The Vanished Captain's Ring

Susan Richards, a young Australian woman, has arranged to meet and stay with her uncle at his place in a suburb of London, England, where her father is buried. When she visits her father's grave, she discovers an old photograph on the headstone of a MIA navy captain from WWI. Soon after, she finds a strange ring on the bank of the River Thames, a ring that causes her to dream of a man and a deserted beach covered with ruins of ships and planes. Compelled to search for answers, she befriends two young men whose grandfathers are connected to the captain, one of whom went missing in a manner much like the captain. Together, the three try to piece through the past and its labyrinth of unanswered questions. This adventurous tale leads our young woman through London, Denmark, and the Devil's Triangle, and eventually to a mysterious other world. The Vanished Captain's Ring is full of likeable characters, aliens, other-worldly creatures, compelling plot twists, and a romance that breaks the boundaries of time and space.

The Vanishing of Tera

While trying to help those evicted from the Lucky Strike, a low-rent hotel in Vancouver's Downtown Eastside, Cole Blackwater and his best friend Denman Scott discover that homeless people in the area are disappearing without a trace. Working with news reporter Nancy Webber and street nurse Juliet Rose to solve the missing persons case, Cole and Denman venture into the dark corners of the city's underworld. Soon they find themselves in the midst of a dangerous cabal of city officials, high-ranking cops, condo developers, and crime bosses. Tackling the real big-city issues of housing shortages, political corruption, and murder, The Vanishing Track is the third Cole Blackwater Mystery and the most compelling yet. "The best in the Cole Blackwater series." —The Globe and Mail "A brutally honest look at life on Vancouver's Downtown Eastside. A really great read." —Senator Larry Campbell, co-author of A Thousand Dreams

The Vanishing Track

This spirited history of public television offers an insider's account of its topsy-turvy forty-year odyssey. James Day, a founder of San Francisco's KQED and a past president of New York's WNET, provides a vivid and often amusing behind-the-screens history. Day tells how a program producer, desperate

to locate a family willing to live with television cameras for seven months, borrowed a dime—and a suggestion—from a blind date and telephoned the Louds of Santa Barbara. The result was the mesmerizing twelve-hour documentary *An American Family*. Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program's "live-action" segments. And he describes how Frieda Hennock, the first woman appointed to the FCC, overpowered the resistance of her male colleagues to lay the foundation for public television. Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress, with a fragmented leadership that lacks a clearly defined mission in today's multimedia environment. Day calls for a bold rethinking of public television's mission, advocating a system that is adequately funded, independent of government, and capable of countering commercial television's "lowest-common-denominator" approach with a full range of substantive programs, comedy as well as culture, entertainment as well as information. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.

The Vanishing Empire

Something dark and terrible is striking unseen in the night, bringing death and ruin to the peaceable lands of Nesht, and then vanishing back into the cold mists of the surrounding mountains. Two powerful Ring-Witches, Mayra and Wolfe, join uneasy forces to investigate the ongoing—and very puzzling—destruction. How can something be formidable enough to incinerate entire villages and tracts of forests, slaughtering people and animals, yet leave behind massive amounts of valuable gold and jewels? What do these savage invaders want? As they investigate, they hear and feel a large, powerful presence—but it refuses to show itself. When they probe, it brings scorching, mind-rending pain to Mayra—and then inconsolably apologizes for its actions! When Mayra finds a huge, bloodstained talon, she finally knows what that destructive force trying to contact them is—a dragon. A creature so long unseen they are now a myth. Once upon a time, dragons treasured witches as allies. What has changed? Why are they attacking humans? Mayra and Wolfe must learn the truth and stop a war the humans cannot possibly win. But joining the dragons would be just the beginning, for Mayra and Wolfe and their small but fierce assembly of witches quickly learn that there are some things worth more than a life. Some causes that even mighty dragons will die for.

Genealogical Memoirs of the Extinct Family of Chester of Chicheley

They were the epitome of Southern dash and chivalry, modern cavaliers in the modern American Civil War. George Dallas Mosgrove became one of them when he mounted a charger in Kentucky and rode off to Dixie to serve the cause of the Confederacy. Only eighteen years old, Mosgrove fought with some

of the leading lights of the Southern cause as he risked life and limb with his comrades in battle. In a work of great affection and erudition that took him years to write, Mosgrove tells the true story of his time in arms with the Fourth Kentucky Cavalry Regiment. After the war, Mosgrove became a lawyer, got married and had a family, and published this work in 1895. Every memoir of the American Civil War provides us with another view of the catastrophe that changed the country forever. Kentucky Cavaliers: By a Rebel Cavalryman (Abridged, Annotated)

