## The Three Questions

Excerpt from The Three Questions: What Am I? Whence Came I? Whither Do I Go? The mode which the author has pursued in working out his design, will be best collected by the reader as he proceeds in the perusal of the volume. He would, therefore, only add, that he has not so much aimed at producing a religious treatise, as an introduction to such treatises, and an incitement, as it were, to their perusal. Although adapted, also, for young men in the first instance, it is trusted that the work will be found applicable to other classes of readers. The ethics and philosophy of Freemasonry depend on monotheistic religions and the ancient constitution of the Freemasons. The constitution describes the rules and rituals that members must follow. Some of the ceremonies incorporate stonemasonry tools, which symbolize not only the construction of Solomon's Temple, but also the forging of partnerships. While masonic practices are cloaked in secrecy, this collection gathers the best-known sources portraying the statutes, laws, symbols, rituals, and customs of Masonic societies. "Can we live better? 7 classic utopias" is a collection of the most famous classical works on the topic of an ideal society. For thousands of years human beings have dreamt of perfect worlds, worlds free of conflict, hunger and unhappiness. But can these worlds ever exist in reality? Many thinkers and authors have sought an answer to this question. Utopia is a perfect paradise that doesn't exist, but which we all dream of anyway. Author Thomas More actually created the noun in one of his books to describe an imaginary island where all systems—political, social, and legal—are perfect and operate harmoniously. The collection includes works by Plato, Thomas More, Tommaso Campanella, Francis Bacon, Edward Bellamy, William Morris, Samuel Butler. Contents: Plato - The Republic Thomas More - Utopia Tommaso Campanella - The City of The Sun Frances Bacon - The New Atlantis Edward Bellamy - Looking Backwards: from 2000 to 1887 William Morris - News from Nowhere Samuel Butler - Erewhon

Travels into Several Remote Nations of the World. In Four Parts. By Lemuel Gulliver, First a Surgeon, and then a Captain of Several Ships, commonly known as Gulliver's Travels (1726, amended 1735), is a prose satire by Anglo-Irish writer and clergyman Jonathan Swift, that is both a satire on human nature and a parody of the "travellers' tales" literary subgenre. It is Swift's best known full-length work, and a classic of English literature. The book became popular as soon as it was published. John Gay wrote in a 1726 letter to Swift that "It is universally read, from the cabinet council to the nursery." Since then, it has never been out of print.

Two novellas by S. Y. Abramovitsh open this collection of the best short works by three influential nineteenth-century Jewish authors. Abramovitsh's alter ego—Mendele the Book Peddler—introduces himself and narrates both *The Little Man* and *Fishke the Lamé*. His cast of characters includes Isaac Abraham as tailor's apprentice, choirboy, and corrupt businessman; Mendele's friend Wine 'n' Candles Alter; and Fishke, who travels through the Ukraine with a caravan of beggars. Sholem Aleichem's lively stories reintroduce us to Tevye, the gregarious dairyman, as he describes the pleasures of raising his independent-minded daughters. These are followed by short monologues in which Aleichem gives voice to unforgettable characters from Eastern Europe to the Lower East Side. Finally, I. L. Peretz's neo-hasidic tales draw on hasidic traditions in the service of modern literature. These stories provide an unsentimental look back at Jewish life in Eastern Europe. Although nostalgia occasionally colors their prose, the writers were social critics who understood the shortcomings of shtetl life. For the general reader, these translations breathe new life into the extraordinary worlds of Yiddish literature. The introduction, glossary, and biographical essays contemporaneous to each author put those worlds into context, making the book indispensable to students and scholars of Yiddish culture.

#### Hard Times

As readers, we seem to be increasingly fascinated by studies of individual lives. In this timely, unusual and exhilarating collection Hermione Lee is concerned in different ways with approaches to 'life-writing': the relation of biography to fiction and history; the exploration of writers' lives in connection with their works; the new and changing ways in which biographies, memoirs, diaries and autobiographies can be discussed. As the title suggests, she also unravels the complex links between physical, sensual details and the 'body' of a work. 'Shelley's Heart and Pepys' Lobsters', for example, deals with myths, contested objects and things that go missing, while 'Jane Austen Faints' takes five varied accounts of the same dramatic moment to ask how biography deals with the private lives of famous women, a theme taken up in 'Virginia Woolf's Nose', on the way that the author's life-stories have been transformed into fiction and film. Rich, diverting and entertaining, these brilliant studies by a leading critic and internationally acclaimed biographer raise profound and intriguing issues about every aspect of writing, and reading, a life.

