Les territoires sans loi

La Sibérie. Un complexe de recherches stratégiques sur la télépathie perdu au milieu de la toundra. En arrivant dans cette nouvelle affectation, le colonel Aksionov pénètre dans une atmosphère étrange et lourde où couve la révolte. Inexplicablement, désertions et suicides se multiplient. Et le personnel du camp 117 semble garder jalousement un bien curieux secret. Bientôt, Aksionov est l'objet d'agressions mentales qui tendent à utiliser ses faiblesses et son passé pour le déstabiliser. Quel rôle joue le professeur Larine, spécialiste des problèmes parapsychologiques ? Et Mikhaïlova, la télépathe si fragile qui ne sort des laboratoires qu'au milieu de la nuit ? Et que cherche la bande de pillards surgie de nulle part qui, soudain, assiège le complexe ? Dans la décomposition de l'URSS, les étendues sibériennes sont devenues des territoires sans loi où seul peut gagner le plus fort et le plus déterminé. Face à Adylov et à sa bande, face à la psychose qui règne dans le camp, face à la trahison de ses propres hommes, Aksionov sera-t-il celui-là ?

Aux sources du roman colonial

Les discours tenus aujourd'hui sur l'Afrique restent pour une large part pénétrés des fantasmes nourris par la conquête coloniale à la fin du XIXe siècle. Pour les saisir à leurs origines, l'auteur de ce livre est remonté aux sources du roman colonial français. De la visite d'un continent alors si mal connu qu'on pouvait tout en dire, il ressort que la France, ligotée dans les certitudes rigides du positivisme, du nationalisme et du radicalisme, a rencontré l'Afrique à la pire époque de son histoire intellectuelle, au point de faire d'elle le laboratoire fictionnel de ses songeries génocidaires, voire de ce qui apparaît après coup comme un protofascisme français.

A l'ère de la mondialisation et des recompositions identitaires qu'elle induit, la nouvelle doxa culturelle semble considérer comme advenue la fin des sédentarités et des inscriptions identitaires enracinées dans un territoire donné. Cette opinion est confortée par le fait que certains écrivains africains remettent

en question la notion d'appartenance à un espace littéraire national et considèrent que le temps de la " littérature monde " est désormais venu. Dans ce contexte, le terme de territoire semble devenu obsolète et il est nécessaire d'en réexaminer les définitions. Qu'il soit géographique ou historique, le territoire varie d'un lieu circonscrit à un espace symbolique transmis par la tradition orale ou réinventé par l'écriture. La littérature joue alors le rôle d'occupation du territoire mental qu'elle marque en tant qu'activité artistique. Les migrations trouvent également leur place dans cette appropriation nomade, déterritorialisée. L'interprétation du lieu comme espace soumis à des temporalités multiples - mythiques, historiques, légendaires - dépend des stratégies rhétoriques adoptées dans les différents imaginaires des territoires. Mais quelle est la relation que les écrivains africains entretiennent avec le territoire ? Cette relation a-t-elle évolué au cours des décennies ? Comment les territoires sont-ils représentés ou mis en jeu dans les littératures africaines ? Ce sont là quelques questions auxquelles cet ouvrage tente de répondre.

La Pépite d'or du Salon du livre et de la presse jeunesse de Montreuil 2019. Lorsqu'une hors-la-loi débarque chez lui et le kidnappe, Garrett est terrifié. Pourtant Ab Stenson, cette femme indomptable, est celle qui lui ouvrira les portes d'un avenir moins sombre, loin de son père violent. Fasciné par sa ravisseuse, Garrett découvrira ses plus grands secrets, ceux qu'on ne révèle qu'à ses plus proches amis. Dans son sillage, il rencontrera l'amour et l'amitié, là où il les attendait le moins. Jusqu'au bout de la route, où Ab lui offrira le plus beau des destins : la liberté. " La première fois que j'ai obéi à Ab Stenson, je n'ai pas vu qu'elle était belle. D'ailleurs je n'ai pas compris que c'était une femme avant un moment, vu qu'elle portait des habits d'homme, le cheveu court, et qu'elle était si sale que seul un homme – du moins je le pensais à l'époque – pouvait traîner un col noir de crasse comme le sien et des paquets de poussière rouge au creux de chaque pli du visage. "

Trois interventions retranscrites telles quelles dans ce recueil issu de la Chaire poétique organisée à l'Université de Louvain en mars 2001. Les trois auteurs s'expriment sur la genèse de leur oeuvre.

