Le conjoint prédateur

Le guide juridique de la survie conjugale.

Guide juridique de la famille

Si les guides du divorce ou ouvrages relatifs à l'aspect psychologique d'une rupture amoureuse sont légion, rares sont ceux s'attachant à examiner cette question sous l'angle juridique strict. Dépassant le thème récurrent du divorce, l'auteur, praticien du droit, s'attache à examiner tous les modes de rupture d'une relation amoureuse, des fiançailles au divorce, du pacs au concubinage en passant par la séparation de biens, toutes les modalités sont juridiquement expliquées en amont et en aval en abordant les questions essentielles relatives aux enfants et aux dispositions financières. Cet ouvrage est destiné à un public non juriste, concerné de près ou de loin par les conditions et les conséquences juridiques de la séparation d'un couple.

Comment faire face ?

Mon ex-mari ne peut plus payer sa pension alimentaire, que faire? Puis-je hériter de mon concubin sans payer trop d'impôts? Ai-je un droit de regard légal sur l'éducation de mon petit-fils? Dois-je payer les dettes de mon mari? Puis-je demander l'annulation de mon mariage, et à qui? Quel est le meilleur régime matrimonial? Je travaille avec mon mari, quels sont mes droits et avantages? Pouvons-nous choisir un prénom original pour notre futur enfant? Je suis en instance de divorce, puis-je quitter le domicile conjugal? Qui va garder la maison après notre séparation? Est-il possible de demander des dommages et intérêts si mon concubin me quitte? Toutes ces questions, et des centaines d'autres, sont traitées dans ce livre. L'aspect pratique y est privilégié, aussi trouverez-vous ici de vraies réponses, faciles à comprendre et à mettre en œuvre, pour gérer au mieux vos démarches administratives ou contentieuses. Concubinage, fiançailles, mariage, divorce, successions, fiscalité, chacun des aspects de la vie à deux est abordé, pour vous rendre service de façon détaillée, et complète.

Le petit guide juridique de la rupture conjugale

The central aim of this publication is to consider the key elements of a modern, comprehensive, and effective legal framework for successful management of protected areas. They provide practical guidance for all those involved in developing, improving, or reviewing national legislation on protected areas, be they legal drafters and practitioners, protected area managers, interested NGOs, or scholars. These guidelines include fifteen case studies, eight dealing with the protected area legislation of individual countries and six cases dealing with specific sites providing fundamental solutions that stand the test of time.

Guide juridique et pratique du droit de la famille

With such assertions throughout, it is no wonder that The Great Ape Project has been embroiled in controversy even before its American publication.

Guide juridique du divorce et de la séparation de corps

This account of the anthropology of law is remarkable in its command of the Anglo-American and Continental literatures in this field; and it is timely in addressing contemporary issues. Two central projects are carried through in successive parts of the book. In the first, the author outlines the history of the "anthropology of law," drawing on the intellectual context of legal development. In the second, Professor Rouland examines the legal ideas, institutions and processes of small-scale non-Western societies, moving finally towards an anthropology of modern law. The author has published widely within the field of legal anthropology.

Guide pratique et juridique du couple

"An integral part of the training of examiners who perform child sexual abuse examinations. This is an extremely high-need area." -- Lori D. Frasier, M.D., Director, Child Protection Program, Children's Hospital, University of Missouri Health Sciences Center

Guide juridique et pratique du concubinage

This book analyses the impact of EU law beyond its borders, the use of law as a powerful instrument of EU external action, and some of the normative challenges this poses. The 'global reach' of EU law is examined in policy areas of the environment, the internet and data protection, banking and financial markets, competition policy and migration.

Guide juridique des régimes matrimoniaux

It is estimated that literally billions of residents in urban and peri-urban areas of Africa, Asia, and Latin America are served by onsite sanitation systems (e.g. various types of latrines and septic tanks). Until recently, the management of faecal sludge from these onsite systems has been grossly neglected, partially as a result of them being considered temporary solutions until sewer-based systems could be implemented. However, the perception of onsite or decentralized sanitation technologies for urban areas is gradually changing, and is increasingly being considered as long-term, sustainable options in urban areas, especially in low- and middle-income countries that lack sewer infrastructures. This is the first book dedicated to faecal sludge management. It compiles the current state of knowledge of the rapidly evolving field of faecal sludge management, and presents an integrated approach that includes technology, management, and planning based on Sandecs 20 years of experience in the field. Faecal Sludge Management: Systems Approach for Implementation and Operation addresses the organization of the entire faecal sludge management service chain, from the collection and transport of sludge, and the current state of knowledge of treatment options, to the final end use or disposal of treated sludge. The book also presents important factors to consider when evaluating and upscaling new treatment technology options. The book is designed for undergraduate and graduate students, and engineers and practitioners in the field who have some basic knowledge of environmental and/or wastewater engineering.

Divorcer, un guide juridique

A comprehensive overview of Earth's biosphere, written with scientific rigor and essay-like flair. In his latest book, Vaclav Smil tells the story of the Earth's biosphere from its origins to its near and long-term future. He explains the workings of its parts and what is known about their interactions.

