Index to Literature on the American Indian, 1973

"James Ruppert explores the bicultural nature of Indian writers and discusses strategies they employ in addressing several audiences at once: their tribe, other Indians, and other Americans. Helen Jaskoski analyzes the genre of autoethnography, or Indian historical writing, in an Ottawa writer's account of a smallpox epidemic. Kimberly Blaeser, a Chippewa, writes about how Indian writers reappropriate their history and stories of their land and people. Robert Allen Warrior, an Osage, examines the ideas of the leading Indian philosopher in America, Vine Deloria, Jr., who calls for a return to traditional tribal religions. Robert Berner exposes the incomplete myths and false legends pervading Indian views of American history. Alan Velie discusses the issue of historical objectivity in two Indian historical novels, James Welch's *Fools Crow* and Gerald Vizenor's *The Heirs of Columbus*. Kurt M. Peters relates how Laguna Indians retained their culture and identity while living in the boxcars of the Santa Fe Railroad Indian Village at Richmond, California. Juana Maria Rodriguez examines power relations in Gerald Vizenor's narrative of a Dakota Indian accused of murder in 1967, "Thomas White Hawk." Finally, Gerald Vizenor, a Chippewa, discusses Indian conceptions of identity in contemporary America, including simulations he calls "postindian identity."".

Resources in Education

This bibliography is a starting point for those interested in researching the American Indian in literature or American Indian literature. Designed to augment other major bibliographies, it classifies all relevant bibliographies and critical works and supplies listings not cited by them. The author's general introduction provides bibliographical background for those beginning research in the field. Cited works are listed alphabetically by the author's or editor's last name in each of three categories: bibliographies; works about the Indian in literature; and Indian literature. Each citation is numbered and the cross-referenced subject and author indexes refer to each work by number, thereby facilitating speedy reference.

Literature of the American Indian

The Handbook of Native American Literature is a unique, comprehensive, and authoritative guide to the oral and written literatures of Native Americans. It lays the perfect foundation for understanding the works of Native American writers. Divided into three major sections, Native American Oral Literatures, The Historical Emergence of Native American Writing, and A Native American Renaissance: 1967 to the Present, it includes 22 lengthy essays, written by scholars of the Association for the Study of American Indian Literatures. The book features reports on the oral traditions of various tribes and topics such as the relation of the Bible, dreams, oratory, humor, autobiography, and federal land policies to Native American literature. Eight additional essays cover teaching Native American literature, new fiction, new theater, and other important topics, and there are bio-critical essays on more than 40 writers ranging from William Apes (who in the early 19th century denounced white society's treatment of his people) to contemporary poet Ray Young Bear. Packed with information that was once scattered and scarce, the Handbook of Native American Literature -a valuable one-volume resource-is sure to appeal to everyone interested in Native American history, culture, and literature. Previously published in cloth as The Dictionary of Native American Literature

Research in Education

A journal of women studies.

Native American Perspectives on Literature and History

This text is an introduction to the full range of standard reference tools in all branches of English studies. More than 10,000 titles are included. The Reference Guide covers all the areas traditionally defined as English studies and all the field of inquiry more recently associated with English studies. British and Irish, American and world literatures written in English are included. Other fields covered are folklore, film, literary theory, general and comparative literature, language and linguistics, rhetoric and composition, bibliography and textual criticism and women's studies.

The Native American in American Literature

The Navajo are the largest tribe of Indians in the United States and, due in part to a fascination with their relative isolation, have been analyzed in numerous documentaries. In this timely supplement to the Navajo Bibliography, Howard M. Bahr engages in a unique postmodern approach to his bibliography of the Navajo culture by combining health-related, artistic, economic, religious, social, scientific, and other literature on the Navajo into one study. The bibliography skillfully downplays disciplinary boundaries by unifying literature that has previously only offered separate classification and access. The more than 6,300 entries are selectively annotated and cover Navajo literature from 1970 to 1990, as well as newly discovered literature, including Franciscans' literature, that was not included in the original Navajo Bibliography. This bibliography is not only the most comprehensive bibliography to date in its coverage of more than two decades of new material, but the only source that supplements the professional literature with local and cultural works. An exhaustive resource that effectively doubles the expanse of Navajo literature surveyed and indexed, Diné Bibliography to the 1990s is an invaluable tool that both highlights the literature already available and expands such data to include coverage of genres that have been previously underrepresented.

Handbook of Native American Literature

This encyclopedia of the North American Indian includes listings of reservations, councils, associations, schools, health services, libraries, publications and college and university courses in the United States including Alaska, and Canada.

Books in Print

This fifth revised edition features approximately 1,900 items, most of which are annotated. It addresses several interdisciplinary studies that have become prominent in the last decade, especially on popular culture, racial and other minorities, Native Americans and Chicanos, and literary regionalism. It allots more space to computer aids, science fiction, children's literature, literature of the sea, film and literature, and linguistic studies of American English and includes a new section on psychology. The appendix lists the biography of each of 135 deceased American authors. ISBN 0-8223-0592-5 : \$22.50 (For use only in the library).

The American Indian

Includes entries for maps and atlases.

Bibliography of American Ethnology

Examines the history, evolution, and culture of the American Indians, discussing both oral and written literature.