George Dallas Mosgrove was born in Louisville, Kentucky, in 1844 and enlisted in the Fourth Kentucky Cavalry Regiment as a private on September 10, 1862. Through service as a clerk and orderly in both regimental and brigade headquarters, he became familiar with the environment of officers and command. His eyewitness account illuminates the western theater of the Civil War in Kentucky, east Tennessee, and southwest Virginia. Mosgrove admits to a romanticism influenced by Sir Walter Scott in his description of the superiority of the officers and "some of the boys" in his regiment. At the same time, his narrative includes unadorned passages that depict with stark honesty the sordidness of war and man's inhumanity. Mosgrove provides firsthand information about military actions at Blue Springs, Saltville, and elsewhere and relates details of his participation in John Hunt Morgan's Last Kentucky raid and the skirmish where Morgan was killed. Mosgrove's highly entertaining account is a perceptive and informative retelling of the truth as he saw it. This Bison Books edition also contains newly discovered material on Morgan's death.

The 1940s saw the birth of many enduring superheroes like Superman, Batman, Captain America and Captain Marvel. Outside of the superhero genre, the golden age of comics also featured a host of lesser-known, evil-fighting action figures, and this book contains a wealth of information about these heroes without capes. Covered here are jungle heroines like Sheena, Rulah and Princess Pantha; science fiction stalwarts including Spacehawk, Hunt Bowman and Futura; adventurers such as Kayo Kirby, Werewolf Hunter and Senorita Rio; and Western heroes ranging from Tom Mix to the Ghost Rider.

The Case of the Missing Finger

Examines the controversies surrounding the destruction of the tropical rain forest.

The Rings of Time

People may associate Texas with cattle drives and oil derricks, but the sea has shaped the state's history as dramatically as it has delineated its coastline. Some of that history has vanished into the Gulf, whether it is an abandoned port town or a gale-tossed treasure fleet. Revisit the shipwreck that put Texas on the map. Add La Salle's lost colony, the Texas Navy's forgotten steamship and Galveston's overlooked 1915 hurricane to the navigational charts. From the submarines of Seawolf Park to the concrete tanker beached off Pelican Island, author Mark Lardas scours the coast to salvage the secrets of its sunken heritage.

Five skulls and hundreds of cranial elements have been collected from Pleistocene rocks on Lord Howe Island, New South Wales, over the past 100 years. The skull of *Meiolania platyceps* has the following features of the family *Meiolaniidae*: (1) Squamosal and supraoccipital produced into large posteriorly and posterolaterally directed processes that extend clear of the skull roof; (2) Medial plate of pterygoid

separated ventrally from basisphenoid to form intrapterygoid slit. *Meiolania platyceps* can be identified as *Cryptodira* on the possession of: (1) A processus trochlearis oticum on the anterior edge of the otic chamber; (2) A pterygoid that extends posteriorly between quadrate and braincase; (3) A descending process of the prefrontal that meets the vomer ventromedially. Within the *Cryptodira*, *Meiolania platyceps* can be identified as *Eucryptodira* based on the posterior position of the foramen posterius canalis carotici interni"--Page 364

The Encyclopædia Britannica

Such a man was Captain John Scarrow, of the ship *Morning Star*, and yet he breathed a long sigh of relief when he heard the splash of the falling anchor and swung at his moorings within a hundred yards of the guns of the citadel of Basseterre. St. Kitt's was his final port of call, and early next morning his bowsprit would be pointed for Old England. He had had enough of those robber-haunted seas. Ever since he had left Maracaibo upon the *Main*, with his full lading of sugar and red pepper, he had winced at every topsail which glimmered over the violet edge of the tropical sea. He had coasted up the Windward Islands, touching here and there, and assailed continually by stories of villainy and outrage....FROM THE BOOKS.

The Ruse of the Vanished Women

When BOAC Flight 480 disappears from the radar screens over the Mediterranean, passengers and crew are soon posted missing. Three months later what seems to be the same aircraft reappears and lands on an Ionian holiday island. Gathered there are the world's media, agog to discover what has happened to the Boeing. There are, though, more questions than answers from the captain and crew of the vanished flight; and the passengers are more interested in getting their money back from BOAC than explaining where they have been. Join Mrs Tugendhat, SiSi, Mr Tulkithorn, 'Senator' Welles, Boris, Mr Mao and Alexa the ginger cat to find out what really did happen to Flight 480, where the missing passengers have been, how they unearthed the low door in the wall that leads to the undiscovered country - and how they found their way back again. If any man thinks he can build and lead a world and resolves its problems he has yet to meet the stupendous force that is Mrs Tugendhat. Deliciously illustrated by breakout artist Decca Faire: it's a comedy, a beach read, a shingly clever game of a book, a satire, an exuberant piece of magic realism - take your pick. And strap in for the ride.

