Including both fiction and non-fiction text types and genres, this work is graded and organised into five cross-curricular strands. These full-colour readers are accompanied by teacher's guides and resource sheets. Resource sheets relate to the main Word and Sentence Level teaching points in the corresponding Guided Reading session.

Cambridge IGCSE English as a Second Language Exam Preparation Guide

Provides extra guidance and practice for both Core and Extended students in Papers 1 and 2 (Reading and Writing). The Cambridge IGCSE English as a Second Language Exam Preparation Guide: Reading and Writing provides extra guidance and practice in each of the seven examination exercises for both Core and Extended students in Papers 1 and 2 (Reading and Writing), and can be used independently, or alongside other IGCSE English as a Second Language coursebooks. The guide is divided into five units, with each one focussing on one or more different exam exercises. The contents include: what the exam exercises look like; what you need to remember; guidance on answering the questions; student answers with examiner comments; exam-style practice questions.

Readers library (above 5 pack) Teachers resource guide

Spotlight on Reading offers teachers a wide variety of topics and activities to stimulate, engage, challenge, entertain and extend all pupils' reading skills. This extremely practical resource provides busy teachers and teaching assistants with a collection of worksheets that can be used as instant, educationally appropriate learning activities written specifically with the inclusive classroom in mind. The wide variety of exercises will enable pupils to understand and work on phonics and to improve their reading comprehension rehearsed reading. All the books in this series: Promote effective intervention and inclusion strategies for teachers and teaching assistants Provide materials that are solidly grounded in an understanding of how children learn and the particular difficulties of children with special needs. Stimulate discussion and interaction Can be used as part of an individual or small group learning programme for a child with special needs Provide 'whole class' materials that can also engage older children or those with a higher level of achievement Offer teachers quick, fun activities that never require additional resources, special materials or preparation. Spotlight on Reading is an essential tool for any teacher striving to offer every pupil opportunities to maximise their own potential and develop strong reading skills

Spotlight on Reading

Use this guide to follow the story of ten-year-old Annemarie Johansen and her Jewish best friend Ellen who must move in with the Johansen family and pretend to be their daughter to escape the Nazis. Readers will learn to connect historical events to this personal, engaging story with the help of this literary guide. Analyzing story elements in multiple ways, close reading and text-based vocabulary practice, and determining meaning through text-dependent questions are just a few of the many skills students will walk away with after interacting with the rigorous and appealing cross-curricular lessons and activities in this resource. Written to support this story, each activity and lesson work in conjunction with the text to teach students how to analyze and comprehend rich, complex literature.

The American Journey

Young readers will learn all about eating worms in this disgustingly entertaining book by completing fun, challenging lessons and activities provided in this digital instructional guide for literature. These rigorous, cross-curricular lessons and activities work in conjunction with the text to teach students how to comprehend complex literature and help them understand the significance of the story. This e-book resource is packed with tools to teach students how to analyze story elements in multiple ways, practice close reading and text-based vocabulary, determine meaning through text-dependent questions, and more. This is the perfect way to add rigor to your students' explorations of rich, complex literature.

An Instructional Guide for Literature: Number the Stars

Teaching literature unit based on the popular children's story, *The Giver*.

An Instructional Guide for Literature: How to Eat Fried Worms

This instructional guide for literature is the ideal tool to help students analyze and understand this classic book. The engaging and rigorous lessons and activities utilize research-based literacy skills that will help students become efficient readers. Students will dive eagerly into the world of Charlotte's Web while analyzing its many characters. They will practice guided close reading, study text-based vocabulary, analyze story elements, and much more while making cross-curricular connections to mathematics, science, social studies, and other areas. Strengthen your students' literacy skills by implementing this high-interest resource in your classroom!

A Guide for Using *The Giver* in the Classroom

Young readers will be intrigued and eager to analyze this timeless classic by completing fun, challenging activities and lessons provided in this instructional guide for literature. This guide is the perfect tool to aid students in analyzing and comprehending this charming story. Appealing and challenging cross-curricular lessons and activities incorporate research-based literacy skills to help students become thorough readers. These lessons and activities work in conjunction with the text to teach students how to analyze and comprehend story elements in multiple ways, practice close reading and text-based vocabulary, determine meaning through text-dependent questions, and much more.

Targeted Reading Intervention

The 3rd Edition of *Literacy & Learning in the Content Areas* helps readers build the knowledge, motivation, tools, and confidence they need as they integrate literacy into their middle and high school content area classrooms. Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping/webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content, communities, and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.

How do you ensure you're using literacy instruction effectively to meet the needs of all of your students? In this book from Diana and Betsy Sisson, you'll learn an innovative approach to using the literacy block in a gradual release model that allows you to provide grade-appropriate teaching as well as meaningful, individualized instruction to close the academic gaps of struggling learners and offer accelerated experiences for advanced students. What's Inside ·Part I of the book lays out the authors' framework for the Core Block. ·Part II explains how to use the re-envisioned block to integrate the core components of word study, vocabulary development, strategic reading instruction, writers' craft, and expanded reading opportunities,. ·Part III reveals how to use differentiation, project-based learning, and assessment to prepare students for new literacy demands. ·The appendix provides literacy block schedules, tools for phonics development and morphology study, and correlations to the Common Core. Each chapter includes practical tools and examples, as well as "In Action" boxes show how the ideas look in an authentic classroom.

Comprehension Activities for Reading in Social Studies and Science

When K-5 students understand how to read text features like bullets, insets, and bold print, they are reading the whole page essential for deep comprehension of non-fiction and fiction text. In *Reading the Whole Page: Teaching and Assessing Text Features to Meet K-5 Common Core Standards*, seasoned educators Michelle Kelley and Nicki Clausen-Grace show you how to explicitly teach K-5 students to read text features, use them to navigate text, and include them in their own writing. The classroom-proven mini-lessons, activities, and assessment tools in *Reading the Whole Page* help you: -Teach relevant Common Core Reading Standards and grade-level expectations; -Diagnose, monitor, and meet student needs with one of two level-appropriate assessments; -Evaluate knowledge with a unique picture book on CD that illustrates all the text features; and -Monitor and guide differentiated instruction with a convenient class profile. Sixty mini-lessons for teaching print, graphic, and organizational features provide ample choices for meeting the standards while adapting to students' needs. Flexible lessons, which follow the gradual release of responsibility model and increase in difficulty, can be used within the typical ninety-minute reading block, during content-area instruction, in small groups, and as part of independent practice opportunities like literacy centers. Each lesson offers concept review, suggestions for differentiation, assessment options, and technology connections, requiring students to find, explore, manipulate, and create text features in their own writing. Even more activities from text feature walks to scavenger hunts help students integrate text feature knowledge as they read. The included CD provides important resources and convenient lesson supports, such as interactive thinksheets that can be filled out directly on the computer, visual examples of each text feature, rubrics, the assessment picture book, and readers' theatre scripts.
