Private Investigator Tony Caruso lives out of his rolling office, an old Ford pickup truck, with his German-trained bomb-sniffing dog, Panzer, a Giant Schnauzer. Tony retired after twenty years in the Navy as an aviation ordnanceman, but this training might not be enough when he is hired by an old friend to look into a murder suicide in Bend, Oregon, a resort Boom Town in the high desert east of the Cascades. Was it a murder suicide as the local sheriff thinks? Or has this idyllic community been ripped apart by not only murder but scandalous sexual deviance, lust, jealousy and the quest for the almighty dollar? Follow Tony as he wades through a cast of characters as diverse as the Oregon landscape to solve this mystery.

Boom Town

A brilliant, kaleidoscopic narrative of Oklahoma City—a great American story of civics, basketball, and destiny, from award-winning journalist Sam Anderson NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Chicago Tribune • San Francisco Chronicle • The Economist • Deadspin Oklahoma City was born from chaos. It was founded in a bizarre but momentous “Land Run” in 1889, when thousands of people lined up along the borders of Oklahoma Territory and rushed in at noon to stake their claims. Since then, it has been a city torn between the wild energy that drives its outsized ambitions, and the forces of order that seek sustainable progress. Nowhere was this dynamic better realized than in the drama of the Oklahoma City Thunder basketball team’s 2012-13 season, when the Thunder’s brilliant general manager, Sam Presti, ignited a firestorm by trading future superstar James Harden just days before the first game. Presti’s all-in gamble on “the Process”—the patient, methodical management style that dictated the trade as the team’s best hope for long-term greatness—kicked off a pivotal year in the city’s history, one that would include pitched battles over

urban planning, a series of cataclysmic tornadoes, and the frenzied hope that an NBA championship might finally deliver the glory of which the city had always dreamed. Boom Town announces the arrival of an exciting literary voice. Sam Anderson, former book critic for New York magazine and now a staff writer at the New York Times magazine, unfolds an idiosyncratic mix of American history, sports reporting, urban studies, gonzo memoir, and much more to tell the strange but compelling story of an American city whose unique mix of geography and history make it a fascinating microcosm of the democratic experiment. Filled with characters ranging from NBA superstars Kevin Durant and Russell Westbrook; to Flaming Lips oddball frontman Wayne Coyne; to legendary Great Plains meteorologist Gary England; to Stanley Draper, Oklahoma City's would-be Robert Moses; to civil rights activist Clara Luper; to the citizens and public servants who survived the notorious 1995 bombing of the Alfred P. Murrah federal building, Boom Town offers a remarkable look at the urban tapestry woven from control and chaos, sports and civics.

The Killer Who Hated Soup: The Killer Who Series

There's nothing like a gold strike to create a boom town. And, two of the first ones to get there are the Cass brothers, hired killers.

Boom Town

Police captain Delia Mariola is still struggling to drive the predatory drug dealers from the rustbelt town of Baxter, before the new Nissan plant owners lose faith in this forgotten corner of America. It doesn't help that a boomtown has grown up just outside of city limits—a wild west designed to feed every unsavory desire of the workers building the plant. And like vultures homing in on the weak, criminal gangs from the big cities have also been drawn to the boomtown, knowing how freely money will flow to those willing to supply drugs and women to these workers far from home, looking for comfort and distraction. With no police actively enforcing the rule of law in the unregulated town, the criminals have turned on each other as they try to claim control. In the midst of this drug war, a young prostitute's body turns up on the streets of Baxter, well within Delia's jurisdiction to investigate. Hoping this might be the case that allows her to finally be able to crack down on Boomtown, Delia is relentless in her pursuit of the killer and the group she believes is behind the criminal enterprises plaguing her streets. But Delia isn't the only person looking for the murderer. Two strangers have arrived in town, claiming to be the family of the deceased and possibly looking for a version of justice that has more to do with back hills vigilantism than the court of law. This complicates everything for Delia, who is unfairly made the target of criticism not only for the criminals running amuck in Boomtown, but also as a woman and lesbian in a small-town police force. Once again, A.F. Carter brings a host of unforgettable characters to life in this gritty crime novel, the most memorable being the town of Baxter itself.

