Learning and Collaboration Technologies

This two-volume set of LCT 2023, constitutes the refereed proceedings of the 10th International Conference on Learning and Collaboration Technologies, LCT 2023, held as Part of the 24th International Conference, HCI International 2023, which took place in July 2023 in Copenhagen, Denmark. The total of 1578 papers and 396 posters included in the HCII 2023 proceedings volumes was carefully reviewed and selected from 7472 submissions. The papers of LCT 2022 Part I are organized in topical sections named: Designing Learning Experiences; Understanding the Learning Experience; Technology-supported Teaching; Supporting Creativity in Learning.

Learning and Collaboration Technologies: New Challenges and Learning Experiences

This two-volume set LNCS 12784 and 12785 constitutes the refereed proceedings of the 8th International Conference on Learning and Collaboration Technologies, LCT 2021, held as Part of the 23rd International Conference, HCI International 2021, which took place in July 2021. Due to COVID-19 pandemic the conference was held virtually. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. The papers of LCT 2021, Part I, are organized in topical sections named: Designing and Developing Learning Technologies; Learning, Teaching and Collaboration Experiences; On-line vs. in Class Learning in Pandemic Times.

Universal Access in Human-Computer Interaction. Novel Design Approaches and Technologies

This two-volume set constitutes the refereed proceedings of the 16th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2022, held as part of the 24th International Conference, HCI International 2022, held as a virtual event, in June-July 2022. A total of 1271 papers and 275 posters included in the 39 HCII 2022 proceedings volumes. UAHCI 2022 includes a total of 73 papers; they focus on topics related to universal access methods, techniques and practices, studies on accessibility, design for all, usability, UX and technology acceptance, emotion and behavior recognition for universal access, accessible media, access to learning and education, as well universal access to virtual and intelligent assistive environments.

Human Aspects of IT for the Aged Population. Technology and Society

This three volume set of LNCS 12207, 12208 and 12209 constitutes the refereed proceedings of the 6th International Conference on Human Aspects of IT for the Aged Population, ITAP 2020, held as part of the 22nd International Conference, HCI International 2020, which took place in Copenhagen, Denmark, in July 2020. The conference was held virtually due to the COVID-19 pandemic. The total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings from a total of 6326 submissions. ITAP 2020 includes a total of 104 regular papers which are organized in topical sections named: Involving Older Adults in HCI Methodology, User Experience and Aging, Aging and Mobile and Wearable Devices, Health and Rehabilitation Technologies, Well-being, Persuasion, Health Education and Cognitive Support, Aging in Place, Cultural and Entertainment Experiences for Older Adults, Aging and Social Media, Technology Acceptance and Societal Impact.

Learning and Collaboration Technologies. Novel Technological Environments

Chapter “Developing a VR Tool to Support Repeat Pattern Design Learning” is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Learning and Collaboration Technologies: Games and Virtual Environments for Learning

This two-volume set LNCS 12784 and 12785 constitutes the refereed proceedings of the 8th International Conference on Learning and Collaboration Technologies, LCT 2021, held as Part of the 23rd International Conference, HCI International 2021, which took place in July 2021. Due to COVID-19 pandemic the conference was held virtually. The total of 1276 papers and 241 posters included in the 39 HCII 2021 proceedings volumes was carefully reviewed and selected from 5222 submissions. The papers of LCT 2021, Part II, focus on Games and Gamification in Learning; Chatbots in Learning; AR, VR and Robots in Learning.

Trends and Applications in Information Systems and Technologies

This book is composed of a selection of articles from The 2021 World Conference on Information Systems and Technologies (WorldCIST'21), held online between 30 and 31 of March and 1 and 2 of April 2021 at Hangra de Heroismo, Terceira Island, Azores, Portugal. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges of modern information systems and technologies research, together with their technological development and applications. The main topics covered are: A) Information and Knowledge Management; B) Organizational Models and Information Systems; C) Software and Systems Modeling; D) Software Systems, Architectures, Applications and Tools; E) Multimedia Systems and Applications; F) Computer Networks, Mobility and Pervasive Systems; G) Intelligent and Decision Support Systems; H) Big Data Analytics and Applications; I) Human-Computer Interaction; J) Ethics, Computers & Security; K) Health Informatics; L) Information Technologies in Education; M) Information Technologies in Radiocommunications; N) Technologies for Biomedical Applications.

Springer Handbook of Science and Technology Indicators

This handbook presents the state of the art of quantitative methods and models to understand and assess the science and technology system. Focusing on various aspects of the development and application of indicators derived from data on scholarly publications, patents and electronic communications, the individual chapters, written by leading experts, discuss theoretical and methodological issues, illustrate applications, highlight their policy context and relevance, and point to future research directions. A substantial portion of the book is dedicated to detailed descriptions and analyses of data

sources, presenting both traditional and advanced approaches. It addresses the main bibliographic metrics and indexes, such as the journal impact factor and the h-index, as well as altmetric and webometric indicators and science mapping techniques on different levels of aggregation and in the context of their value for the assessment of research performance as well as their impact on research policy and society. It also presents and critically discusses various national research evaluation systems. Complementing the sections reflecting on the science system, the technology section includes multiple chapters that explain different aspects of patent statistics, patent classification and database search methods to retrieve patent-related information. In addition, it examines the relevance of trademarks and standards as additional technological indicators. The Springer Handbook of Science and Technology Indicators is an invaluable resource for practitioners, scientists and policy makers wanting a systematic and thorough analysis of the potential and limitations of the various approaches to assess research and research performance.

Information Technology and Systems

This book is composed by the papers accepted for presentation and discussion at The 2019 International Conference on Information Technology & Systems (ICITS'20), held at the Universidad Distrital Francisco José de Caldas, in Bogotá, Colombia, on 5th to 7th February 2020. ICIST is a global forum for researchers and practitioners to present and discuss recent findings and innovations, current trends, professional experiences and challenges of modern information technology and systems research, together with their technological development and applications. The main topics covered are: information and knowledge management; organizational models and information systems; software and systems modelling; software systems, architectures, applications and tools; multimedia systems and applications; computer networks, mobility and pervasive systems; intelligent and decision support systems; big data analytics and applications; human–computer interaction; ethics, computers & security; health informatics; information technologies in education.

Advanced Research in Technologies, Information, Innovation and Sustainability

This book constitutes the refereed proceedings of the First International Conference on Advanced Research in Technologies, Information, Innovation and Sustainability, ARTIIS 2021, held in La Libertad, Ecuador, in November 2021. The 53 full papers and 2 short contributions were carefully reviewed and selected from 155 submissions. The volume covers a variety of topics, such as computer systems organization, software engineering, information storage and retrieval, computing methodologies, artificial intelligence, and others. The papers are logically organized in the following thematic blocks: Computing Solutions; Data Intelligence; Ethics, Security, and Privacy; Sustainability.