Index to Literature on the American Indian

Presents an encyclopedia of American Indian literature in an alphabetical format listing authors and their works.

Iowa English Bulletin

Even as their nations and cultures were being destroyed by colonial expansion across the continent, American Indians became a form of entertainment, sometimes dangerous and violent, sometimes primitive and noble. Creating a fictional wild west, entrepreneurs then exported it around the world. Exhibitions by George Catlin, paintings by Charles King, and Wild West shows by Buffalo Bill Cody were viewed by millions worldwide. Norman Denzin uses a series of performance pieces with historical, contemporary, and fictitious characters to provide a cultural critique of how this version of Indians, one that existed only in the western imagination, was commodified and sold to a global audience. He then calls for a rewriting of the history of the American west, one devoid of minstrelsy and racist pageantry, and honoring the contemporary cultural and artistic visions of people whose ancestors were shattered by American expansionism.

Folk Literature of South American Indians

Frontiers

Wanderer on the American Frontier

For nearly two hundred years, a fragment of the journal of John Maley, an obscure explorer on the American frontier, resided at Yale University and was treated with some skepticism by historians. It was only in 2012, when the first half of the manuscript turned up at a barn sale in Pennsylvania and was acquired by Southern Methodist University's DeGolyer Library, that the full story of Maley's travels could be pieced together. *Wanderer on the American Frontier* makes the complete journal available for the first time, allowing readers to follow a contemporary of Lewis and Clark on his journey through the Ohio, Mississippi, and Red River valleys, and to reassess the account's authenticity. Between 1808 and 1813, Maley covered more than 16,000 miles through thirteen present-day states. Much of that travel took him beyond the fringes of civilization, and his journal offers some of the earliest descriptions of the Ozark Plateau, the Ouachita Mountains, and the upper reaches of the Red River. His account also provides a firsthand look at life on the frontier in the tumultuous years following the Louisiana Purchase. Editor F. Andrew Dowdy has carefully retraced Maley's steps and, with extensive use of maps, has reconciled some of the journal's more confusing passages to give readers clear modern-day reference points.

Numerous annotations and appendices provide necessary historical context, from the link between Maley's 1809 Indiana copper exploration and the Treaty of Fort Wayne, to the ways his 1811 foray into Spanish Texas presaged further filibusters there during the Mexican War for Independence. The fascinating tale of one of the wider-ranging explorers in American history, *Wanderer on the American Frontier* is an invaluable resource that provides a unique window on the West in the early nineteenth century.

The American Frontier

In this gripping tale of adventure and intrigue, a lone wanderer must navigate a dangerous world of rival tribes and colonial powers. With vivid descriptions of the natural world and thrilling action sequences, Pierce captures the spirit of the American frontier in the early nineteenth century. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. The Last American Frontier

Nationally bestselling authors William W. Johnstone and J.A. Johnstone give us a standalone, completely new western adventure centering on a wagon train heading west, a vivid account of the pioneering men and women who put their lives on the line to carve out the American Frontier. *GO WEST, YOUNG MAN* Missouri, 1860. Rumors of war between the North and South are spreading across the land. In rural Green County, many of the farmers are already choosing sides. But not John Zachary. His loyalties lie with his family first—and his heart is telling him to go west. Hoping to build a new life in the fertile valleys of Oregon, he convinces his best friend, Emmett Braxton, to pack up their families and join him on a wagon train across the Oregon Trail. The journey will be long and hard. The physical hardships and grueling mental challenges will bring out the best in some—and the worst in others. But with the guidance of an experienced wagon master and scout, they are determined to reach their destiny, no matter how high the cost . . . Twenty-seven wagons. Twenty-seven different hopes and dreams. This sprawling epic novel from these master storytellers captures the beauty and danger of the American West—and the pioneer spirit of those who tamed it . . . “Brilliantly captures the American spirit in all its never-surrender glory. With masterful storytelling, this novel has all the action anyone could possibly imagine . . . superb from start to finish. An instant classic.” —New York Times Bestselling Author Marc Cameron on *Forever Texas*

The Last American Frontier

An epic saga based on true events of the American West—with the trailblazing fur trappers and the mountain men who lived it. This is an unforgettable journey into the untamed American frontier. Where nature is cruel, violence lurks behind every tree, and where only the strongest of the strong survive. This is a story of America. *TO THE RIVER'S END* Luke Ransom was just eighteen years old when he answered an ad in a St. Louis newspaper that would change his life forever. The American Fur Company needed one-hundred enterprising men to travel up the Missouri River—the longest in North America—all the way to its source. They would hunt and trap furs for one, two, or three years. Along the way, they would face unimaginable hardships: grueling weather, wild animals, hunger, exhaustion, and hostile attacks by the Blackfeet and Arikara. Luke Ransom was one of the brave men chosen for the job—and one of the few to survive . . . Five years later, Luke is a seasoned trapper and hunter, a master of his trade. The year is 1833, and the American Fur Company is sending him to the now-famous Rendezvous at Green River. For Luke, it may be his last job for the company. After facing death countless times, he is ready to strike out on his own. But when he encounters a fellow trapper under attack by Indians, his life takes an unexpected turn. A new friendship is forged in blood. And a dangerous new journey begins...

