Sell with Soul

In *Sell with Soul* the author shares her rise from a nervous rookie agent to a successful real estate broker in Denver, Colorado. The book contains detailed instructions and checklists for many of the activities a new agent must master, such as building a contact database, learning the market, working with buyers, crafting marketing listings, and negotiating inspections. Allan also shares many stories from her own career that will help the new agent better understand her recommendations. *Sell with Soul* also speaks out against the status quo and asks agents to consider the needs of their clients before considering their own personal need for a paycheck, and counsels agents to welcome every learning experience, even when it does not result in a closed sale. Many new agents have told Allan how her book gave them hope that they could succeed without sacrificing their principles or changing their personalities.

This book is an answer to every new agent's daily quandary: "What do I need to do today to succeed and how do I do it? *Sell with Soul* is written by a "real" real estate agent - one who is willing to share her early insecurities, mistakes and missteps with you. She describes everyday dilemmas and creative solutions to them, shows you innovative marketing plans and concrete organizational tools. Jennifer's strategies are simple and clear, and will save you a tremendous amount of time figuring out what really works...and what probably doesn't. Most importantly, Jennifer shows us that you can be a successful real estate agent and still have "soul"- that is, to be a positive, honorable and respectful person. That even though you work on commission, you can adhere to the "Golden Rule" and be proud of how you handle yourself and your business. It is a refreshing change from cookie-cutter business and how-to books that forget to put the reader into the equation." "Not only informative and highly readable, it's witty, charming and a good read. Jennifer really draws you into her world and makes you interested in it. Real estate her way sounds as if it's fun and rewarding." "*Sell with Soul* is a must-read for any real estate professional earning less than \$150,000 per year. It provides a clear picture of how ethical business practices can do far more to make you a winner than any persuasive sales tactics."

Careers as a Commissioned Sales Representative

"The Secret of Joy in work is one word - excellence. To know how to do something well is to enjoy it." Pearl S. Buck "The more fun you have selling real estate, the more real estate you will sell." Jennifer Allan, GRI What is "fun" exactly? And how do you have some more of it? Having more fun at work isn't about long lunches, casual Fridays or bring-your-dog-to-work day. It's about being really, really good at what you do. And knowing it. It's about being proud of how you promote yourself and your business. It's about making a comfortable (or even exceptional) income without changing who you are or becoming someone you don't recognize. It's about getting up every morning, eager to get to work, because you know you're the best thing that could ever happen to your clients. Now that's fun. In this sequel to *Sell with Soul*, Jennifer Allan shows you how to: Generate business and referrals from friends without making a nuisance of yourself; Win at the Numbers Game without spending a fortune or filling up land-fills; Become the agent who SELLS houses, not just lists them; Fill your pipeline by productively wasting your time; Painlessly and confidently negotiate commissions; List more houses by tossing out the listing presentation; Trust your gut when choosing a prospecting strategy; ...and of course... have more fun, make more money and enjoy the heck out of your real estate career!

Real Estate Agent: What do real estate agents do? Help someone sell their house. Help someone buy a house. Be on hand for commercial property sales and transactions. Sure, all of three answers are correct. Real estate agents can help with the selling or buying of residential or commercial property. But, what else do real estate agents do? How do they make these transactions? How do they find clients? There is a lot more to being a real estate agent, than the simple answers above. Not everyone in the world could be a real estate agent successfully, if they wanted to. It takes a specific skill set to be a real estate agent. Furthermore, it takes dedication to the career. It is not a passive income career, where you can make thousands each month to bolster your current income. As a comprehensive guide,

this book promises to give you the answers you seek about what it means to be a real estate agent. Have you ever wanted to earn more money than you're currently earning? Does your current job cause your toes to curl at the thought of it? Do you wish your career offered you more in terms of fulfillment? Millionaire Real Estate Agent - Success in Good Times and Bad (EBOOK BUNDLE)

In the Real Estate industry, as in most sales professions, prospecting is a dirty word. Far too many people enter the field of Real Estate believing they can wait for the phone to ring and earn a great living. Unfortunately, many new agents set themselves up for failure by this approach to the business. A real estate professional's goal is to list and sell real estate. One of the primary keys to being successful is to identify those people who truly want or need to move, and find a way to meet with them. This concept of identifying and targeting likely buyers and sellers is called prospecting, and it is a process, not an event.