Technology, Business, Innovation, and Entrepreneurship in Industry 4.0

This book presents the most recent innovations, trends, and challenges in several aspects of Industry 4.0, including the key technologies and business impacts. The book is relevant to a variety of stakeholders due to Industry 4.0's broad impact in many fields. Topics include digital workplace solutions for employee engagement, entrepreneurship and innovation, and Blockchain for business security. The authors cover Industry 4.0 both from a theoretical and applicable standpoint.

Universal Access in Human–Computer Interaction. Human and Technological Environments

The three-volume set LNCS 10277-10279 constitutes the refereed proceedings of the 11th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2017, held as part of the 19th International Conference on Human-Computer Interaction, HCII 2017, in Vancouver, BC, Canada in July 2017, jointly with 14 other thematically similar conferences. The total of 1228 papers presented at the HCII 2017 conferences were carefully reviewed and selected from 4340 submissions. The papers included in the three UAHCI 2017 volumes address the following major topics: Design for All Methods and Practice; Accessibility and Usability Guidelines and Evaluation; User and Context Modelling and Monitoring and Interaction Adaptation; Design for Children; Sign Language Processing; Universal Access to Virtual and Augmented Reality; Non Visual and Tactile Interaction; Gesture and Gaze-Based Interaction; Universal Access to Health and Rehabilitation; Universal Access to Education and Learning; Universal Access to Mobility; Universal Access to Information and Media; and Design for Quality of Life Technologies.

Introduction to Image Acquisition and Display Technologies

• Readers will gain an understanding of the optical technology, material science, and semiconductor device technology behind image acquisition devices • Research on image information is stable but slowly growing and several universities globally teach related courses for which this is valuable supplementary reading • This book offers a unique focus on the devices used in image sensors and displays

Counter-Terrorism, Ethics and Technology

This open access book brings together a range of contributions that seek to explore the ethical issues arising from the overlap between counter-terrorism, ethics, and technologies. Terrorism and our responses pose some of the most significant ethical challenges to states and people. At the same time, we are becoming increasingly aware of the ethical implications of new and emerging technologies. Whether it is the use of remote weapons like drones as part of counter-terrorism strategies, the application of surveillance technologies to monitor and respond to terrorist activities, or counterintelligence agencies use of machine learning to detect suspicious behavior and hacking computers to gain access to encrypted data, technologies play a significant role in modern counter-terrorism. However, each of these technologies carries with them a range of ethical issues and challenges. How we use these technologies and the policies that govern them have broader impact beyond just the identification and response to terrorist activities. As we are seeing with China, the need to respond to domestic terrorism is one of the justifications for their rollout of the “social credit system.” Counter-terrorism technologies can easily succumb to mission creep, where a technology’s exceptional application becomes normalized and rolled out to society more generally. This collection is not just timely but an important contribution to understand the ethics of counter-terrorism and technology and has far wider implications for societies and nations around the world.

Recent Advances in Information Systems and Technologies

This book presents a selection of papers from the 2017 World Conference on Information Systems and Technologies (WorldCIST’17), held between the 11st and 13th of April 2017 at Porto Santo Island, Madeira, Portugal. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges involved in modern Information Systems and Technologies research, together with technological developments and applications. The main topics covered are: Information and Knowledge Management; Organizational Models and Information Systems; Software and Systems Modeling; Software Systems, Architectures, Applications and Tools; Multimedia Systems and Applications; Computer Networks, Mobility and Pervasive Systems; Intelligent and Decision Support Systems; Big Data Analytics and Applications; Human–Computer Interaction; Ethics, Computers & Security; Health Informatics; Information Technologies in Education; and Information Technologies in Radiocommunications.

New Trends in Disruptive Technologies, Tech Ethics and Artificial Intelligence

This book includes recent research on disruptive technologies, tech ethics, and artificial intelligence. Due to the important advances in technologies such as artificial intelligence, big data, the Internet of Things or bioinformatics produced in recent years, it is necessary to conduct a thorough review of current ethical patterns. One of the research fields that is in full expansion and with a broad future is technology ethics or tech ethics. Just a few years ago, this type of research was a small part, and they did not have too many technology researchers involved. At present, due to the explosion of new applications of artificial intelligence, their problems and their legal barriers have flourished innumerable initiatives, declarations, principles, guides and analyses focused on measuring the social impact of these systems and on the development of a more ethical technology. It is, therefore, a problem that needs to be addressed from an academic and multidisciplinary point of view, where experts in ethics and behavior work together with experts in new and disruptive technologies. The international conference “Disruptive Technologies Tech Ethics and Artificial Intelligence” (DITTET 2021) provides a forum to present and discuss the latest scientific and technical advances and their implications in the field of ethics. It also provides a forum for experts to present their latest research in disruptive technologies, promoting knowledge transfer. It provides a unique opportunity to bring together experts in different fields, academics and professionals to exchange their experience in the development and deployment of disruptive technologies, artificial intelligence and their ethical problems. DITTET intends to bring together researchers and developers from industry, humanities and academia to report on the latest scientific advances and the application of artificial intelligence as well as its ethical implications in

fields as diverse as climate change, politics, economy or security in today's world. This book constitutes the refereed proceedings selected by an expert panel through a peer-review process. All these works will be presented by the experts in the different sessions organized at the DITTET congress to be held at the Pontifical University of Salamanca (Salamanca, Spain) on September 15, 26 and 17, 2021.

COMMUNICATION AND APPLIED TECHNOLOGIES

This book focuses on the human aspects of wearable technologies and game design, which are often neglected. It shows how user centered practices can optimize wearable experience, thus improving user acceptance, satisfaction and engagement towards novel wearable gadgets. It describes both research and best practices in the applications of human factors and ergonomics to sensors, wearable technologies and game design innovations, as well as results obtained upon integration of the wearability principles identified by various researchers for aesthetics, affordance, comfort, contextual-awareness, customization, ease of use, ergonomics, intuitiveness, obtrusiveness, information overload, privacy, reliability, responsiveness, satisfaction, subtlety, user friendliness and wearability. The book is based on the AHFE 2018 Conference on Human Factors and Wearable Technologies and the AHFE 2018 Conference on Human Factors in Game Design and Virtual Environments, held on July 21–25, 2018 in Orlando, Florida, and addresses professionals, researchers, and students dealing with the human aspects of wearable, smart and/or interactive technologies and game design research.

Advances in Human Factors in Wearable Technologies and Game Design

This two-volume set LNCS 10907 and 10908 constitutes the refereed proceedings of the 12th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2018, held as part of HCI International 2018 in Las Vegas, NV, USA, in July 2018. The total of 1170 papers and 195 posters included in the 30 HCII 2018 proceedings volumes was carefully reviewed and selected from 4373 submissions. The 49 papers presented in this volume were organized in topical sections named: design for all, accessibility and usability; alternative I/O techniques, multimodality and adaptation; non-visual interaction; and designing for cognitive disabilities.