Boomtown

In the crooked streets of the boomtown, the rule of law is powerless...Police captain Delia Mariola is struggling to drive predatory drug dealers from the American rust belt town of Baxter, before the owners of the new Nissan plant lose faith in the project. It doesn't help that the influx of male workers for the plant has also meant an influx of criminals. In the workers' settlement just outside the city limits, a modern Wild West boomtown is now thriving, drawing criminal gangs who promise drugs and female company to men far from home looking for comfort and distraction. With no active policing in the unregulated settlement, the criminals are fighting it out to take control of the drug trade. It's against this chaotic backdrop that a young sex worker's body turns up on the streets of Baxter itself. Delia investigates the murder relentlessly, determined to bring justice to the criminal enterprises plaguing her streets. But she's not the only one hunting the killer, and when strangers turn up seeking their own form of justice for the murdered girl, Delia risks facing off against a vigilante movement that could put her job on the line. The breathtaking new thriller from US author A.F. Carter, Boomtown is the follow-up to the critically acclaimed The Hostage.

Killers of the Flower Moon

This Publication of the Texas Folklore Society has something for everyone. The first section features a good bit of occupational lore, including articles on cowboys—both legendary ones and the relatively unknown men who worked their trade day by day wherever they could. You'll also find a unique, personal look at a famous outlaw and learn about a teacher's passion for encouraging her students to discover their own family culture, as well as unusual weddings, somewhat questionable ways to fish, and one woman's love affair with a bull. The backbone of the PTFS series has always been miscellanies—diverse examinations of the many types of lore found throughout Texas and the Southwest. These books offer a glimpse of what goes on at our annual meetings, as the best of the papers presented are frequently selected for our publications. Of course, the presentations are only a part of what the Society does at the meetings, but reading these publications offers insight into our members' interests in everything from bikers and pioneers of Tejana music to serial killers and simple folk from small-town Texas. These works also suggest the importance of the "telling of the tale," with an emphasis on oral tradition, as well as some of the customs we share. All of these things together—the focus on tradition at our meetings, the fellowship among members, and the diversity of our research—are what sustain the Texas Folklore Society.

In Cold Blood

Mother. Nurse. Gold-digger. Cause célèbre. When Daisy de Melker stood trial in 1932, accused of poisoning her son and two husbands, the public couldn't get enough of her. Crowds gathered outside court baying for blood, and she waved to them like a celebrity. Against the backdrop of Johannesburg in its golden age, a booming metropolis of opulence and chaos nicknamed the 'City of Gold' and the 'University of Crime', she had quietly gone about her sinister business while around her sensational crimes grabbed the headlines. There was the marauding Foster Gang, which left at least ten people dead; a dashing German hustler; a local Bonnie and Clyde; an innocent student walking in Zoo Lake park at the wrong time and a man who escaped death row to become one of South Africa's most revered authors. These interlinking stories are told in the style of a thriller and with riveting, kaleidoscopic detail. In Daisy de Melker, Ted Botha weaves together a fantastic cast of killers and con men, detectives and lawmen, journalists and authors – even Sir Arthur Conan Doyle and Herman Charles Bosman – to depict a grand and desperate city. For almost twenty years Daisy hid in the shadows but when someone finally spoke up about the suspicious deaths around her, it led to a trial like nothing the City of Gold had ever seen and spread her name across the world.

The American Western A Complete Film Guide

Starting in the 1950s, Americans eagerly built the planet's largest public work: the 42,795-mile National System of Interstate and Defense Highways. Before the concrete was dry on the new roads, however, a specter began haunting them—the highway killer. He went by many names: the “Hitcher,” the “Freeway Killer,” the “Killer on the Road,” the “I-5 Strangler,” and the “Beltway Sniper.” Some of these criminals were imagined, but many were real. The nation's murder rate shot up as its expressways were built. America became more violent and more mobile at the same time. *Killer on the Road* tells the entwined stories of America's highways and its highway killers. There's the hot-rodding juvenile delinquent who led the National Guard on a multistate manhunt; the wannabe highway patrolman who murdered

hitchhiking coeds; the record promoter who preyed on “ghetto kids” in a city reshaped by freeways; the nondescript married man who stalked the interstates seeking women with car trouble; and the trucker who delivered death with his cargo. Thudding away behind these grisly crime sprees is the story of the interstates—how they were sold, how they were built, how they reshaped the nation, and how we came to equate them with violence. Through the stories of highway killers, we see how the “killer on the road,” like the train robber, the gangster, and the mobster, entered the cast of American outlaws, and how the freeway—conceived as a road to utopia—came to be feared as a highway to hell.

