Good and Mad

"In the year 2018, it seems as if women's anger has suddenly erupted into the public conversation. But long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic--but politically problematic. The story of female fury and its cultural significance demonstrates the long history of bitter resentment that has enshrouded women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men"--

Good and Mad

Journalist Rebecca Traister's New York Times bestselling exploration of the transformative power of female anger and its ability to transcend into a political movement is "a hopeful, maddening compendium of righteous feminine anger, and the good it can do when wielded efficiently—and collectively" (Vanity Fair). Long before Pantsuit Nation, before the Women's March, and before the #MeToo movement, women's anger was not only politically catalytic—but politically problematic. The story of female fury and its cultural significance demonstrates its crucial role in women's slow rise to political power in America, as well as the ways that anger is received when it comes from women as opposed to when it comes from men. "Urgent, enlightened...realistic and compelling...Traister eloquently highlights the challenge of blaming not just forces and systems, but individuals" (The Washington Post). In Good and Mad, Traister tracks the history of female anger as political fuel—from suffragettes marching on the White House to office workers vacating their buildings after Clarence Thomas was confirmed to the Supreme Court. Traister explores women's anger at both men and other women; anger between ideological allies and foes; the varied ways anger is received based on who's expressing it; and the way women's collective fury has become transformative political fuel. She deconstructs society's (and the media's) condemnation of female emotion (especially rage) and the impact of their resulting repercussions. Highlighting a double standard perpetuated against women by all sexes, and its disastrous, stultifying effect, Good and Mad is "perfectly timed and inspiring" (People, Book of the Week). This "admirably rousing narrative" (The Atlantic) offers a glimpse into the galvanizing force of women's collective anger, which, when harnessed, can change history.

Becoming a White Antiracist

As this book was being written, the United States exploded in outrage against the murder by police of people of color across the country. Corporations, branches of state and local government, and educational institutions all pledged to work for racial justice and the Black Lives Matters movement moved into the mainstream as people from multiple racial and class identities pledged their support to its message. Diversity initiatives abounded, mission statements everywhere were changed to

incorporate references to racial justice, and the rampant anti-blackness endemic to US culture was brought strikingly to the surface. Everywhere, it seemed, white people were looking to learn about race. "What do we do?" "How can we help?" These were the cries the authors heard most frequently from those whites whose consciousness of racism was being raised. This book is their answer to those cries. It's grounded in the idea that white people need to start with themselves, with understanding that they have a white racial identity. Once you've learned about what it means to be white in a white supremacist world, the answer of "what can I do" becomes clear. Sometimes you work in multiracial alliances, but more often you work with white colleagues and friends. In this book the authors explore what it means for whites to move from becoming aware of the extent of their unwitting collusion in racism, towards developing a committed antiracist white identity. They create a road map, or series of paths, that people can consider traveling as they work to develop a positive white identity centered around enacting antiracism. The book will be useful to anyone trying to create conversations around race, teach about white supremacy, arrange staff and development workshops on racism, and help colleagues explore how to create an antiracist culture or environment. This work happens in schools, colleges and universities, and we suspect many readers will be located in K-12 and higher education. But helping people develop an antiracist identity is a project that occurs in corporations, congregations, community groups, health care, state and local government, arts organizations, and the military as well. Essentially, if you have an interest in helping the whites you interact with become antiracist, then this book is written very specifically for you. Watch our BWAR YouTube playlist, where authors Stephen Brookfield and Mary Hess chat about some common themes from the book.

Newly updated: The bestseller "that could bring the human race a little closer to rescuing itself" from the subject of the film *The Two Glorias* (Naomi Wolf). Without self-esteem, the only change is an exchange of masters; with it, there is no need for masters. When trying to find books to give to "the countless brave and smart women I met who didn't think of themselves as either brave or smart," Steinem realized that books either supposed that external political change would cure everything or that internal change would. None linked internal and external change together in a seamless circle of cause and effect, effect and cause. She undertook to write such a book, and ended up transforming her life, as well as the lives of others. The result of her reflections is this truly transformative book: part personal collection of stories from her own life and the lives of many others, part revolutionary guide to finding community and inspiration. Steinem finds role models in a very young and uncertain Gandhi as well as unlikely heroes from the streets to history. *Revolution from Within* addresses the core issues of self-authority and unjust external authority, and argues that the first is necessary to transform the second. This ebook features an illustrated biography of Gloria Steinem including rare images from the author's personal collection, as well as a new preface and list of book recommendations from Steinem.

