Scarlett's Journal

Reality Television meets Reality Reading. A quirky read, full of drama, madness, and off beat fun. Being Scarlett Emerson has never been easy. Dealing with memories of a dysfunctional childhood, neurotic parents, being widowed at 23, then losing her first-born at age 11 can be difficult to handle emotional at times. So after years of tears, therapy and medication that didn't work, for her own medicinal purposes, she decided to journal her way to sanity, by giving herself an outlet to express her feelings about day-to-day life, past and present. Keeping nothing silent about how she feels about her life and the people in it. A chronicle of her own fact-based opinions, through wit, grit and charm that can be unpredictable, funny and truly outspoken.