Une théorie de la loi comme roman devient peu à peu le mainstream de la pensée du droit et du politique sur les deux rives de l'océan Atlantique. Abandonnant les vieilles fables du contrat social, de l'ordre (juridique) et de l'Etat national, cette nouvelle pensée interroge le droit à l'aide des catégories de sexe et d'interdit, de pourriture et de sacré, de violence faite à l'étranger, de genre, de personnage, de masque, de métaphore et de métonymie, de cohérence narrative et anthropologique... Une relecture est ainsi en cours de ce qu'est une personne, un corps, un Etat, et de ce qui fonde et justifie la cohérence du droit. Plus important encore, une réécriture du droit est en cours. Si la loi est un roman, il est possible de réinventer de nouveaux personnages et de nouveaux rôles, c'est-à-dire de réenchanter les vieilles catégories de sujet, parentalité, sexualité, ou même de démocratie. Un roman nouveau pour une nouvelle politique de l'imaginaire.

Cette étude met en évidence l'importance du thème de l'incarcération dans la formation du roman en France au seuil de l'époque moderne (XVIIe et XVIIIe siècles). La présence remarquable des mêmes motifs saillants (menace d'emprisonnement, description des geôles, aspiration à la délivrance) est le reflet et le symptôme des inquiétudes d'un genre en plein essor, obsédé par les menaces de censures, mais dynamisé par des tours d'expression inédits et par la passion de l'affranchissement des contraintes. Insaisissables sous mille facettes variées, les personnages picaresques d'Alemán, Quevedo (adaptés en français), Sorel, Cyrano, Courtiz de Sandras, Lesage, Prévost, Voltaire ou Diderot constituent des caricatures burlesques de l'incarcération, oscillant entre fixité (l'héritage socratique ou paulinien de l'emprisonnement comme épreuve de vérité) et mobilité.

As a law student and young lawyer in the 1760s, Thomas Jefferson began writing abstracts of English common law reports. Even after abandoning his law practice, he continued to rely on his legal commonplace book to document the legal, historical, and philosophical reading that helped shape his new role as a statesman. Indeed, he made entries in the notebook in preparation for his mission to France, as president of the United States, and near the end of his life. This authoritative volume is the first to contain the complete text of Jefferson's notebook. With more than 900 entries on such thinkers as Beccaria, Montesquieu, and Lord Kames, Jefferson's Legal Commonplace Book is a fascinating chronicle of the evolution of Jefferson's searching mind. Jefferson's abstracts of common law reports, most published here for the first time, indicate his deepening commitment to whig principles and his incisive understanding of the political underpinnings of the law. As his intellectual interests and political aspirations evolved, so too did the content and composition of his notetaking. Unlike the only previous edition of Jefferson's notebook, published in 1926, this edition features a verified text of Jefferson's entries and full annotation, including essential information on the authors and books he documents. In addition, the volume includes a substantial introduction that places Jefferson's text in legal, historical, and biographical context.

La conquête de l'ouest ne s'est pas faite en toute quiétude, c'est ce que montre ce roman policier basé sur des faits réels. Des milliers de personnes, toutes fort remarquables, ont lutté pour une plus grande unité des territoires viables, en affrontant des gangs sans scrupule et sans loi. C'est dans cette lutte sans merci que naquit... une démocratie.

Angel

Angel is the son of the devil, bleeding Luciano blood. Adalyn is fascinated by bad boys, bleeding Caruso blood. Seized by his enemies, he's only a moment away from death. Toying with the enemy, she's about to get caught in her own trap. One kiss could betray his family and seal his fate. That kiss could cost her life. I'm just a f**king pawn. I just want to be a f**king mob wife.

Nero

Elle is determined to keep her mouth shut when the mob boss tells Nero to make her talk.

