Lincoln's Enduring Legacy

This collection of highly readable and accessible essays on Lincoln's legacy offers a wide array of perspectives on the enduring impact of the nation's greatest president on leaders, thinkers, and American history. The book explores how Lincoln's words and deeds have influenced the pursuit of justice and freedom and the practice of democracy in the century and a half since he governed.

Team of Rivals

One of the most influential books of the past fifty years, *Team of Rivals* is Pulitzer Prize-winning author and esteemed presidential historian Doris Kearns Goodwin's modern classic about the political genius of Abraham Lincoln, his unlikely presidency, and his cabinet of former political foes. Winner of the prestigious Lincoln Prize and the inspiration for the Oscar Award winning-film *Lincoln*, starring Daniel Day-Lewis, directed by Steven Spielberg, and written by Tony Kushner. On May 18, 1860, William H. Seward, Salmon P. Chase, Edward Bates, and Abraham Lincoln waited in their hometowns for the results from the Republican National Convention in Chicago. When Lincoln emerged as the victor, his

rivals were dismayed and angry. Throughout the turbulent 1850s, each had energetically sought the presidency as the conflict over slavery was leading inexorably to secession and civil war. That Lincoln succeeded, Goodwin demonstrates, was the result of a character that had been forged by experiences that raised him above his more privileged and accomplished rivals. He won because he possessed an extraordinary ability to put himself in the place of other men, to experience what they were feeling, to understand their motives and desires. It was this capacity that enabled Lincoln as president to bring his disgruntled opponents together, create the most unusual cabinet in history, and marshal their talents to the task of preserving the Union and winning the war. We view the long, horrifying struggle from the vantage of the White House as Lincoln copes with incompetent generals, hostile congressmen, and his raucous cabinet. He overcomes these obstacles by winning the respect of his former competitors, and in the case of Seward, finds a loyal and crucial friend to see him through. This brilliant multiple biography is centered on Lincoln's mastery of men and how it shaped the most significant presidency in the nation's history.

Inspiring Leadership - Learning from Great Leaders

In this culmination of five decades of acclaimed studies in presidential history, Doris Kearns Goodwin offers an illuminating exploration of the origin, uncertain growth, and finally, the exercise of fully developed leadership. Are leaders born or made? Where does ambition come from? How does adversity affect the growth of leadership? Does the man make the times or does the times make the man? In *Leadership* Goodwin draws upon four of the presidents she has studied - Abraham Lincoln, Theodore Roosevelt, Franklin D. Roosevelt and Lyndon B. Johnson - to show how they first recognized leadership qualities within themselves, and were recognized as leaders by others. By looking back to their first entry into public life, when their paths were filled with confusion, hope, and fear, we can share their struggles and follow their development into leaders. *Leadership* tells the story of how they all collided with dramatic reversals that disrupted their lives and threatened to forever shatter their ambitions. Nonetheless, they all emerged fitted to confront the contours and dilemmas of their times. No common pattern describes the trajectory of leadership. Although set apart in background, abilities and temperament, they shared a fierce ambition, a hunger to succeed beyond expectations. All four, at their best, were guided by a sense of moral purpose that led them at moments of great challenge to summon their talents to enlarge the opportunities and lives of others. This seminal work provides a roadmap for aspiring and established leaders. In today's polarized world, these stories of authentic leadership in time of surpassing fracture and fear take on a singular urgency.

Abraham Lincoln

History has shown us that leadership can come from anywhere, from anyone. Some of the most recognizable names in history—Abraham Lincoln, Mahatma Gandhi—came from nothing. Some other recognizable names—Franklin Delano Roosevelt, Alexander the Great—came from great privilege. That's the beauty of leadership: its impartial to upbringing. History has also shown us that the world's greatest leaders come from all different fields. Albert Einstein is universally recognized as an innovative thought leader in science, while Mary Wollstonecraft is universally recognized as an innovative thought leader in the march towards women's rights. The bounds are endless. This book is a culmination of the great leaders of the world, ranking them based on two factors: leadership ability and impact on the world. It analyzes how the upbringing and life experiences of each of the chosen leaders influenced their leadership style, and what lessons can be pulled from them. The selected leaders impacted a broad range of people throughout their lives, and from many different platforms, from world leaders, to civil rights leaders, to philosophical leaders, to economic leaders, company leaders, and even to nation-building leaders. Every type of leader out there is examined in depth within these covers.

