When organizations can't innovate, it's because they don't have the right leadership.

The new ABCs of leadership: Architect, Bridger, and Catalyst

A: Architect: Build your company's culture and capabilities for innovation.

B: Bridger: Forge partnerships outside your organization.

C: Catalyst: Accelerate co-creation across the entire ecosystem.

Real-world example: Pfizer turns vendors into partners.

These roles require new ways of thinking about power.

There will be a self-discovery test.

The four kings captured all the possessions of Sodom and Gomorrah, all their food and equipment, and went on their way. Genesis 14:11 (MSG)

They captured Lot, Abram's nephew who was living in Sodom at the time, taking everything He owned with them. Genesis 14:12 (MSG)

A fugitive came and reported to Abram the Hebrew. Abram was living at the Oaks of Mamre the Amorite, brother of Eshcol and Aner. They were allies of Abram.

When Abram heard that His nephew had been taken prisoner, He lined up His servants, all of them born in His household--there were 318 of them--and chased after the captors all the way to Dan. Abram and His men split into small groups and attacked by night. They chased them as far as Hobah, just north of Damascus.

They recovered all the plunder along with nephew Lot and His possessions, including the women and the people.

Then the LORD asked Moses, Who makes a person's mouth? Who decides whether people speak or do not speak, hear or do not hear, see or do not see? Is it not I, the LORD? Exodus 4:11 (NLT)

Now go! I will be with You as You speak, and I will instruct You in what to say.

But Moses again pleaded, "Lord, please! Send anyone else."

Then the LORD became angry with Moses. "All right," He said. What about Your brother, Aaron the

Levite? I know He speaks well. And look! He is on His way to meet you now. He will be delighted to see You. Exodus 4:14 (NLT)

22 But the fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, Galatians 5:22 (KJV)