#### Jane Eyre

In this profound and moving philosophical statement, Camus poses the fundamental question: Is life worth living? If human existence holds no significance, what can keep us from suicide? As Camus argues, if there is no God to give meaning to our lives, humans must take on that purpose themselves. This is our 'absurd' task, like Sisyphus forever rolling his rock up a hill, as the inevitability of death constantly overshadows us. Written during the bleakest days of the Second World War, *The Myth of Sisyphus* argues for an acceptance of reality that encompasses revolt, passion and, above all, liberty. This volume contains several other essays, including lyrical evocations of the sunlit cities of Algiers and Oran, the settings of his great novels *The Outsider* and *The Plague*. Albert Camus is the author of a number of best-selling and highly influential works, all of which are published by Penguin. They include *The Fall*, *The Outsider* and *The First Man*. He is remembered as one of the few writers to have shaped the intellectual climate of post-war France, but beyond that, his fame has been international. Translated by Justin O'Brien With an Introduction by James Wood

#### The New Matthew Henry Commentary

This early work by Radclyffe Hall was originally published in 1928 and we are now republishing it with a brand new introductory biography. 'The Well of Loneliness' is a novel that follows an upper-class Englishwoman who falls in love with another woman while serving as an ambulance driver in World War I. Marguerite Radclyffe Hall was born on 12th August 1880, in Bournemouth, England. Hall's first novel *The Unlit Lamp* (1924) was a lengthy and grim tale that proved hard to sell. It was only published following the success of the much lighter social comedy *The Forge* (1924), which made the best-seller list of John O'London's Weekly. Hall is a key figure in lesbian literature for her novel *The Well of Loneliness* (1928). This is her only work with overt lesbian themes and tells the story of the life of a masculine lesbian named Stephen Gordon.

From one of our most gifted writers and thinkers about death and the meaning of living comes a collection of writings about what comes next. Thomas Lynch, funeral director, poet, and author of the National Book Award finalist *The Undertaking: Life Studies from the Dismal Trade*, has an uncanny knack for writing about death in ways that are never morbid, always thoughtful, often humorous, and quite moving. From his account of riding in the hearse at the funeral of poet laureate Seamus Heaney, to his recounting of the funeral for a young child in the 1800s, to his compelling essay about his own mortality, Lynch always finds ways to make sense of senseless things, as he ponders what will come next.

## Treasure Island

*Leviathan or The Matter, Forme and Power of a Common-Wealth Ecclesiastical and Civil* is a book written by an English materialist philosopher Thomas Hobbes about problems of the state existence and development. Leviathan is a name of a Bible monster, a symbol of nature powers that belittles a man. Hobbes uses this character to describe a powerful state ("God of the death"). He starts with a postulate about a natural human state ("the war of all against all") and develops the idea "man is a wolf to a man". When people stay for a long time in the position of an inevitable extermination they give a part of their natural rights, for the sake of their lives and general peace, according to an unspoken agreement to someone who is obliged to maintain a free usage of the rest of their rights – to the state. The state, a union of people, where the will of a single one (the state) is compulsory for everybody, has a task to regulate the relations between all the people. The book was banned several times in England and Russia.

## Psychic Self-Defense

*Nicomachean Ethics* Aristotle - The *Nicomachean Ethics* is one of Aristotle's most widely read and influential works. Ideas central to ethics—that happiness is the end of human endeavor, that moral virtue is formed through action and habituation, and that good action requires prudence—found their most powerful proponent in the person medieval scholars simply called "the Philosopher." Drawing on their intimate knowledge of Aristotle's thought, Robert C. Bartlett and Susan D. Collins have produced here an English-language translation of the *Ethics* that is as remarkably faithful to the original as it is graceful in its rendering. Aristotle is well known for the precision with which he chooses his words, and in this elegant translation his work has found its ideal match. Bartlett and Collins provide copious notes and a glossary providing context and further explanation for students, as well as an introduction and a substantial interpretive essay that sketch central arguments of the work and the seminal place of Aristotle's *Ethics* in his political philosophy as a whole. The *Nicomachean Ethics* has engaged the serious interest of readers across centuries and civilizations—of peoples ancient, medieval, and modern; pagan, Christian, Muslim, and Jewish—and this new edition will take its place as the standard English-language translation.