START SELLING REAL ESTATE

Whether your plan is to start selling real estate as a full-time agent, or to be a part-timer with an eye on transitioning to full time after you quit your day job, or you just want to boost your current income by staying part-time, you will be confronted with an array of choices. How can new agents figure out which agency is the right fit for their financial goals and lifestyle? Sadly, the dropout rate for new agents is well over 80 percent. The primary reason is the choices new agents make from the start. They do not understand the significant differences between the franchise chains, the boutiques (luxury and otherwise), and the small, home-based brokerages. There are pros and cons for each type of office. Realtors who do not understand these differences hop from company to company. There are also hidden fees and agendas that are not disclosed to the new agent; there are hierarchies and unspoken policies in place at every office. Not knowing about the important details that are seldom disclosed up front causes agents to change companies multiple times, especially in their first year. In doing so, they lose confidence and momentum along with their customers and their listings. The new agent who can avoid the common pitfalls will not be one of the 80 percent who fail. What the new agent needs is empowering, street-smart information and Valerie Thorne's Start Selling Real Estate offers just that. The author's goal is to provide new agents with the kind of real-world information that will enable them to make the right choices from the beginning of their careers. It will help new agents avoid time and money wasting activities. This book walks you through the types of agencies and provides you with the information that will help you decide which office is the best fit for you, based on your needs and goals. It explains the financial impact of different combinations of fees and agent/broker splits: the portion of the money that goes to you and the portion that goes to your office once a deal has closed. It will explain why your broker's agenda is to get you to buy lead-generating and marketing services you don't need, and offers tips on how to sidestep their demands. Let Valerie give you the straight-up talk so you can be street-smart in this lucrative but rough-and-tumble game called real estate. Let her empower you to get started the right way. Who should read this book? •Anybody who is on the fence about a career in real estate or wonders about the initial costs and how long the process takes •Anybody who is afraid to get started because he or she does not understand how the real estate game is played •Anybody who

is in real estate school now or just signed up for classes •Anybody with a lot of questions about what to expect•Anybody who is a new agent or is about to become an agent and wants straight-up advice on how not to become one of the 80 percent that fails•Anybody who needs guidance in choosing the right office •Anybody who passed the state exam but never moved forward in real estate because of the minefield of choices and expenses •Anybody who is jumping from agency to agency, from one bad situation to the next, and needs to know how to stop the cycle•Any agent who is struggling as he or she comes to that make-or-break first-year mark when most give up and quitUse Valerie's hard-won knowledge to guide you through the process of getting a license, choosing the right agency for your goals and needs, and to help start your real estate career.

The Ultimate Guide to Real Estate

With hundreds of strategies, insider's tips and techniques, this book is useful for home-buyers and property investors alike.

The Complete Guide to Property Investment

From the author of Amazon best-sellers "Property Investment For Beginners" and "Beyond The Bricks" Over the last 20 years, more than a million Brits have made life-changing profits from buy-to-let. But as prices keep rising and the tax landscape changes, investors need to get smarter in order to succeed. It's far from "game over," but the game is changing... for the better. The unwary and under-prepared will be squeezed from the market - leaving educated, strategic investors to have their best decade yet. The previous edition of this book is *The Complete Idiot's Guide to Real Estate Investing, Second Edition*. The book focuses heavily on commercial real estate investing, but given the absence of the word commercial in the title and elsewhere within the book, it was purchased by many whose interests in real estate were of a much smaller scale and involved residential income properties, as opposed to commercial real estate development. *The Complete Idiot's Guide to Commercial Real Estate Investing, Third Edition*, is retitled and slightly refocused to better target the intended audience aspiring commercial real estate investors/developers. What little coverage of residential income properties that existed in previous editions has been cut, and the remaining content has been updated to clearly reflect the focus on buying and selling commercial properties.

One of the primary keys to being successful is to identify those people who truly want or need to move, and find a way to meet with them. This concept of identifying and targeting likely buyers and sellers is called prospecting, and it is a process, not an event.