The Vanished Captain's Ring

Susan Richards, a young Australian woman, has arranged to meet and stay with her uncle at his place in a suburb of London, England, where her father is buried. When she visits her father's grave, she discovers an old photograph on the headstone of a MIA navy captain from WWI. Soon after, she finds a strange ring on the bank of the River Thames, a ring that causes her to dream of a man and a deserted beach covered with ruins of ships and planes. Compelled to search for answers, she befriends two young men whose grandfathers are connected to the captain, one of whom went missing in a manner much like the captain. Together, the three try to piece through the past and its labyrinth of unanswered questions. This adventurous tale leads our young woman through London, Denmark, and the Devil's Triangle, and eventually to a mysterious other world. *The Vanished Captain's Ring* is full of likeable characters, aliens, other-worldly creatures, compelling plot twists, and a romance that breaks the boundaries of time and space.

The Mysterious Case of the Missing Ring

Reproduction of the original: *The Vanishing of Tera* by Fergus Hume

The Vanishing of Tera

While trying to help those evicted from the Lucky Strike, a low-rent hotel in Vancouver's Downtown Eastside, Cole Blackwater and his best friend Denman Scott discover that homeless people in the area are disappearing without a trace. Working with news reporter Nancy Webber and street nurse Juliet Rose to solve the missing persons case, Cole and Denman venture into the dark corners of the city's underworld. Soon they find themselves in the midst of a dangerous cabal of city officials, high-ranking cops, condo developers, and crime bosses. Tackling the real big-city issues of housing shortages, political corruption, and murder, *The Vanishing Track* is the third Cole Blackwater Mystery and the most compelling yet. "The best in the Cole Blackwater series." —*The Globe and Mail* "A brutally honest look at life on Vancouver's Downtown Eastside. A really great read." —Senator Larry Campbell, co-author of *A Thousand Dreams*

The Vanishing Track

This spirited history of public television offers an insider's account of its topsy-turvy forty-year odyssey. James Day, a founder of San Francisco's KQED and a past president of New York's WNET, provides a vivid and often amusing behind-the-screens history. Day tells how a program producer, desperate to locate a family willing to live with television cameras for seven months, borrowed a dime—and a suggestion—from a blind date and telephoned the Louds of Santa Barbara. The result was the mesmerizing twelve-hour documentary *An American Family*. Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program's "live-action" segments. And he describes how Frieda Hennock, the first woman appointed to the FCC, overpowered the resistance of her male colleagues to lay the foundation for public television. Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress, with a fragmented leadership that lacks a clearly defined mission in today's multimedia environment. Day calls for a bold rethinking of public television's mission, advocating a system that is adequately funded, independent of government, and capable of countering commercial television's "lowest-common-denominator" approach with a full range of substantive programs, comedy as well as culture, entertainment as well as information. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1995.

The Vanishing Empire

Something dark and terrible is striking unseen in the night, bringing death and ruin to the peaceable lands of Nesht, and then vanishing back into the cold mists of the surrounding mountains. Two powerful Ring-Witches, Mayra and Wolfe, join uneasy forces to investigate the ongoing—and very puzzling—destruction. How can something be formidable enough to incinerate entire villages and tracts of forests, slaughtering people and animals, yet leave behind massive amounts of valuable gold and jewels? What do these savage invaders want? As they investigate, they hear and feel a large, powerful presence—but it refuses to show itself. When they probe, it brings scorching, mind-rending pain to Mayra—and then inconsolably apologizes for its actions! When Mayra finds a huge, bloodstained talon, she finally knows what that destructive force trying to contact them is—a dragon. A creature so long unseen they are now a myth. Once upon a time, dragons treasured witches as allies. What has changed? Why are they attacking humans? Mayra and Wolfe must learn the truth and stop a war the humans cannot possibly win. But joining the dragons would be just the beginning, for Mayra and Wolfe and their small but fierce assembly of witches quickly learn that there are some things worth more than a life. Some causes that even mighty dragons will die for.

