"A wish-I'd-thought-of-it premise, beautifully executed. Highly recommended for anyone who thinks that fantasy can do more than just help you escape the real world." -Brian K. Vaughan, Y: THE LAST MAN
"Fascinating ... one of the brainiest and most interesting comics of the year."-WIRED Tom Taylor's life was screwed from the get go. His father created the Tommy Taylor fantasy series, boy-wizard novels with popularity on par with Harry Potter. The problem is Dad modeled the fictional epic so closely on Tom's real life that fans are constantly comparing him to his fictional counterpart, turning him into the lamest variety of Z-level celebrity. In the final novel, it's even implied that the fictional Tommy will cross over into the real world, giving delusional fans more excuses to harass Tom. When an enormous scandal reveals that Tom might really be a boy-wizard made flesh, Tom comes into contact with a very mysterious, very deadly group that's secretly kept tabs on him all his life. Now, to protect his own life and discover the truth behind his origins, Tom will travel the world, eventually finding himself at locations all featured on a very special map-one kept by the deadly group that charts places throughout world history where fictions have impacted and tangibly shaped reality, those stories ranging from famous literary works to folktales to pop culture. And in the process of figuring out what it all means, Tom will find himself having to figure out a huge conspiracy mystery that spans the entirety of the history of fiction. Collects issues #1-5 in this NEW YORK TIMES bestselling Vertigo series by Mike Carey (LUCIFER, X-MEN LEGACY and ULTIMATE FANTASTIC FOUR) and Peter Gross (LUCIFER).

Now an award winning motion picture! Imagine being trapped inside a Disney movie and having to learn about life mostly from animated characters dancing across a screen of color. A fantasy? A nightmare? This is the real-life story of Owen Suskind, the son of the Pulitzer Prize-winning journalist Ron Suskind and his wife, Cornelia. An autistic boy who couldn't speak for years, Owen memorized dozens of Disney movies, turned them into a language to express love and loss, kinship, brotherhood. The family was forced to become animated characters, communicating with him in Disney dialogue and song; until they all emerge, together, revealing how, in darkness, we all literally need stories to survive. This edition has been updated with additional material from the Suskind family.

The Way I Used to Be

Stanley Yelnat's family has a history of bad luck going back generations, so he is not too surprised when a miscarriage of justice sends him to Camp Green Lake Juvenile Detention Centre. Nor is he very surprised when he is told that his daily labour at the camp is to dig a hole, five foot wide by five foot deep, and report anything that he finds in that hole. The warden claims that it is character building, but this is a lie and Stanley must dig up the truth. In this wonderfully inventive, compelling novel that is both serious and funny, Louis Sachar has created a masterpiece that will leave all readers amazed and delighted by the author's narrative flair and brilliantly handled plot.

An American Book of Golden Deeds

Excerpt from An American Book of Golden Deeds Such a deed is possible to you, to me, to every body. It is frequently performed without fore thought or definite intention. It is the spontaneous manifestation of nobility, somewhere, of mind or heart. It may consist merely in the doing of some kind and helpful service at home or at school. It may be an unexpected test of heroism - a warn ing of danger, a saving of somebody's life. It may be an act of benevolence, or a series of such acts, world-wide in application and results. An American Book of Golden Deeds - Primary Source Edition

"[...] But neither Phillipps nor Garcia was the first to present an operatic version of Beaumarchais's comedy to the American people. French operas by Rousseau, Monsigny, Dalayrac, and Grétry, which may be said to have composed the staple of the opera-houses of Europe in the last decades of the eighteenth century, were known also in the contemporaneous theatres of Charleston, Baltimore, Philadelphia, and New York. In 1794 the last three of these cities enjoyed "an opera in 3 acts," the text by Colman, entitled, "The Spanish Barber; or, The Futile Precaution." Nothing is said in the announcements of this opera touching the authorship of the music, but it seems to be an inevitable conclusion that it was Paisiello's, composed for St. Petersburg about 1780. There were German "Barbers" in existence at the time composed by Benda (Friedrich Ludwig), Elsperger, and Schulz, but they did not enjoy large popularity in their own country, and Isouard's "Barbier" was not yet written. Paisiello's opera, on the contrary, was extremely popular, throughout Europe. True, he called it "The Barber of Seville," not "The Spanish Barber," but Colman's subtitle, "The Futile Precaution," came from the original French title. Rossini also adopted it and purposely avoided the chief title set by Beaumarchais and used by Paisiello; but he was not long permitted to have his way. Thereby hangs a tale of the composition and first failure of his opera which I must now relate[...]."

A Book of Golden Deeds

Exploring the ethical questions posed by, in, and about children's literature, this collection examines the way texts intended for children raise questions of value, depict the moral development of their characters, and call into attention shared moral presuppositions. The essays in Part I look at various past attempts at conveying moral messages to children and interrogate their underlying assumptions. What visions of childhood were conveyed by explicit attempts to cultivate specific virtues in children? What unstated cultural assumptions were expressed by growing resistance to didacticism? How should we prepare children to respond to racism in their books and in their society? Part II takes up the ethical

orientations of various classic and contemporary texts, including 'prosaic ethics' in the Hundred Acre Wood, moral discernment in Narnia, ethical recognition in the distant worlds traversed by L'Engle, and virtuous transgression in recent Anglo-American children's literature and in the emerging children's literature of 1960s Taiwan. Part III's essays engage in ethical criticism of arguably problematic messages about our relationship to nonhuman animals, about war, and about prejudice. The final section considers how we respond to children's literature with ethically focused essays exploring a range of ways in which child readers and adult authorities react to children's literature. Even as children's literature has evolved in opposition to its origins in didactic Sunday school tracts and moralizing fables, authors, parents, librarians, and scholars remain sensitive to the values conveyed to children through the texts they choose to share with them.

A Book of Golden Deeds of All Times and All Lands

This book is a unique look into God's hand in American history, viewed through the life of George Washington. The book reflects the providential view that Washington and other Founding Fathers had of the God of history (God of Abraham). The book attempts to document God's hand in Washington's life and the Revolutionary War using Washington's own words and detailing the numerous micarcles that led to the country's eventual independence and subsequent constitution. The book also explores the country's reason for existence, God's purpose in the founding of the United States, and what it portends for our future survival as a nation.

Annotation "A highly original study that is of particular importance as communities across the United States and elsewhere explore heritage tourism as a way to boost local economies, Sally J. Southwick's book Building on a Borrowed Past: Place and Identity in Pipestone, Minnesota demonstrates how small-town citizens and boosters contributed to the generic image of "the Indian" in American culture and describes the process of one culture absorbing the heritage of another for civic advantage."--BOOK JACKET.