Using Technology to Combat Diseases and Help People With Disabilities

This book includes a selection of articles from The 2019 World Conference on Information Systems and Technologies (WorldCIST'19), held from April 16 to 19, at La Toja, Spain. WorldCIST is a global forum for researchers and practitioners to present and discuss recent results and innovations, current trends, professional experiences and challenges in modern information systems and technologies research, together with their technological development and applications. The book covers a number of topics, including A) Information and Knowledge Management; B) Organizational Models and Information Systems; C) Software and Systems Modeling; D) Software Systems, Architectures, Applications and Tools; E) Multimedia Systems and Applications; F) Computer Networks, Mobility and Pervasive Systems; G) Intelligent and Decision Support Systems; H) Big Data Analytics and Applications; I) Human-Computer Interaction; J) Ethics, Computers & Security; K) Health Informatics; L) Information Technologies in Education; M) Information Technologies in Radiocommunications; and N) Technologies for Biomedical Applications.

Universal Access in Human-Computer Interaction. Methods, Technologies, and Users

This book contains peer-reviewed selected papers of the 7th International Conference on Educational Innovation (CIIE 2020). It presents excellent educational practices and technologies complemented by various innovative approaches that enhance educational outcomes. In line with the Sustainable Development Goal 4 of UNESCO in the 2030 agenda, CIIE 2020 has attempted to “ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.” The CIIE 2020 proceeding offers diverse dissemination of innovations, knowledge, and lessons learned to familiarize readership with new pedagogical-oriented, technology-driven educational strategies along with their applications to emphasize their impact on a large spectrum of stakeholders including students, teachers and professors, administrators, policymakers, entrepreneurs, governments, international organizations, and NGOs.

New Knowledge in Information Systems and Technologies

This volume presents the 17th International Conference on Information Technology—New Generations (ITNG), and chronicles an annual event on state of the art technologies for digital information and communications. The application of advanced information technology to such domains as astronomy, biology, education, geosciences, security, and healthcare are among the themes explored by the ITNG proceedings. Visionary ideas, theoretical and experimental results, as well as prototypes, designs, and tools that help information flow to end users are of special interest. Specific topics include Machine Learning, Robotics, High Performance Computing, and Innovative Methods of Computing. The conference features keynote speakers; a best student contribution award, poster award, and service award; a technical open panel, and workshops/exhibits from industry, government, and academia.

Technology-Enabled Innovations in Education

This book addresses emerging issues in usability, interface design, human–computer interaction, user experience and assistive technology. It highlights research aimed at understanding human interactions with products, services and systems and focuses on finding effective approaches for improving the user experience. It also discusses key issues in designing and providing assistive devices and services for individuals with disabilities or impairment, offering them support with mobility, communication, positioning, environmental control and daily living. The book covers modeling as well as innovative design concepts, with a special emphasis on user-centered design, and design for specific populations, particularly the elderly. Further topics include virtual reality, digital environments, gaming, heuristic evaluation and forms of device interface feedback (e.g. visual and haptic). Based on the AHFE 2021 Conferences on Usability and User Experience, Human Factors and Wearable Technologies, Human Factors in Virtual Environments and Game Design, and Human Factors and Assistive Technology, held virtually on 25–29 July, 2021, from USA, this book provides academics and professionals with an extensive source of information and a timely guide to tools, applications and future challenges in these fields.

17th International Conference on Information Technology—New Generations (ITNG 2020)

This book is a contribution from the authors, to share solutions for a better and sustainable power grid. Renewable energy, smart grid security and smart energy management are the main topics discussed in this book.

Advances in Usability, User Experience, Wearable and Assistive Technology

This book constitutes the refereed proceedings of the Second International Conference on Innovative Technologies and Learning, ICITL 2020, held in Porto, Portugal, in November 2020. The 65 full papers presented together with 2 short papers were carefully reviewed and selected from 127 submissions. The papers are organized in the following topical sections: Augmented and Virtual Reality in Education; Educational Data Mining and Learning Analytics; Emerging Issues and Trends in Education; Innovative Learning in Education; Online Course and Web-Based Environment; Technology-Enhanced Learning; Application and Design of Innovative Learning Software; and Science, Technology, Engineering, Arts and Design, and Mathematics. Due to the Corona pandemic this event was held virtually.

Smart Energy Management for Smart Grids

This book constitutes the thoroughly refereed post-conference proceedings of the Third Annual Privacy Forum, APF 2015, held in Luxembourg, Luxembourg, in October 2015. The 11 revised full papers presented in this volume were carefully reviewed and selected from 24 submissions. The topics focus on privacy by design (PbD), i.e. the attempt to combine technical and organizational measures to ensure the basic rights of the individual. The papers are organized in three sessions: measuring privacy; rules and principles; legal and economic perspectives on privacy.

Innovative Technologies and Learning

This book presents high-quality, peer-reviewed papers from the International Conference in Information Technology & Education (ICITED 2021), to be held at the ESPM – Higher School of Advertising and Marketing, Sao Paulo, Brazil, between the 15th and the 17th of July 2021. The book covers a specific field of knowledge. This intends to cover not only two fields of knowledge – Education and Technology – but also the interaction among them and the impact/result in the job market and organizations. It covers the research and pedagogic component of Education and Information Technologies but also the

connection with society, addressing the three pillars of higher education. The book addresses impact of pandemic on education and use of technology in education. Finally, it also encourages companies to present their professional cases which is discussed. These can constitute real examples of how companies are overcoming their challenges with the uncertainty of the market.

Privacy Technologies and Policy

This is the first of a two-volume set (CCIS 373 and CCIS 374) that constitutes the extended abstracts of the posters presented during the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA, in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The extended abstracts were carefully reviewed and selected for inclusion in this two-volume set. The papers included in this volume are organized in the following topical sections: HCI design approaches, methods and techniques; usability methods, techniques and studies; universal access and inclusion; multimodal and ambient interaction; cognitive and psychological aspects of interaction; perception and interaction; ergonomic and human modelling issues; capturing gaze, biosignals and brainwaves; development environments; product design, marketing and advertisement.

Perspectives and Trends in Education and Technology

This book presents original research articles addressing various aspects of economics, management and optimization. The topics discussed include economics, finance, marketing, resource allocation strategies, fuzzy logic, and network-based techniques for the analysis of economics, management and mathematical optimization. Combining the input of contributing professors and researchers from various Spanish, Italian and Latin American universities, the book will be of interest to students, researchers and practitioners, as well as members of the general public interested in the world of Economics and Management.

HCI International 2013 - Posters' Extended Abstracts

This first volume of the three-volume set (CCIS 1193, CCIS 1194, and CCIS 1195) constitutes the refereed proceedings of the First International Conference on Applied Technologies, ICAT 2019, held in Quito, Ecuador, in December 2019. The 124 full papers were carefully reviewed and selected from 328 submissions. The papers are organized according to the following topics: technology trends; computing; intelligent systems; machine vision; security; communication; electronics; e-learning; e-government; e-participation.

Economy, Business and Uncertainty: New Ideas for a Euro-Mediterranean Industrial Policy

"This book offers a comprehensive description of the needs that must be considered by IT engineers when designing technical assistance tools that can be used by disabled persons according to their specific motoric, visual, auditive, or psychic needs"--Provided by publisher.