Genealogical Memoirs of the Extinct Family of Chester of Chicheley

They were the epitome of Southern dash and chivalry, modern cavaliers in the modern American Civil War. George Dallas Mosgrove became one of them when he mounted a charger in Kentucky and rode off to Dixie to serve the cause of the Confederacy. Only eighteen years old, Mosgrove fought with some of the leading lights of the Southern cause as he risked life and limb with his comrades in battle. In a work of great affection and erudition that took him years to write, Mosgrove tells the true story of his time in arms with the Fourth Kentucky Cavalry Regiment. After the war, Mosgrove became a lawyer, got married and had a family, and published this work in 1895. Every memoir of the American Civil War provides us with another view of the catastrophe that changed the country forever. For the first time, this long out-of-print volume is available as an affordable, well-formatted book for e-readers, tablets, and smartphones. Kentucky Cavaliers: By a Rebel Cavalryman (Abridged, Annotated)

George Dallas Mosgrove was born in Louisville, Kentucky, in 1844 and enlisted in the Fourth Kentucky Cavalry Regiment as a private on September 10, 1862. Through service as a clerk and orderly in both regimental and brigade headquarters, he became familiar with the environment of officers and command. His eyewitness account illuminates the western theater of the Civil War in Kentucky, east Tennessee, and southwest Virginia. Mosgrove admits to a romanticism influenced by Sir Walter Scott in his description of the superiority of the officers and "some of the boys" in his regiment. At the same time, his narrative includes unadorned passages that depict with stark honesty the sordidness of war and man's inhumanity. Mosgrove provides firsthand information about military actions at Blue Springs, Saltville, and elsewhere and relates details of his participation in John Hunt Morgan's Last Kentucky raid and the skirmish where Morgan was killed. Mosgrove's highly entertaining account is a perceptive and informative retelling of the truth as he saw it. This Bison Books edition also contains newly discovered material on Morgan's death.

The 1940s saw the birth of many enduring superheroes like Superman, Batman, Captain America and Captain Marvel. Outside of the superhero genre, the golden age of comics also featured a host of lesser-known, evil-fighting action figures, and this book contains a wealth of information about these heroes without capes. Covered here are jungle heroines like Sheena, Rulah and Princess Pantha; science fiction stalwarts including Spacehawk, Hunt Bowman and Futura; adventurers such as Kayo Kirby, Werewolf Hunter and Senorita Rio; and Western heroes ranging from Tom Mix to the Ghost Rider.

The Case of the Missing Finger

Examines the controversies surrounding the destruction of the tropical rain forest.

The Rings of Time

People may associate Texas with cattle drives and oil derricks, but the sea has shaped the state's history as dramatically as it has delineated its coastline. Some of that history has vanished into the Gulf, whether it is an abandoned port town or a gale-tossed treasure fleet. Revisit the shipwreck that put Texas on the map. Add La Salle's lost colony, the Texas Navy's forgotten steamship and Galveston's overlooked 1915 hurricane to the navigational charts. From the submarines of Seawolf Park to the concrete tanker beached off Pelican Island, author Mark Lardas scours the coast to salvage the secrets of its sunken heritage.

The Encyclopædia Britannica

Such a man was Captain John Scarrow, of the ship *Morning Star*, and yet he breathed a long sigh of relief when he heard the splash of the falling anchor and swung at his moorings within a hundred yards of the guns of the citadel of Basseterre. St. Kitt's was his final port of call, and early next morning his bowsprit would be pointed for Old England. He had had enough of those robber-haunted seas. Ever since he had left Maracaibo upon the *Main*, with his full lading of sugar and red pepper, he had winced at every topsail which glimmered over the violet edge of the tropical sea. He had coasted up the Windward Islands, touching here and there, and assailed continually by stories of villainy and outrage....FROM THE BOOKS.

The Ruse of the Vanished Women

When BOAC Flight 480 disappears from the radar screens over the Mediterranean, passengers and crew are soon posted missing. Three months later what seems to be the same aircraft reappears and lands on an Ionian holiday island. Gathered there are the world's media, agog to discover what has happened to the Boeing. There are, though, more questions than answers from the captain and crew of the vanished flight; and the passengers are more interested in getting their money back from BOAC than explaining where they have been. Join Mrs Tugendhat, SiSi, Mr Tulkinghorn, 'Senator' Welles, Boris, Mr Mao and Alexa the ginger cat to find out what really did happen to Flight 480, where the missing passengers have been, how they unearthed the low door in the wall that leads to the undiscovered country - and how they found their way back again. If any man thinks he can build and lead a world and resolves its problems he has yet to meet the stupendous force that is Mrs Tugendhat. Deliciously illustrated by breakout artist Decca Faire: it's a comedy, a beach read, a shinningly clever game of a book, a satire, an exuberant piece of magic realism - take your pick. And strap in for the ride.
