Alien Beer and Other Stories

Come along as E. Chris Garrison tells her strange tales of science fiction and fantasy. Twenty-three stories await you inside this book. Many have been published elsewhere, some have appeared online, and still others have been waiting patiently to be discovered. Some of them include: "A Bone to Pick" is a ghost hunting story, from the ghost's point of view. "The Spark" reveals a dark side of Reality Check. Ida from Trans-Continental gets her start in "Moonlight Blossom." In "Personal Space," Trog tells us of his anti-social superpower. In the world of Road Ghosts, "Spectral Delivery" mixes ghosts, Valentine's Day, and pizza. Is "Shelby" a boy or a girl, or something else? Little Minnie from the Topsy Fairy Tales goes solo in "Seelie Goose."

The Alien in My E-Mail and Other Stories

Most of us have encountered frustrating incidents in our lifetimes. For humor columnist Wolfgang Niesielski, one of his most exasperating moments involves an expensive hotel room, a faulty thermostat, and a patronizing front desk clerk only to be rescued by two gentlemen who, after conferring with each other in hushed tones, change their pleasant demeanor into the serious miens of surgeons before a heart transplant operation. In this compilation of his humor columns, Niesielski provides an amusing take on everyday experiences. See what it's like to have an evil cyber presence monopolize your e-mail account, understand the overwhelming differences between first class and tourist class on an airplane, and find out why it's important to choose the right gift for a loved one even if it is a Salad Shooter or an electric nail-file buffing system. From learning how unforgiving Mother Nature truly is when he forgets how to water the lawn to the moment when he discovers he is a procrastinator in the worst way, Niesielski illustrates what fun life can be when one learns to laugh at himself. The Alien in My E-Mail and Other Stories takes others on a delightful ride through one man's wacky life Salad Shooter and all.

Can they figure out the source of the attacks before they reach an untimely end of the tour?

From a technological dystopia to small town Canada, this collection of short fiction explores themes of change, memory, and things hiding in the shadows. These tales, previously-published and new, take classic space opera, pest problems, and the recent past in new and fresh directions. Will electric light cast a world into darkness? Do you remember 1971, when Kennedy was in the White House, Hendrix sang about space, and the extraterrestrials returned? Has the invasion of the live nude aliens already begun? When you look at the world and see things slightly askew--our reality tilted just a few degrees--then you get stories like these.

Alien Virus Love Disaster

Philip K. Dick Award finalist Washington Post Best Science Fiction and Fantasy of 2018 Abbey Mei Otis's short stories are contemporary fiction at its strongest: taking apart the supposed equality that is clearly just not there, putting humans under an alien microscope, putting humans under government control, putting kids from the moon into a small beach town and then the putting the rest of the town under the microscope as they react in ways we hope they would, and then, of course, in ways we'd hope they don't. Otis has long been fascinated in using strange situations to explore dynamics of power, oppression, and grief, and the twelve stories collected here are at once a striking indictment of the present and a powerful warning about the future. "After I read this book, I woke up with bumpy, reddish growths along my spine. They burst, releasing marvels: aliens, robots, prefab houses, vinyl, chainlink, styrofoam, star stuff, tales from the edge of eviction, so many new worlds. Alien Virus Love Disaster is a super-intelligent infection. Let Abbey Mei Otis give you some lumps." — Sofia Samatar, author of Tender

Report of the Alien Property Custodian

In masterful tales of coming of age and becoming marginalized during the Cuban Revolution and its aftermath, Pablo La Rosa nostalgically looks back at a childhood spent by the seaside and creates a mosaic of poignant experiences seen through the glaring lens of race and exile. Neither the advantages of race or education, however, can exempt the disoriented protagonist from their perceived loss of homeland, integrity, identity. In the masterful *ñEl Marielito*, La Rosa captures the bewilderment of a black man, marginalized by his race and circumstances in pre and post revolutionary Cuba and during his exile in the United States. Equally on the margin in spite of the advantages of education and race, a Cuban college student can relate only to a Russian janitor; though they share no common language they wordlessly share a longing for their lost homelands. La Rosa exhibits a penchant for the whimsical and experimental in homage to Latin American masters Jose Donoso, Carlos Fuentes, and Julio Cortàzar. His stylistic journey takes us from the magically real to psychological suspense and adventure. La Rosa's masterful pen captivates our imagination and projects the reader into the souls of his characters.