Applied Technologies

This book contains extended versions of the best papers presented at the 15th International Conference on Information and Communication Technologies in Education, Research, and Industrial Applications, ICTERI 2019, held in Kherson, Ukraine, in June 2019. The 19 revised full papers included in this volume were carefully reviewed and selected from 416 initial submissions. The papers are organized in the following topical sections: advances in ICT and IS research; ICT in teaching, learning, and education management; applications of ICT in industrial and public practice.

Handbook of Research on Personal Autonomy Technologies and Disability Informatics

This book includes selected papers presented at the International Conference on Marketing and Technologies (ICMarkTech 2020), held at ISCTE - University Institute of Lisbon, in the city of Lisbon in Portugal, between 8 and 10 October 2020. It covers up-to-date cutting-edge research on artificial intelligence applied in marketing, virtual and augmented reality in marketing, business intelligence

databases and marketing, data mining and big data, marketing data science, web marketing, e-commerce and v-commerce, social media and networking, geomarketing and IoT, marketing automation and inbound marketing, machine learning applied to marketing, customer data management and CRM, and neuromarketing technologies.

Information and Communication Technologies in Education, Research, and Industrial Applications

This book constitutes the thoroughly refereed proceedings of the third International Conference on Communication Technologies for Ageing Well and e-Health, ICT4AWE 2017, held in Porto, Portugal in April 2017. The 10 full papers presented were carefully reviewed and selected from 32 submissions. The papers aim at contributing to the understanding of relevant trends of current research on ICT for Ageing Well and eHealth including the collection and evaluation of day/night end user behavior patterns through the adoption of wearable technologies.

Marketing and Smart Technologies

This two-volume set LNCS 10924 and 10925 constitute the refereed proceedings of the 5th International Conference on Learning and Collaboration Technologies, LCT 2018, held as part of the 20th International Conference on Human-Computer Interaction, HCII 2018, in Las Vegas, NV, USA in July 2018. The 1171 papers presented at HCII 2018 conferences were carefully reviewed and selected from 4346 submissions. The papers cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of applications areas. The papers in this volume are organized in the following topical sections: designing and evaluating systems and applications, technological innovation in education, learning and collaboration, learners, engagement, motivation, and skills, games and gamification of learning, technology-enhanced teaching and assessment, computing and engineering education.

Information and Communication Technologies for Ageing Well and e-Health

Why AI does not include gender in its agenda? The role of gender in AI, both as part of the community of agents creating such technologies, as well as part of the contents processed by such technologies is, by far, conflictive. Women have been, again, obliterated by this fundamental revolution of our century. Highly innovative and the first step in a series of future studies in this field, this book covers several voices, topics, and perspectives that allow the reader to understand the necessity to include into the AI research agenda such points of view and also to attract more women to this field. The multi-disciplinarity of the contributors, which uses plain language to show the current situation in this field, is a fundamental aspect of the value of this book. Any reader with a genuine interest in the present and future of AI should read it.

Learning and Collaboration Technologies. Learning and Teaching

This book constitutes the refereed proceedings of the 14th IFIP WG 9.4 International Conference on Social Implications of Computers in Developing Countries, ICT4D 2017, held in Yogyakarta, Indonesia, in May 2017. The 60 revised full papers and 8 short papers presented together with 3 keynotes were carefully reviewed and selected from 118 submissions. The papers are organized in the following topical sections: large scale and complex information systems for development; women empowerment and gender justice; social mechanisms of ICT-enabled development; the data revolution and sustainable development goals; critical perspectives on ICT and open innovation for development; the contribution of practice theories to ICT for development; agile development; indigenous local community grounded ICT developments; global sourcing and development; sustainability in ICT4D; and information systems development and implementation in Southeast Asia. Also included are a graduate student track, current issues and notes. The chapter 'An Analysis of Accountability Concepts for Open Development' is open access under a CC BY 4.0 license via link.springer.com.

Gender in AI and Robotics

The financial burden and the level of specialized care required to look after older adults with dementia has reached the point of a public health crisis. Older adults diagnosed and living with the disorder reached 35.6 million worldwide in 2010 and is expected to increase to 135.5 million in 2050, with costs soaring to \$1.1 trillion. In the face of the increasing burden this disorder poses to health care systems and the management of this patient population, intelligent assistive technologies (IATs) represent

a remarkable and promising strategy to meet the need of persons suffering from dementia. These technologies aim at helping individuals compensate for specific physical and cognitive deficits, and maintain a higher level of independence at home and in everyday activities. However, the rapid development and widespread implementation of these technologies are not without associated challenges at multiple levels. An international and multidisciplinary group of authors provide future-oriented and in-depth analysis of IATs. Part I delineates the current landscape of intelligent assistive technologies for dementia care and age-related disability from a global perspective, while the contributions in Part II analyze and address the major psycho-social implications linked to the development and clinical use of IATs. In the last section, essays examine the major ethical, social and regulatory issues associated with the use of IATs in dementia care. This volume provides an authoritative and comprehensive overview of how IATs are reshaping dementia care.

Information and Communication Technologies for Development

This book constitutes the refereed proceedings of the IFIP WG 8.6 International Working Conference on Transfer and Diffusion of IT, TDIT 2023, which took place in Nagpur, India, in December 2023. The 87 full papers and 23 short papers presented in these proceedings were carefully reviewed and selected from 209 submissions. The papers are organized in the following topical sections: Volume I: Digital technologies (artificial intelligence) adoption; digital platforms and applications; digital technologies in e-governance; metaverse and marketing. Volume II: Emerging technologies adoption; general IT adoption; healthcare IT adoption. Volume III: Industry 4.0; transfer, diffusion and adoption of next-generation digital technologies; diffusion and adoption of information technology.

Intelligent Assistive Technologies for Dementia

Transfer, Diffusion and Adoption of Next-Generation Digital Technologies

Teamwork and Collaboration in Early Years Settings

This book looks at the challenges of restructuring services and working with people with different training and working practices. It suggests that the way staff work together will impact on the service offered to children and their families. It explains how to be an effective member of the team and encourage confident and open communication between colleagues. It looks at what makes an effective team; discusses how the organisational set-up affects the practice positively or negatively; suggests ways for creating listening environments where colleagues can discuss differences; and emphasises the importance of developing professional learning together.

Positive and Trusting Relationships with Children in Early Years Settings

To attain EYPS, candidates must demonstrate that they can establish fair, respectful, trusting and constructive relationships with children. This book helps those on EYPS pathways to understand and develop these important relationships. It begins by examining trust as a key theme and goes on to discuss how to tune in to individual children and how to tune out or say goodbye. It gives practical advice on helping children build resilience and take risks. Positive relationships with children are examined within the context of relationships with others and the text also considers how practitioners can support other professionals in their setting.