Vincent

Vincent knows the glamorous side of the Mafia, being born a soldier. Lake lives on the opposite side of the tracks, born the daughter of a soldier. The light and dark side of him are at constant war, but he is letting his darkness reign. She is trying to find peace, and she will soon be far enough away to find it. Discovering that his boss owns her, showed him how little he knew her. Knowing all about him only makes her want to hate him. I'm a fu**ing made man. I'm just fu**ing trailer trash.

Made Men

Despite depictions to the contrary, the mafia is not a cadre of noble and righteous warriors, a class of citizens working in the shadows but upholding traditional values. Instead, the authors argue, it is a brutal, violent, and ignoble organization that ultimately violates the boundaries of acceptable behavior both within the family and without.

Self-Made Man

A journalist's provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with the publication of *Self-Made Man*, her take on just how hard it is to be a man, even in a man's world. Following in the tradition of John Howard Griffin (*Black Like Me*), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren't around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men's therapy group. At once thought-provoking and pure fun to read, *Self-Made Man* is a sympathetic and thrilling tour de force of immersion journalism.

Drago

Christopher A. Johnson believes that everyone can be great in life. Greatness is not a skill, it's a mindset and a disposition. Great people do great things! This mindset starts from within. A former coach, player, motivation speaker and mentor, Chris brings a unique blend of experiences and insight to help push people to greatness.

Man Made Men: A Man's Guide to Making Other Men

Dominic was raised as the devil's right-hand man, the rightful heir to the Luciano throne. Maria was raised as a princess, excluded from holding any power in the Caruso family. The sins of his father is his debt to pay. The only sin she wants him to pay for is one his family did not commit. In love with a dead man, can he get her to love his killer? Hell will freeze over before she'll ever love again. I just want to be the f*cking king. I'm just a f*cking princess.

Dominic

A revealing look at the making of Martin Scorsese's iconic mob movie and its enduring legacy, featuring interviews with its legendary cast. When *Goodfellas* first hit the theatres in 1990, a classic was born. Few could anticipate the unparalleled influence it would have on pop culture, one that would inspire future filmmakers and redefine the gangster picture as we know it today. From the rush of grotesque violence in the opening scene to the iconic hilarity of Joe Pesci's endlessly quoted "Funny how?" shtick,

it's little wonder the film is widely regarded as a mainstay in contemporary cinema. In the first ever behind-the-scenes story of Goodfellas, film critic Glenn Kenny chronicles the making and afterlife of the film that introduced the real modern gangster. Featuring interviews with the film's major players, including Martin Scorsese and Robert De Niro, Made Men shines a light on the lives and stories wrapped up in the Goodfellas universe, and why its enduring legacy has such a hold on American culture. Dark Ties

In *Self-Made Men*, Henry Rubin explores the production of male identities in the lives of twenty-two FTM transsexuals--people who have changed their sex from female to male. The author relates the compelling personal narratives of his subjects to the historical emergence of FTM as an identity category. In the interviews that form the heart of the book, the FTMs speak about their struggles to define themselves and their diverse experiences, from the pressures of gender conformity in adolescence to being mistaken for "butch lesbians," from hormone treatments and surgeries to relationships with families, partners, and acquaintances. Their stories of feeling betrayed by their bodies and of undergoing a "second puberty" are vivid and thought-provoking. Throughout the interviews, the subjects' claims to having "core male identities" are remarkably consistent and thus challenge anti-essentialist assumptions in current theories of gender, embodiment, and identity. Rubin uses two key methods to analyze and interpret his findings. Adapting Foucault's notions of genealogy, he highlights the social construction of gender categories and identities. His account of the history of endocrinology and medical technologies for transforming bodies demonstrates that the "family resemblance" between transsexuals and intersexuals was a necessary postulate for medical intervention into the lives of the emerging FTMs. The book also explores the historical emergence of the category of FTM transsexual as distinguished from the category of lesbian woman and the resultant "border disputes" over identity between the two groups. Rubin complements this approach with phenomenological concepts that stress the importance of lived experience and the individual's capacity for knowledge and action. An important contribution to several fields, including sociology of the body, gender and masculinity, human development, and the history of science, *Self-Made Me* will be of interest to anyone who has seriously pondered what it means to be a man and how men become men.

