SHORTLISTED for the CILIP Carnegie Medal, WINNER of the UKLA 'A masterpiece from beginning to end.' Angie Thomas, author of *The Hate U Give* AND THEN THERE WERE SHOTS Everybody ran, ducked, hid, tucked themselves tight. Pressed our lips to the pavement and prayed the boom, followed by the buzz of a bullet, didn't meet us. After Will's brother is shot in a gang crime, he knows the next steps. Don't cry. Don't snitch. Get revenge. So he gets in the lift with Shawn's gun, determined to follow The Rules. Only when the lift door opens, Buck walks in, Will's friend who died years ago. And Dani, who was shot years before that. As more people from his past arrive, Will has to ask himself if he really knows what he's doing. This haunting, lyrical, powerful verse novel will blow you away. 'A heartrending and convincing blank verse narrative.' Sunday Times, BOOKS OF THE YEAR 'Astonishing.' Kirkus Reviews 'A tour de force.' Publishers Weekly 'Will attract teenagers who don't consider themselves 'readers'.' The Inis Reading Guide

Sadlier Vocabulary for Success

A research-based vocabulary textbook that gives intermediate to high-intermediate students hands-on preparation for understanding mid-frequency vocabulary, such as that found in novels, newspapers, films and social and workplace settings.

Vocabulary Power Plus - Book H

This version has been fully re-checked for accuracy and re-formatted to make it even more user-friendly, following feedback after a full year of classroom use by thousands of teachers across the world. Spanish Sentence Builders is a workbook aimed at beginner to pre-intermediate students co-authored by two modern languages educators with over 40 years of extensive classroom experience between the two, both in the UK and internationally. This 'no-frills' book contains 19 units of work on very popular themes, jam-packed with graded vocabulary-building, reading, translation, retrieval practice and writing activities. Key vocabulary, lexical patterns and structures are recycled and interleaved throughout. Each unit includes: 1) A sentence builder modelling the target constructions; 2) A set of vocabulary building activities; 3) A set of narrow reading texts exploited through a range of tasks focusing on both the meaning and structural levels of the text; 4) A set of retrieval-practice translation tasks; 5) A set of writing tasks targeting essential micro-skills such as spelling, lexical retrieval, syntax, editing and communication of meaning. Based on the Extensive Processing Instruction (E.P.I.) principle that learners learn best from comprehensible and highly patterned input flooded with the target linguistic features, the authors have carefully designed each and every text and activity to enable the student to process and produce each item many times over. This occurs throughout each unit of work as well as in smaller grammar, vocabulary and question-skills micro-units located at regular intervals in the book, which aim at reinforcing the understanding and retention of the target grammar, vocabulary and question patterns.

Tell-Tale Heart

The Vocabulary Power workbook offers developmental systematic vocabulary instruction that can be used independently or applied to the content of Glencoe Literature.

Vocabulary Instruction

This book offers a highly accessible introduction to natural language processing, the field that supports a variety of language technologies, from predictive text and email filtering to automatic summarization and translation. With it, you'll learn how to write Python programs that work with large collections of unstructured text. You'll access richly annotated datasets using a comprehensive range of linguistic data structures, and you'll understand the main algorithms for analyzing the content and structure of written communication. Packed with examples and exercises, Natural Language Processing with Python will help you: Extract information from unstructured text, either to guess the topic or identify "named entities" Analyze linguistic structure in text, including parsing and semantic analysis Access popular linguistic databases, including WordNet and treebanks Integrate techniques drawn from fields as diverse as linguistics and artificial intelligence This book will help you gain practical skills in natural language processing using the Python programming language and the Natural Language Toolkit (NLTK) open source library. If you're interested in developing web applications, analyzing multilingual news sources, or documenting endangered languages -- or if you're simply curious to have a programmer's perspective on how human language works -- you'll find Natural Language Processing with Python both fascinating and immensely useful.

Long Way Down

"Thomas Cranmer, the first Protestant Archbishop of Canterbury, was not an original, prolific or argumentative theologian. He was, however, a man with an unparalleled genius for condensing lofty thought into clear confessional definitions and meaningful forms of worship. His expositions of Scripture were often plain, but always practical."--Jacket.

This is one of President Lincoln's most famous pieces of writing in which he announced during the second year of the civil war, that slaves fighting for America should become free men. It was a brave move because he was not sure how it would affect the outcome of the war but he stuck to his principles announcing that he had never felt more right in his life. It is possibly among the most important documents ever written.

"Strongly recommend the book: a must-have" "Chapeau! Already on our trainee reading list." "Absolutely loving this! Inspirational, practical, so sensible and backed up by research. Well done, gentlemen, and thank you." The Language Teacher Toolkit is designed with both practising and trainee (pre-service) teachers in mind and uniquely bridges the gap between research and classroom practice. It is a comprehensive and clearly written handbook, particularly useful for teachers of modern foreign languages (world languages) who work in high schools (secondary education). Written by two highly-experienced teachers with an interest in research and theory, it offers a reflective approach along with many practical classroom activities which can immediately be applied in daily teaching. The book closes with sample lessons for French, German and Spanish. Chapters include: - methods - classroom oral techniques - teaching in the target language - developing spontaneous talk - teaching grammar and vocabulary - listening, reading and writing - subject knowledge - using song, drama and games - assessment - using pictures - teaching advanced level students - technology - behaviour and motivation - evaluating and writing resources - translation - lesson planning - example lesson plans The busy languages teacher can quickly find ideas for enhancing practice, while insightful consideration of research helps create a basis for personal development in the field. The authors are two internationally well-known bloggers in the field of language teaching and applied linguistics: Steve Smith is a former Head of Languages, taught languages for over 30 years, holds an MA in applied linguistics, writes the very popular resources site frenchteacher.net and the widely-read blog frenchteacher.net.com Dr Gianfranco Conti has taught languages for over twenty years, holds a PhD in applied linguistics, is an award-winning blogger and resource writer for TES and runs the popular interactive website language-gym.com