The Way West

Winner of the Pulitzer Prize for History in 1925, Paxson was the first American historian presenting the War of Independence from both American as well as British points of view.

The Narranganset Chief, Or, The Adventures of a Wanderer

This collection of twenty short stories offers a view of life on the frontier by portraying incidents in the ordinary, yet extraordinary lives of a variety of people who heeded the siren call of the American West. The reader will meet ranchers and cowboys, lawmen and outlaws, merchants and farmers, teachers and preachers, and others who trekked west in hopes of improving their lot in life. Many followed the dream of a better future, others sought to escape a troublesome past, and some were simply lured by a desire for independence or adventure. Not all are heroes; no magical transformation occurred when "regular folks" packed their belongings and pointed themselves west. Yet, somehow, the unexpectedly inhospitable nature of the western lands often prompted newcomers to rise to the challenge of life on the frontier. Although the characters in the book are fictional, many aspects of their stories are historically accurate, including the combination of determination, sacrifice and wry humor which enabled many to face and often overcome circumstances we would likely view as insurmountable.

Go West, Young Man

Using the words of the frontiersmen themselves--taken from letters, diaries and memoirs--Luchetti captures the frontiersmen from the East and the Native Americans whose lives were changed forever by their arrival.

To the River's End

Luke Ransom was just eighteen years old when he answered an ad in a St. Louis newspaper that would change his life forever. The American Fur Company needed one hundred enterprising men to travel up the Missouri River -- the longest in North America -- all the way to its source. They would hunt and trap furs for one, two, or three years. Along the way, they would face unimaginable hardships: grueling weather, wild animals, hunger, exhaustion, and hostile attacks by the Blackfeet and Arikara. Luke Ransom was one of the brave men chosen for the job -- and one of the few to survive . . .

History of the American Frontier, 1763-1893

Discusses the unique and difficult life in America's frontier towns as the frontier expanded westward from colonial Virginia to California and back to Nebraska.

The Negro on the American Frontier

This book is part of the TREDITION CLASSICS series. The creators of this series are united by passion for literature and driven by the intention of making all public domain books available in printed format again - worldwide. At tredition we believe that a great book never goes out of style. Several mostly non-profit literature projects provide content to tredition. To support their good work, tredition donates a portion of the proceeds from each sold copy. As a reader of a TREDITION CLASSICS book, you support our mission to save many of the amazing works of world literature from oblivion.

Out West

Discusses how people on the American frontier lived, including trailblazers, fur trappers, mountain men, Native Americans, miners, cowboys, and pioneers.

The American Frontier

Experience life on the American frontier with this thrilling novel by Emerson Bennett. From the challenges of homesteading to the dangers of navigating the wilderness, this book provides a vivid and exciting portrait of life during the 19th century. With compelling characters and a gripping narrative, this book is a must-read for anyone interested in the history of the American West. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual

Men of the West

Bear River Tom Smith, Willie Kennard, Wyatt Earp, Bat Masterson, Charlie Siringo, and Wild Bill Hickock tangle with Western badmen

To the River's End

The 18-year-old Adam Larey shoots his brother Guerd after a confrontation near a gold mining town in the southwest. After he runs away into the desert in order to save himself from being hanged, Adam meets the gold miner Dismukes who teaches him the intricacies of gold mining. While exploring the desert Adam helps many people, but none of the brave deeds and acts of justice can wash away his sin. Will Adam return to the town he ran from 14 years ago to accept his punishment or he will continue his desert life? What or who will affect his decision? "Wanderer of the Wasteland" is a Western novel about adventure and romance which was first published in 1923. Pearl Zane Grey was an American author born in 1872. He is best known with his adventure novels which idealize the American frontier and which largely created a new genre called western. The novel "Riders of the Purple Sage\

Life on the American Frontier

Learn about this important figure of the Old West.

The Story of Red Feather A Tale of the American Frontier

Book Excerpt: ...d bolder Europeans; and they moved westward, nor could have helped that had they tried. They lived largely and blithely, and died handsomely, those old Elizabethan adventurers, and they lie today in thousands of unrecorded graves upon two continents, each having found out that any place is good enough for a man to die upon, provided that he be a man. The American frontier was Elizabethan in its quality--childlike, simple, and savage. It has not entirely passed; for both Elizabethan folk and Elizabethan customs are yet to be found in the United States. While the half-savage civilization of the farther West was roaring on its way across the continent--while the day of the keelboatman and the plainsman, of the Indian-fighter and the miner, even the day of the cowboy, was dawning and setting--there still was a frontier left far behind in the East, near the top of the mountain range which made the first great barrier across our pathway to the West. That frontier, the frontier of Boone and Kenton, of Robertson a...

The Great American Frontier

This is a new release of the original 1930 edition.

The Wister Trace

Examines the exploration and settlement of the American frontier from the seventeenth through the nineteenth centuries. Suggested level: secondary.

