Irwin Chusid profiles a number of "outsider" musicians - those who started as "outside" and eventually came "in" when the listening public caught up with their radical ideas. Included are The Shaggs, Tiny Tim, Syd Barrett, Joe Meek, Captain Beefheart, The Cherry Sisters, Daniel Johnston, Harry Partch, Wesley Willis, and others.

The History of Gambling in England

Difference between Gaming and Gambling-Universality and Antiquity of Gambling-Isis and Osiris-Games and Dice of the Egyptians-China and India-The Jews-Among the Greeks and Romans-Among Mahometans-Early Dicing-Dicing in England in the 13th and 14th Centuries-In the 17th Century-Celebrated Gamblers-Bourchier-Swiss Anecdote-Dicing in the 18th Century. Gaming is derived from the Saxon word Gamen, meaning joy, pleasure, sports, or gaming-and is so interpreted by Bailey, in his Dictionary of 1736; whilst Johnson gives Gamble-to play extravagantly for money, and this distinction is to be borne in mind in the perusal of this book; although the older term was in use until the invention of the later-as we see in Cotton's Compleat Gamester (1674), in which he gives the following excellent definition of the word: -"Gaming is an enchanting witchery, gotten between Idleness and Avarice: an itching disease, that makes some scratch the head, whilst others, as if they were bitten by a Tarantula, are laughing themselves to death; or, lastly, it is a paralytical distemper, which, seizing the arm, the man cannot chuse but shake his elbow.

The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Mem-

bers of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel – the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters – rock stars, hippies, murderers and politicians – happily coexisted alongside a covert military installation.

This is an original reprinting of the official Moravian missions history with new maps detailing their numerous missionary journeys. This printing is the first of three volumes, and covers the initial years of Moravian missions. Get beyond the myth and pulpit folklore about the Moravians and see what God really did in using this group of believers to bring the Gospel to unreached people groups around the world in the 17th and 18th centuries. This band of refugees, displaced by Catholic persecutions in their own land, found safety with the benevolent Count Zinzendorf in Herrnhut, Germany. After the group experienced a true Holy Spirit revival, Count Zinzendorf found in them a zealous band of dedicated missionaries that carried the Gospel across the world while those back home maintained an unbroken, 24/7 prayer meeting for a hundred years. Just as remarkable is that the Moravians went out with no steady financial support. They were 'tentmakers' in most places they went to enable the rapid spread of workers without reliance on a large home financial support network. The Moravians are among the most significant, and least known, influencers of the modern missions movement that began in the 1700s and continues to today. John Wesley, founder of the Methodist church, witnessed the Moravians during his fateful voyage across the Atlantic, later attributing Moravian influence to his own conversion. William Carey, considered the father of modern missions and a pioneer in bringing the Gospel to India, attributed his initial impetus for missions after reading about the activity of the Moravians. How did God use a band of largely uneducated craftsman and farmers to reach the world? You should read this definitive history of the Moravians to find out!

In *The Complete Book of 1960s Broadway Musicals*, Dan Dietz examines every musical and revue that opened on Broadway during the 1960s. In addition to providing details on every hit and flop, Dietz includes revivals and one-man and one-woman shows that centered on stars like Jack Benny, Maurice Chevalier, Marlene Dietrich, Danny Kaye, Yves Montand, and Lena Horne. In addition to entries for each production, the book offers numerous appendixes: a discography, film and television versions, published scripts, Gilbert and Sullivan operettas, and lists of productions by the New York City Center Light Opera Company, the New York City Opera Company, and the Music Theatre of Lincoln Center.

A History of Moravian Missions

A landmark American drama that inspired a classic film and a Broadway revival—featuring an introduction by David Mamet A blistering character study and an examination of the American melting pot and the judicial system that keeps it in check, *Twelve Angry Men* holds at its core a deeply patriotic faith in the U.S. legal system. The play centers on Juror Eight, who is at first the sole holdout in an 11-1 guilty vote. Eight sets his sights not on proving the other jurors wrong but rather on getting them to look at the situation in a clear-eyed way not affected by their personal prejudices or biases. Reginald Rose deliberately and carefully peels away the layers of artifice from the men and allows a fuller picture to form of them—and of America, at its best and worst. After the critically acclaimed teleplay aired in 1954, this landmark American drama went on to become a cinematic masterpiece in 1957 starring Henry Fonda, for which Rose wrote the adaptation. More recently, *Twelve Angry Men* had a successful, and award-winning, run on Broadway. For more than seventy years, Penguin has

been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Twelve Angry Men

Empire of the Air tells the story of three American visionaries—Lee de Forest, Edwin Howard Armstrong, and David Sarnoff—whose imagination and dreams turned a hobbyist's toy into radio, launching the modern communications age. Tom Lewis weaves the story of these men and their achievements into a richly detailed and moving narrative that spans the first half of the twentieth century, a time when the American romance with science and technology was at its peak. *Empire of the Air* is a tale of pioneers on the frontier of a new technology, of American entrepreneurial spirit, and of the tragic collision between inventor and corporation.

