Point Of Impact

105-Pages! Collects POINT OF IMPACT #1-4. A gripping, provocative murder mystery from acclaimed writer Jay Faerber and stunning artist Koray Kuranel begins with one woman's murder and branches out to follow the investigation by three people with personal connections to her: her husband, an investigative reporter; her lover, an ex-soldier; and her friend, a homicide detective. Her death will change all of their lives.

Machiavelli's Romans

Although Machiavelli is usually considered a pioneer among modern political philosophers, he read deeply in and was greatly influenced by the works of classical Roman thinkers such as Livy. There is thus a fundamental tension between the modern and the ancient within Machiavelli's philosophy; he is both a precursor to the Enlightenment and a throwback to republican Rome. This is the main thesis behind Patrick Coby's innovative study of the neglected Machiavellian classic Discourses on Livy. Coby argues that scholars have been too quick to dismiss the ancient antecedents of Machiavelli's thought, particularly with regard to the modes and orders of the Roman republic. The book seeks to resolve the central paradox of the Discourses, that Machiavelli recommends adoption of Roman modes and orders even though those modes and orders destroyed the virt_u, the strength, which Machiavelli would have moderns resuscitate by imitating Rome. A sophisticated, highly engaging book, Machiavelli's Romans will be of special interest to political theorists, Renaissance scholars, and classicists.

International Criminal Law, Volume 1: Sources, Subjects and Contents

Volume 1 deals with international crimes. It contains several significant contributions on the theoretical and doctrinal aspects of ICL which precede the five chapters addressing some of the major categories of international crimes. The first two chapters address: the sources and subjects of ICL and its substantive contents. The other five chapters address: Chapter 3: The Crime Against Peace and Aggression (The Crime Against Peace and Aggression: From its Origins to the ICC; The Crime of Aggression and the International Criminal Court); Chapter 4: War Crimes, Crimes Against Humanity & Genocide (Introduction to International Humanitarian Law; Penal Aspects of International Humanitarian Law; Non-International Armed Conflict and Guerilla Warfare; Mercenarism and Contracted Military Services; Customary International Law and Weapons Control; Genocide; Crimes Against Humanity; Overlaps, Gaps, and Ambiguities in Contemporary International Humanitarian Law, Genocide, and Crimes Against Humanity); Chapter 5: Crimes Against Fundamental Human Rights (Slavery, Slave-Related Practices, and Trafficking in Persons; Apartheid; International Prohibition of Torture; The Practice of Torture in the United States: September 11, 2001 to Present); Chapter 6: Crimes of Terror-Violence (International Terrorism; Kidnapping and Hostage Taking; Terrorism Financing; Piracy; International Maritime Navigation and Installations on the High Seas; International Civil Aviation); Chapter 7: Crimes Against Social Interest (International Control of Drugs; Challenges in the Development of International Criminal Law: The Negotiations of the United Nations Convention Against Transnational Organized Crime and the United Nations Convention Against Corruption; Transnational Organized Crime; Corruption of Foreign Public Officials; International Criminal Protection of Cultural Property; Criminalization of Environmental Protection).

Tours of Vietnam

An argument that tourist literature and U.S. military guides have shaped Americans understanding of Vietnam and projections of U.S. power since the mid-twentieth century.

Hidden Agenda

Each of us pitches ideas every day. Regardless of what idea we're selling-or who we're selling it to-it all boils down to the act of stirring someone to join you, to agree to follow you. Yet we consistently underestimate how critical it is to recognize the role of the decision maker. Decisions are, after all, made by people; and people have needs and agendas, spoken and unspoken. Understanding these needs and agendas are critical to success in business. Kevin Allen's approach is not about persuading, but about creating a connection that assures a mutual win. By unearthing the true motivation or desire of the decision maker, Allen shows how to craft a story or message around it, creating a predictable and repeatable end result. Full of stories and examples, this entertaining book teaches you how to effectively find, connect, and finally to speak to the Hidden Agenda to win business unfailingly, every time.

Spenser's Secret Career

An impressive exploration of the poet Edmund Spenser's second career as a political secretary.

C.F.W. Walther's Original Der Lutheraner Volumes One through Three (1844-'47): The LCMS in Formation

The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security. Founded by Manhattan Project Scientists, the Bulletin's iconic "Doomsday Clock" stimulates solutions for a safer world.

Brill's Companion to Leo Strauss' Writings on Classical Political Thought offers clear, accessible essays to assist a new generation of readers in their introduction to Strauss' writings on the ancients, and to deepen the understanding of those familiar with his work.