Life on the American Frontier

"Thus, traveling across the country would soon commence, and I was excited by the prospect. So far, I had been in want of a new kind of adventure anyhow, as I had lately overstayed my welcome in the White Mountains of New Hampshire. I had learned all the identifications of all the trees, shrubs, plants, animals, insects, rocks, clouds, and soils in that place; and met all the people I had need to. I grew somewhat tired of those mountains - covered in rocks and glacial debris and fir trees - though it remains among the most charitable scenes in all my since traveled ones. But ten months in the north woods can take a toll on the wanderer, and on his mind, and it was high time that I depart from it (not my mind of course, but the north woods). I made my courteous rounds and said my goodbyes to friends, colleagues, acquaintances, neighbors, allies, and even enemies alike; I had more of this last variety than I had made room for. Leaving a comfortable home has never been easy, I should think, in all of human history, but alas, I left it and did it passing by all the hills I had grown so fond of, and all the rivers

and lakes and streams and ponds that I had swum in and fished in and admired for so long for their freedom and beauty. Indeed, I was leaving New England and heading the other way; away from that quaint and wonderful part of the country begotten in foliage and stuck in the corner of America like the gold nugget clinging to the quartz vein, and into what I could say was the unknown, or at least what could pass for the unknown if questioned by authorities." And so, after living in the White Mountains for nearly a year, Scott J. Bockus took to the road. It was the first time he would cross the Mississippi River and the first time he would pierce the west. An insatiable appetite for travel soon followed. The *Forward Frontier* is a personal account of his first two plunges into the guts of America.

Forth to the Wilderness

Briefly discusses the settlement and development of the United States, expansion, migration, mining, and railways.

Forest and Prairie: Life on the Frontier

The frontier! There is no word in the English language more stirring, more intimate, or more beloved. It has in it all the elan of the old French phrase, *En avant!* It carries all of the old Saxon command, *Forward!!* It means all that America ever meant. It means the old hope of a real personal liberty, and yet a real human advance in character and achievement. To a genuine American it is the dearest word in all the world. What is, or was, the frontier? Where was it? Under what stars did it lie? Because, as the vague Iliads of ancient heroes or the nebulous records of the savage gentlemen of the Middle Ages make small specific impingement on our consciousness today, so also even now begin the tales of our own old frontier to assume a haziness, an unreality, which makes them seem less history than folklore. Now the truth is that the American frontier of history has many a local habitation and many a name. And this is why it lies somewhat indefinite under the blue haze of the years, all the more alluring for its lack of definition, like some old mountain range, the softer and more beautiful for its own shadows. The fascination of the frontier is and has ever been an undying thing. Adventure is the meat of the strong men who have built the world for those more timid. Adventure and the frontier are one and inseparable. They suggest strength, courage, hardihood—qualities beloved in men since the world began—qualities which are the very soul of the United States, itself an experiment, an adventure, a risk accepted. Take away all our history of political regimes, the story of the rise and fall of this or that partisan aggregation in our government; take away our somewhat inglorious military past; but leave us forever the tradition of the American frontier! There lies our comfort and our pride. There we never have failed. There, indeed, we always realized our ambitions. There, indeed, we were efficient, before that hateful phrase was known. There we were a melting-pot for character, before we came to know that odious appellation which classifies us as the melting-pot of the nations. The frontier was the place and the time of the strong man, of the self-sufficient but restless individual. It was the home of the rebel, the protestant, the unreconciled, the intolerant, the ardent—and the resolute. It was not the conservative and tender man who made our history; it was the man sometimes illiterate, oftentimes uncultured, the man of coarse garb and rude weapons. But the frontiersmen were the true dreamers of the nation. They really were the possessors of a national vision. Not statesmen but riflemen and riders made America. The noblest conclusions of American history still rest upon premises which they laid.

American Frontier

This scarce antiquarian book is a facsimile reprint of the original. Due to its age, it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving, and promoting the world's literature in affordable, high quality, modern editions that are true to the original work.

Wanderer of the Wasteland

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. Hesperides Press are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Jim Bridger

A revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into dour critique or blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw the expansion of slavery, Native dispossession, and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center; eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers's rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So, Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau who, speaking of John Brown, challenged a hostile crowd "Is it not possible that an individual may be right and a government wrong?" Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.

The Passing of the Frontier

This book examines how the American frontier was presented in theatrical productions.

A Quaker Forty-Niner

"Thirty-One Years on the Plains and in the Mountains" is a captivating memoir authored through William F. Drannan, providing an outstanding firsthand account of lifestyles inside the American West during the nineteenth century. Drannan's narrative offers a shiny and gripping portrayal of the demanding situations and adventures he encountered within the untamed wasteland of the frontier. This book chronicles Drannan's substantial and eventful trips, supplying a unique perspective at the westward expansion and the historical events of his time. As a scout, interpreter, and adventurer, he turned into worried in sizeable moments, inclusive of the Indian Wars and the fur trade. Drannan's narrative is rich with interesting testimonies of encounters with Native American tribes, outlaws, and the hardships of lifestyles inside the wild. "Thirty-One Years on the Plains and within the Mountains" is not handiest a mesmerizing journey tale however also a treasured ancient file. It provides a window into the complexities and possibilities of life in the American West all through a length of rapid enlargement and transformation. William F. Drannan's account serves as a vivid portrayal of the rugged and unpredictable nature of the American frontier, making it a crucial read for the ones inquisitive about the records, tradition, and adventurous spirit of the nineteenth-century West.