Motion Pictures From the Fabulous 1950's

In three books I tried to capture all aspects of the Old West—the rowdy towns, saloons, prostitutes, homesteaders, cattle ranchers, cattle rustlers, cattle drives, stampedes, canvas-covered wagons, wagon trains, wild horses, cowboys, Indians, miners and prospectors, fur traders, claimjumpers, sheriffs, outlaws, gunfighters, railroads and trains, stagecoaches, banks and holdups, love, life, and death—when I wrote the trilogy of “Once Upon A Time In The Past”. Book One of Once Upon A Time in the Past, subtitled “The Sons Of Sam Logan”—involves four young boys, Chance William, Burt Wiley, Peter Wallace and Jesse Lee “Boots” Logan, a black youth who adopts the Logan name, who grows up and become outlaws—opens circa 1890 in Payton, Kansas: Rancher Clay Miller sat behind his desk staring at four miniature porcelain horses: a black and white piebald; black, white-rump appaloosa; golden palomino with a white blazed face; and a black stallion with a diamond-shaped white dot on its forehead. The rancher’s eyes then stared down at a necklace made with pure gold nuggets wedged together on a long string of rawhide-leather with a black, genuine Indian arrowhead at the end. He reached down and picked the necklace up. A shadow of sudden gloominess crossed his face as he gazed at the necklace. A finger fiddled unconsciously with the arrowhead dangling at the end of it, as he held the necklace in his hands, staring into space. The necklace brought back memories of the past—good times and bad times. His thoughts wiggled and wagged as his recollections took him back into time long before he was a man:

Oil Man

Murder Town, USA

Far too many poor Black communities struggle with gun violence and homicide. The result has been the unnatural contortion of Black families and the inter-generational perpetuation of social chaos and untimely death. Young people are repeatedly ripped away from life by violence, while many men

are locked away in prisons. In neighborhoods like those of Wilmington, Delaware, residents routinely face the pressures of violence, death, and incarceration. *Murder Town, USA* is thus a timely ethnography with an innovative structure: the authors helped organize fifteen residents formerly involved with the streets and/or the criminal justice system to document the relationship between structural opportunity and experiences with violence in Wilmington's Eastside and Southbridge neighborhoods. Earlier scholars offered rich cultural analysis of violence in low-income Black communities, and yet this literature has mostly conceptualized violence through frameworks of personal responsibility or individual accountability. And even if acknowledging the pressure of structural inequality, most earlier researchers describe violence as the ultimate result of some moral failing, a propensity for crime, and the notion of helplessness. Instead, in *Murder Town USA*, Payne, Hitchens, and Chamber, along with their collaborative team of street ethnographers, instead offer a radical re-conceptualization of violence in low-income Black communities by describing the penchant for violence and involvement in crime overall to be a logical, "resilient" response to the perverse context of structural inequality.

Kill Town, USA

Recently laid off, Jack Heart uses his time away from work to fulfill a lifelong dream: hiking the Appalachian Trail. In winter. After fighting off a sickly black bear, Jack decides to take a break from the Trail. However, he quickly realizes his problems are much greater than rogue wildlife. A toxic beef supply has turned millions of people into flesh hungry corpses, and cities are putting themselves under quarantine. Hundreds of miles from home with no food and trapped by vigilantes, Jack Heart descends into a desperate, violent place in order to survive.

Terror Town, USA

The veteran true crime author chronicles the terrifying murders, surprising arrest and dramatic trial of Illinois serial killer Milton Johnson. In the summer of 1983, an elusive serial killer stalked the blue-collar industrial city of Joliet, Illinois. One overnight killing spree took five victims, including members of the Will County Sheriff's Office. The following month brought a quadruple murder inside a shop known for its pottery classes. The plague of violence sparked the controversial New York City-based Guardian Angels to descend on Joliet, generating more unwanted media attention for the community. The National Enquirer labeled Joliet "Terror Town, U.S.A." With an arrest that seemed to come out of nowhere, authorities linked their suspect to a chilling fourteen homicides, plus three women who miraculously survived their agonizing encounters. But with multiple murder trials on the horizon, it remained anyone's guess whether Milton Johnson was guilty of mass murder and if so, would he die by means of lethal injection at the Illinois Department of Corrections?