In *Halal Pork and Other Stories*, Cihan Kaan projects an avant-garde, post 9/11 world, from the perspective of a young Muslim New Yorker. It's a place where Coney Island meets Mars; where hijabi girls are punk rock dervishes; where identity salesmen count pigeons at insane asylums as a cream cheese conspiracy brews in gitmo; where rich boys pay to be Muslim for a day; where the transgendered

are holy; and where the bacon is halal. Kaan offers up five urban Sufi tales in the swirling graffiti of Brooklyn.

Girl in the Gears

Celebrate the thirtieth anniversary of one of the great action movies of all time with this collection of original comics sequels to the film. Before Predator 2 was ever conceived as a film, writer Mark Verheiden and artist Chris Warner created an acclaimed comic-book sequel to Predator that took the alien trophy hunters from the jungles of Central America to the concrete jungle of New York City—where they face Dutch Schaefer's big brother, who's an NYPD detective! Also included in this volume are Verheiden's two subsequent Predator stories—Cold War, which finds the Predators crash-landed in Siberia, and Dark River, in which the hero of Concrete Jungle traces the path of his younger brother to find out what really happened to him after the events in the movie Predator. Three now-classic tales in one over-sized, deluxe hard cover volume designed to sit on your bookshelf beside the Aliens 30th Anniversary edition! Collects: Predator: Concrete Jungle (#1-#4), Predator: Cold War (#1-#4), and Predator: Dark River

The Aliens and Other Stories

This is a collection of stories by a master of science fiction adventure, with added dimensions of speculation and cold, hard realism.

The Wandering Mason and Other Stories

Menopausal Musings is a collection of small novellas. Each novella follows the inner world of one character's contorted thoughts as they cope with the crisis of middle age. We observe these afflicted people as they exist at different times of day. All are urban characters who live alone in New York City. All are trapped within the walls of their apartments and trapped in their minds and unable to escape. We listen and observe as their minds twirl with hopes, dreams, bitterness, and anger. We cringe as we watch their souls cringe because of isolation from family, friends, and the rest of humanity. They're

humans set adrift in a unforgiving world with its billions of unmarked faces. Yet, their pain is our pain; their longing is our longing. And, that is the whole point.

The Cold Equations & Other Stories

There will always be those among us who are unable to fully provide for themselves. In *Sacramental Cocoa*, Lynn Perry writes of her experiences with the marginalized and disenfranchised, who, not unlike their more prosperous counterparts, long for connection with others and with God. *Sacramental Cocoa* is a love story. The vignettes affirm the connectedness of all people and our place in God's world.

Menopausal Musings & Other Stories

A librarian helps a desperate student find the door into a book; Sir Thomas Moore's head is stolen and a messy rescue ensues; a mother sells a piece of her memory so her daughter can afford an education. Science fiction is the story of what if and what comes next. It's more playful, more inclusive and more entertaining than it has ever been before and as the world falls apart around us, it offers us a chance to understand how things could be better, or just how a great story can get us through another night. *The Best Science Fiction and Fantasy of the Year: Volume Thirteen* brings together the very best clashes between zombies and unicorns, robots and fairies, spaceships and more in a definitive volume that takes us everywhere from the distant future and the moons of our own solar system, to one last visit to Earthsea... Featuring stories from Kelly Barnhill // Elizabeth Bear // Brooke Bolander // Zen Cho // P. Djèlí Clark // John Crowley // Andy Duncan // Jeffrey Ford // Daryl Gregory // Alix E. Sacramental Cocoa and Other Stories from the Parish of the Poor

If you got a mysterious box that said, Do Not Open, would you open it? If your fingers revolted and wanted a different job, would you agree? If you came from a race of giants, or thought about becoming Death's lover, or couldn't get rid of a lover no matter how hard you tried, what would you do? These stories contain unusual problems, like finding your world growing dark after eating a piece of cake—and maybe wanting more cake. It's not hard to find yourself one step outside the normal, as these characters do. The trick is to make it work.