Brill's Companion to Leo Strauss' Writings on Classical Political Thought

The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter-terrorism activities should occur at every level, including that of intergovernmental organizations. This unique, timely, and carefully researched monograph examines one such important yet generally under-researched and poorly understood intergovernmental

tal organization, the Organization of Islamic Cooperation ('OIC', formerly the Organization of the Islamic Conference). In particular, it analyses in depth its institutional counter-terrorism law-making practice, and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter-Terrorism Strategy goals. Furthermore, it explores two common (mis)assumptions regarding the OIC, namely whether its internal institutional weaknesses mean that its law-making practice is inconsequential at the intergovernmental level; and whether its self-declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law. Where significant normative tensions are discerned between OIC law and UN law, the monograph explores not only whether these may be explicable, at least in part, by the OIC's Islamic nature, and objectives, but also whether their corresponding institutional legal orders are conflicting or cooperative in nature, and the resultant implications of these findings for international counter-terrorism law- and policy-making. This monograph is expected to appeal especially to national and intergovernmental counter-terrorism practitioners and policy-makers, as well as to scholars concerned with the interaction between international and Islamic law norms. From the Foreword by Professor Ben Saul, The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC, Islamic law, international law, and counter-terrorism. It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter-terrorism enterprise over many decades, and which accelerated markedly after 9/11. The scope of the book is ambitious, its subject matter is complex, and its sources are many and diverse. Dr Samuel has deployed an appropriate theoretical and empirical methodology, harnessed an intricate knowledge of the field, and brought a balanced judgement to bear, to bring these issues to life.

The OIC, the UN, and Counter-Terrorism Law-Making

The spiritual and religious beliefs and practices of Native Americans and African Americans have long been sources of fascination and curiosity, owing to their marked difference from the religious traditions of white writers and researchers. *Matter, Magic, and Spirit* explores the ways religious and magical beliefs of Native Americans and African Americans have been represented in a range of discourses including anthropology, comparative religion, and literature. Though these beliefs were widely dismissed as primitive superstition and inferior to "higher" religions like Christianity, distinctions were still made between the supposed spiritual capacities of the different groups. David Murray's analysis is unique in bringing together Indian and African beliefs and their representations. First tracing the development of European ideas about both African fetishism and Native American "primitive belief," he goes on to explore the ways in which the hierarchies of race created by white Europeans coincided with hierarchies of religion as expressed in the developing study of comparative religion and folklore through the nineteenth century. Crucially this comparative approach to practices that were dismissed as conjure or black magic or Indian "medicine" points as well to the importance of their cultural and political roles in their own communities at times of destructive change. Murray also explores the ways in which Indian and African writers later reformulated the models developed by white observers, as demonstrated through the work of Charles Chesnutt and Simon Pokagon and then in the later conjunctions of modernism and ethnography in the 1920s and 1930s, through the work of Zora Neale Hurston, Zitkala Sa, and others. Later sections demonstrate how contemporary writers including Ishmael Reed and Leslie Silko deal with the revaluation of traditional beliefs as spiritual resources against a background of New Age spirituality and postmodern conceptions of racial and ethnic identity.

Matter, Magic, and Spirit

In the seventeenth century, a vision arose which was to captivate the Western imagination for the next three hundred years: the vision of Cosmopolis, a society as rationally ordered as the Newtonian view of nature. While fueling extraordinary advances in all fields of human endeavor, this vision perpetuated a hidden yet persistent agenda: the delusion that human nature and society could be fitted into precise and manageable rational categories. Stephen Toulmin confronts that agenda—its illusions and its consequences for our present and future world. "By showing how different the last three centuries would have been if Montaigne, rather than Descartes, had been taken as a starting point, Toulmin helps destroy the illusion that the Cartesian quest for certainty is intrinsic to the nature of science or philosophy."—Richard M. Rorty, University of Virginia "[Toulmin] has now tackled perhaps his most ambitious theme of all. . . . His aim is nothing less than to lay before us an account of both the origins and the prospects of our distinctively modern world. By charting the evolution of modernity, he hopes to show us what intellectual posture we ought to adopt as we confront the coming millennium."—Quentin Skinner, *New York Review of Books*

Cosmopolis

2010 Outreach Magazine Resource of the Year award winner: justice category Every day we are confronted by challenging societal problems, from poverty and institutional racism to AIDS and homelessness. It can all seem so overwhelming. But while none of us can do everything, all of us can do something. This handbook will help you discover what you can do. Mae Elise Cannon provides a comprehensive resource for Christians like you who are committed to social justice. She presents biblical rationale for justice and explains a variety of Christian approaches to doing justice. Tracing the history of Christians in social engagement, she lifts out role models and examples from the Great Awakenings to the civil rights movement. A wide-ranging catalog of topics and issues give background info about justice issues at home and abroad, such as sex trafficking domestic violence living wage initiatives debt relief environmental stewardship bioethics and much, much more This handbook includes dozens of practical exercises for taking action, as well as profiles of key figures and movements like William Wilberforce, the Salvation Army and Bono, highlighting how Christians and churches can make a difference. Also included are spiritual practices and resources to help us move from immobility to advocacy. God has always worked through his people to accomplish improbable tasks, and he can use you too. This handbook will be an essential companion for living justly, loving mercy and walking humbly with your God.