Jones, Barry Owen (1932–). Australian politician, writer and lawyer, born in Geelong. Educated at Melbourne University, he was a public servant, high school teacher, television and radio performer, university lecturer and lawyer before serving as a Labor MP in the Victorian Parliament 1972–77 and the Australian House of Representatives 1977–98. He took a leading role in reviving the Australian film industry, abolishing the death penalty in Australia, and was the first politician to raise public awareness of global warming, the 'post-industrial' society, the IT revolution, biotechnology, the rise of 'the Third Age' and the need to preserve Antarctica as a wilderness. In the Hawke Government, he was Minister for Science 1983–90, Prices and Consumer Affairs 1987, Small Business 1987–90 and Customs 1988–90. He became a member of the Executive Board of UNESCO, Paris 1991–95 and National President of the Australian Labor Party 1992–2000, 2005–06. He was Deputy Chairman of the Constitutional Convention 1998. His books include *Decades of Decision 1860–* (1965), *Joseph II* (1968), *Age of Apocalypse* (1975), and he edited *The Penalty is Death* (1968). *Sleepers, Wake!: Technology and the Future of Work* was published by Oxford University Press in 1982, became a bestseller and has been translated into Chinese, Japanese, Korean, Swedish and braille. The fourth edition was published in 1995. *Knowledge Courage Leadership*, a collection of speeches and essays, appeared in 2016.

The Big Book of Words You Should Know

Best-selling author Rory Stewart and political economist Gerald Knaus examine the impact of large-scale interventions, from Bosnia to Afghanistan. “A fresh and critically important perspective on foreign interventions” (Washington Post), *Can Intervention Work?* distills Rory Stewart’s (author of *The Places In Between*) and Gerald Knaus’s remarkable firsthand experiences of political and military interventions into a potent examination of what we can and cannot achieve in a new era of nation building. As they delve into the massive, military-driven efforts in Bosnia, Iraq, and Afghanistan, the authors reveal each effort’s enormous consequences for international relations, human rights, and our understanding of state building. Stewart and Knaus parse carefully the philosophies that have informed interventionism—from neoconservative to liberal imperialist—and draw on their diverse experiences in the military, nongovernmental organizations, and the Iraqi provincial government to reveal what we can ultimately expect from large-scale interventions and how they might best realize positive change in the world. Author and columnist Fred Kaplan calls *Can Intervention Work?* “the most thorough examination of the subject [of intervention] that I’ve read in a while.”

The Information: A History, a Theory, a Flood

Richard Cobb was one of the most distinguished British historians of the twentieth century. A professor at Oxford, a multiple prize-winner, author of numerous books and innumerable essays and reviews, he was proudest of all to be described as a Parisian. He was unconventional, anarchic and almost impossibly erudite. Somehow he managed in the course of a life of apparently unrelenting grandeur to write letters. They were scratchy, iconoclastic, funny, indiscreet, vivid, fluent, and occasionally brilliant set-pieces of descriptive or historical reporting. The sight of one of his ill-typed missives in a blue Basildon Bond envelope was always a promise of pleasure, and usually of instruction, frequently an invitation to a feast of scurrilous gossip, and an excuse to put off day-to-day concerns for a while. He wrote about politicians, the royal family, fellow academics and journalists, and, of course, mutual friends. The complete letters would fill many volumes, but here is a selection of the best, made by Tim Heald, who was taught by Cobb at university, and corresponded with him intermittently for the next thirty years.

Everybody has fears in common and in this unique handwritten book, the author (an adult with developmental disabilities) battles his fears by listing more than 138 of them. He explores the depths

of our most human emotion from small fears, like 'fear of bats' and 'fear of being different', to more complex fears like 'fear that if you put too much toilet paper in the toilet bowl it will run over and get all over the floor and on you and on someone else too, it would leak from upstairs to the next floor below'. This is a uniquely offbeat account of common worries and fears.

Can Intervention Work? (Norton Global Ethics Series)

Visionary composer, theorist, and creator of musical instruments, Harry Partch (1901-1974) was a leading figure in the development of an indigenously American contemporary music. A pioneer in his explorations of new instruments and new tunings, Partch created multimedia theater works that combine sight and sound in a compelling synthesis. He is acknowledged as a major inspiration to postwar experimental composers as diverse as György Ligeti, Lou Harrison, Philip Glass, and Laurie Anderson, and his book *Genesis of a Music*, first published in 1949, is now considered a classic. This book is the first to tell the complete story of Partch's life and work. Drawing on interviews with many of Partch's associates and on the complete archives of the Harry Partch Estate, Bob Gilmore provides a full and sympathetic portrait of this extraordinary creative artist. He describes Partch's complicated relationships with friends, patrons, the musical establishment, and the world at large. He traces Partch's upbringing in the remote desert towns of the Southwest, his explosive encounter with formal music education in Los Angeles, and his revolutionary course as a composer that began with an interest in the musicality of speech patterns. After immersing himself in hobo subculture during the Depression, Partch came to occupy a lonely and uncompromising position as a cultural outsider. Richly fascinating in themselves, Partch's compositions, writings, and life also have much to reveal about American society and the creative impulses of the artistic avant-garde.