Training of teachers

Incorporating HC 369-i to -v, session 2008-09

The Student Practitioner in Early Childhood Studies

The Student Practitioner in Early Childhood Studies: An essential guide to working with children provides accessible support and guidance for Early Childhood Studies students in higher education who may have little, if any, experience of relating to young children in the Early Years Foundation Stage and Key Stage One. With useful chapter summaries, activities and reflection points to help readers track their academic journey, this text draws on the experiences of students on the degree programme for the benefit of students new to practice. It will: prepare students for the challenges of practice provide a synthesis of academic knowledge and practice skills develop students' critically reflective thinking and understanding relational pedagogy and the needs of young children provide the emerging

student practitioner in higher education with knowledge, skills, understanding and confidence to relate effectively with young children and adults in settings Fully supporting students' practice experience and development of their critical thinking, this helpful book synthesises theory and practice in an applied and critical manner. The authors cover a range of themes including critical reflection, relational pedagogy, confidence building, communication skills, personal and professional development and employability alongside academic writing and research skills. This textbook is essential reading for students on all Early Childhood degree programmes.

Special Needs in the Early Years

This highly popular and accessible text contains a wealth of information about how early years staff can work effectively with professionals and parents to help identify and meet a range of special educational needs. This book aims to explore the most effective ways of supporting the child and implementing that support across the child's day to day life. Now in its third edition Special Needs in the Early Years is fully updated to reflect current policy, and topics covered include: Early identification Effective communication with parents and carers An exploration of the legal context How to implement joint planning for identified needs A consideration of the issues affecting collaboration With case-studies, checklists, suggestions for good practice and cartoons to illustrate and enrich the text throughout, this book is structured to be easily accessible and invaluable for those who are in training to work in the early years sector. It will also be of interest to students on foundation and undergraduate students on Early Childhood Education and childcare courses as well as more experienced practitioners.

Early years team work and leadership

This 8-hour free course explored aspects of teamwork and leadership for early years practitioners, in different settings and stages in their careers.

The Manual for the Early Years SENCO

Written with both new and experienced practitioners in mind and packed with practical advice, suggestions, case studies, and useful photocopiable materials, this new edition of a much-loved book will help all SENCOs (Special Educational Needs Coordinators) succeed in what is often a very demanding role. Providing plenty of help with planning and time-management, this book contains everything you need to know about your role, information on the current government policies such as Every Child Matters (ECM) and the Early Years Foundation Stage (EYFS), and meeting the Early Years Professional Status (EYPS) standards for supporting children with additional needs.

Leading Change In Early Years

Leading Change in the Early Years focuses on the type of leadership skill needed for leading the reform and change agendas that challenge the early years sector.

Leading and Managing in the Early Years

By Exploring the types of leadership programmes or development which is needed to maximise the effectiveness of early childhood leaders, Leading and Managing in the Early Years is extremely useful for any reader researching early childhood issues, for owners, managers and practitioners who are planning to develop distributive leadership in their early years provision in all sectors and for local authority employees involved in developing integrated centres' - Early Years Update 'A major contribution to the limited literature and research on leadership in childhood education' - Professor Tony Bush, Editor of Educational Management, Administration and Leadership. 'This important book focuses clearly on evidence, describing the realities of leading and managing settings in times of rapid policy changes. Carol Aubrey manages to combine theory, research and practice in a book that will be invaluable to a new generation of early years professionals' - Angela Anning, Emeritus Professor of Early Childhood Education, University of Leeds, UK 'Skilfully draws on sound empirical research to present a grounded theory model for leadership in early years education. It is of interest to researchers, students and practitioners internationally' - Professor Nithi Muthukrishna, University of KwaZulu-Natal, South Africa Skilled and effective leadership is essential in early childhood (EC) settings such as nurseries, day care centres, children's centres and in reception classes within schools. This book integrates leadership and management practice with a real understanding of early years settings, looking at the many different models of EC leadership and many different types of settings

in which EC leadership operates. This book investigates different concepts and characteristics of EC leadership as well as the roles and responsibilities of EC leaders. It also explores the types of leadership programmes or development which is needed to maximise the effectiveness of EC leaders. Based on work done by Carol Aubrey and her colleagues with groups of local early years leaders from children's centres, foundation units in primary schools, nursery and day care provision, this book is suitable for all those studying and researching early childhood, from Foundation Degree students through Early Years Practitioners to NPQICL participants. It will be useful for early years practitioners and local authority employees involved with the integrated centres initiative. Carol Aubrey is Professor of Early Childhood Studies at the University of Warwick and UK editor of Journal of Early Childhood Research.

People Under Three

Services for young children have gone through a period of rapid transformation in recent years, which have been paralleled by great advances in our knowledge of early child development. However, care and education in the first three years of life continues to be a neglected area. Thoroughly updated to take account of key policy and practice changes in childcare provision, this landmark text translates child development theory and research into everyday practice. All the practical ideas in the book have been developed and tested in nurseries, family and children's centres and include the importance of providing opportunities for adventurous and exploratory play for babies and toddlers, understanding and responding to children's emotional needs and offering personalized and sensitive care. The book also explores different ways of working with parents and the role of early years settings and practitioners in helping to keep children safe. It includes chapters on: Childcare policy and services Planning spaces for living, learning and playing Babies in day care Heuristic play with objects Mealtimes Learning out of doors Leading and managing a childcare centre Involving and working with parents Safeguarding children People Under Three is an established practical text for all those training to work with young children or managing day care facilities. Focusing on the care and learning of very young children, it is designed specifically for those who look after them day by day, as well as being a useful resource for social work students and policy makers.

EBOOK: Leadership in Early Childhood

Leadership in Early Childhood is a practical resource for early childhood practitioners who want to understand how to create successful childcare and early education settings. Leadership in the early years has moved on in the way it is organised, and this fourth edition has been fully revised and updated to reflect the changes affecting leaders in early childhood. This rapid change in the field over the past few years includes moves to professionalise the workforce generally, and this edition recognizes the implications of these developments and revisits some of the concepts and messages. Praised for its excellent overview of early years leadership, accessible writing style and clear links between theory and practice, the fourth edition also includes: Thorough discussion of the leader's role in moving towards leading/best practice. Reconceptualised coverage of team building to consider working collaboratively as a team at service level, multi disciplinary teams and integrated service provision through multi agency working. A chapter which considers the essential characteristics of leadership in terms of personal qualities, skills and timing related to effective leadership.

Working Together in Children's Services

The importance of interagency cooperation within children's services has been highlighted within recent government strategy, including the Every Child Matters agenda, the development of Children's Centres and the expansion of Extended Schools. Following tragic cases such as Victoria Climbié, the need for effective multi-disciplinary teamwork and interagency co-operation across all education and care settings remains as pressing as ever. Working Together in Children's Services addresses a range of theoretical perspectives and contexts to stimulate students and practitioners critical thinking about the issues of multi-agency working. The book provides the reader with a critical framework for understanding both new and future developments and explores key issues like: The notion of "working together" and what it means in practice The benefits and barriers of multi-agency work Current policy and requirements for successful interdisciplinary working Essential skills for inter-professional teamwork. As modules on multi-professional working become increasingly common, the book will provide core reading for all students of Early Childhood Studies, Initial Teacher Education and Foundation Degrees in the Early Years. By showing how to develop successful multi-agency partnerships, it is also highly relevant for teachers and practitioners working across children's services.