The Best Science Fiction and Fantasy of the Year, Volume Thirteen

Somewhere Between Scooby-Doo and Supernatural... The Road Ghosts Trilogy introduced readers to E. Chris Garrison, one of speculative fiction's most gifted voices. Presented here for the first time in a single volume, you'll meet amateur ghost hunters Brett and Liz, along with their friends Gonzo, Jimbo, and Frannie. Go along for the ride as the gang chases ghosts and battles demons, ghouls, and stranger things up and down the interstate highways of the Midwest. The Road Ghosts Trilogy spawned several short stories (such as "Spectral Delivery," included here!) and introduces readers to "Skye" MacLeod, whose adventures continue in Garrison's popular Topsy Fairy Tales Series. This omnibus volume includes: Four 'til Late (Road Ghosts Trilogy, Book 1) Brett, Gonzo, Jimbo, and Liz embark on a road trip with dangerous detours, dreadful dreams and dire warnings. Along the way they discover that some spirits leave you with more than a hangover and regrets. Turn up the radio and get moving, because the road ghosts are waiting. Sinking Down (Road Ghosts Trilogy, Book 2) Brett and Liz are back in over their heads when a forest hunt for a roadkill-eating creature offers up a ghoulish little surprise. Worse than that, they find that Brett's fate is linked to the creature's. So it's back out on the road, with unexpected pit stops with a greedy ex, a convention of ghost hunters, partying with fake vampires, and drinking and fighting alongside Uncle Gonzo. Me and the Devil (Road Ghosts Trilogy, Book 3) Brett, Liz, and Gonzo undertake a difficult three-night webcast leading up to Halloween. If they're successful, they may finally get the recognition Brett seeks. But ever since the events in Sinking Down, Brett has been a little... off. On the first night of the webcast, Brett's sudden tantrum both boosts ratings and terrifies his friends. As Halloween approaches, Brett's friends find themselves in a desperate fight to save his soul -- and his life. Spectral Delivery (Bonus Short Story) Meet Enid, a pizza delivery trainee who's stuck riding along with ghost-geek Brett on Valentine's Day night. Her boyfriend begs her to try to get off early, but things get weirder and weirder as she and Brett encounter the paranormal at every stop.

The fifth book in The Complete Aliens Omnibus, an essential collection for fans of Twentieth Century Fox's iconic blockbuster action-packed science fiction film Aliens, comprised of Original Sin and DNA War. In Original Sin, centuries after the death of the original Ellen Ripley, her clone has joined the fight against the Alien threat. a question that pierces the Alien mystery to its seething acid-chamber of a heart. In a bleak galaxy, the hospitable planet Rosamond 6 is a rare find. But while it may look like an oasis among the stars, it harbors a fatal secret: it is infested with Aliens. In DNA War, eager to prove her theory that the Aliens can be reasoned with, anthropologist Jocasta Malvaux has set up an observation post there. And something unexpected happens: the Aliens don't attack. But, why? Could it be that the monsters are evolving? Or is it a matter of time until every person on the planet must fight for their lives?

Aliens Among Us

The Jersey shore is frequented by millions of tourists every year. For many people living in the great cities along the East Coast of America, the Jersey shore is their only vacation destination. They come for many reasons, the ocean, the glitz of the casino, and the glitter of the boardwalk. Some come to visit and never leave. The 1st Annual Unofficial Point Pleasure Skimmer Survey tells about a fictional seashore resort populated by colorful quirky locals. They may be the waiters or ticket takers you encounter as shadowy enablers of your vacation pleasures, but when the season's over and the tourists are gone, they live their own lives but oh, those lives!