The American Frontier

Read the gripping story of James Clyman, a 19th century American frontiersman known for his explorations of the American West and his interactions with various Native American tribes. This book offers a unique glimpse into life on the American frontier. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. American Indian Traditions and Ceremonies

This book celebrates the varied traditions and ceremonies of the American Indian, from the potlatch of the Northwest Coast tribes to the Rain Dance of the Southwestern tribes.

Native American Dance

This premier publication of the Smithsonian Institution's National Museum of the American Indian documents Native American dance with stunning photographs and essays by noted contributors.

Native American Traditions

Looks at the rites and ceremonies of the Native American peoples. Includes information on spirits and ancestors, shamanism and medicine, totems, sacred sites and symbols, and mythology and the visionary world.

Native America

Celebrates the traditions of the American Indians in 400 photographs of pottery, jewelry, blankets, baskets, masks, totem poles, dances and powwows.

Native American Ceremonies and Celebrations: From Potlatches to Powwows

Native American celebrations are packed with symbolic gestures and intriguing details. A kind of party called a potlatch, staged by native peoples of the Pacific Northwest, was marked by guests receiving gifts, not giving them, and were sometimes put on to get back at an enemy. This appealing volume about a high-interest aspect of native cultures highlights several celebrations and ceremonies important to Native Americans across North America. Thought-provoking fact boxes, historical images, and modern-day customs will engage readers of all levels.

Yuchi Ceremonial Life

The Yuchis are one of the least known yet most distinctive of the Native groups in the American southeast. Located in late prehistoric times in eastern Tennessee, they played an important historical role at various times during the last five centuries and in many ways served as a bridge between their southeastern neighbors and Native communities in the northeast. First noted by the de Soto expedition in the sixteenth century, the Yuchis moved several times and made many alliances over the next few centuries. The famous naturalist William Bartram visited a Yuchi town in 1775, at a time when the Yuchis had moved near and become allied with Creek communities in Georgia. This alliance had long-lasting repercussions: when the United States government forced most southeastern groups to move to Oklahoma in the early nineteenth century, the Yuchis were classified as Creeks and placed under the jurisdiction of the Creek Nation. Today, despite the existence of a separate language and their distinct history, culture, and religious traditions, the Yuchis are not recognized as a sovereign people by the Creek Nation or the United States. ø Jason Baird Jackson examines the significance of community ceremonies for the Yuchis today. For many Yuchis, traditional rituals remain important to their identity, and they feel an obligation to perform and renew them each year at one of three ceremonial grounds, called ?Big Houses.? The Big House acts as a periodic gathering place for the Yuchis, their Creator, and their ancestors. Drawing on a decade of collaborative study with tribal elders and using insights gained from ethnopoetics, Jackson captures in vivid detail the performance, impact, and motivations behind such rituals as the Stomp Dance, the Green Corn Ceremony, and the Soup Dance and discusses their continuing importance to the community.

North American Indian Life

DIV27 fictionalized essays by noted anthropologists examine religion, customs, government, additional facets of life among the Winnebago, Crow, Zuni, Eskimo, other tribes. /div

Giving Voice to Bear

In this new edition of a classic, David Rockwell describes the captivating and awe-inspiring presence of the bear in Native American rituals. The bear played a central role in shamanic rights, initiation, healing and hunting ceremonies, and new year celebrations. Considered together, these traditions are another way of looking at the world, one in which the mysteries of the universe are revealed through animals.

American Indian Religious Traditions

Publisher Description

Ceremony, Spirituality, and Ritual in Native American Performance

Drama. Native American Studies. Performing Arts. Approaching Native American theater as ceremonial performance comprised of centuries-old tribal traditions and aesthetic concepts, Hanay Geiogamah combines his thirty-five years of creative and experimental work and research in Native theater to illuminate the elements of myth, spirituality, and ceremony and their integration into dramatic performances. Specific observations on how ritual is constructed and activated are presented along with selected examples of the process from recent native theater works. Other topics include spirituality as the basis for dramatic text, the techniques of the shaman as director, and the creative process of integration.

Giving Voice to Bear

This highly readable anthropological study includes Indian folktales and rare photographs and illustrations.

The Book of Ceremonies

Within these pages, celebrated Native American writer Gabriel Horn weaves a hauntingly beautiful tapestry of traditional stories, songs, and prayers that highlight the sacred Native way of life. Interwoven throughout this visionary work are detailed ceremonies and rituals for: Marriage, Pregnancy, Birth, Greeting the Day, Death Divorce, Presenting an Infant to the Sun, Dreams and Visions Solstice and Equinox, Healing, and more... The Book of Ceremonies is filled with the heartfelt words of a powerful writer and the original illustrations of Carises Horn, a talented young artist. All of us who live on this sacred land will enjoy and treasure this beautiful book. Celebrated Native American writer Gabriel Horn weaves a beautiful tapestry of stories and short pieces that show us the sacred Native way of life. The writing is beautiful and emotional throughout. It is the work of a talented writer who has walked the native path for years, and is able to show us the native way in all aspects of life. The Book of Ceremonies offers clear explanations of a wide variety of ceremonies.