Social Justice Handbook

The study of Islamic philosophy has entered a new and exciting phase in the last few years. Both the received canon of Islamic philosophers and the narrative of the course of Islamic philosophy are in the process of being radically questioned and revised. Most twentieth-century Western scholarship on Arabic or Islamic philosophy has focused on the period from the ninth century to the twelfth. It is a measure of the transformation that is currently underway in the field that, unlike other reference works, the Oxford Handbook has striven to give roughly equal weight to every century, from the ninth to the twentieth. The Handbook is also unique in that its 30 chapters are work-centered rather than person- or theme-centered, in particular taking advantage of recent new editions and translations that have renewed interest and debate around the Islamic philosophical canon. The Oxford Handbook of Islamic Philosophy gives both the advanced student and active scholar in Islamic philosophy, theology, and intellectual history, a strong sense of what a work in Islamic philosophy looks like and a deep view of the issues, concepts, and arguments that are at stake. Most importantly, it provides an up-to-date portrait of contemporary scholarship on Islamic philosophy.

The Great IRS Hoax, Form #11.302

Achieve "Massive Action" results and accomplish your business dreams! While most people operate with only three degrees of action—no action, retreat, or normal action—if you're after big goals, you don't want to settle for the ordinary. To reach the next level, you must understand the coveted 4th degree of action. This 4th degree, also known as the 10 X Rule, is that level of action that guarantees companies and individuals realize their goals and dreams. The 10 X Rule unveils the principle of "Massive Action," allowing you to blast through business clichés and risk-aversion while taking concrete steps to reach your dreams. It also demonstrates why people get stuck in the first three actions and how to move into making the 10X Rule a discipline. Find out exactly where to start, what to do, and how to follow up each action you take with more action to achieve Massive Action results. Learn the "Estimation of Effort" calculation to ensure you exceed your targets. Make the Fourth Degree a way of life and defy mediocrity. Discover the time management myth. Get the exact reasons why people fail and others succeed. Know the exact formula to solve problems. Extreme success is by definition outside the realm of normal action. Instead of behaving like everybody else and settling for average results, take Massive Action with The 10 X Rule, remove luck and chance from your business equation, and lock in massive success.

The Oxford Handbook of Islamic Philosophy

A collection of comics featuring the adventures of Liz Donnelly, the widow of super-hero Race Noble, and her family.

The 10X Rule

According to one of Jon King's key witnesses - a former US Army Special Operations expert who has run covert military operations with the CIA, and who once held the highest security clearance in NATO, Cosmic Top Secret - the British and US governments are fully aware that at least one extraterrestrial civilization is currently visiting our planet. There are many other witness testimonies, both civilian and military, that point to a similar conclusion. Here Jon King collates and extrapolates the inside information available to him to present a startling and dramatic case for this explosive assertion.

Distant Relatives

Every society has its lineup of wicked, unethical characters—real or fictional—who are regarded as villainous. This book explores how Western societies have used villains to sort insiders from outsiders and establish behavioral norms to support harmony and well-being. There are three parts: nature and “barbarians” as sinister “others” bent on destroying Western civilization; tyrants, traitors and “femmes fatales” as challenges to ideals of legitimate governance, patriotism and gender roles; and gangsters, grifters and murderers as models of evil or unprincipled behavior. The author also discusses two related phenomena: the dramatic paring down of what is considered villainous in the West, and the proliferation of over-the-top villains in pop culture and mass media. Instructors considering this book for use in a course may request an examination copy [here](#).

Cosmic Top Secret

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

The Parliamentary Debates (Hansard).

Debut author Drew Daywalt and international bestseller Oliver Jeffers team up to create a colourful solution to a crayon-based crisis in this playful, imaginative story that will have children laughing and playing with their crayons in a whole new way.

