Jaspa's Journey 3: Jaspa's Waterloo

Finalist - Book Excellence Awards (2018) – Pre-Teen Fiction Category The third instalment of the award-winning Jaspa's Journey series for strong middle grade readers. Having conquered most of Europe, in 1815 the Emperor Napoleon Bonaparte and the might of France suffered their final, crushing defeat at the Battle of Waterloo, one of the most famous and brutal battles in history. So when Ben and Sam visit the legendary battlefield, Jaspa and his friends can't resist tagging along. But when Ben is tricked into a loaded dare by his bullying nemesis, Gobber, all bets are off. To win, Ben must find something called a geocache – part of a worldwide scavenger hunt based on GPS technology – hidden somewhere on the famous battlefield. After nearly getting trampled during an all-too-real re-enactment of the combat, Jaspa and the others set out to scour the battlefield for the cache. They've hardly begun when their task is unexpectedly complicated by a sudden onslaught of unprovoked attacks by a fierce Ses stranger. Will the friends succeed in turning the tables on Gobber's sly plan, by finding the geocache in time? Will they discover the reason for the hostility of the mysterious stranger? Or will Waterloo again be a place of defeat, as it was for Napoleon two centuries ago?

Jaspa's Journey 4: The Hermit of Kennecott

Winner: Independent Press Awards (2021) – Juvenile Fiction Category Gold Winner: Elite Choice Awards (2020) – Children's Book (8-12) Category Honorable Mention: Purple Dragonfly Awards (2021) – Middle Grade Fiction Finalist: Book Excellence Awards (2021) – Pre-Teen Fiction Category Readers' Favorite Five Star Review In the latest award-winning adventure of the Jaspa's Journey series for strong middle grade readers, Jaspa and his friends find themselves battling the Alaskan wilderness. When one of their number comes down with a Ses variant of Spanish Flu, the last pandemic to require worldwide lockdowns, they must brave the northern wilds, searching for a ghost town that may be home to an elusive Hermit who might hold the key to a cure.

Jaspa's Journey 2: The Pride of London

Finalist - 11th Annual National Indie Excellence Awards (2017) – Pre-Teen Fiction Category Readers' Favorite Five Star Review The second adventure of the award-winning Jaspa's Journey series for strong middle grade readers. Jaspa and his friends embark on a whirlwind tour of London while attempting to solve the riddles of 'the Path', a quest that will enable their new friend, Ernest, to fulfil his dream of becoming a member of the secret Ses society known as 'the Pride'. Their route speeds them from famous landmarks to parts of the city most tourists never see. Yet something feels wrong. It's almost as if the Path is designed to be absolutely impossible. As the clock ticks down, Jaspa, Ernest and the others rush towards their final goal... And the surprising discoveries that await them at the Path's ultimate destination.

Jaspa's Journey: The Great Migration

Originally published in 1940, this book contains a history of the West Coast of Africa from the invasion by the Portuguese in 1455 until 1938, when the area was under British control. Gray, who was a judge on the Supreme Court of the Gambia at the time, documents the often-bloody colonial developments in the area and the 'many vicissitudes of fortune' that the area had gone through since the first arrival of white people on its shores. This book will be of value to anyone with an interest in the colonial history of Africa.

A comprehensive introduction to the physiology, biochemistry, and molecular biology of produce growth, paired with cutting-edge technological advances in produce preservation Revised and updated, the second edition of Postharvest Biology and Nanotechnology explores the most recent developments in postharvest biology and nanotechnology. Since the publication of the first edition, there has been an increased understanding of the developmental physiology, biochemistry, and molecular biology during early growth, maturation, ripening, and postharvest conditions. The contributors—noted experts in the field—review the improved technologies that maintain the shelf life and quality of fruits, vegetables, and flowers. This second edition contains new strategies that can be implemented to remedy food security issues, including but not limited to phospholipase D inhibition technology and ethylene inhibition via 1-MCP technology. The text offers an introduction to technologies used in production practices and distribution of produce around the world, as well as the process of senescence on a molecular and biochemical level. The book also explores the postharvest value chain for various produce, quality evaluation techniques, and the most current nanotechnology applications. This important resource:

- Expands on the first edition to explore in-depth postharvest biology with emphasis on developments in nanotechnology
- Contains contributions from leaders in the field
- Includes the most recent advances in postharvest biology and technology, including but not limited to phospholipase D and 1-MCP technology
- Puts the focus on basic science as well as technology and practical applications
- Applies a physiology, biochemistry, and biotechnology approach to the subject

Written for crop science researchers and professionals, horticultural researchers, agricultural engineers, food scientists working with fruits and vegetables, Postharvest Biology and Nanotechnology, Second Edition provides a comprehensive introduction to this subject, with a grounding in the basic science with the technology and practical applications.

F stands for "funny" in this perfect gift for students or anyone who has ever had to struggle through a test and needs a good laugh. Celebrating the creative side of failure in a way we can all relate to, F in Exams gathers the most hilarious and inventive test answers provided by students who, faced with a question they have no hope of getting right, decide to have a little fun instead. Whether in science (Q: What is the highest frequency noise that a human can register? A: Mariah Carey), the humanities (Q: What did Mahatma Gandhi and Genghis Khan have in common? A: Unusual names), math, or other subjects, these 250 entries prove that while everyone enjoys the spectacle of failure, it's even sweeter to see a FAIL turn into a WIN.