Empowerment of North American Indian Girls

Empowerment of North American Indian Girls is an examination of coming-of-age-ceremonies for American Indian girls past and present, featuring an in-depth look at Native ideas about human development and puberty. Many North American Indian cultures regard the transition from childhood to adulthood as a pivotal and potentially vulnerable phase of life and have accordingly devised coming-of-age rituals to affirm traditional values and community support for its members. Such rituals are a positive and enabling social force in many modern Native communities whose younger generations are wrestling with substance abuse, mental health problems, suicide, and school dropout. Developmental psychologist Carol A. Markstrom reviews indigenous, historical, and anthropological literatures and conveys the results of her fieldwork to provide descriptive accounts of North American Indian coming-of-age rituals. She gives special attention to the female puberty rituals in four communities: Apache, Navajo, Lakota, and Ojibwa. Of particular interest is the distinctive Apache Sunrise Dance, which is described and analyzed in detail. Also included are American Indian feminist interpretations of menstruation and menstrual taboos, the feminine in cosmology, and the significance of puberty customs and rites for the development of young women.

Manners, Customs, and Conditions of the North American Indians

Volume 1 of the classic account of life among Plains Indians includes fascinating information on ceremonies, rituals, the hunt, warfare, and much more. Total in set: 312 plates.

Sharing a Heritage

This collection of essays grew out of a 1982 conference organized around the theme of "sharing" in historical (or traditional) and contemporary arts. Contributors include scholars and practicing American Indian artists. The essays in this book address the issue of cultural development for individual and community growth, as well as the role of the Indian arts and humanities professional in the academy and in the tribal community.

O-kee-pa

"No other Indians of the American West held such a fascination for early explorers and fur traders as did the Mandans of the Upper Missouri in the years before they were decimated by a tragic plague of smallpox in 1837. And no other white man did so much to interpret primitive Mandan life and culture to the civilized world as did that pioneer American artist and amateur ethnologist of the Upper Missouri-George Catlin. Five summers before the destructive smallpox epidemic, Catlin visited the Mandans in their picturesque earth-lodge villages near the trading post of Fort Clark, at the mouth of the Knife River in present North Dakota. He painted numerous portraits of their prominent chiefs and women folk and pictured their village life, their amusements, dances, religious ceremonies, and burial ground. In his exceedingly popular two-volume work, *Letters and Notes on the Manners, Customs and Condition of the North American Indians*, published at his own expense in London in 1841, Catlin vividly described and extravagantly praised the Mandans as the most remarkable of the more than forty Indian tribes he had met in his wide travels beyond the frontiers of white settlement."-- Taken from introduction.

The Cherokee Full Circle

A comprehensive overview of Native American spiritual principles and their application for personal spirit-healing. • Includes traditional sacred exercises, teaching tales, case studies, and suggested rituals for individual and group healing. • Outlines the core principals of Native American traditional values and teaches how to apply them to the contemporary path of wellness and healing. • Publication to coincide with annual Full Circle gathering in September 2002 The Four Directions, the four seasons, and the four elements that make up the sacred hoop of the full circle must be in right relationship with one another or disharmony will result. Native American ritual has always emphasized the restoration of balance through ceremonies that provide a forum for learning, transition, and expressions of personal growth. Now Cherokee authors J. T. and Michael Garrett share Native American traditions to explore interrelationships as a tool for growth and transformation. The Cherokee Full Circle gathers techniques representing Native American cultures from across America--stories, exercises, and individual and group rituals--to teach the inherent dynamics of right relationship and apply them to the healing path. The authors provide a comprehensive overview of Native American spiritual principles and traditions and demonstrate how these ideas and methods can be applied universally to deal with life's situations--from depression and grieving to finding purpose and establishing positive relationships.

Native American Medicine

Native Americans have an incredibly rich store of knowledge when it comes to using herbs and plants to heal illness, treat injuries, and cure disease. In fact, some of their traditions have found a place in the modern medicines we use today. This book discusses the nature-based approach Native Americans took towards healing. It also examines important figures, such as shamans and medicine men, and explains some of the remedies and rituals that were conducted.

The Rattle and the Drum

An exploration of a colorful variety of Native American ceremonies and celebrations includes everyday rituals, initiation ceremonies, healing rituals, seasonal celebrations, and powwows that forge ties among groups, as well as instructions for games, crafts, recipes, and hands-on activities.

Tradition and Renewal in Leslie Marmon Silko's Ceremony

Essay from the year 2011 in the subject Didactics - English - Literature, Works, grade: 1,5, University of Stuttgart, language: English, abstract: Leslie Mormon Silko, a Native American writer, grew up at the edge of the Laguna Pueblo Reservation, New Mexico, USA. Because of her mixed origins and for the fact that she was not living directly in the reservation and thereby in the pueblo society, she was not allowed to attend several rituals. Silko's roots are Native American, Anglo American and Mexican American but she was raised and educated by her grandmother and aunts with the traditional Laguna stories. This led to a strong identification of her with the native part of her ancestry and to her writing, which always deals with Native American topics. Her writing includes autobiographical parts and lots of relations to tradition which only a member of this particular native tribe could describe as precisely as she does. In "Ceremony", her highly regarded 1977 novel, these traditional relations seem to play an important role. The following essay will show how the importance of tradition for the Native American communities is expressed in the novel, and how it is responsible for the healing of the main protagonists' illness.