Breakfast with the Alien

Chuck never thought too deeply about whether aliens existed — not until Jopp, an intergalactic transport pilot, drunkenly crashed on Earth and tried to steal his truck. Now, Chuck finds himself unwittingly roped into helping Jopp work off a debt to the universe's most powerful corporation, the Prime Partners Intergalactic Consortium. Through a series of mishaps and misfortune, the duo finds themselves in possession of a mysterious black case. In order to survive, they must fend off murderous marauders, an interplanetary police force, a peculiar crime boss, and escape a backwater planet inhabited by alien hillbillies. It's a big and scary universe out there, and Chuck and Jopp will be damned if they're going to face it sober.

The Complete Aliens Omnibus

The short stories explore the complications faced by Africans in living the postcolonial experience, especially as it directly impacts the African world, its peoples and their sometimes "complicated" lifestyles. The narratives capture not only the angst of seeking meaning in a world that challenges wholeness for African communities and individuals but, above all, look at ways of retrieval of cultural/ancestral knowledge in authenticating themselves.

J. Manfred Weichsel's versatility, unique style, and refusal to be bound by genre conventions have made him a force to be reckoned with in the world of speculative fiction. Now, Weichsel invites you to strip down and expose yourself to his raw and unfiltered imagination with *Warrior Soul & Other Stories*. Weichsel's stories peel away the veneer of societal norms and delve deep into the human psyche, exposing the rawest and most vulnerable parts of our existence. Through his boundary-shattering tales of science fiction, adventure, horror, and humor, Weichsel fearlessly explores the fringes of what is possible in fiction, revealing the naked truth of our humanity. From the mind-bending science fiction of "Warrior Soul", to the fantastical realm of "The Rainbow-Colored Rock Hopper", from the light comedy of "Queen of the House", to the darkest depths of horror of "Complicit in Their Bondage", these twelve tales will leave you feeling exposed and vulnerable in the best possible way. The bold and daring themes that run throughout Weichsel's work strip away all pretense and artifice to reveal the unvarnished truth of the human experience. So if you're ready to shed your inhibitions and explore the depths of what's possible in fiction, then get your copy of *Warrior Soul & Other Stories* now. It's time to embrace your innermost desires and take the plunge into the raw, unbridled world of J. Manfred Weichsel.

Space Tripping

A forgotten Haudenosaunee social song beams into the cosmos like a homing beacon for interstellar visitors. A computer learns to feel sadness and grief from the history of atrocities committed against First Nations. A young Native man discovers the secret to time travel in ancient petroglyphs. Drawing inspiration from science fiction legends like Arthur C. Clarke, Isaac Asimov and Ray Bradbury, Drew Hayden Taylor frames classic science-fiction tropes in an Aboriginal perspective. The nine stories in

this collection span all traditional topics of science fiction--from peaceful aliens to hostile invaders; from space travel to time travel; from government conspiracies to connections across generations. Yet Taylor's First Nations perspective draws fresh parallels, likening the cultural implications of alien contact to those of the arrival of Europeans in the Americas, or highlighting the impossibility of remaining a "good Native" in such an unnatural situation as a space mission. Infused with Native stories and variously mysterious, magical and humorous, *Take Us to Your Chief* is the perfect mesh of nostalgically 1950s-esque science fiction with modern First Nations discourse.

An eleventh century poet wakes to find he is as an artificially intelligent companion on a starship. A woman of no account has the ability to look into the past. In "Requiem," a major new novella, a woman goes to Alaska to try and make sense of her aunt's disappearance. Singh's stories have been performed on BBC radio, been finalists for the British SF Association award, selected for the Tiptree award honor list, and oft reprinted in Best of the Year anthologies. Her dives deep into the vast strangeness of the universe without and within and with her unblinking clear vision she explores the ways we move through space and time: together, yet always apart.