Made Men

These new essays examine philosophical issues at the intersection of feminism and autonomy studies. Are autonomy and independence useful goals for women and subordinate persons? Is autonomy possible in contexts of social subordination and oppression? Is the pursuit of desires that issue from patriarchal norms consistent with autonomous agency? How should we understand the concepts of relational autonomy and adaptive preferences? How do emotions and caring relate to autonomous deliberation? Contributors to this collection answer these and related questions.

Autonomy, Oppression, and Gender

****Winner of the Pulitzer Prize in History**** "Extraordinary...a great American biography" (The New Yorker) of the most important African-American of the nineteenth century: Frederick Douglass, the escaped slave who became the greatest orator of his day and one of the leading abolitionists and writers of the era. As a young man Frederick Douglass (1818–1895) escaped from slavery in Baltimore, Maryland. He was fortunate to have been taught to read by his slave owner mistress, and he would go on to become one of the major literary figures of his time. His very existence gave the lie to slave

owners: with dignity and great intelligence he bore witness to the brutality of slavery. Initially mentored by William Lloyd Garrison, Douglass spoke widely, using his own story to condemn slavery. By the Civil War, Douglass had become the most famed and widely travelled orator in the nation. In his unique and eloquent voice, written and spoken, Douglass was a fierce critic of the United States as well as a radical patriot. After the war he sometimes argued politically with younger African Americans, but he never forsook either the Republican party or the cause of black civil and political rights. In this “cinematic and deeply engaging” (The New York Times Book Review) biography, David Blight has drawn on new information held in a private collection that few other historians have consulted, as well as recently discovered issues of Douglass’s newspapers. “Absorbing and even moving...a brilliant book that speaks to our own time as well as Douglass’s” (The Wall Street Journal), Blight’s biography tells the fascinating story of Douglass’s two marriages and his complex extended family. “David Blight has written the definitive biography of Frederick Douglass...a powerful portrait of one of the most important American voices of the nineteenth century” (The Boston Globe). In addition to the Pulitzer Prize, Frederick Douglass won the Bancroft, Parkman, Los Angeles Times (biography), Lincoln, Plutarch, and Christopher awards and was named one of the Best Books of 2018 by The New York Times Book Review, The Wall Street Journal, The Boston Globe, The Chicago Tribune, The San Francisco Chronicle, and Time.

'Curtin is one of Ireland's best writers.' Roddy Doyle 'Michael Curtin's first and very funny novel gives a good impression of being a free-wheeling, rumbustious shaggy-dog story while actually being a carefully structured and ordered work of considerable craftsmanship... the story grips and entertains until the last page.' British Book News 'I thoroughly enjoyed Michael Curtin's debut and look forward to his second novel.' The Irish Press The hero of this wonderfully funny first novel is a young Irishman, Billy Whelan, who one lonely, dinnerless Christmas day in London, in that desert stretch of afternoon when the pubs are shut and Kilburn High Road dead as a tomb, huddles in his rented room and in desperation answers an ad in one of his collection of Screen Monthlies. He soon finds himself in a deep and confessional correspondence with a box number in New York and by the time we meet him next, in Limerick, married and with two small children, he is president of Fart International, an organisation with American money in the bank but as yet no members but himself. How Billy collects the handful of eccentrics who are to be the members of this ego-boosting club and how this activity meshes in with his career as an ice-cream hawker and his marriage to Breda - which is bedevilled by his enthusiasm for pubs and scant though affectionate relationship with his children - is the stuff of this refreshingly unusual tale. Fart International, of which the true origin remains obscure until the book ends, is both an absurd joke and an answer to a psychological need. Through it the fatherless Billy and its secret founder re-imagine themselves and absolve the loneliness and the failures of the past - a past which for Billy holds not just the desolation of that Christmas day but his imagined humiliation at the hands of four schoolfellows - Higgins, Murphy, Nicky and Mark Brown. How Billy, buoyed up by the lunatic fraternity of Fart International and by warm memories of the old Irishman, Hogan, in whose beery glow he spent many hours in London, confronts these ghosts at an Old Boy's Dinner, and how Breda (from the classy end of town, but persuasively courted and won by the engaging Billy) gets her washing machine and a step nearer to a conventional home are two more threads in this finally triumphant tale.

