Financial Accounting

This sixth edition of Trotman's Financial Accounting: An Integrated Approach incorporates comprehensive coverage of new issues in sustainability with a chapter dedicated to current and emerging issues, while building upon the approachable, user-friendly, Australian-focused style of previous editions. This new edition continues to provide students with a detailed understanding of the accounting framework in a balanced and engaging approach that provides non-accounting majors with enough details to understand and analyse company financial statements and provides accounting majors with a sound basis for future studies in accounting. Drawing on topical source documents and newspaper articles, Financial Accounting: An Integrated Approach, 6e makes accounting interesting and relevant. This edition features more management accounting topics as well a new online Management Accounting supplement available separately.

Study Guide [to] Financial Accounting

Financial Accounting: An Integrated Approach is the fourth Australian edition of the introductory financial accounting text originally adapted from Michael Gibbins' text of the same name. The text provides students with a thorough fundamental understanding of the accounting framework whilst simultaneously developing their preliminary technical skills in understanding and interpreting accounting concepts in an Australian and regional context.

Study Guide to Accompany Financial Accounting : an Integrated Approach, Third Edition, Michael Gibbins

An authoritative financial accounting book that provides a balance between conceptual and procedural coverage.

Financial Accounting : an Integrated Approach

Grounded in financial statements, Financial Accounting allows accountants to see not only the impact of financial transactions in financial statements, but also the impact of transactions on overall business decisions. The eighth edition offers new elements designed to sharpen Pratt's economic decision-making foundation with a more timely, real-world focus. Up-to-date, expanded, and detailed IFRS coverage is now included. The SEC 2014 roadmap is explored in all chapters. Comprehensive coverage of real-world financial crisis issues is presented. Accountants will also find more discussions on the increasing role of management's assessment of internal controls over financial reporting.

Study Guide to Accompany Financial Accounting : an Integrated Approach, by Michael Gibbins

Engaging and lively, clear and practical, this is the most applied accounting for non-specialists book whose fully integrated case study emphasises the relevance of accounting to the world of business. Sam Smart is the budding entrepreneur who forms the basis of the case study at the heart of this book. We follow Sam as he goes from starting a small business, printing sports kits for local teams, to managing a global sports business. Throughout the course of the book he assesses the success of his business, finances day to day activities, makes pricing decisions, opens new branches, looks at cash flow, and facilitates planning, control, and investment. Featured at the start of every chapter to highlight to students the implications and applications of the topic they are about to study, Sam and his business provide consistency and connection. As we follow the case study, all the topics central to accounting are covered with clarity, imagination, and relevance, giving students the support they need to complete their course and exams with confidence. The wealth of additional examples and self-test exercises available alongside the case study enable students not only to develop an appreciation of how accounting information allows a manager to make key business decisions, but also to acquire the skills necessary to enable them to converse with accountants, and challenge their assumptions and methodologies. An Online Resource Centre accompanies the text book and includes: For Students: Flashcard glossary Multiple choice questions Additional practice questions with answers Tables from the text For Lecturers: Solutions to end-of-part case studies Additional end-of-part case studies (with solutions) Assessment guide PowerPoint presentations Test bank