Ciudad Juarez lies just across the Rio Grande from El Paso, Texas. A once-thriving border town, it now resembles a failed state. Infamously known as the place where women disappear, its murder rate exceeds that of Baghdad. In *Murder City*, Charles Bowden—one of the few journalists who spent extended periods of time in Juarez—has written an extraordinary account of what happens when a city disintegrates. Interweaving stories of its inhabitants—a beauty queen who was raped, a repentant hitman, a journalist fleeing for his life—with a broader meditation on the town's descent into anarchy, Bowden reveals how Juarez's culture of violence will not only worsen, but inevitably spread north. Heartbreaking, disturbing, and unforgettable, *Murder City* was written at the height of his powers and established Bowden as one of America's leading journalists.

100 Years II

Hailed as "toweringly important" (Baltimore Sun), "a work of scrupulous and significant reportage" (E. L. Doctorow), and "an unforgettable historical drama" (Chicago Sun-Times), *Big Trouble* brings to life the astonishing case that ultimately engaged President Theodore Roosevelt, Supreme Court justice Oliver Wendell Holmes, and the politics and passions of an entire nation at century's turn. After Idaho's former governor is blown up by a bomb at his garden gate at Christmastime 1905, America's most celebrated detective, Pinkerton James McParland, takes over the investigation. His daringly executed plan to kidnap the radical union leader "Big Bill" Haywood from Colorado to stand trial in Idaho sets the stage for a memorable courtroom confrontation between the flamboyant prosecutor, progressive senator William Borah, and the young defender of the dispossessed, Clarence Darrow. *Big Trouble* captures the tumultuous first decade of the twentieth century, when capital and labor, particularly in the raw, acquisitive West, were pitted against each other in something close to class war. Lukas paints a vivid portrait of a time and place in which actress Ethel Barrymore, baseball phenom Walter Johnson, and editor William Allen White jostled with railroad magnate E. H. Harriman, socialist Eugene V. Debs, gunslinger Charlie Siringo, and Operative 21, the intrepid Pinkerton agent who infiltrated Darrow's defense team. This is a grand narrative of the United States as it charged, full of hope and trepidation, into the twentieth century.

Soon to be a Showtime documentary, *Murder in the Bayou* is a New York Times bestselling chronicle of a high-stakes investigation into the murders of eight women in a troubled Southern parish that is “part murder case, part corruption exposé, and part Louisiana noir” (New York magazine). Between 2005 and 2009, the bodies of eight women were discovered in Jennings, Louisiana, a bayou town of 10,000 in the Jefferson Davis parish. The women came to be known as the Jeff Davis 8, and local law enforcement officials were quick to pursue a serial killer theory, stirring a wave of panic across Jennings’ class-divided neighborhoods. The Jeff Davis 8 had been among society’s most vulnerable—impoverished, abused, and mired with mental illness. They engaged in sex work as a means of survival. And their underworld activity frequently occurred at a decrepit motel called the Boudreaux Inn. As the cases went unsolved, the community began to look inward. Rumors of police corruption and evidence tampering, of collusion between street and shield, cast the serial killer theory into doubt. But what was really going on in the humid rooms of the Boudreaux Inn? Why were crimes going unsolved and police officers being indicted? What had the eight women known? And could anything be done to stop the bloodshed? Mixing muckraking research and immersive journalism over the course of a five-year investigation, Ethan Brown reviewed thousands of pages of previously unseen homicide files to posit what happened during each woman’s final hours delivering a true crime tale that is “mesmerizing” (Rolling Stone) and “explosive” (Huffington Post). “Brown is a man on a mission...he gives the victims more respectful attention than they probably got in real life” (The New York Times). “A must-read for true-crime fans” (Publishers Weekly, starred review), with a new afterword, *Murder in the Bayou* is the story of an American town buckling under the dark forces of poverty, race, and class division—and a lightning rod for justice for the daughters it lost.