A treatise of Black women's transformative influence in media and society, placing them front and center in a new chapter of mainstream resistance and political engagement In *Reclaiming Our Space*, social worker, activist, and cultural commentator Feminista Jones explores how Black women are changing culture, society, and the landscape of feminism by building digital communities and using social media as powerful platforms. As Jones reveals, some of the best-loved devices of our shared social media language are a result of Black women's innovations, from well-known movement-building hashtags (#BlackLivesMatter, #SayHerName, and #BlackGirlMagic) to the now ubiquitous use of threaded tweets as a marketing and storytelling tool. For some, these online dialogues provide an introduction to the work of Black feminist icons like Angela Davis, Barbara Smith, bell hooks, and the women of the Combahee River Collective. For others, this discourse provides a platform for continuing their feminist activism and scholarship in a new, interactive way. Complex conversations around race, class, and gender that have been happening behind the closed doors of academia for decades are now becoming part of the wider cultural vernacular—one pithy tweet at a time. With these important online conversations, not only are Black women influencing popular culture and creating sociopolitical movements; they are also galvanizing a new generation to learn and engage in Black feminist thought and theory, and inspiring change in communities around them. Hard-hitting, intelligent, incisive, yet bursting with humor and pop-culture savvy, *Reclaiming Our Space* is a survey of Black feminism's past, present, and future, and it explains why intersectional movement building will save us all.

In *The Headless Republic*, Jesse Goldhammer explores how the French revolutionaries retrieved a set of ideas about founding violence from the classical Romans and early Christians and incorporated it into postrevolutionary debates that echoed into the twentieth century. By linking sacrifice as expressed in revolutionary practices to modern French theory, Goldhammer shows how ancient ideas of violent political renewal made their way into the contemporary age. Goldhammer elucidates the theoretical and practical significance of sacrificial violence during the Revolution, and then turns his attention to postrevolutionary intellectuals whose work is inspired by the founding sacrifices of the French Republic. Showing how Georges Bataille, Joseph de Maistre, and Georges Sorel adapted concepts of sacrifice to their own particular political agendas--whether reactionary or revolutionary--Goldhammer challenges conventional readings of these three thinkers as "bloodthirsty intellectuals." Instead, he argues, their work reveals the limits of violence as an agent of political change and attacks the forms of violence later adopted by fascist regimes. More broadly, Goldhammer makes the case for including ancient concepts of collective bloodshed in the modern lexicon of political violence.

Refugees have rarely been studied by economists. Despite some pioneering research on the economic lives of refugees, there remains a lack of theory and empirical data through which to understand, and build upon, refugees' own engagement with markets. Yet, understanding these economic systems may hold the key to rethinking our entire approach to refugee assistance. If we can improve our knowledge of the resource allocation systems that shape refugees' lives and opportunities, then we may be able to understand the mechanisms through which these market-based systems can be made to work better and turn humanitarian challenges into sustainable opportunities. This book adopts an inter-disciplinary approach, based on original qualitative and quantitative data on the economic life of refugees, in order to begin to build theory on the economic lives of refugees. It focuses on the case of Uganda because it represents a relatively positive case. Unlike other governments in the region, it has taken the positive step to allow refugees the right to work and a significant degree of freedom of movement through its so-called 'Self-Reliance Strategy'. This allows a unique opportunity to explore what is possible when refugees have basic economic freedoms. The book shows that refugees have complex and varied economic lives, often being highly entrepreneurial and connected to the global

economy. The implications are simple but profound: far from being an inevitable burden, refugees have the capacity to help themselves and contribute to their host societies - if we let them

Shortlisted for The Green Carnation Prize 2014 'This is not a fairytale. This is a story about how sex and money and power police our dreams.' Clear-eyed, witty and irreverent, Laurie Penny is as ruthless in her dissection of modern feminism and class politics as she is in discussing her own experiences in journalism, activism and underground culture. This is a book about poverty and prejudice, online dating and eating disorders, riots in the streets and lies on the television. The backlash is on against sexual freedom for men and women and social justice – and feminism needs to get braver. Penny speaks for a new feminism that takes no prisoners, a feminism that is about justice and equality, but also about freedom for all. It's about the freedom to be who we are, to love who we choose, to invent new gender roles, and to speak out fiercely against those who would deny us those rights. It is a book that gives the silenced a voice – a voice that speaks of unspeakable things.