## Candide (',.)

In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

#### Canada and the Canadian Question (Classic Reprint)

Excerpt from Canada and the Canadian Question Where the subject is so complex and so disjointed, to devise a satisfactory arrangement is not easy. Writers and readers of the history of the Dominion too well know how wanting it is in unity. For the special purpose of this work, which is neither elaborate description nor detailed history, but the presentation of a case and of a problem, it seemed best first, brie y to delineate the Provinces, which are the factors of the case, then to sketch their political history, leading up to Confederation, then to give an account of the Confederation itself, with its political sequel, up to the present time, and finally to propound the problem. The general reader, if any one answering to that description ever takes up this work, may skip the chapter on the Federal polity, the subject of which to the reader specially interested in Colonial institutions will probably seem the most important of all. To impart anything like liveliness to a discussion of the British North America Act one must have the touch of Voltaire. #### The Race Question in Canada (Classic Reprint)

Excerpt from The Race Question in Canada Canadian politics are a tilting-ground for impassioned rivalries. An immemorial struggle persists between French and English, Catholics and Protestants, while an influence is gathering strength close by them which some day may become predominant - that of the United States. In this complex contest, the subject of my book, the whole future of Canada is at stake. There is no need to begin by evoking memories of history which will be present to all minds. By way of preface it will suffice to set out as clearly as possible the chief factors of what may be called the Canadian problem. It is, as I have implied, a very complex one. Hena its difficulty. Hence its fascination. I In the first place, and above all, it is a racial problem. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from A Vital Question: Must Canada of the Future Have a Navy? Hitherto it has always been referred to as the British navy, but recent events call for a broader interpretation of its true and real significance, and what more fitting title could fill the roll than The Empire's Navy? The continued and prolonged apathy of Canada on this question is appalling. How is it? The reasons are not difficult of solution. Excerpt from Every-Day Questions Answered in Regard to the Canadian West and Its Opportunities and Rewards for Farmers The question then before the intending emigrant from Europe, from eastern Canada, or from the United States, is not whether it is a good thing to go to the north-west, but simply in what part of that great wheat-empire it will be best to make his home; what particular line of agricultural industry shall engage him: and how best to prepare for it. To give information and advice upon these points is the object of the present pamphlet. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Excerpt from Some Canadian Questions: Studies in Preparation for the First Canadian National Student Conference, December 28th-January 2nd, 1923 Those of us who have worked together in the Student Christian Movement have great faith in a corporate and fearless search for truth undertaken in all humility and devotion by ordinary people who will dare to act on their discoveries. We believe that the Kingdom of God can only be discovered through such search. We aim in this conference at an examination of phases of Canadian life that we may see where lies their strength and their weakness and may gain more light on how the Spirit of Christ may dominate that life and how Canada may join with other peoples in the universal fellowship of the Kingdom of God. The responsibility for this conference as for all else in the Student Christian Movement rests on the members. Its value will depend on preparation and results. Excerpt from The Canadian Railroad Question: Arguments and Facts Submitted to a Committee of the United States Senate The interests of Detroit and the State of Michigan in the subject-matter of your committee's inquiry is very great. This city and State are peculiarly situated. On the east we have Canada and the intervening boundary waters between Canada and the United States. Our only way of ingress and egress from and to the east by railway, save through Canada, is via Toledo, around Lake Erie. The distance between Detroit and Buffalo by this route, is 361 miles. ### The Canadian Railroad Question

Excerpt from Defence of Canada: Considered as an Imperial Question With Reference to a War With America If these principles be correct, war with America upon the basis of the defence of Canada must result in disaster; and it would appear that a mistake has been made in discussing \_the best mode of carrying on war with America purely with reference to this object. War involves, in the first instance, the defence of Great Britain. And Ireland, the heart and life of the empire; and after that, of her colonies, possessions, and commerce. ### Defence of Canada