Introducing a witty and unique voice poised to take the literary world by storm. For fans of The Borrowers, Munmun and The Truckers. Everybody became a bit mean. A bit individual. Units. That's all humanity could say for itself – well, it couldn't actually, because it was made up of too many, um, units. And then there were the elderly, who could never bear to be so isolated, yet isolated they were. It was cruel, really it was. And kids – not that many people had them any more – they seemed to be born sitting in one of those egg-shaped chairs, only seeing what was right in front of them. So, the government asked a doctor, that famous one, to get a team together and figure it all out. He did. Everyone got a playmate. Well, everyone who wanted one, could buy a playmate. About a foot tall, they stood, naked (except in winter), very affectionate, not too intelligent. Mute, but cute - exactly what every home needs. Something to love, little units of love. The Biggerers is set in a dystopian future where our two heroes, Bonbon and Jinx, spend their days gathering stones and feathers for their basket, and waiting to be fed by their owners. But it's not long before getting sick, falling in love and wondering why they can't eat with a spoon pushes them to realise they are exactly the same as their owners...only smaller.

Papua New Guinea's economic growth has outpaced the majority of economies in Southeast Asia and the Pacific since 2007. Its development challenges, however, remain daunting, and it lags behind other countries in the region in terms of per capita income and achievement of the Millennium Development Goals. This raises the question of how the country can make its economic growth high, sustained,

inclusive, and broad-based to more effectively improve its population's welfare. This report identifies the critical constraints to these objectives and discusses policy options to help overcome such constraints.

Technology Policy and Practice in Africa

Does Africa have a future? What are the visions, hopes, ambitions and fears of young Africans for the future of the world, the continent, their nation, and their communities? How do they envision this world and their roles within it? These issues have not previously been explored collectively by Africans because of the enormous challenges and the preoccupation with the present. But Africa must not allow the enormity of the problems to blind it to its past and future. Africa must chart its own vision of a desirable future, and therefore young Africans, born just before or after independence, were challenged to reflect on the future of the continent. This book presents the response to that challenge. In this book, the voices of a new generation of Africa are heard exploring the future from personal and diverse perspectives. The authors have enumerated the ills of Africa, analyzed the problems and explored the opportunities. Remarkably, despite the daunting nature of the challenges, they were all hopeful about the future. They provided their visions of the future, suggest numerous ideas on how to build a new Africa, and implored Africans to take responsibility for the transformation of the continent. Given the current emphasis on African renaissance and union, the ideas presented here could become the basis for a truly shared vision for the continent.

Environmental issues are all too often treated separately from politics and social change. This volume tries to redress the balance. Common to the essays is a search for the interrelationship between ecological stress and politics.

The Biggerers

Originally published in 1981, perceptual organization had been synonymous with Gestalt psychology, and Gestalt psychology had fallen into disrepute. In the heyday of Behaviorism, the few cognitive psychologists of the time pursued Gestalt phenomena. But in 1981, Cognitive Psychology was married to Information Processing. (Some would say that it was a marriage of convenience.) After the wedding, Cognitive Psychology had come to look like a theoretically wrinkled Behaviorism; very few of the mainstream topics of Cognitive Psychology made explicit contact with Gestalt phenomena. In the background, Cognition's first love – Gestalt – was pining to regain favor. The cognitive psychologists' desire for a phenomenological and intellectual interaction with Gestalt psychology did not manifest itself in their publications, but it did surface often enough at the Psychonomic Society meeting in 1976 for them to remark upon it in one of their conversations. This book, then, is the product of the editors' curiosity about the status of ideas at the time, first proposed by Gestalt psychologists. For two days in November 1977, they held an exhilarating symposium that was attended by some 20 people, not all of whom are represented in this volume. At the end of our symposium it was agreed that they would try, in contributions to this volume, to convey the speculative and metatheoretical ground of their research in addition to the solid data and carefully wrought theories that are the figure of their research.

ELECTION ATLAS OF INDIA

This Handbook contains a unique collection of chapters written by the world's leading researchers in the dynamic field of consumer psychology. Although these researchers are housed in different academic departments (ie. marketing, psychology, advertising, communications) all have the common goal of attaining a better scientific understanding of cognitive, affective, and behavioral responses to products and services, the marketing of these products and services, and societal and ethical concerns associated with marketing processes. Consumer psychology is a discipline at the interface of marketing, advertising and psychology. The research in this area focuses on fundamental psychological processes as well as on issues associated with the use of theoretical principles in applied contexts. The Handbook presents state-of-the-art research as well as providing a place for authors to put forward suggestions for future research and practice. The Handbook is most appropriate for graduate level courses in marketing, psychology, communications, consumer behavior and advertising.

This Special Issue aims to provide an extensive mapping of policies in the promotion of ethnic entrepreneurship in a number of countries. It is motivated by the desire of national and municipal Governments to create an environment conducive to setting up and developing SMEs in general and immigrant businesses in particular. Furthermore it also highlights how the third sector has also had a crucial role in the reinforcement of immigrant entrepreneurship, and provides indications of how best to address this issue at a Governmental level in the future.
