering for nano-CMOS technology, this is a perfect reference book for graduate students needing a better understanding of developing technology as well as researchers and engineers needing to get ahead in microelectronic engineering and materials science.

For courses in Digital Communications. Exceptionally accessible, this book presents the often "difficult" concepts of digital communications in an easy-to-understand manner—without diluting the mathematical precision. Using a student-friendly approach, it develops the important techniques in the context of a unified structure (in block diagram form)—providing organization and structure to a field that has, and continues, to grow rapidly, and ensuring that students gain an awareness of the "big picture" even while delving into the details (the most up-to-date modulation, coding, and signal processing techniques that have become the basic tools of our modern era). It traces signals and key processing steps from the information source through the transmitter, channel, receiver, and ultimately to the information sink. ### A Chip Off the Old Block

This volume contains the proceedings of a workshop on Analog Integrated Neural Systems held May 8, 1989, in connection with the International Symposium on Circuits and Systems. The presentations were chosen to encompass the entire range of topics currently under study in this exciting new discipline. Stringent acceptance requirements were placed on contributions: (1) each description was required to include detailed characterization of a working chip, and (2) each design was not to have been published previously. In several cases, the status of the project was not known until a few weeks before the meeting date. As a result, some of the most recent innovative work in the field was presented. Because this discipline is evolving rapidly, each project is very much a work in progress. Authors were asked to devote considerable attention to the shortcomings of their designs, as well as to the notable successes they achieved. In this way, other workers can now avoid stumbling into the same traps, and evolution can proceed more rapidly (and less painfully). The chapters in this volume are presented in the same order as the corresponding presentations at the workshop. The first two chapters are concerned with finding solutions to complex optimization problems under a predefined set of constraints. The first chapter reports what is, to the best of our knowledge, the first neural-chip design. In each case, the physics of the underlying electronic medium is used to represent a cost function in a natural way, using only nearest-neighbor connectivity.

Starcrash indicates that aliens continued to come to Earth, some intentionally and by accident, throughout our history. In order to adjust to harsh conditions they were forced to interbreed with the local aborigines. This was the only way to insure the survival of their race. Increasing credit card debt and a lack of knowledge about how credit cards really work have created a new social phenomenon called The Plastic Effect. And if you have a credit card, The Plastic Effect can affect YOU. In this new book, internationally recognized credit card expert, Polly A. Bauer, CPCS and attorney Stephen Lesavich, PhD, JD, have selected 25 of the most common urban legends influencing the use and misuse of credit cards. The authors, as business leaders and credit card experts, walk you through these urban legends about how credit cards are used and misused, explaining what is true and what is likely to cause you trouble. Chris Bell was born on the West Side of Chicago and attended Catholic elementary school on the South Side. He was an unusual and gifted star child who was beyond his mother's understanding. His gang activities kept him out of the regular sequential leap from grade to grade. He joined his first martial arts gang, GGWB (Good Guys Wear Black), just after kindergarten, because he was being bullied everyday by an older kid. He earned his high school diploma by challenging the GED at his mother's behest, after reading books on math, language arts, classics, and Aesop's Fables, which he loved the most, in local libraries day and night, well before his eighteenth birthday, and earned the title "the richest man in the world" by working and fighting in the underground. In his youth, he consolidated the dangerous Black Disciples and Vice Lord gangs of Chicago and all their subdivisions to complete his dream in building another Black Wall Street on the West Side. After he met Madi, Derek Jenkins, and the Stepfather, he moved closer to his dreams. ## The Truth Never Stands in the Way of a Good Story

This delightfully multifaceted volume, comprised of thoughtful essays by an esteemed array of cultural critics, probes the intersection of Christian faith and culture to honor the memory of A. J. "Chip" Conyers, a remarkably ecumenical Christian scholar and cultural "warrior" whose premature death in 2004 cut short a remarkable career in teaching and writing. As those who knew him can attest, Conyers lived his life at the intersection of Christian theology and cultural concern with a singular blend of astuteness, gracefulness, and Christian conviction. This festschrift, as esteemed theologian and Conyers's mentor Jurgen Moltmann indicates in the foreword, is intended to mirror Conyers's own commitment to incisive cultural criticism and theological faithfulness in the mold of the "great tradition." This is no small achievement even for so venerable a cast of scholars as the contributors to this volume, as Conyers crossed interdisciplinary boundaries--in a day of escalating hyper-specialization--with the greatest of ease. He was comfortable discussing contemporary church life or the christological controversy of the patristic era, Heideggerian hermeneutics or human dignity and the imago Dei, faith and the Enlightenment or the fatherhood of God, Catholic "substance" or Protestant reform. Yet Conyers always did this through the lens of historic Christian orthodoxy. Though he was a most incisive student of culture, in a most refreshing way he steered clear of being co-opted by the currents of culture. Neither retreating into pious devotionism nor opting for the theologically unreflective activism that has become so chic in our post-consensus climate, he embodied a theological perspective that blends responsible cultural engagement with eschatological hope. The reader is sure to encounter the same blend in this festschrift, and to come away both challenged and edified toward fulfilling the message and hope of Conyers' life and work: to faithfully thrive in Babylon.

Buck Sellers couldn't remember when he had not been a part of the fishing industry on Florida's southwest coast. He knew these waters like the back of his hand. When offered the chance to make some extra money by simply steering a shrimp boat for an inexperienced captain through the Placida Channel at night, he agreed. This proved to be a decision that would destroy his family and ruin his life. Hiding on a shell mound island outside Boca Grande, Buck began plotting his revenge. As he dug one evening during a rainstorm to even out the sand under his makeshift tent, his fingers felt a strange object--a gold cross with seven green emeralds in it. Buck had never been a religious man, but he took this as a sign from God. He tied the cross on a fishing line and hung it around his neck. For the first time in his life, Buck prayed and asked for God's help. As he sought justice for his family from the waters of south Florida to the night clubs in Miami, north to the mountains of Georgia, and back to the farmlands of Homestead, Florida, the story of the cross Buck found on that shell mound and how it protected him from all who would do him harm spread, creating The Legend of the Emerald Cross.

## Your Federal Income Tax for Individuals

Celibates consists of three stories - two of women and one of a man. Mildred Lawson and John Norton are celibates by nature. Agnes Lahens is a celibate from environment and circumstance. Each of the three is utterly different from the other, and yet all are alike in that they are the products of a modern civilization. Mildred and John are without that compulsive force which is known as the sexual passion. If they have it at all, it has been diluted by tradition and so-called culture into a mere sensation. Agnes's passion is an arrested one, so that what there is of it is easily diverted into an expression of religious aspiration.

Well done."

An excellent end to a worthwhile and well-written series that can be recommended to reluctant and skilled readers alike.” —School Library Journal