With essay-like flair, he examines the biosphere's physics, chemistry, biology, geology, oceanography, energy, climatology, and ecology, as well as the changes caused by human activity. He provides both the basics of the story and surprising asides illustrating critical but often neglected aspects of biospheric complexity. Smil begins with a history of the modern idea of the biosphere, focusing on the development of the concept by Russian scientist Vladimir Vernadsky. He explores the probability of life elsewhere in the universe, life's evolution and metabolism, and the biosphere's extent, mass, productivity, and grand-scale organization. Smil offers fresh approaches to such well-known phenomena as solar radiation and plate tectonics and introduces lesser-known topics such as the quarter-power scaling of animal and plant metabolism across body sizes and metabolic pathways. He also examines two sets of fundamental relationships that have profoundly influenced the evolution of life and the persistence of the biosphere: symbiosis and the role of life's complexity as a determinant of biomass productivity and resilience. And he voices concern about the future course of human-caused global environmental change, which could compromise the biosphere's integrity and threaten the survival of modern civilization.

Guidelines for Protected Areas Legislation

This book focuses on animal laws and animal welfare in major jurisdictions in the world, including the more developed legal regimes for animal protection of the US, UK, Australia, the EU and Israel, and the regulatory regimes still developing in China, South Africa, and Brazil. It offers in-depth analyses and discussions of topical and important issues in animal laws and animal welfare, and provides a comprehensive and comparative snapshot of some of the most important countries in the world in terms of animal population and worsening animal cruelty. Among the issues discussed are international law topics that relate to animals, including the latest WTO ruling on seal products and the EU ban, the Blackfish story and US law for cetaceans, the wildlife trafficking and crimes related to Africa and China, and historical and current animal protection laws in the UK and Australia. Bringing together the disciplines of animal law and animal welfare science as well as ethics and criminology with contributions from some of the most prominent animal welfare scientists and animal law scholars in the world, the book considers the strengths and failings of existing animal protection law in different parts of the world. In doing so it draws more attention to animal protection as a moral and legal imperative and to crimes against animals as a serious crime.

Education for Sustainable Development Goals

Stalking has moved from being a novel area for study to become a core area of concern for mental health professionals, lawyers and other members of the criminal justice system. It has emerged as a significant social problem which not only commands considerable public attention but is now, in many jurisdictions, a specific form of criminal offence. This new edition brings the reader completely up-to-date with the explosion in published research and clinical studies in the field, and covers new issues such as cyberstalking, stalking health professionals, stalking in the workplace, female stalkers, juvenile stalkers, stalking celebrities, evaluating risk in the stalking situation, as well as exploring changes to the legal status of the behaviour. Illustrated with case studies throughout, this is the definitive guide and reference for anyone with professional, academic or other interests in this complex behaviour.

A Guide to the Convention on Biological Diversity

This is the 4th edition of The EC Merger Regulation - a detailed guide to the method of merger control in the European Union. Fully revised for 2012, this comprehensive text describes how the European Commission determines approval of a notified merger, thereby providing information and techniques to complete merger deals successfully for companies operating in the European Union

The Great Ape Project

There is currently no comprehensive study of the status of security sector governance in West Africa. Many efforts to understand governance of the security sector in Africa have been directed either at individual countries or at providing a general analysis of the state and security in Africa. This book is intended to contribute to confidence and peace-building through developing a better understanding of the challenges of security sector governance and generating practical policy recommendations based on work conducted by West African experts. It analyses the nature of security sector governance in each of the 16 West African states, provides an assessment of the effectiveness of governance mechanisms,

in particular relating to democratic oversight of the security sector, and takes into account the regional and international dimensions to the issue.

Legal Anthropology

Drawing on historical records of women's varying experiences as litigants, accused criminals, or witnesses, this book offers critical insight into women's legal status in nineteenth-century Canada. In an effort to recover the social and political conditions under which women lobbied, rebelled, and in some cases influenced change, *Petticoats and Prejudice* weaves together forgotten stories of achievement and defeat in the Canadian legal system. Expanding the concept of "heroism" beyond its traditional limitations, this text gives life to some of Canada's lost heroines. Euphemia Rabbitt, who resisted an attempted rape, and Clara Brett Martin, who valiantly secured entry into the all-male legal profession, were admired by their contemporaries for their successful pursuits of justice. But Ellen Rogers, a prostitute who believed all women should be legally protected against sexual assault, and Nellie Armstrong, a battered wife and mother who sought child custody, were ostracized for their ideas and demands. Well aware of the limitations placed upon women advocating for reform in a patriarchal legal system, Constance Backhouse recreates vivid and textured snapshots of these and other women's courageous struggles against gender discrimination and oppression. Employing social history to illuminate the reproductive, sexual, racial, and occupational inequalities that continue to shape women's encounters with the law, *Petticoats and Prejudice* is an essential entry point into the gendered treatment of feminized bodies in Canadian legal institutions. This book was co-published with The Osgoode Society for Canadian Legal History.