Frederick Douglass

A captivating blend of personal biography and public drama, *The Wise Men* introduces the original best and brightest, leaders whose outsized personalities and actions brought order to postwar chaos: Averell Harriman, the freewheeling diplomat and Roosevelt's special envoy to Churchill and Stalin; Dean Acheson, the secretary of state who was more responsible for the Truman Doctrine than Truman and for the Marshall Plan than General Marshall; George Kennan, self-cast outsider and intellectual darling of the Washington elite; Robert Lovett, assistant secretary of war, undersecretary of state, and secretary of defense throughout the formative years of the Cold War; John McCloy, one of the nation's most influential private citizens; and Charles Bohlen, adroit diplomat and ambassador to the Soviet Union.

The Self-Made Men

Tells a story about the strange relationship of two migrant workers who are able to realize their dreams of an easy life until one of them succumbs to his weakness for soft, helpless creatures and strangles a farmer's wife.

The Wise Men

Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

Of Mice and Men

She fears the dark. He rules it. Her dresses are too tight, her heels too tall. She laughs too loudly, eats without decorum, and mixes up most sayings in the book. Little do most know it's just a sparkly disguise, there to hide one panic attack at a time. Nobody can crack Gianna's facade . . . no one anyway, until he comes along. Most see a paragon of morality; a special agent upholding the law. In the New York underworld, others know him as a hustler, a killer, his nature as cold as the heart of ice in his chest. Christian Allister has always followed the life plan he'd envisioned in his youth, beneath the harsh lights of a frigid, damp cell. With a proclivity for order and the number three, he's never been tempted to veer off course. But perhaps one should never say never . . . One winter night and their lives intertwine. She hates him--his stone-cold demeanor, his arrogance and too-perceptive eye--but over the years, even as their games consist of insulting each other's looks and intelligence, she begins to live to play with him. Nowhere in Christian's plans had he ever prepared for Gianna. She's chaos embodied, not his type, and married, but none of that can stop his eyes from following her wherever she goes. All along, she doesn't even know that she's his--his frustration, his fascination. His maddest obsession. *Can be read as a standalone

A Little Life

They were young. They were making it up as they went along. They introduced the world to Smash Martians, Honeymonsters and a beer that refreshes the parts that others cannot reach. And pretty soon, they were millionaires. As one survivor put it: 'No one in the real world knew who the f*** we were. But we'd sit in the first-class departure lounge with rock stars and Hollywood actresses and we convinced ourselves we were celebrities. It probably wasn't a very healthy state of mind.' Some, including Ridley Scott, Alan Parker, David Puttnam and, of course, Charles Saatchi, became famous. Others OD'ed on sex, drugs and 30 second commercials. This was advertising as it had never been before. And has never been since. *GET SMASHED* is a story of ambition, obsession and excess and how the ads that began by reflecting British culture came to define it.

The 5AM Club

This book explores how boys from low-socioeconomic status backgrounds disengage from their education, and are resultantly severely underrepresented in post-compulsory education. For those who attend university, many will be first-in-their-family. As first-in-family students, they may encounter significant barriers which may limit their participation in university life and their acquisition of social and cultural capital. Drawing on a longitudinal study of young Australian men pursuing higher education, the book provides the first detailed account of socially mobile working-class masculinities. Investigating the experiences of these young men, this book analyses their acclimatisation to new learning environments as well as their changing subjectivities. The monograph draws on various sociological theories to analyse empirical data and make practical recommendations which will drive innovation in widening participation initiatives internationally. This book will be of interest to scholars interested in widening participation, transitions, social mobility and Critical Studies of Men and Masculinities.

This unique exploration of Lincoln's economic beliefs shows how they helped shape his view of slavery, his conduct of the war, and most fundamentally his understanding of what the United States was and could become.