In the Garden of Iden

Kage Baker's In the Garden of Iden is the first novel in what has become one of the most popular series in contemporary SF--The Company--now back in print from Tor. In the 24th century, the Company preserves works of art and extinct forms of life (for profit of course). It recruits orphans from the past, renders them all but immortal, and trains them to serve the Company, Dr. Zeus. One of these is Mendoza

the botanist. She is sent to Elizabethan England to collect samples from the garden of Sir Walter Iden. But while there, she meets Nicholas Harpole, with whom she falls in love. And that love sounds great bells of change that will echo down the centuries, and through the succeeding novels of *The Company*. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Shards of Earth

From the author of the thrilling science-fiction epic *Children of Time*, winner of the prestigious Arthur C. Clarke Award. *Shards of Earth* is the first high-octane, far-future space adventure in Adrian Tchaikovsky's *Final Architecture* trilogy. 'One of the most interesting and accomplished writers in speculative fiction' – Christopher Paolini The war is over. Its heroes forgotten. Until one chance discovery . . . Idris has neither aged nor slept since they remade his mind in the war. And one of humanity's heroes now scrapes by on a freelance salvage vessel, to avoid the attention of greater powers. Eighty years ago, Earth was destroyed by an alien enemy. Many escaped, but millions more died. So mankind created enhanced humans such as Idris - who could communicate mind-to-mind with our aggressors. Then these 'Architects' simply disappeared and Idris and his kind became obsolete. Now, Idris and his crew have something strange, abandoned in space. It's clearly the work of the Architects – but are they really returning? And if so, why? Hunted by gangsters, cults and governments, Idris and his crew race across the galaxy as they search for answers. For they now possess something of incalculable value, and many would kill to obtain it. Praise for Adrian Tchaikovsky: 'Enthralling, epic, immersive and hugely intelligent' – Stephen Baxter on *Shards of Earth* 'He writes incredibly enjoyable sci-fi, full of life and ideas' – Patrick Ness 'Brilliant science fiction' – James McAvoy on *Children of Time*

Double Threat

Double Threat is a new stand-alone thriller from New York Times bestselling author F. Paul Wilson. Daley has a problem. Her 26-year life so far has been unconventional, to say the least, but now she's got this voice in her head. It claims to be a separate entity that's going to be sharing her body from now on. At first she thinks she's schizophrenic, then considers the possibility that maybe she really has been invaded - but by what? Medical tests turn up nothing, yet the voice persists... and won't stop talking! When she finally she accepts the reality that she has a symbiont, she discovers that together they can cure people of the incurable. Maybe hosting a symbiont isn't such a bad thing. She retreats to a remote town in the southwest desert to hone her healing skills. But there she runs afoul of the Pendry clan, leaders of an obscure cult that worships the Visitors who inhabited the area millions of years ago. They plan to bring them back but believe Daley is the prophesied "Dwad" who will undo all the cult's efforts. She must be eliminated. You know things are bad when the voice in your head is the only one you can trust.

Doorways in the Sand

The most playful – and arguably most accessible – novel by the master of inventive science fiction. Humanity is not alone in the cosmos. The aliens have given a precious relic to the people of Earth: star-stone. But the harmony of the galaxy is endangered when they discover that the star-stone has disappeared. Likeable Fred Cassidy is an eternal undergraduate. All he thinks he knows about the star-stone is that it came to Earth in an interplanetary trade for the Mona Lisa and the British Crown jewels. When Fred is accused of stealing the cosmic artefact, he is pursued from Australia to Greenwich Village and beyond, by telepathic psychologists, extra-terrestrial hoodlums and galactic police in disguise. Follow him on his adventures as he enters multiple realities, flipping in and out of alien perspectives, through doorways in the sand. Praise for *Doorways in the Sand*: "A wonderful book from Zelazny's best period – with a rollercoaster plot and some terrific jokes." "If you've never read it, you really must. Come one – there's a talking wombat. Need I say more?" "Doorways in the Sand is vintage Zelazny, which is to say it is like taking a course in philosophy while crawling about between the gargoyles on the cathedral of Life, dodging the slings and death-rays of outrageous villains, some of them bug-eyed monsters." "If you don't like it I'm sorry to say there is something wrong with you, you may have to re-incarnate." Editorial reviews: "Ingenious." The New York Times "One of the highest tributes I have ever heard paid to a writer lies in the words of a young lady who said, 'I knew, halfway through the second paragraph, that I was in good hands.' Science fiction has produced many such hands, and I genuinely envy those who encounter Roger Zelazny." Theodore Sturgeon, The New York

Times Book Review "That rarest of creatures in science fiction, the original character, emerges in Roger Zelazny's Doorways in the Sand." Chicago Daily News

