Religion in a World at War

Excerpt from Religion in a World at War The modern Hebrew is for the most part a peaceable person; sometimes suffering at the hands Of semi-barbarous Christian neighbours, but rarely retaliating. The an cient Hebrew was a fierce and eager soldier. With his sword and with his bow he had won the land which he inhabited, and he had defended his possession in a thousand battles. According to his theology, the Lord himself was a man of war. The saints in his calendar wore helmets instead of ha loes, and showed that the grace of God was in them by the might with which they smote their enemies. Saint Abraham took the three hundred and eighteen men who com posed his body-guard and fell upon the hosts of the allied kings of the east. Saint Moses, meekest of men, began his career of social reconstruction by killing an Egyptian over seer. Saint Samuel, though properly a prophet rather than a warrior, hewed King Agag in pieces before the Lord, and wiped his bloody axe confident that in him God was well pleased. The time would fail me. Religion in a World at War (Classic Reprint)

Excerpt from Religion in a World at War Blessed be the Lord my strength which teacheth my hands to war and my fingers to fight. Psalm 144:1. The Old Testament is filled with the alarm of war. Its books of history are occupied with accounts of campaigns, successful and unsuccessful. Its books of prophecy are composed of the sermons which men preached who took their texts from the bulletins of Assyrian and Chaldean invasion, from the plots of Egyptian conspirators, from the tragedies of deportation. When Ulfilas, the apostle of the Goths, translated the Bible into the language of his people, he omitted the books of Samuel and Kings, because there is so much fighting in them. He feared that his belligerent countrymen would find these books more interesting than the Sermon on the Mount. The Christian Ethic of War - War College Series

The Church of England and the First World War (first published in 1978) explores in depth the role of the church during the tragic circumstances of the First World War using biographies, newspapers, magazines, letters, poetry and other sources in a balanced evaluation. The myth that the war was fought by 'lions led by donkeys' powerfully endures turning heroes into victims. Alan Wilkinson demonstrates the sheer horror, moral ambiguity, and the interaction between religion, the church and war with a scholarly, and yet poetic, hand. The author creates a vivid image of the church and society, includes views of the Free Churches and Roman Catholics, portrays the pastoral problems and challenges to faith presented by war, and the pressures for reform of church and society. The Church of England and the First World War is written with compelling compassion and great historical understanding, making the book hard to put down. This expert and classic study will grip the religious and secular alike, the general reader or the student.

The French Wars of Religion, Their Political Aspects - War College Series

The centenary of America's declaration of war in 1917 is a fitting time to examine afresh the reaction of the American churches to the conflict. What was the impact of the war on the churches as well as the churches' hoped-for influence on the nation's war effort? Commenting on themes such as nationalism, nativism, nation-building, dissent, just war, and pacifism, this book provides a window into those perilous times from the viewpoint of Mainline and Evangelical Protestants, Roman Catholics, Lutherans, Pentecostals, Mennonites, Quakers, Mormons, and Jehovah's Witnesses. Also included are chapters on developments among American military chaplains in the First World War and the reaction of the American churches to the Armenian Genocide.

Prayer in War Time - War College Series

This book examines how World War II affected denominational colleges who faced a national crisis in relationship to their Christian tenets and particular religious communities and student bodies. With denominational positions ranging from justifying the war in light of the existential threat that the United States faced to maintaining long-held beliefs of nonviolence, the multitude of institutional positions taken during World War II speaks to the scope of religious diversity within Christian higher education and the central issues of faith and service to God and country. Ultimately, Laukitis provides a particular lens to analyze the history of higher education during World War II through an examination of denominational institutions. The relationship between higher education, faith, and war offers depth to understanding the role of denominational colleges in articulating theological interpretations of war and their sense of responsibility as Christian liberal arts institutions in the United States.

The War & the Prophets - War College Series

The United States has struggled to find a framework to integrate religion into the post-September 11, 2001 (9/11) discussion of national security. Islam has been the central focus, with both the 9/11 terrorists and many of America's partners in overseas contingency operations sharing an Islamic heritage. President George W. Bush's paradigm of "Religion as Freedom" and President Barack H. Obama's paradigm of "Religion as Unity" have been partially successful, but they have yet to provide a nuanced understanding of Islam and a comprehensive framework. Part I of this Carlisle Paper examines the enduring role of religion in human conflict through the eyes of Alvin Toffler, Francis Fukuyama, Samuel Huntington, and Robert Kaplan. Part II provides an analysis of Islam to determine its power within current alignments, and addresses jihad and the level of support for terrorism. Part III examines the role of religion within the Bush and Obama administrations, and proposes a third paradigm--"Religion as Ideology"--In an attempt to relate a strategic vision which comprehends the power of Islam to a policy which accounts for religion in terms of empowered behavior. Part IV addresses practical questions regarding the implementation of the paradigm of "Religion as Ideology" and the way ahead.

The War Romance of the Salvation Army - War College Series

Most accounts of Canada and the First World War either ignore or merely mention in passing the churches' experience. Such neglect does not do justice to the remarkable influence of the wartime churches nor to the religious identity of the young Dominion. The churches' support for the war was often wholehearted, but just as often nuanced and critical, shaped by either the classic just war paradigm or pacifism's outright rejection of violence. The war heightened issues of Canadianization, attitudes to violence, and ministry to the bereaved and the disillusioned. It also exacerbated ethnic tensions within and between denominations, and challenged notions of national and imperial identity. The authors of this volume provide a detailed summary of various Christian traditions and the war, both synthesizing and furthering previous research. In addition to examining the experience of Roman Catholics (English and French speaking), Anglicans, Presbyterians, Methodists, Baptists, Lutherans, Mennonites, and Quakers, there are chapters on precedents formed during the South African War, the work of military chaplains, and the roles of church women on the home front.

The role of religion in national security policy since September 11, 2001

The First World War was a transformative event, affecting international culture, economics, and geopolitics. Though often presented as the moment heralding a new secular era of modernity, in actuality the war experience was grounded in religious faith and ritual for many participants. This Element examines how religion was employed by the state to solicit support and civic participation, while also being subordinated to the strategic and operational demands of the combatant armies. Even as religion was employed to express dissent, it was also used as a coercive tool to ensure compliance with the wartime demands of the state on civilians.

Truth and Trust

With issues of war and peace at the forefront of current events, an informed Christian response is needed. This timely volume answers 104 questions from a just-war perspective, offering thoughtful yet succinct answers. Ranging from the theoretical to the practical, the volume looks at how the just-war perspective relates to the philosopher, historian, statesman, theologian, combatant, and individual—with particular emphases on its historical development and application to contemporary

geopolitical challenges. Forgoing ideological extremes, Charles and Demy give much attention to the biblical teaching on the subject as they provide moral guidance. The Psychology of the Great War - War College Series

"Standing as I was between the guns and the trenches..." Henry Gill SJ "Life here is very pleasant and interesting, provided one does not mind being killed..." John Gwynn SJ Catholic chaplains in the First World War served alongside the troops at the Front, both in the trenches and on the battlefields, exposed to the same dangers. Many Jesuit chaplains were highly decorated and recognised for their exceptional bravery by both men and commanding officers Irish Jesuit Chaplains in the First World War, edited by Damien Burke, is a collection of articles describing the wartime experiences of eleven of these brave men. Illustrated with letters, photographs and telegrams from the Irish Jesuit Archives, this is a fascinating insight into the experiences and thoughts of men who expected to spend their lives in priestly ministry in schools, parishes, churches and universities - not on the battlefield.