Self-Made Men

She's a romantic at heart, living in the most unromantic of worlds . . . Nicknamed Sweet Abelli for her docile nature, Elena smiles on cue and has a charming response for everything. She's the favored daughter, the perfect mafia principessa . . . or was. Now, all she can see in the mirror's reflection is blood staining her hands like crimson paint. They say first impressions are everything . . . In the murky waters of New York's underworld, Elena's sister is arranged to marry Nicolas Russo. A Made Man, a boss, a cheat-even measured against mafia standards. His reputation stretches far and wide and is darker than his black suits and ties. After his and Elena's first encounter ends with an accidental glare on her part, she realizes he's just as rude as he is handsome. She doesn't like the man or anything he stands for, though that doesn't stop her heart from pattering like rain against glass when he's near, nor the shiver that ghosts down her spine at the sound of his voice. And he's always near. Telling her what to do. Making her feel hotter than any future brother-in-law should. Elena may be the Sweet Abelli on the outside, but she's beginning to learn she has a taste for the darkness, for rough hands, cigarettes, and whiskey-colored eyes. Having already escaped one scandal, however, she can hardly afford to be swept up in another. Besides, even if he were hers, everyone knows you don't fall in love with a Made Man . . . right? This is a standalone forbidden romance.

Lincoln and the Economics of the American Dream

From the end of the last Ice Age (10,000 years ago) to the death of Winston Churchill in 1965, Adrian Sykes narrates the history and achievements of these islands, their inhabitants and their origins, through the stories of some 3000+ men and women who have shaped not just our history but the modern world.

The Sweetest Oblivion

The hero of the novel, Mr. Barnstaple, is a depressive journalist working for the newspaper "The Liberal." At the beginning of the story, Barnstaple, as well as a few other Englishmen, are accidentally transported to the parallel world of Utopia. Utopia is like an advanced Earth, although it had been quite similar to Earth in the past in a period known to Utopians as the "Days of Confusion." Utopia is a utopian world: it has a utopian world government, advanced science, and even pathogens have been eliminated and predators are almost tamed. --wikipedia.com.

Made in Britain

In this remarkable book, Belfast-born Derek Lundy uses the lives of three of his ancestors as a prism through which to examine what memory and the selective plundering of history has made of the truth in Northern Ireland. In Ulster the name 'Lundy' is synonymous with 'traitor'. Robert Lundy was the Protestant governor of Londonderry in 1688, just before it came under siege by the Catholic Irish army of James II. Robert Lundy ordered the city's capitulation. Crying 'No Surrender', hardline Protestants prevented it and drove him away in disgrace. William Steel Dickson's legacy is a little different. A Presbyterian minister born in the mid-eighteenth century, he preached with famous eloquence in favour of using whatever means necessary to resist the tyranny of the English. Finally there is 'Billy' Lundy, born in 1890, the embodiment of what the Ulster Protestants had become by the beginning of World War I - a tribe united in their hostility to Catholics and to the concept of a united Ireland. The lives of Robert Lundy, William Steel Dickson and Billy Lundy encapsulate many themes in the Ulster past. In telling their stories, Derek Lundy lays bare the harsh and murderous mythologies of Northern Ireland and gives us a revision of its history that seems particularly relevant in today's world.

Frederick Douglass was unquestionably the foremost black American of the nineteenth century. The extraordinary life of this former slave turned abolitionist orator, newspaper editor, social reformer, race

leader, and Republican party advocate has inspired many biographies over the years. This, however, is the first full-scale study of the origins, contours, development, and significance of Douglass's thought. Brilliant and to a large degree self-taught, Douglass personified intellectual activism; he possessed a sincere concern for the uses and consequences of ideas. Both his people's struggle for liberation and his individual experiences, which he envisioned as symbolizing that struggle, provided the basis and structure for his intellectual maturation. As a representative American, he internalized and, thus, reflected major currents in the contemporary American mind. As a representative Afro-American, he revealed in his thinking the deep-seated influence of race on Euro-American, Afro-American, or, broadly conceived, American consciousness. He sought to resolve in his thinking the dynamic tension between his identities as a black and as an American. Martin assesses not only how Douglass dealt with this enduring conflict, but also the extent of his success. An inveterate belief in a universal and egalitarian humanism unified Douglass's thought. This grand organizing principle reflected his intellectual roots in the three major traditions of mid-nineteenth-century American thought: Protestant Christianity, the Enlightenment, and romanticism. Together, these influences buttressed his characteristic optimism. Although nineteenth-century Afro-American intellectual history derived its central premises and outlook from concurrent American intellectual history, it offered a searching critique of the latter and its ramifications. How to square America's rhetoric of freedom, equality, and justice with the reality of slavery and racial prejudice was the difficulty that confronted such Afro-American thinkers as Douglass.