The Story of Abraham Lincoln

From a brilliant historian at the Harvard Business School, here is a masterful, in-depth portrait of five extraordinary figures—Ernest Shackleton, Abraham Lincoln, Frederick Douglass, Dietrich Bonhoeffer, and Rachel Carson—that illuminates how great leaders are made in times of adversity and the diverse skills they summon in order to prevail. Ten years in the writing, *Forged in Crisis*, by renowned Harvard Business School historian and Davos and Aspen Institute speaker Nancy Koehn, presents five remarkable life journeys—those of polar explorer Ernest Shackleton; President Abraham Lincoln; legendary abolitionist Frederick Douglass; Nazi-resisting clergyman Dietrich Bonhoeffer; and environmental crusader Rachel Carson. What do such disparate figures have in common? Why do their stories speak to us so powerfully today? Koehn begins each of the book's five sections by showing her protagonist on the precipice of a great crisis: Shackleton marooned on an Antarctic ice floe with no hope of rescue; Lincoln on the verge of the collapse of the Union; Douglass threatened with a return to enslavement; Bonhoeffer agonizing on what a man of faith should do when faced with absolute evil; Carson racing against the clock—and the cancer ravaging her—in a bid to save the planet. Koehn then reaches back to each person's early years to show the individual blooming into the force he or she would ultimately become. Through their confronting of obstacles, we begin to glean an essential truth: leaders are not born but made, and the power to lead resides in each of us. In a time when the highest offices in the land are occupied by the inexperienced and untested, the great question pressing on all of us is: What set of skills is required to lead in crisis, and can history give us answers? Whether it's read as a repository of great insight or as exceptionally rendered human drama, the riveting *Forged in Crisis* stands out as a towering achievement.

Phillips reveals how America's sixteenth president handled many of the same national dilemmas we face today. Looking to his exemplary leadership of a fractured nation, Phillips offers a deeply relevant analysis of how Lincoln's example could help forge solutions to the many issues and divisions challenging our country now. The Nature of Leadership

Good Democratic Leadership: On Prudence and Judgment in Modern Democracies explores whether, in the current atmosphere of international economic and political tension, and more generally, democracies foster and support effective political judgment and good leadership. In one sense, with their ideals of transparent government and extensive deliberation, democracies might appear to promote such good leadership and sound decision-making. Yet, in another sense, democratic leaders continue to face a number of challenges, including the sometimes cumbersome institutional limits placed on their discretion, the need for balance between national interest, popular sentiment and universal values as well as the problem of disproportionate influence of commercial interests in the management of the economy. In analysing various aspects of democratic leadership, judgement and decision-making from a variety of theoretical and practical perspectives, all the contributors to this book address this question of the extent to which democracies support good judgment and thereby the possibility of good leadership in democracies.

Good Democratic Leadership

George Washington, Abraham Lincoln, Theodore Roosevelt, Franklin Delano Roosevelt, John F. Kennedy-most would agree their presidencies were among the most successful in American history. But what made these very different men such effective leaders? According to presidential historian Gil Troy, these presidents succeeded not because of their bold political visions, but because of their moderation. Although many of the presidential hopefuls for 2008 will claim to be moderates, the word cannot conceal a political climate defined by extreme rhetoric and virulent partisanship. In *Leading From the Center*, Gil Troy argues that this is a distinctly un-American state of affairs. The great presidents of American history have always sought a golden mean-from Washington, who brilliantly mediated between the competing visions of Thomas Jefferson and Alexander Hamilton, to Lincoln, who rescued the Union with his principled pragmatism, to the two Roosevelts, who united millions of Americans with their powerful, affirmative, nationalist visions. As America lines up to select a president for the future, Gil Troy astutely reminds us of the finest traditions of presidential leadership from our nation's past.

Lincoln and the Sleeping Sentinel

Learning not shared is learning wasted. In my thirty-five years of experience in the oil and banking industries, including ascending levels of management and leadership responsibilities, I have gained what I believe to be valuable insight into many styles of leadership. Former President of the United States, Harry S. Truman, once said "It's what you learn after you know it all that really counts." We must continue our education if we want to keep pace with progress. The learning process that begins with our parents and through the influence of others with whom we associate continues throughout life. The insight I have received into what is successful has been clearly revealed through years of experience. There have been failures and there have been successes and it has not been difficult to discern the reasons for either. Careful thought has led to the extraction of the traits and characteristics that provide a leader with the best chance of success and they are delineated in this book. We should all be teachers and mentors and strive to improve the lives of those with whom we become associated. Our legacy in life is to live on through the lives of those we have touched. This book will enlighten you about the successful strategies I have employed in a myriad of situations as a leader and manager.

Leading from the Center

What is leadership? Can it be explained with a simple dictionary definition? In "Integrity: The Core of Leadership," authors Biju Michael and Richard Lochrie endeavor to explain a concept inherent to humanity as a whole: leadership. Is leadership merely the ability to convince others to do your will? Or is it something more, something that serves a higher purpose and greater good? Through meticulous research and interviews with many people currently in positions of leadership, the authors explore the diverse use of the word 'leader' throughout the course of history. Though people as different as Abraham Lincoln and Adolf Hitler have been considered 'leaders,' one thing separates the truly great leaders from all the rest: integrity. Ultimately, only leadership with integrity, based on a relationship between the leader and those who follow him in a quest to achieve the common good, can bring a bright future for all. What are the most dangerous pitfalls in the path of leadership? What are the support systems available for leaders at the top of the ladder? How can you lead to leave a positive legacy? Succinct discussions with examples from the lives of real leaders provided in the book will help leadership teams to work together to achieve meaning and true success in their individual and organizational lives. 'In "Integrity: The Core of Leadership," authors Biju Michael and Richard Lochrie mingle their research with the practical wisdom of twenty-eight prominent leaders of industry, religion, politics, sports, medicine, and entrepreneurship to trace guidelines for leaders. It is an indispensable book for every leader embarked on leaving a positive legacy.' - Mo Anderson, Vice Chairman, Keller Williams Realty