Feminism Doesn't Empower Women. It Erases Them. The bestselling author of Theology of Home, Carrie Gress shows that fifty years of radical feminism have solidified the primacy of the traditionally male sphere of life and devalued the attributes, virtues, and strengths of women. Feminism, the ideology dedicated to "smashing the patriarchy," has instead made male lives the norm for everyone. After fifty years of radical feminism, we can't even define "woman." In this powerful new book, Carrie Gress says what cannot be said: feminism has abolished women. Hulking "trans women" thrash female athletes. Mothers abort their baby girls. Drag queens perform obscene parodies of women. Females are enslaved for men's pleasure—or they enslave themselves. Feminism doesn't avert these tragedies; it encourages them. The carefree binge of self-absorption has left women exploited, unhappy, dependent on the state, and at war with men. And still, feminists cling to their illusions of liberation. But there are

real answers. Real answers for real women. Carrie Gress—a wife, mother, and philosopher—punctures the myth of feminism, exposing its legacy of abuse, abandonment, and anarchy. From the serpent's seduction of Eve to Mary Shelley's *Frankenstein* to Kate Millett's lust, violence, and insanity to Meghan Markle's havoc-ridden rise to royalty, Gress presents a history as intriguing as the characters who lived it. The answers women most desperately need, she concludes, are to be found precisely where they are most afraid to look. Only a rediscovery of true womanhood—and motherhood—can pull our society back from the brink. And happiness is possible only if women are open to making peace with men, with children, with God, and—no less difficult—with themselves. For feminism's victims, Gress is a welcoming voice in the darkness: The door is open. The lights are on. Come home.

Gender and Dance in Modern Iran: Biopolitics on Stage investigates the ways dancing bodies have been providing evidence for competing representations of modernity, urbanism, and religiosity across the twentieth century. Focusing on the transformation of the staged dancing body, its space of performance, and spectatorial cultural ideology, this book traces the dancing body in multiple milieus of performance, including the Pahlavi era's national artistic scene and the popular café and cabaret stages, as well as the commercial cinematic screen and the post-revolutionary Islamized theatrical stage. It links the socio-political discourses on performance with the staged public dancer, in order to interrogate the formation of dominant categories of "modern," "high," and "artistic," and the subsequent "othering" of cultural realms that were discursively peripheralized from the "national" stage. Through the study of archival and ethnographic research as well as a diverse literature pertaining to music, theater, cinema, and popular culture, it combines a close reading of primary sources such as official documents, press materials, and program notes with visual analysis of filmic materials and imageries, as well as interviews with practitioners. It offers an original and informed exploration into the ways performing bodies and their public have been associated with binary notions of vice and virtue, morality and immorality, commitment and degeneration, chastity and eroticism, and veiled-ness and nakedness. Engaging with a range of methodological and historiographical methods, including postcolonial, performance, and feminist studies, this book is a valuable resource for students and scholars of Middle East history and Iranian studies, as well as gender studies and dance and performance studies.

Andrea Dworkin, once called "Feminism's Malcolm X," has been worshipped, reviled, criticized, and analyzed-but never ignored. The power of her writing, the passion of her ideals, and the ferocity of her intellect have spurred the arguments and activism of two generations of feminists. Now the book that she's best known for-in which she provoked the argument that ultimately split apart the feminist movement-is being reissued for the young women and men of the twenty-first century. *Intercourse* enraged as many readers as it inspired when it was first published in 1987. In it, Dworkin argues that in a male supremacist society, sex between men and women constitutes a central part of women's subordination to men. (This argument was quickly-and falsely-simplified to "all sex is rape" in the public arena, adding fire to Dworkin's already radical persona.) In her introduction to this twentieth-anniversary edition of *Intercourse*, Ariel Levy, the author of *Female Chauvinist Pigs*, discusses the circumstances of Dworkin's untimely death in the spring of 2005, and the enormous impact of her life and work. Dworkin's argument, she points out, is the stickiest question of feminism: Can a woman fight the power when he shares her bed?

NATIONAL BOOK AWARD FINALIST • Frank and April Wheeler are a bright, beautiful, talented couple in the 1950s whose perfect suburban life is about to crumble in this "moving and absorbing story" (*The Atlantic Monthly*) from one of the most acclaimed writers of the twentieth century. "The Great Gatsby of my time...one of the best books by a member of my generation." —Kurt Vonnegut, acclaimed author

of Slaughterhouse-Five Perhaps Frank and April Wheeler married too young and started a family too early. Maybe Frank's job is dull. And April never saw herself as a housewife. Yet they have always lived on the assumption that greatness is only just around the corner. But now that certainty is about to unravel. With heartbreaking compassion and remorseless clarity, Richard Yates shows how Frank and April mortgage their spiritual birthright, betraying not only each other, but their best selves. In his introduction to this edition, novelist Richard Ford pays homage to the lasting influence and enduring power of Revolutionary Road.