A Brief History of Seven Killings

SHE HAD A LURKING FEAR; HE HAD A KILLER INSTINCT Liam Marx was a true detective; a monster hunter with twenty years of experience in tragedy and hope. The godless men who employed violence of action as a form of pain management shuddered when they heard his name; however, the heartbreaking work of this staggering genius was left behind, in Murder Town, USA - or as some call it - Evil Town. He retired with his wife, Hailey, to Blackwater Hallows, England. It was there that evil things followed; for he had a tragic sense of life and a victim mentality - a victim of destiny and power. All of the woes of the world lay on his shoulders, both a crime and punishment. But soon after arriving in Blackwater Hallow, Liam Marx once again found himself within the crime scene tape, putting his years of victimology to work for the Hampshire Constabulary after taking the oath as a Special Constable - a consultant of death. This was no nightmare as one might expect. No, for Liam Marx, being inside of the crime scene tape only made him a victim of grace. Carly Holloway's life was taken at the hands of person's unknown leaving Liam Marx to clawback from the brink to find justice for her. And as the nightingale sang from the nest - Liam Marx plummeted to the depths below, lady midnight being of no consolation. His only concern was the guilty; not the pensioner, not affair recovery, and not the widow - only the guilty. Of all of the dark promises that Liam Marx had made, it was the one to himself that he most struggled with. From the deep blue of the English Channel to the rolling stones of Carisbrooke, he would not relent. Being mortal, as all men are, he was willing to sacrifice everything to find her killer - the terrible one. And although his scandalous behavior followed him from Murder Town to Blackwater Hallow (he so loved playing the edge), revenge was not his appetite. The bitter season was only just beginning and all in Blackwater Hallows would soon dissolve as salt to the sea. A new mystery to solve - a new thriller at his hands; but as he slipped into his zone of comfort - once again chasing a madman that the devil had somehow forgotten to take to Hades - Lili was on her way...and she was vicious...

Murder in the Bayou

On 26 August 1914 the world-famous university library in the Belgian town of Louvain was looted and destroyed by German troops. The international community reacted in horror - 'Holocaust at Louvain' proclaimed the Daily Mail - and the behaviour of the Germans at Louvain came to be seen as the beginning of a different style of war, without the rules that had governed military conflict up to that point - a more total war, in which enemy civilians and their entire culture were now 'legitimate' targets. Yet the destruction at Louvain was simply one symbolic moment in a wider wave of cultural destruction and mass killing that swept Europe in the era of the First World War. Using a wide range of examples and eye-witness accounts from across Europe at this time, award-winning historian Alan Kramer paints a picture of an entire continent plunging into a chilling new world of mass mobilization, total warfare, and the celebration of nationalist or ethnic violence - often directed expressly at the enemy's civilian population.

"John Grisham's first work of non-fiction, an exploration of small town justice gone terribly awry, is his most extraordinary legal thriller yet. In the major league draft of 1971, the first player chosen from the State of Oklahoma was Ron Williamson. When he signed with the Oakland A's, he said goodbye to his hometown of Ada and left to pursue his dreams of big league glory. Six years later he was back, his dreams broken by a bad arm and bad habits - drinking, drugs and women. He began to show signs of mental illness. Unable to keep a job, he moved in with his mother and slept 20 hours a day on her sofa. In 1982, a 21 year-old cocktail waitress in Ada named Debra Sue Carter was raped and murdered, and for five years the police could not solve the crime. For reasons that were never clear, they suspected Ron Williamson and his friend Dennis Fritz. The two were finally arrested in 1987 and charged with capital murder. With no physical evidence, the prosecution's case was built on junk science and the testimo"

In Broad Daylight

This open access book is the culmination of many years of research on what happened to the bodies of executed criminals in the past. Focusing on the eighteenth and nineteenth centuries, it looks at the consequences of the 1752 Murder Act. These criminal bodies had a crucial role in the history of medicine, and the history of crime, and great symbolic resonance in literature and popular culture. Starting with a consideration of the criminal corpse in the medieval and early modern periods, chapters go on to review the histories of criminal justice, of medical history and of gibbeting under the Murder Act, and ends with some discussion of the afterlives of the corpse, in literature, folklore and in contemporary medical ethics. Using sophisticated insights from cultural history, archaeology, literature, philosophy

and ethics as well as medical and crime history, this book is a uniquely interdisciplinary take on a fascinating historical phenomenon.