An Archaeology of the Soul

The richness and the range of Native American spirituality has long been noted, but it has never been examined so thoroughly, nor with such an eye for the amazing interconnectedness of Indian tribal ceremonies and practices, as in *An Archaeology of the Soul*. In this monumental work, destined to become a classic in its field, Robert Hall traces the genetic and historical relationships of the tribes of the Midwest and Plains—including roots that extend back as far as 3,000 years. Looking beyond regional barriers, *An Archaeology of the Soul* offers new depths of insight into American Indian ethnography. Hall uncovers the lineage and kinship shared by Native North Americans through the perspectives of history, archaeology, archaeoastronomy, biological anthropology, linguistics, and mythology. The wholeness and panoramic complexity of American Indian belief has never been so fully explored—or more deeply understood.

Ceremonies of the Pawnee

Of all the American Indian tribes of the Plains, the Pawnee and the closely related Arikara developed their religious philosophy and ceremonialism to its fullest; in fact, they may have developed it more highly than any other group north of Mexico. *Ceremonies of the Pawnee* is the first and only systematic, comprehensive description of that rich and complex religious life. Written under the direction of the anthropologist Clark Wissler between 1914 and 1920, it is the culmination of the ethnographic studies of James R. Murie, himself a Pawnee, who witnessed and participated in revivals of the ceremonialism just before it finally died out. Part I presents the annual ritualistic cycle of the Skiri band, giving detailed accounts of the major ceremonies and describing the role of priests, doctors, and bundles in Pawnee religion. Part II is devoted to three major doctors' ceremonies—the White Beaver Ceremony, the Bear Dance, and the Buffalo Dance—one of the three groups known collectively as the South Bands. The descriptions include, in both the original Pawnee and an English translation, several hundred songs as well as a number of ceremonial chants and speeches that are virtually unique in the literature on American Indian religion and provide invaluable material for linguistic study. Equally valuable is the collection of vision stories that underlie the songs. As a body they provide a new perspective on the vision and its cultural patterning, and allow for a deeper understanding of the cultural and psychological bases of Pawnee religion. Dr. Douglas R. Parks of the American Indian Studies Research Institute at Indiana University has provided an overview of Pawnee social organization and religion, along with explanatory notes and a biography of Murie.

Native Spirit

Thomas Yellowtail—one of the most admired American Indian spiritual leaders of the last century—reveals the mystical beauty of the ancient Sun Dance ceremony, which still remains at the center of the spiritual life of the Plains Indians.

The Circle of Life

This book is a compilation of legends and rituals about nature's ever-present signs. The author explains the significance of animal figures as manifestations of good or evil, and shows how we can develop our own powers of awareness and intuition.

Spirits of the Earth

Since the 1980's American Indian ceremonies have appeared that seem to draw on past forms of ritual while incorporating new forms of cultural practice. These ceremonies include prayer circles, seasonal ceremonies, and animal dances reminiscent of earlier forms practiced in the 1800's and before. Some of these ceremonies are promoted for the purpose of unifying tribes and nations while bringing back a form of culture and practice that existed prior to colonial contact. However, to some degree, the cultural practices deviate from what reservation-born Indians view as valid traditional forms. The ceremonies also reach out to non-Indians and individuals with distant Indian heritage without direct reservation ties, thus requiring event locations outside of reservation boundaries. The ceremonies have generated controversy from both sides of the reservation boundaries. Promoters and supporters champion the ceremonies as a constructive promotion of Indian culture, legitimized by a common Indian core value of sharing, as well as fulfillment of various native prophecies that foretell a time of unity among nations and a return to traditional values. However, others, especially reservation-born Indians with direct reservation and cultural ties, have developed concerns, which can lead to exclusionary tactics that impact the culture of sharing and agendas of unity. Some concerns are related to the sharing of culturally sensitive ceremonial practice with individuals who lack proper understanding of Indian ceremony. They believe that improper usage of sacred objects, or the performance of sacred ceremonies without proper knowledge, may subject attendees to spiritual and health related dangers. However, the greater concern about sharing ceremonial knowledge focuses on "sharing versus wearing," or when those with distant Indian heritage attempt to use ceremonial knowledge and practice as a qualification while building an "Indian cultural résumé to justify wearing the title "Indian." Enrolled Indians, especially those with direct ties to reservations, fear further dilution of tribal roles and government benefits by "Wannabee" groups seeking enrollment and tribal recognition. As a result, these new ceremonies exacerbate a racially and politically motivated conflict affecting the perceptions of the people who attend as well as the legitimacy of cultural practice. This thesis focuses on one new form of ceremony named the "Animal Spirit Dance"

The Animal Spirit Dance

Describes a variety of Indian tribal ceremonies and rituals, including those for war and peace, hunting and gathering, and healing.

North American Indian Ceremonies

"The information that is to be gathered ... respecting the mode of life of one of the great races of mankind, must be collected at once or the opportunity will be lost." In 1906, J. P. Morgan provided Edward Curtis with \$75,000 to produce a series on Native Americans and he recorded tribal lore and history, and he described traditional foods, housing, garments, recreation, ceremonies, and funeral customs. Curtis's goal was to photograph and to document as much of Native American traditional life as possible before that way of life disappears. Mezi hlavní témata knihy patYí analýza vlivu moderní a postmoderní civilizace na indiánské kultury a postižení proceso a mechanismo, jimiž se v sou asnosti kulturní d dictví a etnická identita amerických indiáno uchovává anebo naopak ztrácí. Jednotlivé studie, které charakterizuje tematická pestrost a pluralita výzkumných perspektiv, usilují pYisp t k širší diskusi na aktuální téma tradice, modernita, etnicita a kulturní identita v perspektiv antropologie moderních sv to.

