True History of the Conquest of New Spain, Volume 5

This rugged new translation--the first entirely new English translation in half a century and the only one based on the most recent critical edition of the Guatemalan MS--allows Diaz to recount, in his own battle-weary and often cynical voice, the achievements, stratagems, and frequent cruelty of Hernando Cortes and his men as they set out to overthrow Moctezuma's Aztec kingdom and establish a Spanish empire in the New World. The concise contextual introduction to this volume traces the origins, history, and methods of the Spanish enterprise in the Americas; it also discusses the nature of the conflict between the Spanish and the Aztecs in Mexico, and compares Diaz's version of events to those of other contemporary chroniclers. Editorial glosses summarize omitted portions, and substantial footnotes explain those terms, names, and cultural references in Diaz's text that may be unfamiliar to modern readers. A chronology of the Conquest is included, as are a guide to major figures, a select bibliography, and three maps.

Vivid, powerful and absorbing, this is a first-person account of one of the most startling military episodes in history: the overthrow of Montezuma's doomed Aztec Empire by the ruthless Hernan Cortes and his band of adventurers. Bernal Díaz del Castillo, himself a soldier under Cortes, presents a fascinatingly detailed description of the Spanish landing in Mexico in 1520 and their amazement at the city, the exploitation of the natives for gold and other treasures, the expulsion and flight of the Spaniards, their regrouping and eventual capture of the Aztec capital.

The True History of the Conquest of New Spain, Volume 1... - Primary Source Edition

Soldier of fortune and 16th century Spanish conquistador Bernal Diaz del Castillo is best known today for his first-hand accounts of Spain's expeditions to the New World. The son of a prominent regidor of Medina del Campo, Diaz del Castillo left home in 1514 at age eighteen to join his first expedition to the New World, that of Pedrarias Davila. This expedition would be the largest of all the Spanish expeditions with nineteen vessels and over fifteen hundred people. Despite the fact that the expedition suffered massive famine and epidemic, killing more than half of the voyagers, Diaz del Castillo was deterred in his ambition for adventure, wealth, and glory. Diaz del Castillo would join subsequent journeys to the Yucatan in 1517 as part of the Francisco Hernandez de Cordoba expedition, in 1518 as part of the Juan de Grijalva expedition, and finally in 1518 as part of the Hernan Cortes expedition. Written fifty years after these voyages to Mexico, "The True History of the Conquest of New Spain" describes the diverse native peoples that the Spanish encountered there and the numerous battles of the Spanish conquest of the Aztec empire. In contrast to the first-hand accounts of Bartolome de las Casas, Diaz del Castillo's account seeks to portray the conquistadors in a more favorable light, emphasizing their humanity, honesty, and intent of bringing Christianity to the New World. Contained here in this volume is the unabridged translation of John Ingram Lockhart. This edition is printed on premium acid-free paper.

The Memoirs of the Conquistador Bernal Diaz Del Castillo

The Conquest of New Spain is the first-person narrative of Bernal D  yaz del Castillo (1492-1581), the 16th-century military adventurer, conquistador, and colonist settler, who served in three Mexican expeditions; those of Francisco Hern  ndez de C  rdoba (1517) to the Yucat  n peninsula; the expedition of Juan de Grijalva (1518), and the expedition of Hern  n Cort  s (1517) in the Valley of Mexico; the history relates his participation in the fall of Emperor Moctezuma II, and the subsequent defeat of the Aztec empire. In the colonial history of Latin America, The Conquest of New Spain is a vivid, military account that establishes Bernal D  yaz del Castillo "among chroniclers what Daniel Defoe is among novelists". Late in life, when D  yaz del Castillo was eighty-four years old, and residing in his encomienda estates in Guatemala, he wrote The True History of the Conquest of New Spain to defend the story of the common-soldier conquistador within the histories about the Spanish conquest of Mexico. He presents his narrative as an alternative to the critical writings of Fr. Bartolom  y de Las Casas, whose Indian-native histories emphasized the cruelty of the conquest; and the histories of the hagiographic biographers of Hern  n Cort  s - specifically that of Francisco L  pez de G  mara, whom he believed minimized the role of the 700 enlisted soldiers who were instrumental to conquering the Aztec empire. That said historians and hagiographers speak the truth "neither in the beginning, nor the middle, nor the end\