Excerpt from Queen's and Canada Co-education, so far as university life in Canada is concerned, began in Queen's. Women were admitted, to begin with, to the Faculty of Arts. The question then arose why they should not be allowed to study Medicine. The thing had not hitherto been done in Canada, but it was done here. The very novelty of the scheme attracted a singularly able group of women. There were, however, difficulties not a few in the carrying on of a medical school for men and women where the school itself was small. Consequently, when the University of Toronto opened the doors of its medical faculty to women, Queen's decided to restrict its work in this field to men. The Extra-mural system, which has been of such benefit to teachers throughout the Dominion, began almost by accident. Students with the long summer vacation before them used to ask their professors for guidance in their reading. Gradually this counsel came to be increasingly important till the question arose, as to whether credit might not be given for such reading provided the student possessed the necessary academic requirements for entering upon a course of university study, followed the University curriculum in his reading, and passed the same examinations as the student attending the classes in Queen's. The idea was not in itself new. London University had shown the way. But the conditions in Canada made the problem largely new, and the regulations governing it have been modified considerably as the result of the long years of trial. The system, however, has been of the greatest value to the Dominion. Every where one meets men in high positions in the educational world who received their opportunity through the Extra-mural system. #### RELATIONS OF THE US TO THE CAN

Excerpt from A Colonist on the Colonial Question The controversial character of the earlier part of the work is to me a matter of regret. But I felt that I should not be doing justice to the subject were I to lay before my readers only one side of the case, and that in no manner was it possible to bring both sides before them so effectually as by allowing the opponents of my own views to speak for themselves. Our controversy is merely in reference to the means whereby the interests of our fellow-countrymen may best be advanced. I do not for a moment suppose that I have exhausted the immense subject under review. The labours of our wisest statesmen and most careful thinkers would be requisite for the accomplishment of that task. My highest hope is that what I have written may perhaps induce some such men to turn their attention to it. Excerpt from The Canadian Magazine of Politics, Science, Art and Literature, Vol. 6: November, 1895, to April, 1896 Inclusive The Kingston Penitentiary of today stands in the front rank of the Penal Institutions of the world. Situated at the foot of Lake Ontario, at the entrance to the mighty St. Lawrence, its natural position is most picturesque, and unsurpassed by that of any other public institution on the continent. Its Establishment. In 1834 Royal consent was obtained and a bill passed authorizing the construction of a Penitentiary. The following year, a wooden structure enclosed in a palisade wall was built. In June of this year six men were incarcerated for larceny, and in October three women arrived to serve terms for similar offences. At the close of the first year fifty-two men and three women were confined in the Penitentiary. In those early days the men were employed in breaking stone, which was used on the roads of the district. From this date improvements in the buildings etc. began to be made. In 1845 the present wall surrounding the institution was built. It encloses eleven acres of ground, is twenty-five feet high and is constructed of limestone quarried on the property. The northern group of buildings containing the Deputy Warden's residence, cells, dome, offices, chapels, dining-hall, kitchen, female prison, library and hospital, were also built at this time, and like the wall are constructed of the native limestone. At that time when the penitentiary was first gaining magnitude it was also used as a military prison and was conducted on military principles, the keepers and guards being chosen from the regiments then stationed at Kingston. The first warden was Mr. H. Smith, and the workings of the

institution were controlled by a board of inspectors. The treatment of prisoners was very severe and the cat-o'-nine-tails played an important part in the punishment of refractory convicts. This in fact, continued until more recent years and it was not until the appointment of the late John Creighton, as warden, that more humane principles of government were instituted to any extent. The Fenian Prisoners. Perhaps the most turbulent times in the history of the Institution were the years that followed the Fenian Raid of 1866, when the Fenian prisoners captured at Ridgeway were incarcerated there. Many of these men were the most troublesome ever confined in the Penitentiary. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. #### The Duty of Canada, at the Present Hour (Classic Reprint)