Shards of Earth: The Final Architecture Book 1

This high-stakes space-based adventure will be perfect for those who loved Children of Time, also by Adrian Tchaikovsky. The war is over. Its heroes forgotten. Until one chance discovery . . . Idris has neither aged nor slept since they remade his mind in the war. And one of humanity's heroes now scrapes by on a freelance salvage vessel, to avoid the attention of greater powers. Eighty years ago, Earth was destroyed by an alien enemy. Many escaped, but millions more died. So mankind created enhanced humans such as Idris - who could communicate mind-to-mind with our aggressors. Then these 'Architects' simply disappeared and Idris and his kind became obsolete. Now, Idris and his crew have something strange, abandoned in space. It's clearly the work of the Architects – but are they really returning? And if so, why? Hunted by gangsters, cults and governments, Idris and his crew race across the galaxy hunting for answers. For they now possess something of incalculable value, that many would kill to obtain it. Praise for Adrian Tchaikovsky: 'Brilliant science fiction' – James McAvoy on Children of Time 'Full of sparkling, speculative invention' – Stephen Baxter on The Doors of Eden Shards of Earth is the first thrilling instalment in the Final Architecture trilogy - by award-winning novelist Adrian Tchaikovsky.

Killashandra

The second in a mesmeric trilogy that runs the gamut of human experience and emotion from Anne McCaffrey, storyteller extraordinaire and New York Times and Sunday Times bestselling author. Perfect for fans of David Eddings, Brandon Sanderson and Douglas Adams. 'Anne McCaffrey, one of the queens of science fiction, knows exactly how to give her public what it wants' - THE TIMES 'Storytelling at its best' -- ***** Reader review 'It's Anne McCaffrey - always 5 star!' -- ***** Reader review 'Classic Sci Fi that just hasn't aged' -- ***** Reader review 'A real page-turner' -- ***** Reader review ***** She was one of the Crystal Singers, the élite, mysterious ones, who cut the crystals from the planet Ballybran - precious glittering crystals without which the universe could not function. Sent to the planet of Ophtheria to repair the famous crystal organ, she was - at first - accorded all the honour and pomp due to her rank. Then her life became threatened and she found herself isolated at the very heart of the planet, knowing that she alone had the power to confront and destroy the evil that had permeated the world of Ophtheria. Would she be able to find the strength she needed?

The Tery

Heroes don't always look the part. He was a tery, a lean, bearish creature with no name. The human soldiers left dead. Just another dumb animal on their extermination list. But he didn't die. Animals weren't the only beings on the list. Certain humans were marked for extinction as well. A fugitive band found him and brought him back from the brink. He became their pet, their mascot. And still he had no name. He was simply "the tery." He soon learned that these were no ordinary humans, and learned too that he was no ordinary tery. The humans had no idea that the creature they fed table scraps and patted on the head would soon turn their world upside down and change it forever. By then he had a name. THE TERY - A beauty-and-the-beast fable that only F. Paul Wilson could tell, full of wonder and horror, brimming with strange landscapes and hideous mutations from science run amok. An unforgettable tale of the extremes of the human spirit--of bravery and depravity, of innocence and evil. This edition features original illustrations by Stephen Fabian.

Ten Thousand Days

They say love hurts and time heals all wounds. Sometimes the reverse is true. Isaac was very good at wasting time. Video games, a mindless job, no responsibilities - he had a simple life and few wants. Despite being hopelessly average, unassuming and kind of useless, he had somehow married the most beautiful, wonderful woman in the world. He had no idea how good he had it - until it was all taken away. Time does not like being wasted. It is mercurial, inexorable and carries a wicked grudge. And sometimes, just sometimes, it enjoys playing games with people's lives. To be perfectly honest, Time is a bit of a jerk. Isaac had never learned to appreciate what little time he had, and now he must travel to the ends of the universe and face unspeakable evils in a cat-and-mouse game with Time itself for the slim chance to win back a few fleeting seconds of happiness. The price of failure? Only the end of all existence. Ten Thousand Days is a fairy tale set in the modern day, a fantastic journey of desperate love and horror with a twisted sense of humour. It's a story of exactly how far a young man will go for love...