Villainy in Western Culture

The Basics Animation series follows on from the successful title *The Fundamentals of Animation* and offers a concise but comprehensive account of a number of definitions and approaches to script, drawing upon the available literature. The book adopts a straightforward approach that is diagnostic, advisory and characterized by a range of examples. Most importantly, *Basics Animation- Scriptwriting* seeks to promote the distinctiveness of animation as a form of expression, and provides a clear account of the choices and approaches available to the scriptwriter/animator/director, and the particularities of each model. Inevitably, some of these models will have common approaches, but equally, there will be localized variations dependent upon the definition/understanding of animation adopted by individuals, companies and studios.

Library Journal

This is the dramatic story of the rescue of Jews from Europe after World War II by North American Jewish volunteers who smashed through the British blockade and brought thousands of refugees to safe haven in Palestine through the illegal Aliyah Bet. Film director Alan Rosenthal was inspired by this book to create his documentary film *Waves of Freedom*, released in 2008. Packed with photos, and enhanced by the eminent historian Sir Martin Gilbert's introduction, this meticulously researched book is the definitive word on a little-known chapter of Jewish history. ABOUT THE AUTHOR: Murray S. Greenfield was one of the volunteer sailors in the Aliyah Bet operations. He has served as executive director of the Association of Americans and Canadians in Israel (AACI) and as volunteer director of the American Association for Ethiopian Jewry (AAEJ). He lives in Israel with his wife Hana.

The Library Journal

"Then David said to the Philistine, 'You come to me with a sword and with a spear and with a javelin, but I come to you in the name of the LORD of hosts.'" (1 Samuel 17:45) Reflecting upon David's victory over Goliath, Reformation translator, theologian and commentator William Tyndale compared it to Christ's victory over sin and death: "When David had killed Goliath the giant, glad tidings came to the Israelites that their fearful and cruel enemy was dead and that they were delivered out of all danger. For this gladness, they sang, danced and were joyful. In like manner, the good news or 'gospel' of God is joyful tidings." The books of 1-2 Samuel, 1-2 Kings and 1-2 Chronicles, which record the history of Israel from the prophetic ministry of Samuel to the fall of Jerusalem, provided the reformers with some of the best-known narratives of the Old Testament upon which to comment, including Hannah's prayer, the anointing of Saul as Israel's first king, David's triumph over Goliath and his later adultery with Bathsheba, Solomon's building of the Temple, Elijah's challenge to the prophets of Baal, and the healing of Naaman. For the reformers, these stories were not merely ancient Israelite history, but they also foreshadowed the coming of Jesus Christ, and they had immediate relevance for their lives and the church of their day. Thus, Anglican exegete John Mayer perceived within King Josiah's reform of Israelite worship after the discovery of the Book of the Law a prefiguration of "what should be done in the latter days of the gospel, in which a greater reformation of the religion is now being made." In this Reformation Commentary on Scripture volume, Derek Cooper and Martin Lohrmann guide readers through a diversity of Reformation commentary on these historical books. Here, readers will find reflections from both well-known voices and lesser-known figures from a variety of confessional traditions—Lutherans, Reformed, Radicals, Anglicans and Roman Catholics—many of which appear in English for the first time. By drawing upon a variety of resources—including commentaries, sermons, treatises and confessions—this volume will enable scholars and students to understand better the depth and breadth of Reformation-era insights on Scripture. It will also provide resources for contemporary preachers, and encourage all those who continually seek to share the "joyful tidings" of Jesus Christ.

Bulletin of the Atomic Scientists

This work represents a supplement to the work of such figures as John Dominic Crossan, in exploring the problem of the reader in the theological approach to narrative. It proposes a hermeneutic that may be acceptable to the outsider. It also introduces the American reader to Haitian narrative in general, and to Marie Chauvet's work in particular, opening up an area of inquiry into the cultural production of a country beset by multifarious prejudices. This is one of the first attempts to bring the theology of Liberation into dialogue with the discipline of literature.

Words on Cassette

The first novel in the gripping Tim Rackley series from the internationally bestselling author, Gregg Hurwitz. Tim Rackley is a deputy US marshal who is very good at his job - until everything he believes in is shattered by the brutal murder of his own daughter. Betrayed by an imperfect judicial system, Rackley watches helplessly as the killer walks free. Bent on vengeance, he is forced to explore his own deadly options, a quest that leads him into the shadowy no man's land between justice and the law . . . and into the welcoming fold of The Commission, a relentless vigilante group. But as he's dragged deeper into a deadly morass of hidden agendas and murderous justice, his secret new life starts coming unwound and he's suddenly caught in the most terrifying struggle he has ever faced - a desperate battle to save his marriage, his career, his life, his soul, and everything left that's worth fighting for.