The Romance of the Shoe

This book explores a provocative area of inquiry for critical theory and research into world politics and popular culture: music. Not just because political science barely engages with anything musical, but also because it is clear that many opportunities for critical scholarship and reflection on global politics and economics are present in the spaces and relationships created by organized sound. It is easy to focus on the textual elements of music, but there is more at stake than just the words. Critical reflection on the intersections between music and politics also need to take into account the visceral and non-verbal elements such as counterpoint and harmony, polyphony and dissonance, noise, rhymes, rhythms, performance and the visual/aural dimensions to music-making.

My Dear Hugh

From 1840 Miller was based in Edinburgh, where he was the founding editor of "The Witness" newspaper. This is his account of his summer breaks from journalism, seeking out fossils around Scotland in all weather conditions. It was written for publication in "The Witness". He often adopts a personal and autobiographical strain in his writing, illuminating observations with anecdotes from his own experiences. His style was influenced by his favourite boyhood authors, 18th-century writers such as Addison and Pope. The preface alludes to the tragic circumstances surrounding Miller's untimely death before the first publication of this work.

In 1938, under the direction of novelist and historian Lyle Saxon, The Federal Writers' Project of the Works Progress Administration produced this delightfully detailed portrait of New Orleans. Containing recipes, photographs and folklore, it is consistently hailed as one of the best books produced about the city. Remarkably, many of the sites and attractions the WPA chronicled in 1938 are still around today.

The Ampleforth Journal

Finley Peter Dunne, American journalist and humorist, is justly famous for his creation of Mr. Dooley, the Chicago Irish barkeep whose weekly commentary on national politics, war, and human nature kept Americans chuckling over their newspapers for nearly two decades at the beginning of this century. Largely forgotten in the files of Chicago newspapers, however, are over 300 Mr. Dooley columns written in the 1890s before national syndication made his name a household word. Charles Fanning offers here the first critical examination of these early Dooley pieces, which, far better than the later ones, reveal the depth and development of the character and his creator. Dunne created in Mr. Dooley a vehicle for expressing his criticism of Chicago's corruption despite the conservatism of most of his publishers. Dishonest officials who could not be safely attacked in plain English could be roasted with impunity in the "pure Roscommon brogue" of a fictional comic Irishman. In addition, Dunne painted, through the observations of his comic persona, a vivid and often poignant portrait of the daily life of Chicago's working-class Irish community and the impact of assimilation into American life. He also offered cogent views of American urban political life, already dominated by the Irish as firmly in Chicago as in other large American cities, and of the tragicomic phenomenon of Irish nationalism. Mr. Fanning's penetrating examination of these early Dooley pieces clearly establishes Dunne as far more than a mere humorist. Behind Mr. Dooley's marvelously comic pose and ironic tone lies a wealth of material germane to the social and literary history of turn-of-the century America.

The Beauty and the Beast legend has a universal appeal; the tale exists in numerous versions throughout the world. After all of its ups and downs, Disney's Beauty and the Beast was released in 1991 to rave reviews and record-breaking business. The film was widely hailed as a technical and aesthetic breakthrough. It was the first of only three animated features ever to be nominated for an Oscar for Best Picture. Its success has since spun into a smash Broadway musical adaptation, intricately detailed environments at Walt Disney World, and soon a live-action movie musical directed by Bill Condon. This authoritative book features interviews with artists, producers, directors, writers, actors, and more from the various beloved installments-making it a treasure trove of delights for fans of the tale as old as time.

Resounding International Relations

A completely updated, revised edition of the classic, outfitted with a whole new arsenal of indispensable knowledge on global affairs, popular culture, economic trends, scientific principles, and modern arts. Here's your chance to brush up on all those subjects you slept through in school, reacquaint yourself with all the facts you once knew (then promptly forgot), catch up on major developments in the world today, and become the Renaissance man or woman you always knew you could be! How do you tell the Balkans from the Caucasus? What's the difference between fission and fusion? Whigs and Tories? Shiites and Sunnis? Deduction and induction? Why aren't all Shakespearean comedies necessarily thigh-slappers? What are transcendental numbers and what are they good for? What really happened in Plato's cave? Is postmodernism dead or just having a bad hair day? And for extra credit, when should you use the adjective continual and when should you use continuous? An Incomplete Education answers these and thousands of other questions with incomparable wit, style, and clarity. American

Studies, Art History, Economics, Film, Literature, Music, Philosophy, Political Science, Psychology, Religion, Science, and World History: Here's the bottom line on each of these major disciplines, distilled to its essence and served up with consummate flair. In this revised edition you'll find a vitally expanded treatment of international issues, reflecting the seismic geopolitical upheavals of the past decade, from economic free-fall in South America to Central Africa's world war, and from violent radicalization in the Muslim world to the crucial trade agreements that are defining globalization for the twenty-first century. And don't forget to read the section "A Nervous American's Guide to Living and Loving on Five Continents" before you answer a personal ad in the International Herald Tribune. As delightful as it is illuminating, *An Incomplete Education* packs ten thousand years of culture into a single superbly readable volume. This is a book to celebrate, to share, to give and receive, to pore over and browse through, and to return to again and again.