Evaluating Child Sexual Abuse

Now a major motion picture nominated for nine Academy Awards. Narrative of Solomon Northup, a Citizen of New-York, Kidnapped in Washington City in 1841, and Rescued in 1853. *Twelve Years a Slave* by Solomon Northup is a memoir of a black man who was born free in New York state but kidnapped, sold into slavery and kept in bondage for 12 years in Louisiana before the American Civil War. He provided details of slave markets in Washington, DC, as well as describing at length cotton cultivation on major plantations in Louisiana.

Eu Law Beyond Eu Borders

Combating discrimination on grounds of sexual orientation and gender identity The police are at the frontline of the criminal justice system and the first point of contact for many victims of hate crime. This manual is designed for police trainers, investigators, managers, hate crime officers and frontline police officers working in countries across the Council of Europe region to develop essential skills to identify and investigate hate crimes against LGBTI persons.

A Handbook for Police and Crown Prosecutors on Criminal Harassment

This is a thought-provoking book for HRM students, academics and practitioners alike. It adopts a broad perspective that takes into account not only the strategic dimension of HRM, but the professional & societal dimension, & combines academic research with a focus on practical conclusions & recommendations.

Faecal Sludge Management

This book contributes to the existing knowledge about the extent of cartels' overcharges and other harm to businesses and consumers worldwide, and sheds light on new and effective "leniency programmes".

The Earth's Biosphere

Es la primera vez que se publican directrices mundiales sobre la restauración de las tierras secas. El objetivo urgente es apoyar los esfuerzos necesarios para restaurar y detener la degradación de las tierras secas, que cuentan con casi la mitad de la superficie terrestre y albergan un tercio de la población mundial.

Animal Law and Welfare - International Perspectives

Unlike most other sociology or social science dictionaries, in this translation of the Critical Dictionary of Sociology, taken from the second French edition of the Dictionary and edited by the English sociologist Peter Hamilton, the critical value of this distinctive work is at last made available for a wider audience. Each entry grapples directly with an issue, whether theoretical, epistemological, philosophical, political or empirical, and provides a strong statement of what the authors think about it. The discussions are considered but argumentative. By reaffirming that a non-marxist style of critique is still possible, Boudon and Bourricaud have presented a distinctive approach to the key issues which confront the societies of the Twentieth and Twenty-First centuries. For some this work will be a textbook, for others an indispensable sourcebook of sociological concepts, and for most a way of opening our eyes to new dimensions in our understanding of the great ideas and theories of sociology.

Livres de France

International guidelines and standards for the design, implementation and assessment of livestock interventions to assist people affected by humanitarian crises, LEGS expands the commitment in the Sphere handbook towards supporting livelihood assets, presenting clear and practical options for supporting livestock during and following disasters.

Society Against Nature

This book reviews progress in the fight against hard core cartels. It quantifies the harm caused by cartels and identifies improved methods of investigation. It also examines progress in strengthening sanctions against businesses and individuals.

Culture of Fish in Rice Fields

This early work by Franz Boas was originally published in 1928 and we are now republishing it with a brand new introductory biography. 'Anthropology and Modern Life' is a work on the study of humans and their lives in various societies. Franz Boas was born on July 9th 1858, in Minden, Westphalia. Even though Boas had a passion for the natural sciences, he enrolled at the University at Kiel as an undergraduate in Physics. Boas completed his degree with a dissertation on the optical properties of water, before continuing his studies and receiving his doctorate in 1881. Boas became a professor of Anthropology at Columbia University in 1899 and founded the first Ph.D program in anthropology in America. He was also a leading figure in the creation of the American Anthropological Association (AAA). Franz Boas had a long career and a great impact on many areas of study. He died on 21st December 1942.

Stalkers and their Victims

These guidelines have been produced to supplement the FAO code of conduct for responsible fisheries which was instituted in 1995. The main volume of guidelines were published in 1997 (Fisheries management - .B17514496).

The EU Merger Regulation

In the late 1950s, like tens of thousands of young men of his generation, Pierre Bourdieu, having recently passed the agrégation in philosophy, found himself immersed in the Algerian war. Motivated by an impulse that, as he himself says, 'was civic rather than political', nothing seemed more important to him than to understand the Algerian situation and provide the elements that would enable others to come to an informed judgement about it. In extremely tough conditions and along with a small group of students, Bourdieu undertook a series of studies across an Algeria that was tightly patrolled by the army, leading him to discover the shocking reality of the resettlement camps and to analyse the mechanisms of destruction of Algerian society of which they were emblematic. To achieve the objectives he had set himself, Bourdieu had to carry out a genuine intellectual conversion, acquiring an ethnographic understanding of Algerian society, learning sociological analysis at a breakneck pace and inventing new instruments - both theoretical and empirical - that would enable him to understand the relations of domination specific to colonialism. These new tools also enabled him to analyse the nature of the crisis that the war had both produced and manifested. This unique volume brings together the first texts written by Bourdieu in the midst of the Algerian conflict, as well as later writings and interviews in which he returns to the topic of Algeria and the decisive role it played in the development of his work.

Challenges of Security Sector Governance in West Africa