From Birth to Three: An Early Years Educator's Handbook

This accessible handbook offers an in-depth exploration of the distinctive features of the play, development and learning of children from birth to three years old. Key theoretical ideas relating to social, emotional, cognitive and physical development are discussed in relation to everyday practice, offering a wealth of information and guidance on working with this unique age group. The book emphasises the connections between all aspects of a child's experience and development; addressing key questions of what babies and young children need, enjoy and have a right to experience. It demonstrates how early years educators can develop their practice and organise their provision in a way that is positive for babies and young children and their families. Focusing on the holistic nature of early development, chapters explore the following: The importance of interactions and relationships between educators and children How to develop a holistic pedagogy that gives equal consideration to children's care, play and learning The value of the connections that children make with the world around them, and how educators can create an environment conducive to nurturing these connections Observation and self-evaluation of practice and provision Each chapter features case studies, links to key aspects of practice and practical tasks to help readers apply the ideas to their own context. The book is accompanied by an extensive companion website (www.routledge.com/cw/Manning-Morton) containing video explainers, reflection points, practice tasks, downloadable resources, quizzes and more. Opening a window on what it is like to be a baby or young child in an early years setting, this is an essential tool for all early years educators and students on a wide range of early years courses. It will also be of interest to parents.

Effective Leadership in the Early Years Sector

This publication takes as its background the radical reforms to services for children following the passing, in England, of The Children Act of 2004 and subsequent Government white paper, Every Child Matters: Change for Children. It argues that the fundamental requirements for leadership for learning in the early years should be provided by considering social contexts, adopting a commitment to collective working, and focusing on improving children's learning outcomes. It is based on the analysis of a wide range of literature on leadership in the early years and information taken from effective early years settings.

Partnership in the Primary School

Working in 'partnership' in primary schools is an approach that is transforming the classrooms of the 1990s. It is now widely acknowledged that a collaborative approach can significantly improve the effectiveness of teaching. This book provides a practical, readable account of partnerships in educational settings including: * collaborating in nurseries and primary schools * reading and literacy partnerships * working with special needs assistants * supporting students in training * home-school links * liaising with an OFSTED inspector. The focus is placed on key principles of collaboration as well as specialist roles. Personal testimonies and case studies are used to illustrate the various aspects of teamwork.

Managing Early Years Settings

'This book is a very useful resource for setting leaders undertaking advanced study, such as Early Years Professional Status and the National Professional Qualification in Integrated Centre Leadership...[I]t is also an interesting and up-to-date reference tool for qualified managers and leaders of early years settings, large and small, in all sectors' - Early Years Update 'Through discussion points and case studies, the authors explore the key skills and techniques necessary to effectively lead and manage an early years setting - Nursery Education Plus, as part of their 'Ten of the Best early years professional books' feature. 'This book will make a relevant and helpful contribution in enabling practitioners to explore and understand the different ways in which they can lead and manage across a diverse range of settings and at different levels. Through helpful discussion points and case studies, the book will encourage practitioners to consider both theory and practice, including value based practice and the skills required for working within a new multi-disciplinary environment. A welcome and accessible text for early years practitioners facing the challenges and demands of this new agenda' - Professor Linda Miller, Professor of Early Years, The Open University Firmly grounded in practice, this book puts children and families at the centre of good early years leadership. There is now considerable emphasis on leadership skills in this sector, as the workforce becomes increasingly professionalized. The following are considered: - changes and developments within the early years sector - the impact of good leadership on children and their families - effective practice in a variety of settings, including Children's Centres

- value-based leadership, and inspirational leadership - meeting the challenges - managing change - inter-agency and multi-disciplinary working - working with families and parent groups. Useful features such as Activities for Continuing Professional Development, Questions for Reflection and Pictures of Practice appear throughout the book. Those studying for Foundation Degrees, leaders undertaking the National Professional Qualification for Integrated Centre Leadership (NPQICL), those undertaking the management modules for Early Years Professional Status (EYPS) and anyone studying Childhood and Early Childhood will find this book an invaluable aid.

Inclusive Education in Schools and Early Childhood Settings

This book provides a highly informative yet concise overview of special education and inclusive education that serves as a valuable introduction to the field. Using a framework and relevant scenarios in inclusive educational settings to help readers develop a basic understanding of key concepts, it shares effective practices and engages readers in discussions on current research. Further, it highlights the commonalities between different levels of education and explores transitions across them. The book addresses theory, policy, practice and research issues in special education and inclusive education from an Australian perspective, focusing on current developments in Australian educational settings and classrooms. It also examines international issues and developments while highlighting the unique characteristics of the Australian educational context. As such, it appeals to post-graduate students, pre-service teachers, teachers and other professionals in the area.

Educators Belonging, Being and Becoming

A practical guide for teachers who want to improve relationships with the parents of their students. Presents jargon-free & solution based approaches to collaboration, drawing on inherent strengths present in every person. Author from Flinders University, South Australia.

Teacher-parent Collaboration

To achieve Early Years Professional Status candidates must demonstrate that they have effectively led the professional practice of their colleagues across the 0-5 age range. The second edition of this popular text helps Early Years students and experienced practitioners develop the knowledge, skills and confidence to do just that. It explains the nature of leadership and the EYP's role in promoting good practice and appropriate values and principles. This new edition has been fully revised and updated and includes new chapters on leading practice in a multi-professional context and the leader of practice as an agent of change.

Leading Practice in Early Years Settings

This book explores the ways in which Early Years practitioners work with parents and families to enhance children's development, learning and well-being. It explores the need for close partnership working between staff and families, offers examples of good practice and encourages reflection and discussion of the issues involved. The book pays particular attention to the standards required to gain Early Years Professional Status but is of interest to anybody working in an Early Years setting or studying on Early Childhood courses.

Working with Parents in Early Years Settings

The importance of interagency cooperation within children's services has been highlighted within recent government strategy, including the Every Child Matters agenda, the development of Children's Centres and the expansion of Extended Schools. Following tragic cases such as Victoria Climbié, the need for effective multi-disciplinary teamwork and interagency co-operation across all education and care settings remains as pressing as ever. Working Together in Children's Services addresses a range of theoretical perspectives and contexts to stimulate students and practitioners critical thinking about the issues of multi-agency working. The book provides the reader with a critical framework for understanding both new and future developments and explores key issues like: The notion of "working together" and what it means in practice The benefits and barriers of multi-agency work Current policy and requirements for successful interdisciplinary working Essential skills for inter-professional teamwork. As modules on multi-professional working become increasingly common, the book will provide core reading for all students of Early Childhood Studies, Initial Teacher Education and Foundation Degrees

in the Early Years. By showing how to develop successful multi-agency partnerships, it is also highly relevant for teachers and practitioners working across children's services.

