These three enhancements contribute to the generation of strong tumble flow

Achieves higher output with superior environmental performance

Compact twin turbocharger enables enhanced response.

Enhances acceleration response at low speeds for smoother acceleration feeling

Cooling fan is not activated when engine starts, thereby reducing noise.

Even during driving the cooling fan is not powered, thus enhancing fuel economy.

When the water temperature rises with the increased load, the cooling fan automatically rotates to ensure the appropriate cooling performance.

Reinforced sealing enhances water resistance, enabling water crossing at depths of up to 700mm

Achieves unbeatable off-road performance.