Realm of Ash

Some believe the Ambhan Empire is cursed. But Arwa doesn't simply believe it - she knows it's true. Widowed by the infamous, unnatural massacre at Darez Fort, Arwa was saved only by the strangeness of her blood - a strangeness she had been taught all her life to suppress. She offers up her blood and service to the imperial family and makes common cause with a disgraced, illegitimate prince who has turned to forbidden occult arts to find a cure to the darkness hanging over the Empire. Using the power in Arwa's blood, they seek answers in the realm of ash: a land where mortals can seek the ghostly echoes of their ancestors' dreams. But the Emperor's health is failing, and a terrible war of succession hovers on the horizon, not just for the imperial throne, but for the magic underpinning Empire itself. To save the Empire, Arwa and the prince must walk the bloody path of their shared past, through the realm of ash and into the desert, where the cause of the Empire's suffering-and its only chance of salvation - lie in wait. But what they find there calls into question everything they've ever valued . . . and whether they want to save the Empire at all.

The Dinner Guest

ONGLISTED FOR THE 2018 MAN BOOKER INTERNATIONAL PRIZE The Dinner Guest is Gabriela Ybarra's prizewinning literary debut: a singular autobiographical novel piecing together the kidnap and murder of her grandfather by terrorists, reflecting on the personal impact of private pain and public tragedy. The story goes that in my family there's an extra dinner guest at every meal. He's invisible,

but always there. He has a plate, glass, knife and fork. Every so often he appears, casts his shadow over the table, and erases one of those present. The first to vanish was my grandfather. In 1977, three terrorists broke into Gabriela Ybarra's grandfather's home, and pointed a gun at him in the shower. This was the last time his family saw him alive, and his kidnapping played out in the press, culminating in his murder. Ybarra first heard the story when she was eight, but it was only after her mother's death, years later, that she felt the need to go deeper and discover more about her family's past. *The Dinner Guest* is a novel, with the feel of documentary non-fiction. It connects two life-changing events – the very public death of Ybarra's grandfather, and the more private pain as her mother dies from cancer and Gabriela cares for her. Devastating yet luminous, the book is an investigation, marking the arrival of a talented new voice in international fiction.

Healer

Healer (Book 3 of the LaNague Series) is the stunning conclusion of the LaNague Federation Trilogy. *The Outworld Imperium* began as a rebellion by colonials seeking independence. Two centuries later it is a bloated bureaucratic "business" - a business that produces nothing. Its income is not derived from a free exchange for goods or services, but from taxation. It's a business that never shows a profit, is always in the red, and continually borrows to make up staggering deficits. Peter LaNague's unique revolution sets out to topple the entrenched Outworld Imperium as well as fundamentally altering every Outworlder's concept of government. To accomplish this he must ally himself with a madman, trust the word of the last of Sol System's robber barons, make incisive use of the consummate warriors from the planet Flint (without allowing them to run amok), confound at every turn the omnipresent forces of the Imperium, and, every now and then, make it rain money. Those are the easy parts. LaNague's greatest challenge is to see his plan through to successful completion without becoming the very enemy he has vowed to destroy. Short stories "Lipidleggin'" and "Ratman" are reprinted in this edition as well as an introduction by the author. F. Paul Wilson is the bestselling author of more than thirty novels and 100 short stories. Over seven million copies of his books are in print in the US; his work has been translated into twenty-four foreign languages. A practicing physician, he resides at the Jersey Shore with his wife Mary.

Concrete Flowers

Behind the bars on her window, Rosa Maria dreams of sunshine, love, calm, and leaving the city where she lives with her family. She suffers her father's beatings, hides her femininity behind shapeless clothing, and pines for the beautiful Jason as she awaits her opportunity to flee. Meanwhile, her older brother is found dead in a nearby parking lot, and the neighborhood explodes in a riot against the police. Rosa Maria resolves to act before she is devoured by family intrigues and despair. Wilfried N'Sondé's powerful voice creates a palpable sense of the absence of hope and the social and racial isolation that pervade the Paris projects, even as he never abandons the expansive capacity of individuals to dream of better lives beyond a seemingly hopeless reality.