Working Together in Children's Services

This book is written for all students of the Early Years. It begins by examining the role of a parent in a child's life and the importance of good working relationships between parents and Early Years practitioners. It goes on to discuss the preconceptions and assumptions that we all have about families and parents and considers the practical implications of working with parents in a respectful and trusting partnership. It explores both interpersonal and communication skills and the formal and informal ways of involving parents in the early years experience of their children. About the Early Years series This series has been designed to support students of degrees and foundation degrees in Early Years, Early Childhood and related disciplines. Each text takes a focused look at a specific topic and approaches it in an accessible and user-friendly way. Learning features help readers engage with the text and understand the subject from a number of different viewpoints. Tasks pose questions to prompt thought and discussion and further reading suggestions, including useful websites, are included to help students access extended learning in each topic. Other titles in the series are Early Childhood Studies, Becoming a Practitioner in the Early Years, Child Observation for the Early Years and Exploring Play for Early Childhood Studies. Ute Ward has been involved in the Early Years sector for more than 20 years in a range of different roles and contexts. In October 2011 Ute became Senior Lecturer in Early Years at the University of Hertfordshire where she teaches on Foundation Degrees and on undergraduate and postgraduate courses.

Working with Parents in the Early Years

To achieve Early Years Professional Status candidates must demonstrate that they have effectively led the professional practice of their colleagues across the 0-5 age range. The second edition of this popular text helps Early Years students and experienced practitioners develop the knowledge, skills and confidence to do just that. It explains the nature of leadership and the EYP's role in promoting good practice and appropriate values and principles. This new edition has been fully revised and updated and includes new chapters on leading practice in a multi-professional context and the leader of practice as an agent of change.

Leading Practice in Early Years Settings

Stories and fantasy play engage all young children and help them to draw connections and make sense of the world. MakeBelieve Arts Helicopter Stories are tried, tested and proven to have a significant impact on children's literacy and communication skills, their confidence and social and emotional development. Based on the storytelling and story acting curriculum of Vivian Gussin Paley, this book provides a practical, step-by-step guide to using this approach with young children. Covering all aspects of the approach, Artistic Director Trisha Lee shows you how you can introduce Helicopter Stories to children for the first time, scribing their tales and then bring their ideas to life by acting them out. Full of anecdotes and practical examples from a wide range of settings, the book includes: Clear guidelines and rules for scribing children's stories, creating a stage and acting out stories How to deal with taboos and sensitive issues in children's stories How to involve children who are unwilling to speak or act Supporting children with English as an Additional Language Links to show how the approach supports children's holistic development Providing an accessible guide to an approach that is gaining international recognition, and featuring a foreword by Vivian Gussin Paley, this book will be essential reading for all those that want to support children's learning in a way that is fun, engaging and proven to work.

Princesses, Dragons and Helicopter Stories

Working in 'partnership' in primary schools is an approach that is transforming the classrooms of the 1990s. It is now widely acknowledged that a collaborative approach can significantly improve the effectiveness of teaching. This book provides a practical, readable account of partnerships in educational settings including: * collaborating in nurseries and primary schools * reading and literacy partnerships * working with special needs assistants * supporting students in training * home-school links * liaising with an OFSTED inspector. The focus is placed on key principles of collaboration as well as specialist roles. Personal testimonies and case studies are used to illustrate the various aspects of teamwork.

Partnership in the Primary School

Students on Early Years placements face many challenges, from understanding the Early Years Foundation Stage, to coping with the immediate needs of individual children. This accessible guide begins by examining the diverse range of Early Years settings and how to prepare for placements. It goes on to look at the four areas of the EYFS and covers working with individual children, building positive relationships with children, colleagues and parents, creating and working in an enabling environment and supporting children's learning needs. A complete guide to the placement experience, this book supports students on their journey from student to qualified practitioner.

Successful Placements in Early Years Settings

First published in 2008. Routledge is an imprint of Taylor & Francis, an informa company.

Early Childhood Studies

Do you need good leaders to achieve good quality or does good quality create good leadership? Quality is a term frequently used to describe early years provision without any further explanation of exactly what this 2quality provision2 looks like or how it can be achieved. This book not only unpicks what is meant by the term 2quality2 in England, across the UK, and beyond, but it does so in the context of how to lead in order to develop and achieve quality. In exploring quality and leadership and the ways in which both terms have been conceptualised from a range of different perspectives you will be able to find a meaning that is right for you and your practice. With chapters covering: · The global interest in quality · The broad nature of early childhood leadership · Reflective evaluation and practice This book will be of interest to setting and room leaders across the early years as well as students studying early childhood or in early years teacher training.

Quality and Leadership in the Early Years

The Early Years Curriculum brings together a range of curriculum models from across the world, providing in-depth discussion on key issues and theories, and enabling readers to consider each approach to children's learning within an international context. It encourages readers to explore different ways of understanding the curriculum, and to develop a critical understanding of the key issues that shape the way a curriculum is designed.

The Early Years Curriculum

This book encourages practitioners to recognise their active involvement in leadership and management in relation to their work as team leader or team member, and in their work with parents and other professionals, to ensure appropriate and effective provision for young children.

Leadership And Management In The Early Years: From Principles To Practice

Leading Change in the Early Years focuses on the type of leadership skill needed for leading the reform and change agendas that challenge the early years sector. Early years professionals are expected to implement a range of government initiatives, as well as professionally endorsed changes, aimed at raising the quality of early years provision. The ease and success with which such initiatives are implemented relies on the competent leadership of change, that is, knowledge, understanding and expertise in encouraging, supporting and working with everyone involved with implementing and sustaining change. This resource helps to unpick the principles, processes and practice of effecting change and offers early years professionals a practical guide to the important elements relevant