Excerpt from Canada and Sea Power The political relations of Canada to Great Britain and to the other dominions of the Empire are in some respects just ready to be re-shaped, in other respects they seem to be without form, and a certain darkness is on the face of the deep. One of the grave questions now before us is. What is the duty of Canada to the world upon the sea? Soon - perhaps all too soon - the thoughts of the people will descend from the realm of airy speculation and become incarnated into national action. It is a fearful thing to think that the course steered by Canada in this

sea of doubt may mean the downfall of Empires. Or our ship of state may be a pilot leading other nations into yet uncharted but less troubled waters. If ever there was a time when we should ask Him, to whom the sovereignty of the sea belongs, for wisdom and open-mindedness, that time is now. We shall do well if we first empty ourselves of our prejudice in order that enough of this wisdom may flow in to lead us to a safe decision. Every lover of his country should seek to get at this truth at whatever cost to national pride. It is thus that we may serve the best interests of the world, for the British Empire is not worth preserving unless it is a faithful trustee for a better ordered civilization. Excerpt from Canada and the Unemployed Problem: Some Suggestions for Its Solution There is a suggestion that a Labour Minister be appointed and if such an, addition to the Cabinet should be made, National Emigration might well be entrusted to his Department of the Government. The advantages of the scheme herein set forth are that it is not only self-supporting, but that it will ultimately create a permanent fund which will at all times be available to take off the market any surplus labour, and when not needed for that purpose, it could be used to assist those with small means who, finding the conditions against them in their own country, wish to emigrate before being reduced to absolute poverty. Excerpt from Disallowance The Disallowance Question, as it is popularly called, cannot be treated by Parliament as a party question. Whatever ardent politicians may desire, the people of Canada decline to range themselves in party attitude on a question of such moment to the commercial future of the country; and the will of the people may be expected to find suitable expression in a Canadian Parliament. The question before the people of Canada to-day is a simple but a momentous one. Not since the foundations of our Confederation were laid have graver issues been presented for final settlement. Seldom in our history as a people are we likely to be called upon to deal with a question bearing so intimately and so seriously upon our commercial and political future. Excerpt from The Clergy Reserve Question in Canada Protestant Clergy. Why the term Protestant was here employed, is explained by the fact that the tithes and endowments in the sister province existed entirely for the support of a Roman's]; clergy. The adoption of the term Protestant in this case would render more clear the object and necessity of such an appropriation of lands for religious purposes. And if the term Protestant was liable to misconstruction, as seeming to comprehend other religious bodies than the National Church, doubt would be removed by the annexation of the word Clergy which, according to all existing legal usage, could only be felt to apply to the ministers of the Established Church of England. Excerpt from What Classical Education Means: The Problem in Canada Of course the Department knows all this. Mr. Scath does at any rate, but it finds itself in a tight place between two fundamentally different ideals of education, the literary and the utilitarian, and the different methods which belong to them. How shall we find room for both of them in the same system? That is the problem with which it is confronted. Is it going to solve it by sacrificing the one to the other? I am sure [do not mean to undervalue the practical science. The nature study, the manual training and other new elements and methods which are being introduced into our educational system. Not in themselves. But I think the seal for their introduction may easily become of too exclusive a character. Sometimes also it may be excessive. One may question the wisdom of many of the experiments which are being made in the United States and no doubt have an influence on our Canadian educationalists in Chicago, for example, where schoolboys form themselves into a school government, mayor and aldermen, after the model of their municipal administration. It is a misfortune that the advocates of these new methods generally take up an attitude of active hostility towards older methods, especially towards the literary method. Excerpt from Manual for Accountants, Canada, Vol. 1: Being the Questions Set by the Institute of Chartered Accountants, and the Answers Thereto, Forming a Text Book for Accountants, Book-Keepers, and Business Men The object of this work is primarily to supply candidates with a text book, which will assist them in preparing for their examinations, and while it has been produced in the form of questions and answers, yet it must not be taken as showing specimens of the answers required by the examiners, but rather as a guide and help 'for future students. T O have simply answered the questions as they would be in the time allotted at the examina tions referred to, would, no doubt, have been useful, but the object as afore said has been also to give to the public a text book, which deals with the subjects from a practical standpoint as well as the theoretical. The forms of accounts Shown in this book are for actual use, and the Mercantile House and the Office have been looked to for illustrations in preference to books.