The Prince and the Program

Mordred Pendragon, the Bastard Prince, has done a Bad Thing--again. Exiled to Canada for seven years, he has to find a job to pay his bills. For reasons he refuses to reveal, Mordred decides "Software Engineer" has a nice ring to it. And though experience with "killing the Once and Future King, my father" and "that time in feudal Japan" makes for a poor résumé, he is hired by a small tech startup in Toronto. In the midst of dealing with a crippling caffeine addiction and learning C++, Mordred thinks he has finally found someone to anchor him to the world of the living: Alan, the company's off-site lead developer. Except that Alan might not be a "living" entity at all--he may, in fact, be the world's first strong AI. Or a demon that mistook a Windows install for the highway to Hell. Or, just maybe, the ghost of Alan Turing, currently inhabiting a laptop. Mordred's attempts to figure out his love life are hampered by constant interference from the Inquisitors of the Securitates Arcanarum, corporate espionage, real espionage, a sysadmin bent on enslaving the world, and Marketing's demands that Mordred ship software to the Russian Federation. Then Alan gets himself kidnapped. To save him, Mordred must ally himself with the company's CEO, who will stop at nothing to rescue her lead developer so he can get back to work. But the Prince doesn't just want to rescue Alan, he wants a Happily Ever After--and he will travel beyond Death itself to get one. Too bad Alan is perfectly happy as a computer.

Recursion

When Ralph Thomas comes across graffiti of a horse in an alleyway in the early hours of the morning, he is stopped in his tracks. He recognizes this horse. A half-asleep Indigenous homeless man sees Ralph's reaction to the horse and calls out to him. Over the course of a morning's worth of hot coffee on a bitterly cold day, Ralph and the homeless man talk and Ralph remembers a troubling moment from his childhood when an odd little girl, Danielle, drew the most beautiful and intriguing horse on his mother's Everything Wall, winning the competition set up for children on the Otter Lake Reserve. Ralph has lived with many questions that arose from his eleventh winter. What did the horse mean—to him, his sister, his best friend, and, most importantly, the girl who drew it? These questions have never left him. *Chasing Painted Horses* has a magical, fablelike quality that will enchant readers, and haunt them, for years to come.

A fabulous collection spanning the galaxies and career of SF superstar Alastair Reynolds Reynolds' pursuit of truth is not limited to wide-angle star smashing - not that stars don't get pulverised when one character is gifted (or cursed) with an awful weapon by the legendary Merlin. Reynolds' protagonists find themselves in situations of betrayal, whether by a loved one's accidental death, as in 'Signal to Noise', or by a trusted wartime authority, in 'Spirey and the Queen'. His fertile imagination can resurrect Elton John on Mars in 'Understanding Space and Time' or make prophets of the human condition out of pool-cleaning robots in the title story. But overall, the stories in ZIMA BLUE represent a more optimistic take on humanity's future, a view that says there may be wars, there may be catastrophes and cosmic errors, but something human will still survive.

Stars Without Number (Perfect Bound)

A darkly magical novel about a mysterious family legacy, the bonds of sisterhood, and the strange and powerful ways we are shaped by the places we call home, from the critically acclaimed author of *Shallow Graves*. For the first eight years of her life, an unusual apple orchard in Vermont is Sorrow Lovegood's whole world. The land has been passed down through generations of brave, resilient women, and while their offbeat habits may be ridiculed by other townspeople—especially their neighbors, the Abrams family—Sorrow and her family take pride in its odd history. Then one winter night, an unthinkable tragedy changes everything. In the aftermath, Sorrow is sent to Miami to live with her father, away from the only home she's ever known. Now sixteen, Sorrow's memories of her life in Vermont are maddeningly hazy. She returns to the orchard for the summer, determined to learn more about her troubled childhood and the family she left eight years ago. But it soon becomes clear that some of her questions have difficult—even dangerous—answers. And there may be a price to pay for asking.