Identity, Tradition and Revitalisation of American Indian Culture

This book provides an introduction Native American religious traditions, placing them within their historical, social, and political contexts. The book focuses on three diverse indigenous traditions: the Lakota of the Northern Plains, the Diné (Navajo) of the Southwest, and Coast Salish of the Pacific Northwest. This book highlights their distinct oral traditions, ceremonial practices, the impact of colonialism on Native religious life, and the ways in which indigenous communities of North America have responded, and continue to respond, to colonialism and Euroamerican cultural hegemony. For people interested in the study of Native American Religious Traditions.

Native American Religious Traditions

This reference work covers major native North American religious systems, selected native American leaders and missionaries, ceremonies, legislation and court cases affecting native religions.

The Encyclopedia of Native American Religions

The North American Indian (Illustrated Edition)

An extraordinary compilation of legends and rituals about nature's ever-present signs. From the birds that soar above us to the insects beneath our feet, Native American healer Bobby Lake-Thom shows how the creatures of the earth can aid us in healing and self-knowledge. "There are ancient secrets and lessons hidden in nature. If you seek for guidance, you will discover truth."—Bobby Lake-Thom Much of the ancient knowledge that has been passed down from Native American medicine men, or shamans is in danger of being lost. Bobby Lake-Thom, a Native American healer known as Medicine Grizzly Bear, has sought to preserve this powerful heritage by sharing his wisdom and experience learning from the world around us. What does it mean if a hawk appears in a dream? What are the symbolic interpretations of a deer, a skunk, a raccoon? Lake-Thom, who has studied with the elders of many tribes, explains the significance of animal figures as manifestations of good or evil, and shows how we can develop our own powers of awareness and intuition. The first book of its kind, this practical and enlightening resource includes dozens of fascinating animal myths and legends, as well as exercises and activities that draw upon animal powers for guidance, healing, wisdom, and the expansion of spiritual influences in our lives. You'll discover here: • How animals, birds, and insects act as signs and omens • The significance of vision quests • How to make and use a medicine wheel • The role of spirit symbols—and how they affect the unconscious • Exercises for creative dreaming • The power of the earth-healing ceremony • How to increase your spiritual strength and create sacred spaces • And more....

Spirits of the Earth

Call them Native Americans, American Indians, indigenous peoples, or first nations — a vast and diverse array of nations, tribes, and cultures populated every corner of North America long before Columbus arrived. *Native American History For Dummies* reveals what is known about their pre-Columbian history and shows how their presence, customs, and beliefs influenced everything that was to follow. This straightforward guide breaks down their ten-thousand-plus year history and explores their influence on European settlement of the continent. You'll gain fresh insight into the major tribal nations, their cultures and traditions, warfare and famous battles; and the lives of such icons as Pocahontas, Sitting Bull and Sacagawea. You'll discover: How and when the Native American's ancestors reached the continent How tribes formed and where they migrated What North America was like before 1492 How Native peoples maximized their environment Pre-Columbian farmers, fishermen, hunters, and traders The impact of Spain and France on the New World Great Warriors from Tecumseh to Geronimo How Native American cultures differed across the continent Native American religions and religious practices The stunning impact of disease on American Indian populations Modern movements to reclaim Native identity Great museums, books, and films about Native Americans Packed with fascinating facts about functional and ceremonial clothing, homes and shelters, boatbuilding, hunting, agriculture, mythology, intertribal relations, and more, *Native American History For Dummies* provides a dazzling and informative introduction to North America's first inhabitants.

Native American History For Dummies

Indian culture and life consist of many traditions and customs. Readers will learn about some traditions, customs, and ways of surviving from various tribes around Early America, including the Northeast Indians, Southeast Indians, Plains Indians, Southwest Indians, Northwest Indians, Woodland Indians, and Pueblo Indians. Detailed images engage readers with pictures and examples of totem poles, long houses, chickees, and pueblos while the supportive text and helpful glossary aid in developing a better understanding of the content.

Early American Indian Tribes

The Sun Dance is still performed by some Plains Indians in America, even though it was outlawed by the government in 1904. This bibliography provides a listing of sources on the Sun Dance. The purpose of the annotated bibliography is to serve researchers, including American Indians, in learning more about the Sun Dance religion and ceremony of the Plains Indians. It is intended that this guide will be useful to tribal researchers, college and high school students doing library research for term papers, and to advanced researchers seeking in-depth materials for scholarly publications and field work. It is hoped that this compilation will lead to increased knowledge and appreciation of the Sun Dance -- from Pref.

The Native American Sun Dance Religion and Ceremony

This book offers fascinating insights into the world of the pre-reservation Indians. It is a collection of classic essays that examines the universal characteristics of American Indian culture and tradition. This new edition also offers a personal view of Dr. Brown's life and research through his private correspondence from his time on the reservation and sheds insights into his relationship with old time Indian leaders including the legendary Sioux Medicine Man Black Elk.