for meeting the political agenda for quality improvement and the professional challenge of effecting responsible change. Key content includes: the link between competent leadership and successful change dimensions, models and processes of change leadership skills for effecting change strategies for reducing reluctance and resistance. This book is ideal for early years leaders who understand the general principles and practice of leadership, but who are interested in exploring and expanding their understanding and expertise in leading reform and change. Jillian Rodd is an educational and developmental psychologist and has published widely in the early childhood field throughout the world. This is a powerful text that utilises the voices of early years leaders to clearly articulate the challenges of leading change and demonstrate how the sector is rising to that challenge. It is, therefore, an excellent and vital resource for all working in the early years sector and comes at absolutely the right time as the pace of change in the sector continues to be fast flowing. This book comprehensively and accessibly draws together theory and practice enabling a thorough exploration of the subtle nuances within current debates as to the interrelationship and interaction of leadership and change. The closing thoughts at the end of each chapter are inspired; not simply a summary of the chapter, but an opportunity to underline the importance of key issues. The constructive and helpful strategies offered throughout the text give considerable support for those charged with leading change in the early years sector and, consequently, should be on the bookshelf of every early years setting. Dr Caroline Leeson, Associate Professor of Early Childhood Studies, Plymouth University In a constantly changing world strong leadership and change management skills become of paramount importance and there is an increasing expectation that early years professionals are able to negotiate these domains. This text draws on research evidence and case studies from practice to support those dealing with change on a daily basis. By encouraging early years professionals to draw on their skills of leadership and interpersonal relationships, Jillian provides clear strategies to enact change. This is a 'must have' book for all those working in the Early Years. Nikki Fairchild, Early Years Initial Teacher Training Programme Coordinator, University of Chichester At a time when early years practitioners everywhere are feeling pressure to respond to the children's policy agenda, this accessible guide offers support in implementing and sustaining change. Underpinned by theoretical models, Rodd explores the relationship between leadership and quality and identifies the dynamics of change within the processes of leadership. The text is complemented by comments from a wide of practitioners illustrating how professionals in different contexts experience and respond to the complexity of change. Rory McDowall Clark, Senior Lecturer in Early Childhood, Worcester University Jillian Rodd gives a contemporary view of leadership and change incorporating the latest research from the early years sector. Practitioner voices are evident throughout the book and bring the text to life, helping to contextualise theory explained in the chapters to real issues practitioners encounter in everyday practice. The book provides insight to the complexities of leadership and change, essential understanding for both early years students and practitioners. Natalie Canning, Lecturer in Education - Early Years, The Open University This latest book from Jillian Rodd is timely as early childhood services continue to respond to the demands of policy and funding changes arising from continuing government interest in the early years. Another important application lies in responding to complexity arising from diverse communities and the challenges of improving and developing pedagogy and curriculum to enhance each child's learning and wellbeing. Currently there is little available that specifically addresses change in the early years. 'Leading change in the early years' progressively develops an argument that change is complex and multi-faceted, conceptualising change as encompassing quality improvement as a core function of early years services rather than as a special event to be managed. The role of leadership is presented as embedded within change where multiple leaders have responsibilities to contribute to change through building professional relationships that support collective endeavours within services. In recognising the complexity of change the work draws on current research offering comprehensive coverage of the issues and significant factors associated with change, including the importance of establishing and nurturing a culture of learning within a service. This latest work is very accessible and will be invaluable for existing early childhood leaders, aspiring leaders and tertiary students. I have no doubt this book will be valued as a companion to the acclaimed Leadership in Early Childhood now in the 4th edition. Kaye Colmer, CEO Gowrie SA Change is the big 'c' word in contemporary educational environments. Information overload, turbulence and complexity characterise our everyday practice and our paths up ahead. The inevitability of change means we must be prepared and can be proactive in responding to external drivers, as well as in initiating reform. Most of all we must be willing to learn and to grow in our thinking. In this book, Jillian Rodd, a pioneer leadership researcher is once again, on the front foot, engaging early childhood readers with inquiry, insights and innovation. Rodd's approach to leading change makes it possible to embrace challenges as opportunities. This book is a 'must read' for intentional leaders seeking

practical strategies for the everyday realities of early childhood settings. Manjula Waniganayake (PhD), Associate Professor at the Institute of Early Childhood , Macquarie University

EBOOK: Leading Change in the Early Years

This book is the essential handbook to support all those considering or working towards achieving Early Years Professional Status (EYPS) whichever pathway they embark on.

The Early Years Professional's Complete Companion

This comprehensive text is aimed at all students studying for Early Years Professional Status via the Full Route Pathway, and guides readers through children's development in the first five years of life. Links to the Early Years Foundation Stage are made throughout, as students are steered through each of the thirty-nine national standards, and the practical application of theory is emphasised. Assuming little or no experience of working with young children, the book includes: an examination of the theory and legislation full explanations of the principles of the Early Years Foundation Stage framework clear guidance on how children develop and learn from birth to five information on skills and behaviours that safeguard and promote good outcomes advice on leading, managing and supporting early years practitioners guidance on teamwork and collaboration suggestions for ongoing professional development. With practical examples from early years professionals, photographs to illustrate good practice and activities for reflection in every chapter, Early Years Professional Status is essential reading for students and practitioners looking to take a leading role in transforming and improving education and care services for young children.

Early Years Professional Status

This book brings together contributions from international experts on early years education to explore and debate relational pedagogy across different countries and in the context of a broad international field.

Learning Together in the Early Years

Working with Children in the Early Years is an accessible introduction to early years theories, policy and practice, offering practitioners in a diverse range of settings the opportunity to develop their knowledge, understanding and skills for working with young children. This fully updated second edition builds on new government agendas and interests in supporting quality provision for young children and their families. Bringing together current research and thinking in a broad range of areas, it covers: the diversity of practitioner roles and multi-agency working with families listening to children observing and assessing developing professional roles health and well being curriculum and pedagogy the importance of play and learning in the early years All contributions are strongly practical and underpinned by relevant theory, and will support students and practitioners studying in the field of early years and early childhood studies as well as those aiming to achieve Early Years Professional Status. The book will also appeal to training providers, equipping them with a valuable and unique source to support a range of early years courses.

Working with Children in the Early Years

Early childhood is a time of wonder, excitement, adventure and learning. A time to experience social relations and friendships, and all of the emotions involved. The joy, and the excitement – of creating a common world with friends. A world of 'what if' and 'as if' moments that are accepted and built together, or rejected – leading to frustration, sadness and exclusion – the darker side of friendship. In this book, cultural-historical concepts are used to analyse the everyday lives of children. Inspired by contemporary ideas about moral imagination, Collaborative Pathways to Friendship in Early Childhood theorises friendship as a concept. Traditionally, studies about friendship in early childhood focus on relations built in educational settings. As a point of difference, Dr Adams and Dr Quinones introduce the conditions that are created for, with, and by young children as they move between everyday family life, and transition into education settings. Through narratives of internationally mobile families moving into Malaysia and established families in Mexico, varying perspectives of children, parents, teachers and principals are presented — culminating in a holistic understanding of friendship in early childhood. Providing insight into varied perspectives and processes involved when young children enter into

friendships, this book will be of interest to researchers, post graduate students and teacher educators specialising in early childhood education, child psychology or social work.

Collaborative Pathways to Friendship in Early Childhood

Fully up to date with the latest information and theories, this text supports students and practitioners working in early years management.

Early Years Management in Practice

Fully up to date with the SEND Code of Practice this book explores all the key contemporary issues relevant to supporting children with special needs in an early years context. Combining theory with practice, it demonstrates how to ensure children's individual needs are at the heart of early years provision. Key topics covered include: The history and current climate of SEN provision Working with Parents Models of special needs provision Leadership and inclusion Professional ethics Multi-agency working Early intervention International perspectives This core textbook is an essential read for early years students at all levels, and early years practitioners who wish to gain a greater understanding of the core issues affecting special needs provision.

Special Needs in the Early Years

This review of early childhood education and care (ECEC) in twenty OECD countries describes the social, economic, conceptual and research factors that influence early childhood policy.
